POPULIST STATE CONVENTION.

The state central committee of the Populist party met in Salem, Tuesday, with a good representation present. It was decided that the date of holding the state convention should be changed from February 22d to Thursday, March 26th, at 1 o'clock p. m., and that the convention meet at Salem. The basis of representation was fixed at one delegate at large for each county and one delegate for each 100 votes or major fraction thereof cast in June, 1894, for the People's party candidate for governor. It is recommended that in all counties where county conventions have not been called, that county conventions be called for the purpose of electing delegates to said state convention at such time and place as may be designated by the county central committees of such counties. Proxies to the state convention will not be allowed unless the bearer thereof is a citizen of the county he assumes to represent.

Riverton Riotings.

Riverton, Feb. 16.—Ed Canterbury and bride have moved to Riverton. They met a large number of their friends at Mr. Jackson's last Saturday eve. The boys had formed a tin-pan brigade and furnished the new couple with fine discordant music.

John Devinigh is having a fine lot of prunes grafted. He intends to set out a large prune orchard. His cranberry bushes are doing well and promise to be a success. The Bandon Block Coal Co. has bounded five acres of land of Jos. Elvy. It is intended as an addition to the town of Riverton.

Riverton against the entire state for its number of pretty babies. More coal mines will be opened in the near future, close to this town.

Rev. J. S. McCain held services here last Sunday. His many friends were pleased to see him among us.

Dr. Gibbins, the wart and corn doctor, spent several days here saving souls. DONA ANA.

Death of E. T. Jennings.

Died, at Marshfield, Feb. 9, 1896, Ed T. Jennings, aged 57 years, 4 months and 15 days. Mr. Jennings was born in Illinois, and came to Coos county many years ago. He resided at Myrtle Point before coming to the bay, and was well known throughout the county generally. He held the position of justice of the peace for Marshfield precinct until a short time since, when his rapidly failing health necessitated his resigning. Mr. Jennings was highly respected, both in his official capacity and as a private citizen, and sincere sympathy is expressed for his wife and family in their bereavement. The funeral took place at Marshfield Tuesday and services were conducted in the Baptist church, Rev. Geo. Gillespie officiating.—News.

Marshfield Musings.

Marshfield, Feb. 16.—ED. HERALD: Peace and poverty still prevail. There seems to be an idea prevalent that times will improve here soon; but the ideas' sire may be the wish.

Mrs. John Kruse purchased a nice residence in this place, where she will soon locate.

Capt. W. H. Dunham is doing nicely, and expects to be out in a week.

Fred Mark does not improve.

Capt. Lichtwork is able to be out.

Gen. Siglin is about the same as last reported.

The Arcata broke her shaft when on her way up, last week, and was towed back down by the Arago, hence both are behind time.

The Homer arrived yesterday and the South Coast arrived on her way up the coast.

School flourishes in the new schoolhouse, and the "kids" are happy, as the rooms are uniformly heated and kept comfortable, while the other advantages; too numerous to mention, gladden their hearts and lighten their burdens.

The foot-ball-pile-up game came off last Sunday, but we did not learn who came out on top. However it is the under dog that needs the sympathy of the public.

It is learned that several of the Newport boys will soon return to the bay, having found things no better where they went than here.

W. P. Fox, who went from here, writes from Gallup that he is making \$3 per day. He is a good worker and a first-class miner.

The gentlemen, Jno. Gammill, A. O'Conner and T. R. Spencer have been opening up their mine and building a road thereto, and will soon be ready to supply Marshfield with a superior article of coal. TRY AGAIN.

WANTED—AN IDEA Who can think of a thing to patent? Product your ideas; they may bring you wealth. Write JOHN W. LINDBERG, BURNS & CO., Patent Attorneys, Washington, D. C., for their \$1.00 prize offer.

Bandon's Budget.

Bandon, Feb. 15.—Mrs. Ed Ohman returned from the bay this week, where she had been under treatment for face and throat diseases. I hear she is much better.

The town duds are causing some needed improvements to be done in the way of street grading and building sidewalks. Let the good work go on.

The parties that are to take charge of the lighthouse are here and are moving into their new quarters; everything will be in running order soon and Bandon will have one of the best light-houses on the coast.

While Prof. J. H. Barklow is away conducting the examination, Miss Lelia Samner is filling his place in the public school here. Lelia seems to know how things ought to be done, and is taking hold at the right place.

That much talked of bridge across Gross creek is in a very far way to be built. The town offers to furnish lumber and help has been subscribed to build it; the only thing lacking is a few dollars in money. Who will give \$2500? Don't all speak at once.

Another Populist victory at Bandon. It would have done your soul good to have seen J. S. Hayes stepping around so large over the advent of a brand new girl at his house a few days ago. Mother and child are doing well, but some fears are entertained if James should take a relapse.

On last Sunday morning the schooner Lila and Mattie was safely landed in the river. She is unhurt with the exception of a broken rudder and a few scars from drift logs. It was an expensive accident; but accidents will happen to the best of families. While in trouble the citizens, life-saving crew, hands employed, and later the contractors were always ready to lend a helping hand, and now that it is all over with, no one hurt, the schooner sound and the boys paid in full, we should all be happy and hope that the Lila and Mattie may never have another such a mishap, but may always be successful.

Some few days ago some of our young sports about 15 or 16 years of age went fishing on the rocks; the tide was coming in at the time, but the boys paid little attention to breakers and rising tide and when they were ready to leave they had to wade; not being able to see in the water, they plunged into a hole and a large breaker coming on at the same time caused the boys to swim some twelve or fifteen feet before they could get out. Mothers, fathers, be careful, or some of these times your son will never come back. Take warning. RAMBLER.

I highly recommend this as the best medicine known.—D. M. Hamilton. For sale by Dr. S. L. Leneve, druggist.

Challenge to Political Debate. ED. HERALD: It may seem a little presumptuous on my part, but whether it does or not, I hereby challenge any man in Coos county to meet me in debate, or to canvass the county during the coming campaign, on the financial question. I will affirm:

First, That our government should at once open our mints to the free and unlimited coinage of silver at the present legal ratio of 16 to 1 of gold, without the consent, necessarily, of any nation on earth.

Secondly, That congress should repeal the charters of all banks of issue, commonly called "national banks."

Thirdly, That congress should at once issue a sufficient quantity of full legal tender treasury notes to bring our circulating medium up to at least fifty dollars per capita. Respectfully submitted.

Makes the Blood Pure. This is the secret of the cures by Hood's Sarsaparilla. Read this: "I am so glad to write that I am now in perfect health and feel like a new man. It is all because of Hood's Sarsaparilla made my blood pure. My health broke down with troubles peculiar to women, my nervous system was shattered and I had to take my bed. The physician said there was little hope for me. A neighbor told of wonderful cures by Hood's Sarsaparilla and I decided to try it. PATENTS FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
