For God, and Home and Native Land.

— EDITED BY THE—

COQUILLE CITY W. C. T. U.

The Coquille City W. C. T. U. meets at the Methodist church, south, every Friday, at 3 o'clock p. m. All interested in the work are invited to attend

Temperance Notes.

[From the National W. C. T. U. Bulletin.]

The following are extracts from the speeches made at an Indian W. C. T. U. meeting in Oregon: "There is a great difference between a white woman and an Indian woman till both are drunk, then there is no difference. It is said we are a dying race, but whisky kills us Indians off faster than anything else."

A Crusader's Association has been formed in southern California, with Mrs. Sarah A. McClees, historian; Mrs. H. E. Pattee, secretary; Mrs. Abbie K. Leavitt, treasurer. Mrs. Leavitt is one of the "Immortal 43" who were arrested in Cincinnati at the time of the Crusade for praying and singing on the streets.

In speaking of the purity department of the W. C. T. U. the Voice well says it "has been too little understood and appreciated. Its object is not so much to reform impurity as to preserve purity—a distinction with a difference. The one is a work that calls for special equipment; the other is a work in which every father and mother is bound to take a hand."

In 1858 the number of insane paupers in England and Wales was under 21,000; in 1895 it has risen to nearly 83,000. Says Dr. Walmsley, of Darenth Asylum: "The most potent causes of insanity are hereditary transmission and alcoholic intemperance. No less than one-half of all occurring cases of insanity are due to inherited taint, one-fourth of all occurring cases of insanity are due to drink."

A public school teacher in the Evening Post, Chicago, says of the cigarette evil: "In this section of the country this evil is worse than the alcohol habit, for it seems actually to threaten extermination. There are babies, two of them only five years old, who say they have been smoking for two years, and the statement is corroborated by their elder brothers. One of the little ones was a pouting-lipped cupid but two years ago, now his tiny face is pinched and wrinkled, and his mouth hangs loose and relaxed, like an old man's."

In a recent article in The Independent, Dr. Theo. Cuyler urges the need of more educational work along the line of total abstinence. He says: "Social drinking customs are on the increase in our country. The decanter is stealing back again on to the dinner tables of people from whom we should expect better things. Intoxicants are more frequently offered at weddings and in social gatherings. Club life is becoming more popular, and there are very few clubs that are under restrictions of total abstinence. Betting and bottles are the two concomitants of the football matches and rowing matches which attract thousands of our college students. To prohibit the sale of intoxicants is bootless business as long as the use of intoxicants is on the increase. We need a tremendous arousing of consciences all over this land to the growing havoc of the drink usage; the saloonkeepers are not the only sinners; the parents who offer temptations to their own children and to their guests may be as guilty as they before God. 'Woe unto him that giveth his neighbor drink, that putteth the bottle to him and maketh him drunken.' Let that thunder over the land!"

Nervous Shock.

E. W. JOY COMPANY—Gentlemen: This is the first time I have attempted so write for three years. Have been to nervous and weak that I have laid in bed most of the time.

A friend who had taken your Sarsaparilla sent me two bottles. The second one is most gone, and I have gained twenty pounds, and surely feel a new woman I was pale, thin, no ambition. Had given up, as I had tried so many remedies and doctors, but found no benefit. If you care to publish this you have my consent, (Signed)

MRS. A. C. TILLMAN,

A Wonderful Invention—The New Gasoline Flatiron.

J. M. Inman is traveling agent for one of the most completeflatirons ever invented. It is as much a necessity in a family as a kitchen stove or a sewing machine. It does away with the old, tedious process of heating irons on a stove. The cost of running the gasoline iron is virtually nothing, and the saving of labor for the women is so great that no family can afford to do without a gasoline iron. This aparatus can be used for many other purposes, and amounts to a small gasoline stove. It can be used for making a cup of tea, warming water or milk etc. The HERALD has ordered one, and advises its friends to do the same.

The HERALD is improving its news department by selecting good, reliable correspondents in every part of Coos county, and it is our purpose to continue to make it the best family newspaper published on this west coast. We will do our best to merit the large subscription patronage we already have, and we are glad to say that it is increasing very rapidly. Some of our old patrons are considerably in arrears, and the recent change in ownership of Mr. Dean's half of the paper makes it necessary for us to make collections as soon as possible. We have already stated that we put these collections in a form so as to make it easy for all subscribers by taking any marketable produce, such as grain of all kinds, potatoes, best winter apples, bacon, lard, poultry, etc. But we want to repeat that we will expect all of our friends to pay a part of their indebtedness in money. It is impossible for us to keep up our cash expenses without some cash. So we hope our staunch old patrons will save a little money for the publishers of their own paper. And please don't wait for our business manager to call on you, but now, while the roads are good, bring in your produce and money, and you will be astonished how the HERALD will boom. We want a few tons of hay, and will be glad to take it on old accounts.

Ed P. Cheney, living a short distance northwest of town, met with a serious and painful accident last Thursday morning. While working on a public bridge, at the Agee place, he leaned on the banister a moment, when it gave way. He had been using a crowbar, and this cut through his right foot, while he was much hurt by the fall. He was brought to town for medical attendance, and was found to be very seriously injured.

