WHAT COQUILLE CITY NEEDS.

Last week we promised the readers of the HERALD a continuation of our series of articles on the needs of Coquille City and surrounding country. We discussed in our last issue the importance of so planning our business methods as to increase, rather than deplete, the money supply. We there indicated that the only possible way this could be done was by making our exports overbalance our imports. The idiotic policy that we have pursued in the past of sending away thousands of dollars of cold cash to purchase articles of consumption that could so easily be produced at home surely must come to an end soon. Last week we mentioned the need of a factory for the making of our own doors and windows, our fruit boxes, etc. This week we wish to urge upon the attention of our readers another important industry, that would make a splendid market for a large amount of the products of the Coos county farms, and bring thousands of dollars into the country instead of sending it away to buy the same class of goods produced in other places.

The industry here alluded to is a large cannery for the preserving of sweet corn and other vegetables and fruits of this wondrously productive valley. We are assured by experts and connoisseurs that the sweet corn grown along the upper Coquille valley surpasses, in flavor and quality, by far, the same article produced in any other part of the country east or west.

If this be true, and we believe it is, what consummate folly to be sending our money out of the country to purchase an inferior article grown and canned elsewhere, instead of producing what we need for home consumption, and a large surplus to sell to our neighbors in California and the east who are not so fortunate as we in the matter of soil and climate.

Another article that can be produced here, as experiments have proven, almost to perfection is asparagus. For canning purposes asparagus is one of the most profitable vegetables raised, and we need a cannery to encourage the raising of this delicacy, which would bring money to us in large quantities. Then there are the green peas, beans and berries of all kinds which could be marketed in this way and each be an immense source of money supply. It appears to us that these points are so perfectly transparent that it is only necessary to suggest them in this connection. We need a large cannery in Coquille City and such an institution would be of incalculable advantage to our town and to the surrounding country. How can we secure an institution of this kind in Coquille? We answer, by an energetic, organized effort. If we operate on the narrow gauge, "nicked in the slough," "shake the dice" method we are not apt to do anything on a very large scale. If we harbor petty jealousies, and study to try to down one another in business, Coquille will not succeed in securing any of these needed institutions and improvements. Nothing in this world can keep our town back if we will combine our forces, and place our shoulders under the wheel and lift. Will we do it?

We begin this week the publication of a series of articles, the same being an editorial review by the editor of the Arena of a book by Mr. Call entitled "The Coming Revolution." In this volume Mr. Call, who is an able lawyer, has presented the most complete and forcible exposition of the economic conditions of this country that has come to the attention of the student of political economy. His logic is unassailable. His conclusions are

ply overwhelming. The Arena is the only one of the great magazines that cares to admit literature of this independent character. Its editor, considering Mr. Call's book as worthy of more than passing notice, has given it this long review in the Arena, which we begin this week to publish in serial form. We believe that our readers will be more than pleased with it and therefore we print it in full, continuing it from week to week until it is completed.

Empire Cityisms.

Empire City, Nov. 18.—Mill idle and Elijah still absent.

Patrick Flanagan has built an addition to his house in block 131, having put on a small bedroom, which also serves as a brace against wind storms.

Notices are up for sealed bids for grading G street, the street adjoining the courthouse block on the south.

An ordinance has been passed to build a sidewalk 8 feet wide on the east side of Broadway, the full length of the street.

Judge Fullerton has rendered the usual decree in the tax cases—that the corporations pay their taxes and the county pays its costs; and at the expiration of the time allowed by law (twenty days) our sheriff will make a levy for these delinquent taxes.

Jacob Smith (Dad) has moved into his palatial residence just completed on H street, and it now remains only a question of time as to when that blushing damsel will change her lot, but not her name. Shake, Dad.

Lyons, the suspender man, was "doing" our town last week.

Mr. Byler, our postmaster, has rented and is furnishing R. W. Getty's residence on Broadway. We suppose he intends moving the postoffice to that building, but what use he can have for an elegant sideboard or a latest-improved cooking stove in the postoffice is more than we can conjecture. Explain, Chauncey. KRANK.

Report of School District No. 4.

