The Tree of Death.

A gentleman who visited Java has sent a very singular tree to his sister who resides in Savannah. It is called the tree of death. He says that the natives described to him that there was a singular tree called the Kali Mujah. Its breath would kill birds, and even human beings. One day when he was chasing a bird of paradise, he noticed that it dropped suddenly to the ground, under a tree. He examined the tree, and began himself to feel strangely, as the odors from its leaves began to be inhaled by him. His head swam and ringing sounds came to his ears, as though he were being chloroformed. He hastened away from it, but procured a specimen and sent it to America, which, it is said, is the first one transplanted in our soil. What a striking illustration this is of the tree of death which has been planted in our fair America by the distiller! It has leaves for the blighting of the nations. I see the young, the middle-aged, the old, chasing the birds of pleasure and then sinking down beneath the dark shadow of this baleful tree, to die there, never to rise again. Would that we might lay the ax at the root of this tree!—Rev. E. S. Ufford, author of "Throw out the Life Line."

And now it is Prof. Garner, the profound and patient student of the monkey language, that advises American Christians that they are but wasting their time in trying to Christianize the people of Africa. He can afford to penetrate to the deepest wilds of the Dark Continent, shut himself in an iron cage for months at a time in order to catch a syllable now and then of a supposed Simian word, and then spend years in striving to put these isolated sounds into sentences, and to invent an alphabet, and all for what? Why, he is laboring in the interests of science! But Moffatt and Livingstone and Mackay and Taylor, who consecrate their powers to the work of giving the gospel of the Son of God to the millions of human beings who, in that fair and fertile continent, still sit in darkness and the shadow of death, these, forsooth, are throwing their lives away! Great is science, verily!—Ex.

A New York Sun correspondent notes a remarkable decrease in the consumption of alcoholic beverages at Saratoga, Lake George and White Mountain resorts. He says: "I can remember the time when in this hotel (Grand Union), then much smaller than it is now, a large force of barkeepers was required to supply the demands of the almost constantly crowded barroom, which was one of the most-frequented quarters of the house. Now the barroom is never full, and only very few people are to be seen in it at any time. This house contains more than a thousand visitors, but in the huge diningroom, with hundreds of occupants, not a score of bottles of wine are observable. Champagne, formerly the favorable and frequent dinner beverage, rarely appears, and even of claret the consumption is small."

Forty-eight million pages of temperance leaflets have been published within the year by the Woman's Temperance Publishing Association.

Nervous Shock.

E. W. JOY COMPANY—Gentlemen: This is the first time I have attempted so write for three years. Have been to nervous and weak that I have laid in bed most of the time.

A friend who had taken your Sarsaparilla sent me two bottles. The second one is most gone, and I have gained twenty pounds, and surely feel a new woman I was pale, thin, no ambition. Had given up, as I had tried so many remedies and doctors, but found no benefit. If you care to publish this you have my consent. (Signed)

McCleary's auction sale was a very successful affair, he having disposed of about all of his stock of goods at good figures. To advertise in the HERALD pays.

Revs. Sanderlin and Paull conducted a protracted meeting at Bear creek schoolhouse, concluding last week, and resulting in several professions and additions to the church.

Dr. Jennings, the dentist, only made us a brief visit, but he made friends and will be welcomed warmly when he comes again. The doctor was a comrade in the late war from Ohio.

Prof. Barklow, county school superintendent, passed through town last Friday on his way home from Marshfield where he had been holding teachers' examination. He never forgets the HERALD office.

Wilbert Boyd, proprietor of the Bandon livery stable, visited Coquille City on last Thursday. Mr. Boyd has been very sick for some time, but we are pleased to learn that he is improving. He is one of the energetic business men of Bandon, and is a rustler. He returned home on the Dispatch.

Mrs. W. B. Meek, who resides at Camptonville, Cal., says her daughter was for several years troubled at times with severe cramps in the stomach, and would be in such agony that it was necessary to call in a physician. Having read about Chamberlain's Colic, Cholera and Diarrhœa Remedy, she concluded to try it. She found that it always gave prompt relief. It was seldom necessary to give the second dose. "It has not only saved us lots of worry and time," she says, "but also doctor bills. It is my opinion that every family should have a bottle of this remedy in the house." For sale by Dr. S. L. Leneve, druggist.

Beautiful Coos County.

[The following is the conclusion of Prof. Barzee's voluntary contribution of impressions concerning Coos county, furnished to the Oregon Progress, chapter one of which we published in the HERALD some weeks since.—ED. HERALD.]

In attempting to further describe the many natural advantages and rich resources of this part of our grand state of Oregon, I admit my inability to do the subject justice, although having had the pleasure of traveling through most of the county, meeting most of its representative men and viewing with admiration the comfortable homes and the ease with which they supply themselves with the comforts of life. I must confess that I am at a loss to know why the numerous opportunities and the almost unequaled natural advantages that are within easy reach of willing hands of would-be home-seekers, are so little known.

The climate of Coos county, as I have before stated, is perhaps unequaled anywhere in the northwest, not only for its mild and even temperature, but also for the absence of high winds and severe storms that sometimes visit in other localities that have a greater altitude and are more exposed to winter's blasts and the hot winds of summer.

To say that the people of this county have not told the half of what nature has with seeming lavishness bestowed upon this particular spot, is perhaps the best solution to the problem that I could offer. Nature has here made all the provisions that was in her power to do for the production of the finest quality of honey in almost unlimited quantities, and for the dairy, where no better location could be desired. The natural grass on the tide flats that penetrate the low hills for miles back from the bay and rivers is most excellent and of very rapid growth, and thousands of acres of the very best of land now covered with underbrush such as vine-maple, hazel, fir, etc., is easily cleared, and when once put in cultivation produces all kinds of cereals and grasses in abundance. The low hills are all susceptible to the culture of fruits of all kinds grown in this latitude.

