NEWS NOTES.

RELEASE OF THE RAIDERS.

London, May 30.—Secretary of state for colonies, Joseph Chamberlain, has received the following dispatch from the British agent at Pretoria:

"All the prisoners have been released except the four leaders. The latter's cases will be considered later. The fines and punishment in lieu of payment remain, and banishment remains but it is suspended on the agreement that the prisoners do not interfere with the politics of the republic."

TO MANUFACTURE MEDICINE.

San Francisco, May 30.—The California State Pharmaceutical Society has decided to establish a laboratory here for the manufacture of many medicines they now purchase in the east.

Eastern firms sell to California druggists prepared articles, such as liniments, cough mixtures, etc., to the value of several hundred thousand dollars annually. It is stated that the formulasc f the patented medicines are well known to all druggists and can be as easily and as perfectly made here as elsewhere and at one half the cost.

JACKSON MUST HANG.

Newport, Ky., May 29.—Judge Helm today overruled the motion for a new trial for Scott Jackson, convicted of the murder of Pearl Bryan, and sentenced Jackson to be hung June 30. Subsequently the court granted a motion for a stay of execution of sixty days to enable the defendant to take the case before the court of appeals.

A terrible accident occurred at Victoria, B. C., Tuesday afternoon. A sham fight and review was to take place at Macauley Point near Esquimault, and crowds were making their way there by every route. Two cars containing over 100 people were upon the Point Ellice bridge over Victoria Arm, when the structure gave way, and all plunged into the water 100 feet below. Several carriages went down also, with their occupants. A number of bodies have already been brought up, and the work of identification is proceeding. It is a difficult matter, as a great many of the bodies are those of visitors. Latest reports, however, give the finding of 70 bodies, with several yet to be accounted for.

There has been plenty of moisture on the Umatilla reservation. T. P. Page, who farms hundreds of acres near Athena, says that four weeks ago he had a camp of seven men in readiness for plowing, and up to last Saturday they had not been able to turn a furrow. Mr. Page says that a saddle-horse cannot be ridden across parts of the grain land, so muddy is the soil.

Miss Millie Brouillette, the young orator and temperance lecturer, formerly a resident of Myrtle Point and well known here, has been making fame in California. The examiner gives a highly eulogistic write-up of the young lady and a fairly good cut.

The HERALD Land Company is forming connections in California and other places. They intend to do the business in this part of Oregon in their line. See partial list in another column.

Allen and Henry Collier and Nonda Anderson left this morning for the Collier Bro's mines, on Johnson creek.

LOST.—A silver watch and silver chain, somewhere between Chas. Collier's and R. D. Sanford's. Please leave at this office and get suitable reward. [jun2 1t

Our old friend S. H. McAdams has sufficiently recovered to attend the election in town last Monday.

See partial list of bargains in the HERALD Land Company's column.

Shall we give out that we will have a grand 4th of July celebration.

Comrade Quick is getting out and put in a vote on election day.

HUNDREDS WERE KILLED

And Thousands More Maimed in St. Louis By a Cyclone.

St. Louis, Mo., May 28.—When the sun rose on St. Louis and vicinity this morning it showed a scene of horrible ruin and disaster, wind, rain and fire combined in a mission of destruction. Four hundred lives have been lost in this city and East St. Louis. Thousands are injured, many so severely they cannot recover. The exact number cannot be ascertained for many days, probably never. Debris and ruined buildings all over the city cover many hundred human bodies. Damage and destruction of property aggregate many millions. The greatest damage is on the St. Louis side of the river and was inflicted within a 3-mile strip along Eighth street, and many buildings have totally collapsed, others were unroofed and very few escaped injury. The storm did little damage in the business and northern portions of the city, save along the river front, where the damage cannot be estimated, nor will it ever be known how many gave up their lives in the Mississippi river. When the tornado came down upon the city it tore all the boats from their moorings and the channel is full of wreckage. The storm came in on south LaFayette park and struck the city hospital, and from there tore its way through the city to the river by a northerly course. It wrought havoc that will leave its traces in parts of the city for many years. The upper work of the east end of the Eades bridge was torn away and tons upon tons of stone tumbled down. Fire added much to the losses, at least $500,000. Such a night of horror in St. Louis was never known before.

There were 450 sick people in the city hospital when the storm broke and some gathered strength in their fright and ran shrieking from the place, finding shelter on the outside.

Later.—The death list in St. Louis proper will surely be over 400, perhaps 600. In East St. Louis at least 200 were killed. Hundreds more are maimed, many of whom cannot live.