The following is a report for the month ending Nov. 8, 1895. Names of pupils enrolled: Ellen Ellingson, Rosa Ellingson, Edwin Ellingson, Chester Ellingson, Belle Ellingson, Thomas Hanly, Maggie Hanly, Theresa Hanly, Ollie Randleman, Ora Randleman, Georgia Randleman, Martin Randleman, Connie Waddington, Bessie Waddington, Hubert Waddington, Maggie Doughty, George Doughty.

Those who have been neither tardy nor absent during the term: Rosa Ellingson, Edwin Ellingson, Belle Ellingson, Chester Ellingson. Branches taught: Reading, writing, orthography, history, primary and advanced written arithmetic, physiology, composition, mental arithmetic, geography and grammar.

General department, good. EDITH HOWELL, Teacher.

Fishtrap Fulminations.

Fishtrap, Nov. 18.—Rev. Baldwin preached at this place on Wednesday evening last.

Mr. Neal and family moved to this place recently, having rented Adam Wimer's farm.

The Fishtrap Lyceum feels highly honored by a recent visit from several of Coquille's most promising young citizens.

A dance was given at Morris Bros' camp which was well attended and greatly enjoyed.

Mrs. Carrie Edmunds, of Bear creek, is visiting friends at this place.

Mr. Brady and family are now residents of this place. They are excellent people and the hearts of the whole community throb in welcome to them.

The Arago Lyceum held its first regular meeting Nov. 14th. The literary exercises were excellent and the debate was good.

Charles Strang has nearly completed the logging tramway at this place. The engine has been placed on the track and its shrill whistle tells us that there is business over there. A CORRESPONDENT.

The Mail.

ED. HERALD: Speaking of fifth and slander, we will submit our article in the HERALD of two weeks ago and the convincing arguments in answer thereto in last week's Coast Mail to the public and let them judge which article contains the more fifth and slander to the square inch. The article in the Mail is a fair sample of its arguments generally, and this particular article is so full of logic (?) that of course all who read are convinced. If producing incontrovertible facts and figures constitutes a "cowardly assessor," and a "filthy, lying slanderer," then we plead guilty of more of those attributes than even the Mail man has ever been accused of. We are not ashamed of our facts and figures and defy any one to dispute them, and remain, Yours, truly, J. J. STANLEY, Alias, "A Subscriber."

WANTED.—Several trustworthy gentlemen or ladies to travel in Oregon for established, reliable houses. Salary, \$250 and expenses. Steady position. Enclose references and self-addressed stamped envelope. The Donelson Company, Third Floor, Omaha Building, Chicago, Illinois.

Coos County Immigration Project.
Rev. G. R. Edmunds was in Coquille City on last Friday and from him we learn that the plan of sending a commissioner of immigration east is meeting with enthusiastic favor among the business men and people of all classes throughout the county. We heartily endorse the project and will gladly help it on in every possible way. The small amount of money required to carry out the plan is a mere pittance when compared to the benefits that will necessarily accrue to our business men and the whole people in consequence.

No better selection could be made for a commissioner to carry out the enterprise than Mr. Edmunds, whose name has been prominently mentioned in connection with it. No man in Coos county knows more about its resources, climate, soil, products and future possibilities than he. Mr. Edmunds is a man whose character is above reproach, a minister in good standing, a man of sound judgment, and well equipped in every way for such an undertaking. He has traveled quite extensively, is thoroughly acquainted with California, and other parts of Oregon, and could easily point out the advantages of this section of country over other portions of the Pacific coast. His extensive acquaintance in the east is also greatly in his favor, and the HERALD will be pleased to see him at the head of the movement. He does not go as a real estate agent or speculator, but simply as a representative of the country and people, and to honestly set forth the advantages of this country as a home for people who desire to escape the rigorous climate and overcrowded conditions of the eastern states. As before intimated it is not the purpose to turn a tide of helpless laborers in this direction but to induce thrifty people to come who have means to purchase and improve our lands, and to establish factories, and in this way develop our latent resources. Mr. Edmunds will travel and lecture on the country, carrying with him samples of the products of Coos county—her coal, woods, fruits and grains—and exhibit them wherever he goes. He will carry manufactured specimens of our myrtle, maple and other fancy woods.

