Before the law was written down with parchment or with pen; Before the law made citizens, the moral law made men. Law stands for human rights, but when it fails those rights to give, Then let law die, my brother, but let human beings live. --Rev. Miller Hazeman.

The Ninety-and-Nine. "There are ninety-and-nine that live and die In want, and hunger and cold, That one may reap in luxury, And be wrapped in his silken fold; The ninety-and-nine in their hovels bare, The one in a palace with riches rare.

"They toil in the fields, the ninety-and-nine long, For the fruits of our mother earth; They dig and drive in the dusky mine, And bring its hid treasures forth; But the hands of the one forever flows, To the hands of the one forever flows.

"By the sweat of his brow the desert blooms, And the forest before them falls; Their labor has built humble homes, And cities with lofty halls; But the one or two city, and homes and lands, And the ninety-and-nine have empty hands.

"But the night, so dreary, and dark and long, At last shall the morning bring, And over the land the victor's so; Of the ninety-and-nine shall ring, And who afar, from zone to zone, 'Rejoice! for labor shall have its own.'"

[Special Correspondence of the Herald.] BRABSTER WEST'S LETTER.

Grover Quiet--Hill Regretful--Carlisle and Eckels' Idea of the Farmer's Intellect.

Grover Cleveland has gone to Buzzard's Bay; Whitney has gone to Chicago; Dan Lamont is in the throes of despair. The latter, who was nothing before he became a cog in the Roosevelt-Cleveland machine, is really disconsolate. Poor fellow, who can blame him! He became rich by sticking to Grover, and now he has been foolish enough to sink his earnings from the gold conspiracy in the Cleveland-Whitney street-railway pool, and he feels bad. Grover is at Buzzard's Bay, a good place for such a buzzard as he is, but the men who sacrificed themselves upon his altar are in a deuce of a fix. Rumor says that Grover has so fixed things that he will be reimbursed for any loss which he personally may sustain from the failure of the street railway scheme, but Carlisle, Smith, Lamont, and Campbell are to be "souped."

Whitney has gone to Chicago, and David Bennett Hill went with him. Poor Hill! If he had stuck by his Elmira speech he would have been the logical candidate of the free silver forces today. He is at heart a silver man, but he thinks of D. B. Hill first, and misjudging the political outlook--he thought that Wall street could control the country, and so he espoused the cause of the usurers. It is a pity! No one knows that better than Hill. However, he is dead politically; in the reform ranks he is a rotten egg. Before this letter reaches the majority of my readers, the Chicago convention will be over; therefore it is best for me to leave politics alone in this letter. I must say, however, as far as the Populists in Washington are concerned, the People's party will endorse no man who is not acceptable to them. It is hard for a Washington correspondent to please all people. I judge that the great producing people want the truth. This is the truth: If the silver Democrats nominate a man such as Teller or Sibley, he can get the support of the Populists and silver Republicans. If not, then not.

That is the consensus of opinion among the Populists and silverites in Washington. They say: "The Democratic party is dead if it tries to carry the country upon the free silver cry. The Democratic party must give some proof of its honesty. It nominated Grover Cleveland three times. A party that will choose as its standard-bearer for

twelve years such a scoundrel as Grover Cleveland must be viewed with suspicion."

If the silver Democrats are really patriots; if they rise above party and nominate a man acceptable to the silver Republicans, he will be elected; if not, then the true reformers should antagonize their tickets and make such a fight for liberty that a Democrat may be as extinct a bird four years from now as a dodo.

That those who read my letters may know how the producers of the country are regarded by their servants, I will produce a conversation which I overheard last Sunday evening in Chamberlain's. The two who talked are members of the administration. I will style them C. and E. Of course this does not mean Carlisle and Eckels. If I said so it would be libel. This is how they talked:

Mr. C.--"Do you think, E, that you can switch enough delegates at Chicago?"

Mr. E.--"Haven't I been controlling for years. I'll switch them; they don't know anything about the financial question anyway."

Mr. C.--"You're mistaken. The voters in Kentucky are just loaded to the muzzle with arguments in favor of the remonetization of silver, and they even quote that old speech of mine."

Mr. E.--"Pshaw, that's nothing! We'll confuse them on the bond question. They can't understand figures. One of my clerks whom I sent to Missouri to counteract the work of Taubeneck, told me that he heard one farmer trying to explain to another what the different bond denominations meant. The explaining farmer said that 5-30's, 7-40's, and 10-50's meant that the workman had to go to work at 5:30 a. m. and work until 7:30 p. m., in order that the usurer might lie abed until 10:50 the next morning."