The estimated property loss is from $20,000,000 to $30,000,000. The roof of the national Republican convention hall was torn off. Ten day's work and $5000 will make the hall good again. The debris is ten feet deep in some streets, and telegraph and telephone wires are down for miles.

The storm struck the city at 5:15 last evening, and at 6 o'clock it was as dark as midnight. The storm consisted seemingly of several cyclones or hurricanes, following each other in quick succession.

HORRORS OF THE ST. LOUIS STORM

Chicago, Ill., May 29.—Reports received up till 2 a. m. by the United Press indicate a loss of 500 lives at East St. Louis, with the death roll greater in the Missouri city by 50 to 75. The number of injured in the two cities will be found to be near 1500, judging by the names already reported. Nearly 100 injured persons were reported by their physicians as fatally or internally injured in St. Louis. These victims went or were taken to their homes and were not in the police records. The number of identified dead in St. Louis within the police observation is 123, in East St. Louis 168, and 20 persons reported missing in the city on this side are put in the death column. Many of the injured in both cities will die. Hundreds have already been recorded. From 500 to 800 East St. Louis people are homeless and in dire need.

In other Illinois and Missouri cities the extent of the storm's work is still in doubt because of the broken telegraphic communications. It is known that the storm touched Breckenridge, Pickneyville, Irvington, Richview, Drake, New Baden, New Minden, Ill., and Rush Hill, Mo. Many lives are reported to have been lost in those places, but confirmatory news is lacking as to the fatalities.

Additional dispatches from Indiana show the fury of the elements was not dissipated until Albany, Bruton and Princeton had been attacked, doing great damage to property by wind and water. Crops were destroyed in the surrounding country.

The governor of Illinois is on the woeful scene at East St. Louis, and two companies of the National Guard are on duty to prevent pillage and keep order among the lawlessly inclined. A call for help has gone forth from the stricken Illinois city. Both cities are practically in darkness to-night, except in the business center, while the work of recovering the dead from the wreck of buildings is prosecuted under difficulties.

Death of Mrs. Martha Adelaide Tupper.

"Blessed are the dead who die in the Lord for they rest from their labors.

Entered into rest at the family residence, on Wednesday, May 27, at 3:40 p. m., Martha Adelaide, the beloved wife of John P. Tupper, and mother of Frazer Tupper of this city.

Mrs. Tupper was the daughter of James and Martha Lynch of Falmouth, on the river Avon, Hants county, Nova Scotia. She was born at Falmouth on the 9th day of June, 1835, and was 60 years, 11 months and 23 days old when she died. She was married to Mr. Tupper at the home of her parents on October 20, 1861, and in 1869 she came with her husband and infant son to the Pacific coast and settled in this county where she has since resided. Mrs. Tupper was a faithful wife and mother, a kind friend and neighbor and has hosts of friends here and elsewhere who mourn because of her death. For four years she has been in failing health but her death was not looked for until a short time before the end came. Her loss is felt in this community, also in Marshfield and elsewhere in the county and a large circle of friends and acquaintances sympathize with her husband and family in their bereavement and sorrow.

The funeral services were held in St. John's Episcopal church this afternoon at 2 o'clock.

In connection with Mr. and Mrs. Tupper's coming to this coast the following incident is of interest: They left Nova Scotia April 24, 1869, and on the 4th of May the vessel on which they sailed, called the Humming Bird, was wrecked off Cape Cod. Four days later they were picked up at sea and taken into Boston harbor. They then went to New York where they took the steamer Henry Chauncy for Aspinwall, and after crossing the Isthmus of Panama they reached San Francisco on the steamer Ida, June 12, 1869.—Bandon Recorder.

UPPER - RIVER DEPARTMENT.

Myrtle Point and the Upper-Coquille, and What is Going on There.

Fruit is entirely killed in some localities.

W. T. Lebnherr, road overseer, has commenced work on the highway south of town.

The directors and stockholders will visit and inspect the mining property owned by the Myrtle Point Mining & Development Company about the middle of June. Very encouraging news came down from that place recently.

The little girls, Fahy Guild, Lula Gray, Sarah Rose and Mable Lebnherr, who took the prominent part of decorating the cenotaph for the unknown dead, performed their parts well Decoration Day. This work was among the most interesting ceremonies of the occasion.