The business man who refuses to give something to this practical movement is certainly blind to his own interest, and destitute of public spirit besides. We are glad to learn that the \$400 asked for is rapidly being subscribed. May the good work go on.

Marble Works at Home.

An Agency in Coquille—A Chance to Buy Tablets or Monuments.

The publishers of the HERALD have accepted an agency for the Coos Bay Marble Works of C. W. Paterson at Marshfield. Mr. Paterson is one of the finest mechanics in his line on the Pacific coast, and guarantees all his work to give satisfaction. His prices are lower than those of the Willamette valley shops for the same class of work, and yet agents for foreign marble workers are in the habit of running through this country and taking orders for their work, thus taking the money out of the county that ought to be retained here for such goods. Patronize home institutions, and men who work and live here and are responsible for their contracts. The HERALD management joins Mr. Paterson in guaranteeing every job done by him to be satisfactory and in accordance with designs. Mr. Paterson is also a gentleman to deal with, as the HERALD can testify from former business relations with him.

Call at the HERALD office and see specimens of marble, photographic views of slabs, monuments, etc. We will also have on exhibition at our office samples of Mr. Paterson's work in the near future. In the meantime persons wishing work in this line will do well to call at the HERALD office and consult with us.

Dr. S. L. Leneve, the druggist, will tell you that no one is better qualified to judge of the merits of an article than the dealer, because he bases his opinion on the experience of all who use it. For this reason he wishes us to publish the remarks of other dealers about an article which he handles. Messrs. C. F. Moore & Co., of Newberg, Or., say: "We sell more of Chamberlain's Cough Remedy than all others put together, and it always gives good satisfaction." Mr. J. F. Allen, of Fox, Or., says: "I believe Chamberlain's Cough Remedy to be the best I have handled. Mr. W. H. Hitchcock, Columbus, Wash., says: "Chamberlain's Cough Remedy sells well and is highly praised by all who use it."

Call at Wells, Fargo & Co's Express office at Myrtle Point for further particulars.

UPPER - RIVER DEPARTMENT.

Myrtle Point and the Upper-Coquille, and What is Going on There.

There is no sickness in this vicinity to speak of.

The band and militia company of this place will give one of their excellent balls on Christmas.

Asher Moore of Salmon mountain mines visited Myrtle Point last week. His quartz ledge looks well.

Oscar Reed is fattening a large number of swine this season with the excellent corn crop he raised this year.

E. C. Green and Mr. Bryalow are quite busy freighting to the mines; besides Lib Haines, the mail carrier, carries freight and passengers twice a week to that vicinity.

Norway gave a dance last Saturday night in honor of the departure of Miss Minnie McCloskey for Ashland to attend the normal school at that place. The party was a success and very enjoyable.

News reached here last Saturday that the State Insurance Company of Salem had suspended and called for a receiver. If this proves true A. H. Schroeder who was burned out last summer near Norway will be placed in close circumstances. He has had promises of settlement, but his policy has not been paid and he has built a new house on the strength of the promises. This will be a great hardship to Mr. Schroeder.

A gentleman visiting Myrtle Point and looking for a home, stated a few days since that parties at Coquille City had warned him not to settle in this town, as it was very sickly and the country was under water every winter. If Coquille City has such prevaricators of truth, who are so malicious that they desire to injure their sister town, they would do well to get rid of them, as upon a comparison of records and climatic influences, a stranger will not fail to soon see that a distance of nine miles will make no difference in the health of this salubrious climate, and if Myrtle Point is unhealthy, Coquille City will suffer from the same causes. The facts are that there is no healthier country in the world than the Coquille valley.

Rumblings from Rural.

Rural, Nov. 16.—Believing that descriptive sketches of the different settlements in our county would be interesting to your many readers and serve to make them somewhat familiar with the different localities, I propose in the near future to give a brief sketch of the settlement in the vicinity of Rural, hoping your correspondents in other localities will do likewise.

Farmers in this locality have their crops secured, and are about ready to go into winter quarters.

