For more than a hundred years the Shakers have been studying the remedial properties of plants. They have made many discoveries, but their greatest achievement was made last year. It is a cordial that contains already digested food and is a digester of food. It is effective in removing distress after eating, and creates an appetite for more food so that eating becomes a pleasure. Pale, thin people become plump under its use. It arrests the wasting of consumption.

There never has been such a step forward in the cure of indigestion as this Shaker Cordial. Your druggist will be glad to give you a little book descriptive of the product.

Give the babies LAXOL, which is Castor Oil made as palatable as honey.

CARD OF THANKS.—Before leaving Coquille City, we wish to tender our sincere thanks, through your paper, to the people of this place, for their kindness and Christian sympathy shown us during our affliction; especially to those who have ministered to us, day after day, so faithfully. When the King's summons, "Come ye, blessed of my Father," greets them, that "inasmuch" will be a far greater recompense than any we can give. "For I was a stranger and ye took me in; sick, and ye visited me." We also feel grateful to Dr. Moore for his skill and successful treatment of our case, and by whose able and faithful efforts we were able at this time to return to our old home. We heartily recommend to those needing the services of an honest and competent physician.

J. W. AND MARY F. HUELSON.

Most Perfect Made. 40 Years Standard.

A Wonderful Invention—The New Gasoline Flatiron. J. M. Inman is traveling agent for one of the most complete flatirons ever invented. It is as much a necessity in a family as a kitchen stove or a sewing machine. It does away with the old, tedious process of heating irons on a stove. The cost of running the gasoline iron is virtually nothing, and the saving of labor for the women is so great that no family can afford to do without a gasoline iron. This apparatus can be used for many other purposes, and amounts to a small gasoline stove. It can be used for making a cup of tea, warming water or milk, etc. The HERALD has ordered one, and advises its friends to do the same.