Decoration Day, was well observed in this place last Saturday. The program was carried out satisfactorily to all as far as we have learned, and notwithstanding that owing to the lateness of the season, flowers are not in bloom as much as usual, the decorations were quite elaborate. The procession, headed by the band and military, was quite imposing, and what added interest to the march was a good-sized company of boys, ranging in ages from 10 to 14 years, dressed in black knee pants and turkey red coats, and who were well drilled, coming in as a rear guard. The little fellows did exceedingly well and will keep up their organization no doubt by drilling occasionally. The musical program was indeed a grand ovation to the dead, the Myrtle Point quartet club doing well; besides Mrs. W. H. Brown's solo was grand and Mrs. Alice Hite's Star Spangled Banner was well rendered, with Miss Daisy Dodge at the piano. Sada Guild declaimed a splendid and appropriate selection, and so did Miss Laura Wise, though the latter only had a very short time to prepare for the occasion, as the piece was handed her by the committee too late. The G. A. R. and citizens feel grateful to those members of the band who contributed their services and helped to honor the heroic dead. A large majority of the men who compose that organization are noble men, who are infused with all the fine feelings that are indispensible in forming true and generous manhood.

Al Sloan and Will Berry have opened a logging camp on Big creek.

At a called meeting of our citizens last week it was decided to celebrate the 4th of July.

W. T. Reed, who has been at Grave creek mining during the last winter, arrived home last week.

The weather has cleared away and spring, with all of its grand beauty, is upon us. Farmers are improving the time and by the close of this week all crops will be in the ground.

The last part of last week we had considerable political speaking, all of which was interesting; but of course some was better in our opinion than the other fellows', and there are plenty to say that we are mistaken.

The cycle craze is upon us. Every evening the iron ponies are out in full force. Some of the ladies are becoming expert riders. They mount quite gracefully, but in a few instances the dismounting seemed rather unnatural.

Why does it take from Tuesday evening until the arrival of the boat Friday for the HERALD to reach this place? This was the case last week. This is a long time for mail matter to go nine miles, where there are two mails every day.

Two gentlemen arrived here last Saturday from Portland—one to look at the Taylor farm, east of town, with a view of trading his place near Portland for the same, and the other gentleman will purchase a small farm. They are well pleased with the country, and they say that our commodious and substantial school-building is an inducement for them to settle here.

Late advices bring the sad news that Jas. E. Taylor, formerly of this place, is very ill at Mt. Tabor, Or. A surgical operation had been performed that revealed the appalling fact that he had cancer of the stomach, and a week had passed since he had taken any nourishment. Mr. Taylor was well and favorably known here, being a member of the G. A. R. and other societies. He will leave a widow and two children, and no doubt he has crossed over the river ere this writing.

Bandon's Budget.

Bandon, June 1.—The Budget locals run a day or two later this time.

The Bandon woolen mills closed down Saturday, 27th, for want of wool. They started up again Thursday, when the schooner Coquille came in.

Lile Stitt and Lee Koontz, who went to California some weeks ago in search of work, came home this week.

G. C. Benson, who has been in California with his family for some months past, came up a few days ago to look after his property. He will return to his family in the near future.

It is reported that Bandon will have a wedding soon, but—as people do not like to have any thing said about it, I will keep still.

The M. E. church, south, has bought the old schoolhouse property of Mr. Bosen. The change was made this week.

Rev. W. C. Scott preached a very interesting Memorial sermon last Sunday morning to the G. A. R. men and everybody in general.

Stuttz's theatre was here this week playing as good as ever, or better, to fair-sized houses.

The Baptist entertainment last Wednesday night was a grand success, both as to management and financial results.

The city election here last Monday resulted in the election of W. C. Scott, J. A. Laughead, C. A. Craddock, Rube Mast and J. P. Wilbur as trustees; Geo. Topping as recorder and E. M. Gallier as marshal.

The joint debate here last Sunday night between J. W. Bennett and Thos. Buckman resulted in a victory for Mr. Buckman. Mr. Bennett seems to be plumb full of gas and funny stories. Little, if any, good, substantial argument was produced by him. His ideas on the silver question were a fair sample of his statesmanship and representative ability, as well as a debater. He said he was opposed to the free and unlimited coinage of silver because it would bankrupt the government to *buy* all the silver bullion presented for coinage.

The death of Mrs. J. P. Tupper last Wednesday cast a gloom over our city. She was a kind and pleasant woman and had a host of friends all over the county. We will miss her pleasant smiles and motherly affection. Many will be the days that will come and go before the people of Bandon will forget Mrs. Tupper, for to know her was to love her.

The Populist rally Saturday night was well attended and many were the votes made for the Populist cause, as the vote today will show. Mr. Burkhart of Indiana is surely one of the most fluent and forcible speakers we ever had the pleasure to listen to. Long may he live, and prosperous may he be.