"While down in the southwestern part of the state some time ago," says Mr. W. Chalmers, editor of the Chico (Cal.) Enterprise, "I had an attack of dysentery. Having heard of Chamberlain's Colic, Cholera and Diarrhœa Remedy I bought a bottle. A couple of doses of it completely cured me. Now I am a champion of that remedy for all stomach and bowel complaints." For sale by Dr. S. L. Leneve, druggist.

The Roseburg Plaindealer notes that Rev. Mr. Shangle's youngest child, which had been badly burned while he was here on ministerial work, "has been suffering untold agonies, but at last accounts was resting easy. It will be several weeks yet before it can recover its usual health."

Will Leit, a prominent and promising young rancher of the upper river, made this office a call last Thursday. The farmers are about ready for winter, everything now being housed or cared for in good shape and bounteously.

Louis Canning, brother of our G. W. Canning, superintendent of the county farm, left last Friday for his old home at Fort Wayne, Indiana. He may return in the spring.

Mrs. Montgomery and son, of Oakland, California, who have been visiting for some days at Bandon, returned to the Bay Friday on their way home.

Mrs. JohnJohnson of North Fork, and sister, Miss Rhoda Coon of Camas Valley, were in town shopping last Thursday.

John Fouts went up to Sequay's logging camp, on the South Fork, lost Friday, where he will work this winter.

Capt. Roberts of the steamer Blanco, plying between Empire and Marshfield, came over on Friday's train and made Myrtle Point a brief visit.

Mrs. Elizabeth Fouts returned last Thursday from her visit in Yamhill county and other neighboring sections, where she has relatives and friends. Her many friends here will be glad to see her.

McDonald, the barber, issues a new card. It is now "The Commercial," and is neatly fitted up, not only for the general public, but with special facilities for the commercial traveling man, with hot or cold baths, etc.

T. A. Walker of Coquille City is local county agent tor the following old, reliable fire insurance companies: viz—Home Mutual, of San Francisco, the North America, of Philadelphia, and the Continental, of New York. These are all solid, old companies and pay their losses without contest. If you want good insurance see Mr. Walker.

Don Rex, our regular correspondent from Dora, who is not only a fine rancher and prosperous in his calling, but intelligent and conservative, gives this paragraph in today's issue of the HERALD: "Coos county can beat the state for big beets and red apples, spuds and yellow corn." And he might consistently and truthfully have added a long list of other staple products—all the root crops, wheat, oats and barley, pumpkins and squashes, cherries, plums, pears, prune, clover, timothy, orchard grass, and against the world for flowers, honey and pretty girls.

News: Capt. Fred Chlemens, formerly of the Coquille, was among the passengers on the Blanchard, bound for Portland on business. For some time past he has been an officer on the steamer Weeott, with Capt. Magee.

J. D. Spreckels & Bro's Co. have appliedto the harbor commissioners of San Francisco for permission to build a bunker for Coquille valley coal. It is also stated that other steamers, besides the Homer, are to be put on the Coos bay route.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,

Oct. 24.—ED HERALD, let every one recollect the fine fall of 1895.

Farmers have got their milling well done and have had fine roads to travel.

Corn crops are maturing in fine shape and the fine Burkshires are being penned to be fattened.

The big yellow Tankard beets are now being fed to dairy stock.

Coos county can beat the state for big beets and red apples, spuds and yellow corn.

The dance on the 19th at R. A. Cribbins', was a grand success. A big crowd attended.

George Miller has moved back on his ranch and will cut and run logs this winter.

People came from far and near with their sacks of grain for J. H. Minard to grind them their winter's flour.

J. D. Bennett has finished a fine covered bridge at Gravel Ford.

It looks like Coos county was coming to the front in the way of shipping lumber and coal, as we noticed several steamers and schooners at Empire in the lumber and coal trade we will mention some of them, viz: steamers Arago, Homer, Arcata, Alice Blanchard, steam schooners Sunol and Lakme, very large ships, and many smaller ones.

The salmon cannery at Empire has been doing a big business. The hands employed are skilled workmen and the way they make the fish and cans fly is a caution.

"For Years,"

Says CARRIE E. STOCKWELL, of Chesterfield, N. H., "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a ton weight was laid on a spot the size of my hand. During the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to whisper. They came suddenly, at any hour of the day or night, lasting from

thirty minutes to half a day, leaving as suddenly; but, for several days after, I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with bilious typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recommending them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy."

From Slave to Empress.

There is no more dramatic story in the world of fiction than that of the Dowager Empress of China. She was the child of poor peasants living in the suburbs of Canton, and was remarkable for her beauty and intelligence. When her parents were actually starving she proposed that they should sell her for a slave. This course was followed and she became the property of a famous general, who was so delighted with her beauty and ready wit that he adopted her as his daughter.