Mr. C. laughed and said the farmer had the situation pretty well sized up. If my friends throughout the country want to adopt the 5:30, 7:40, 10:50 plan, all right.

BRABSTER WEST.

Senator Vest Speaks Out in the Chicago Convention.

[The following is the introductory portion of the speech of Hon. George G. Vest, U. S. senator from Missouri, on nominating Silver Dick Bland in the recent Chicago convention. We give it especially because he talks Democracy as the senior of the Herald learned those principles in the 50 years of his experience in the school of politics, and as he has taught it for Populism to his readers these past five years, and which are truth of history and known to be such to Mr. Vest and the masses of the people, but still denied and untruthfully attacked by a few so-called Democrats and some gold-bug, monopoly-serving Republicans. Now, read this excerpt and confess that "the people are not iconoclasts, nor false to their convictions."--ED. HERALD.]

Mr. President and Gentlemen of the Convention--Revolutions do not begin with the rich and prosperous. They represent the protest of those who are suffering from present conditions, and whose demands for relief are denounced by the beneficiaries of unjust and oppressive legislation.

When a profound sense of wrong, evolved from years of distress, fasten upon the public mind in a free country, and the people are determined to have redress, a leader is always found who is a platform in himself, and to whom they instinctively turn as the logical exponent of their hopes.

The people are not iconoclasts, nor false to their convictions. They followed Jefferson when he assailed the centralizing and monarchical doctrines of the old Federalists and was denounced as a communist and leveller by the wealth and culture of New England and New York.

They followed Jackson when he took the United States bank by the throat and was proclaimed a tyrant and a ruffian by the usurers and money kings.

They followed Lincoln when he

GOOD FOR EVERYBODY

Almost everybody takes some laxative medicine to cleanse the system and keep the blood pure. Those who take SIMMONS' LIVER REGULATOR (liquid or powder) get all the benefits of a mild and pleasant laxative and tonic that purifies the blood and strengthens the whole system. And more than this: SIMMONS' LIVER REGULATOR regulates the Liver, keeps it active and healthy, and when the Liver is in good condition you find yourself free from Malaria, Biliousness, Indigestion, Sick-Headache and Constipation, and rid of that worn out and debilitated feeling. These are all caused by a sluggish Liver. Good digestion and freedom from stomach troubles will only be had when the liver is properly at work. If troubled with any of these complaints, try SIMMONS' LIVER REGULATOR. The King of Liver Medicines, and Better than Pills.

EVERY PACKAGE has the Z Stamp in red on wrapper. J. H. Zedlin & Co., Phila., Pa.

attacked the slave power, and declared that this country could not exist "half slave and half free."

This great movement for bimetalism--the free and unlimited coinage of gold and silver at the ratio of 16 to 1--and the restoration of silver to its constitutional status--"No sapling changes saw by the fountain Blooming at the Beltaine, in winter to fade." It has come to stay.

It is a protest against the wrong and outrage of 1873, without debate, and with the knowledge of only a few men in congress, the silver dollar was stricken from coinage, and the red despot of gold made supreme as to all values.

It is a declaration by the freemen of America that the United States must withdraw from the conspiracy which was formed to destroy one-half the metallic money of the world, in order to establish the slavery of greed and money more degrading than the slavery of armed force.

It is the stern demand of unrequited toil, bankrupt enterprise and ruined homes, for a change in the money system which for years has brought disaster and desolation.

In this crises of our country and party we must take no step backward in platform or candidate. We want no uncertain or doubtful leader. No "laggard in peace, or dastard in war."

The Physician's Measure of Success.

The Medical World, the foremost publication in that field in this country, has taken high ground in favor of the political reforms advocated by the Populists as in the best interests of the people and the country. In a recent issue it gave the following:

"That system of political economy which makes wealth and not man the ultimatum is based on a monstrous fallacy--on a fallacy so slavish and so detestable that the wonder is how accomplished and personally amiable men can be found as its abettors. The fallacy is in taking the rents of the landlord and the profits of the capitalist as the measure of good and evil, instead of taking the condition of the laborer (the many) as the sure index of the character of a system. Whatever tends to debase man, to make him physically, intellectually or morally a lower being, is bad, however much or however little the wealth produced may be. The wealth is not the stable element. It is an accidental and by no means an important adjunct. Man is the stable element. His improvement is good. His deterioration is an evil. And this independently of all other considerations. All other considerations are secondary, dependent, subsidiary to the great intention. Man is not useful as he produces wealth, but wealth is useful as it sustains man, ameliorates his condition, improves his capacities, gives opportunities for his further cultivation and aids his progress in the great scheme of regeneration."