Humphrey, Bradley & Co., are surveying a route for a ditch for the purpose of bringing water on their high bar diggings, some three miles above Rural. The high bars, or old river channels, in this locality are extensive and prospect well, and if properly worked, I imagine they will pay well.

Our old prospector, Cadney, has returned to his mining claim at the head of South Fork canyon, some ten miles above Rural. He informs us he has taken in partners, who will aid him in opening up and working his claim properly.

Prof. S. E. Johnson, our teacher, is getting along finely with his school; he has an excellent attendance and his students seem to be making fine progress in their studies.

J. McD. Hayes killed three bear the other day and did not hunt all day either. More next time. RU BAL.

An Elegant Home
for Sale, Cheap.

4 Acres, 1 mile from
Myrtle Point postoffice; all rich bottom land, cleared, fenced and in high state of cultivation. GOOD HOUSE and new barn, about 30 bushels of potatoes and a large amount of garden truck; 27 tiers hard wood, good cook stove, 75 chickens, about 30 bushels of corn, and a good stall with two pairs of oats.

ALL OFFERED FOR \$500.
Call at Wells, Fargo & Co's Express office at Myrtle Point for further particulars.

The late rains have been sufficient to start the plow.

A. J. Smith, the veteran logger, sent a load of supplies last Sunday up to Galeas, in the Johnson mining district, for the purpose of developing a ledge he has an interest in on Poverty Gulch, near the quartz mill. Alex thinks he has a fine prospect.

The Myrtle Point Enterprise came out last Saturday and number one was an excellent issue. The business men of the town sent sample copies out and by 3 o'clock p. m. the edition was all exhausted. The merchants of town seem to have learned that the best way to maintain a newspaper is to support it.

Joseph Haines of Eckley is now in Illinois visiting scenes of his childhood. His letters to his family are very interesting; he writes of his grandfather's buildings built in 1832 being still intact and doing good service. The corn crop in that region is a wonder to Mr. Haines, as also were the grand improvements and advance in enterprises that have taken place since he left that section for the Pacific coast forty years or more since.

The secretary of the M. P. & D. company returned from a visit to their prospecting works last Saturday, and reports having had a pleasant visit with the miners. Geo. Hall, with two other men, has a bedrock flume in place and they are prepared to start operations as soon as the rains begin to fall, and it is believed that they will reap a splendid harvest. Their claims are on Johnsons creek, about one and a half mile from Ash Moore's works. The gravel in that locality prospects well, but there are numerous large boulders to remove; however, George has derricks on hand ready to swing the huge monsters out of the way. Sam Currier, with two men, is developing the M. P. & D. Co's prospect by running two tunnels on Big Joe, and will drive a tunnel on the ledge known as Little Mary next week. Everyone interested in the mines are elated to learn that the quartz mill will soon be in operation again.

Thomas Carroll, a hobo, called at Mrs. J. Thiemer's, in Eugene, Monday, and was given a breakfast. The breakfast didn't suit and the tramp became insulting. He was given 15 days in the city prison for his conduct.

Nervous Prostration.

E. W. JOY COMPANY—Gentlemen: I have suffered from a nervous prostration from financial losses. Can say Joy's Vegetable Sarsaparilla has cured me. My liver, stomach and bowels have been very inactive, but since taking your remedy I am entirely well. All business men and women should use it. Please publish. (Signed) Mr. WM. HENRY JONES, Butte, Mont.

Backache, Dizziness, Tiredness, give way to Joy's Vegetable Sarsaparilla.

Chance for a Nice Home, Cheap

12 ACRE OF LAND, WITH A good, new 2 story house of 7 rooms, besides closets and porches, all well finished, good spring close to house, barn, chicken-house and yard, high land garden, young orchard of pines, plums, cherries, apples, pears and peaches, with an abundance of small fruits. About one-half is bottom land, with garden, or pasture for a cow, with stock water, and all cleared and fenced. Apply to G. W. NORTON, Coquille City, (West Side.)

Bandon's Budget.
Bandon, Nov. 18.—Well, Mr. Editor, I am here again, but news at Bandon is not very plenty this week; but as you will expect something, I will do the best I can, so here goes.