At Pekin she came under the emperor's notice and his majesty made the former slave his wife. So highly did he value her intelligence that at his death he left her regent of the empire, and she is accredited with administering the affairs of state better than almost any of her predecessors. Her views in regard to the mission question in China are most sensible. Her majesty thinks that if the missionaries would interpret the teachings of Confucius in accordance with Christian principles they would have great success among the people. But to tell the Chinese that everything they have heretofore believed is all wrong results in Confucian worse confounded.

There's the mannish new woman and the smart new woman,
And the new woman awfully rude,
But let us thank heaven that up to date no man
Has discovered a new woman dude.

"I called to ascertain, Colonel Lexington, if you would make a few speeches for gold?" "For gold? Well I should say so! For gold, silver, greenbacks, notes, garden sass, or cordwood. Times are hard, colonel."

Your Best Young Man.

"You can't always just tell what your best young man is going to develop into," said the girl in the blue jacket. "Now, I know a young man, and when I first met him I said to myself: 'At last! Here he is! A real live man without a fad.' And I was happy in the thought that he wouldn't talk football or theosophy to me. But it didn't take me long to find out my mistake. Of all the fads I ever heard of that man's fad is the very worst.

"He does tricks with cards and can juggle things," continued the girl in the blue jacket, as her eyes grew bright and her cheeks pinkish. "At luncheons he fishes his handkerchief out of my muff and finds his gloves in my jacket pocket. If you hand him a glass of water, he'll turn it upside down and ask you blandly why the water doesn't run out. At home he makes life miserable for me, and when he goes away I call in the girl and have her sweep up the remnants of the teacups that he breaks. He balances parasols, guitars, vases—in fact, everything that he can find—on the end of his nose. I can't do anything with him. I am trying very hard to make him angry so he'll quit calling, but he is so absurdly good natured that I fear I shall never succeed."—St. Louis Republic.

Another Free Offer.

The long winter evenings can be very profitably devoted to reading, but there are some things that we must read the year round. One of these is a local paper: the best in the county is before you—the HERALD. Another is a good home paper of general circulation, such as "Womankind," for instance, which comes once a month filled with the best things for a busy housewife. We are able by special arrangements with the publishers, to offer "Womankind" free for a year to every paid-in-advance subscriber to our paper, and are glad to do so, for we are convinced that no home paper in America contains more of practical value to women. Bright stories, clever poems, the latest fashions, news of woman's work everywhere, articles on "Motherhood," "Cultivation of Flowers," a woman's parliament for the discussion of matters of interest. are a few of the bright features of "Womankind."

To the head of the house we offer on the same terms "Farm News," an agricultural paper, edited by a practical farmer (Miller Purvis, esq., late state lecturer of the Ohio Farmer's Alliance), and filled each month with suggestions from able correspondents, that make it an absolute necessity to every wide awake farmer. This paper is yours for the asking, provided you are a subscriber to our paper.

Remember every paid-in-advance subscriber to the HERALD is entitled to his choice in either of these papers. Tell your neighbors about this offer. A sample copy of both papers may be obtained by addressing the Hosterman Publishing Co., Springfield, Ohio.

Come in and pay a year in advance to the HERALD and get one of these attractive papers free.

G. A. R. NOTICE.

We take this opportunity of informing our subscribers that the new Commissioner of Pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime.

We would advise, however, that U. S. soldiers, sailors, and their heirs, take steps to make application at once, if they have not already done so, in order to secure the benefit of the early filing of their claims in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date.

If U. S. soldiers, sailors or their widows, children or parents, desire information in regard to pension matters, they should write to THE PRESS CLAIMS COMPANY, at Washington, D. C., and they will prepare and send the necessary application, if they find them entitled under the numerous laws enacted for their benefit. Address,

PATENTS
FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

A FEW Testimonials from persons who have been cured by the use of Hill's Tablets.

THE OHIO CHEMICAL CO.:
DEAR SIR:—I have been using your cure for tobacco habit, and found it would do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars; or I would smoke from ten to forty pipes of tobacco. Have chewed and smoked for twenty-five years, and two packages of your Tablets cured me so I have no desire for it.

DOBBS FERRY, N. Y.
THE OHIO CHEMICAL CO.:—GENTLEMEN:—Some time ago I sent for $1.00 worth of your Tablets for Tobacco Habit. I received them all right and, although I was both a heavy smoker and chewer, they did the work in less than three days. I am cured.
Truly yours, MATHEW JOHNSON, P. O. Box 45.

PITTSBURGH, PA.
THE OHIO CHEMICAL CO.:—GENTLEMEN:—It gives me pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor, and through a friend, I was led to try your Tablets. He was a heavy and constant drinker, but after using your Tablets but three days he quit drinking, and will not touch liquor of any kind. I have waited four month before writing you, in order to know the cure was permanent. Yours truly,
MRS. HELEN MORRISON.

CINCINNATI, OHIO.
THE OHIO CHEMICAL CO.:—GENTLEMEN:—Your Tablets have performed a miracle in my case. I have used morphine, hypodermically, for seven years, and have been cured by the use of two packages of your Tablets, and without any effort on my part. W. L. LOTEDAY.