Timber of the finest quality is abundant and easy of access.

The many varieties of wild berries, among which may be mentioned the blackberry, the blackcap or wild raspberry, the thimbleberry or scotchcap, the strawberry, and several varieties of huckleberries, grow in great quantities, and this section might well be termed "nature's fruit park."

We are told that rich veins of coal are known to exist in many localities which are yet untouched.

Much more could well be said, but space forbids the pen of

TRAVELER.

At Etelka.

Etelka, Nov. 19.—Weather has been fine and the farmers are making final preparations for winter. On an average the crops were very good in this section and farmers are well satisfied with the year's products.

Messrs. Seguny & Fitzpatrick have about finished logging on Mr. Neal's property and will begin operations on Mr. Grant's place shortly. A strike occurred in camp last Saturday, but the bosses acceded to the request of the strikers for better accommodations, and the strike was declared off.

E. E. Sherwood and W. L. Hood passed through this place with a band of fine sheep from Mr. Hood's ranch, near Rural, last Tuesday.

Alex Smith, of the lower river, made a brief visit at his logging camp, on Yellow creek, today.

I have always heard the phrase, "up to Rural," but I never realized how far up it must be until I heard Scud, your correspondent, shiver out, "O, how cold!" when we are enjoying the brightest of sunshine and balmiest of south winds. Say, Scud, you'd better come down from those icy regions and thaw out a bit before winter sets in.

STATE NEWS.

The Max Friendly case which has been on trial in Corvallis, Benton county, has terminated by the jury failing to agree. The charge was assault with intent to kill.

On last Monday morning, Nov. 18th, the Salem woolen mills were entirely destroyed by fire. The loss was about $80,000 with insurance of $20,000. It was a great calamity for Salem.

A rate war is on between the O. R. & N. Co's steamers and the S. P. railroad. The Southern Pacific reduced fares between Portland and San Francisco to $10 first-class, and $5 second-class.

Tom Lewis, of Antelope valley, in Wasco county, is under arrest for burning his neighbors' stacks of hay. He was tracked from the fire to his residence where he was arrested on Nov. 18th.

Congressman Binger Hermann left Portland on Monday the 18th, to be on hand for the opening of congress. He will work for larger appropriations for the improvement of rivers and harbors.

H. C. Humphrey, formerly a banker in Eugene City, committed suicide in the St. Charles hotel at Portland on the night of Nov. 15th, by swallowing morphine. No reason was given for the rash act. Humphrey was thirty-five years of age, the son of Geo. Humphrey who died a few years ago leaving a large fortune to his sons.

"Who was it," asked the pretty schoolmarm, "who said, 'Give me liberty or give me death?'" "Patrick Henry, ma'am," replied a small pupil. "And which did he get?" "Both, ma'am."

A Salem woodsawyer sued a business man of that city for 40 cents for sawing a cord of wood recently and lost his suit.

G. A. R. NOTICE.

We take this opportunity of informing our subscribers that the new Commissioner of Pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime.

We would advise, however, that U. S. soldiers, sailors, and their heirs, take steps to make application at once, if they have not already done so, in order to secure the benefit of the early filing of their claims in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date.

If U. S. soldiers, sailors or their widows, children or parents, desire information in regard to pension matters, they should write to THE PRESS CLAIMS COMPANY, at Washington, D. C., and they will prepare and send the necessary application, if they find them entitled under the numerous laws enacted for their benefit. Address,

Speaks through the Boothbay (Me.) *Register*, of the beneficial results he has received from a regular use of Ayer's Pills. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are in need of a laxative to try Ayer's Pills. They will do good."

Another Free Offer.

The long winter evenings can be very profitably devoted to reading, but there are some things that we must read the year round. One of these is a local paper: the best in the county is before you—the HERALD. Another is a good home paper of general circulation, such as "Womankind," for instance, which comes once a month filled with the best things for a busy housewife. We are able by special arrangements with the publishers, to offer "Womankind" free for a year to every paid-in-advance subscriber to our paper, and are glad to do so, for we are convinced that no home paper in America contains more of practical value to women. Bright stories, clever poems, the latest fashions, news of woman's work everywhere, articles on "Motherhood," "Cultivation of Flowers," a woman's parliament for the discussion of matters of interest, are a few of the bright features of "Womankind."

To the head of the house we offer on the same terms "Farm News," an agricultural paper, edited by a practical farmer (Miller Purvis, esq., late state lecturer of the Ohio Farmer's Alliance), and filled each month with suggestions from able correspondents, that make it an absolute necessity to every wide awake farmer. This paper is yours for the asking, provided you are a subscriber to our paper.

Remember every paid-in-advance subscriber to the HERALD is entitled to his choice in either of these papers. Tell your neighbors about this offer. A sample copy of both papers may be obtained by addressing the Hosterman Publishing Co., Springfield, Ohio.

Come in and pay a year in advance to the HERALD and get one of these attractive papers free.

DON'T STOP TOBACCO

How to Cure Yourself While Using Tobacco.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user, becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want, while taking Baco-Curo; it will notify you when to stop. We give a written guaranty to permanently cure any case with three boxes, or refund the money with 10 per cent interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day before you took your first chew or smoke. Sold by all druggists, with our ironclad guaranty, at $1 per box; three boxes (thirty days' treatment), $2.50; or sent direct on receipt of price. Write for booklet and proofs. PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

THE OHIO CHEMICAL CO.:
DEAR SIR:—I have been using your cure for tobacco habit, and found it would do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars; or I would smoke from ten to forty pipes of tobacco. Have chewed and smoked for twenty-five years, and two packages of your Tablets cured me so I have no desire for it.