Wilbur Boyd, who was taken quite sick last week, is up and able to be on duty again.

William Inman got pretty badly hurt this week, while tearing down scaffolding, but will be all right in a few days.

The broomhandle factory had a blow up this week. No serious damage done, and no one hurt.

That street lamp, at the corner of the Presbyterian church, fills a long felt want, and will go a long way towards leading the weary traveler to a place of rest while he hears the word of God spoken from the lips of those who have partaken of the bread of life.

Mr. Editor, the real estate man is kept busy making transfers of lands, and the ring of the carpenter's hammer is heard in all parts of the town, which shows that Bandon is thriving.

The Wrenshall brothers, who made a trip across the waters, came back better satisfied and a whole lot wiser. They think there is no place like Bandon; so they came home, bought some land, are building a house and will grow up with this Little Giant by the Sea. You are welcomed, brothers, long may you live.

The boys and girls from all over the county keep coming to Bandon to attend our splendid schools.

Rev. Wells of Coquille gave the Bandonians a couple of good sermons Sunday, 17th inst.

The bar had been rough again all the past week, causing the Bandonville and several schooners to remain tied to the wharf, but all departed yesterday in fine style.

A. Thomas has taken Bert Buzan as a partner in his new barbershop, and everything looks nice and clean. They have plenty of room and have it well furnished. We see nothing to prevent these gentlemen from doing well.

You can get anything you are looking for at Simpson's novelty store; if you don't believe it, go and see. RAMBLER.

Herald and Rural Northwest for \$2
We offer a valuable premium to our subscribers who are interested in the farm, fruit-growing and stock, without extra cost; in other words, \$3 for \$2—two papers for the price of one.

"I will follow you to the utmost ends of the earth," hissed the villain. "No, you won't," said the heroine, calmly. "Why won't I?" queried the villain, aghast at her coolness. "Because I'm not going there," she replied.

A Great Blessing

My wife and I have found in Hood's Sarsaparilla. She had rheumatism very severely, with ankles and legs badly swollen, and hardly able to get up and down stairs without help. Many other remedies failed, but Hood's Sarsaparilla entirely cured her. It was only shortly after that I was taken with the same complaint, affecting my limbs and with the same result. My wife and child-dren take Hood's Sarsaparilla whenever they feel the need of medicine and it immediately makes them feel better.

Hood's Sarsaparilla
Saves me doctor's bills. I am an engineer, and well known in this locality. Q. W. WYATT, White Bear Hill, Indian Ter.

Hood's Pills easy to buy, easy to take, easy in effect. 50c.

North Fork Findings.

North Fork, Nov. 18.—As I have seen nothing in the HERALD of late concerning our river people, will try my hand at writing again.

The sun continues to shine, and our farmers have their teaming done for this season.

Picking apples and gathering corn is the present occupation. Some of our farmer boys went out among the corn the other night coon hunting and ran against a panther. Go again, boys; but be sure of the kind of game you have up the tree next time, George, before venturing to climb it.

We have had several very cold and frosty nights, and it looks as if we were to have some rain soon. Well, we are ready to receive it.

Bad colds are prevailing among our river people. J. W. Wood has about completed his new barn.

J. Sumerlin has had a nice brick chimney built in addition to his new house. Mr. Sherwood, of Sumner, was the builder, and being an old hand at the business has therefore done a good job.

The N. F. baseball team and the Fairview nine were to cross bats last Sunday in a friendly game, but postponed until some future time on account of Saturday night's rain.

Ray, little son of Mr. and Mrs. Lewis of this place, had the misfortune to cut his foot very badly on a piece of glass a few days ago.

The late rain has brought the big silverside salmon up in our midst. The boys have made several nice catches. They make me sport, to say nothing about the eating. As ever, yours, A READER.

"Papa," said Jimmieboy, "you are the nicest man in the world." "And you are the nicest boy in the world," said his father. "Yes; I guess that's so," said Jimmieboy. "Isn't it queer how we both managed to get in the same family!"

NEURALGIA cured by Dr. Miller's Pain Expeller. "One cent a dose. At all druggists."