Prof. A. J. Sheppard will open up a private school here in Bandon this week.

Rev. J. S. McCain delivered two interesting sermons last Sunday morning and at night.

Prof. Hodgin's private school closed Friday night last with a splendid program. The scholars show ability and have received proper training for public speaking.

We have two photographers in Bandon now for a short time, J. P. Beyers and Mrs. Hertslet.

It is reported that the mumps are in town, so look thou a leetle out.

The happiest man in town is Sim Hunt. A brand new girl is at his house. Sim says he can stand it, if he is beaten for constable.

Rev. Sanderlin is building a new church for the Methodist Protestant denomination on their lots in the south part of town.

The Tupper hotel will change landlords in a few days. It is not decided as yet who will get it.

The steamer Moro came in Friday, left for the bay Saturday and came back to the river last night. She will leave for the city Tuesday or Wednesday.

Notice is hereby given that the wrecked schooner Berwick has been chartered to carry the defeated candidates to the head waters of Salt river. She will leave the Bandon wharf at six o'clock sharp Tuesday morning, June 2, and will reach that forlorn city of Empire about 10:55 a. m. No expense will be attached. Refreshments will be served on the boat in the shape of salt water and camphor.

RAMBLER.

Riverton Riotings.

Riverton, June 1.—We wonder whether the tide will be flowing Tuesday evening while the boat is carrying the defeated aspirants up Salt river.

Geo. Leggett's stepson arrived last Saturday from Kentucky. He will assist his stepfather in the coal mine.

Charles Nosler finished supplying the Bandon coal company with piles.

James Barklow, our efficient school superintendent, visited our school last Friday and reported everything working fine.

The schooner Rio Rey left for San Francisco last Friday with lumber from the Riverton mill.

E. G. Price has been busy the past week prospecting for coal on the Lydia Hancock place. We wish you success, Ed.

E. J. White left for California last week.

Joe Klink, now of Curry county, may learn something very interesting by writing to the undersigned, at Riverton.

Lee Cox left Riverton last Friday for Langlois, Curry county. He went home to cast a good straight Populist vote in his county.

Bob makes the mud-balls and Jesse throws them. Eat more beef and you can throw farther, Jesse. It costs nothing, judging by the way your last edition was tramped in the mud of our streets.

DONA ANA.

In State Supreme Court

Coos county was present in the following cases:

Coos Bay & Eastern Railroad & Navigation Company, appellants, vs. Coos county et al., respondents; ordered that appellants have until July 1 to serve and file brief.

Southern Oregon Company, appellant, vs. Coos county et al., respondents; appellant's time to serve and file brief extended to July 1.

R. W. Getty, respondent, vs. Kate ——— Coos county et al., respondents, appellants; defendants and respondents, Ames and Thibault, allowed until July 15 to serve and file briefs.

Mr. Watterson declines to talk politics and says he will not return to the United States for a year.

FRIEND MINOTT SPEAKS.

The Herald Does Not Want to Do Him an Injustice—His Own Statement.

MARSHFIELD, Or., May 29, 1896.

J. S. McEWEN, ESQ.,—*Dear Sir:* On receiving your last issue of the Coquille City HERALD and noting the contents, I discovered that you had misrepresented my remarks before the county seat meeting held in the I. O. O. F. hall, Marshfield, and have said what I never did say at that time or any other.

Knowing you to be fair and honorable in matters of this kind, from our relations which existed four years ago, I would most respectfully request you to set me right again with the citizens of your town and Bandon.

I stated that Marshfield was *practically* the geographical center of Coos county by virtue of the R. R. terminus and many interests that had centered here; not that it actually was, nor did I intimate it.

I did not say "that Bandon was no seaport, and that there was no water on the Bandon bar;" neither did I mention Bandon at any time. Furthermore, the man that gave you this information is a dirty, lying tool for the S. O. Co., and a supporter of, and supported by that corporation without which he would lose his swill and become almost a county charge. I said nothing against Coquille City, and did not say it was an old small-pox town, or use any such language directly or indirectly concerning it.

There has been considerable dirty work done in behalf of Empire City in this election by certain parties who are in the payroll of the S. O. Co. (the private one), but it will all come back like bread cast upon the waters.

If after a fair vote in the June election Marshfield is counted out, she will most certainly throw her support to Coquille City and go hand in hand with her to the polls next November. Empire City is dead and the live inhabitants of Marshfield are willing that they should have the old courthouse for a coffin, but if such is the case we want one at Coquille City that will be a credit to the county and we want a say in voting it there.

Yours, respectfully,

T. S. MINOTT.