The secret of speedy cure in sickness lies in selecting the proper remedy and this is difficult to do unless one is sure what the ailment is. But one thing is sure, had the liver been actively at work sickness could not have come. It is then always safe to take Simmons' Liver Regulator which keeps the liver well regulated and all poison expelled from the system.

THE GREAT TIDAL WAVE.

New Estimated that Fifty Thousand Japanese Lost their Lives.

San Francisco, July 12.--The steamship Doric arrived from Yokohama tonight, bringing news up to June 25.

Estimates of the loss of life from the great tidal wave reach as high as 50,000 and this number is believed to be far below the mark. The tidal wave was 80 feet in height, and swept inland a distance of 1 1/2 miles along 200 miles of coast. Thousands of acres of land under cultivation were devastated, and the inhabitants of the flooded district are suffering from famine. There was but little warning to the people of the great disaster.

About sunset four or five shocks of earthquake were felt a few minutes. At 8 p. m. an appalling noise, as if produced by the simultaneous firing of a hundred cannon was heard from the direction of the sea. Then the great wave came in at a terrific speed and overwhelmed everything in sight. At Tarso the sea suddenly receded as much as 600 yards from the shore. Then the huge wave came rushing in before people on shore had time to escape. Fishermen who were playing their trade at a distance of four miles from shore perceived nothing indicating the occurrence of anything remarkable. Others nearer the coast encountered heavy breakers coming from the north.

Yellow Jack Attacking the Cause.

Key West, Fla., July 12.--Advices from Cuba state that a panic in the Spanish army, in consequence of the terrible increase of yellow fever in the last few days, exists. It is estimated that fully 80 per cent of the cases prove fatal.

In Santiago de Cuba there are 4500 soldiers in the hospitals. Major-General Kinnear is stricken, and his life is despaired of. The physicians are utterly incapable of coping with the disease.

The epidemic is also a very serious one all along the trocha. In some cases entire companies have been stricken. General Arellano and nearly every member of his staff are ill.

Captain-General Weyler has ordered the erection of a new hospital along the trocha and will send to Spain for additional physicians.

In Havana and other places on the east side of the island, the fever is raging with great violence, and is spreading to central points.

From Martanzas come most distressing tales. In that city, it is said, the mortality is about 60 per cent, and it is becoming difficult to bury the dead.

The hospitals in Havana contain nearly 6000 patients, and every day the number is being increased. Friday 450 sick soldiers were brought in from Pinar del Rio province.

You'll Laugh IF YOU READ

GROVER CLEVELAND ON A TRAMP.

THIS funny and instructive book tells in a most humorous way how the Angel of Liberty took Grover Cleveland from the White House in the dead of night, and left him, ragged and hungry, in Oklahoma City to tramp home. Grover's trials and tribulations as a tramp are most ludicrously related, and his conversations with farmers and laboring men about the silver question are very instructive.

EVERYBODY SHOULD READ IT. It contains 126 pages of laugh-provoking matter, and 40 full-page illustrations of Cleveland as a tramp. Price, 25 Cents. For sale by all newsdealers, or send 25 cents for the book to the SILVER KNIGHT-WATCHMAN, 1420 New York avenue, Washington, D. C.

A Broad Minded Divine.

EVERYONE IN SYRACUSE KNOWS REV. S. R. CALTHROP.

A Scholarly, Christian Man and a Beloved Pastor, Who Believes in Training the Body as Well as the Mind.

REV. DR. CALTHROP, SYRACUSE, N. Y.

The Twenty-ninth day of April is a notable day in the history of the May Memorial Church in Syracuse, as it is the anniversary of the installation of the Rev. Samuel R. Calthrop, D. D., the eminent divine who so long has ministered to them spiritually as pastor of the Church.

Dr. Calthrop was born in England and received his preparatory scholastic training at St. Paul's School, London. Entering Trinity College, Cambridge, he soon became a bright figure in that brilliant coterie of scholars, literary men and what followed in the traditions of Macaulay and his associates at the university. In the middle of the century he visited Syracuse and received his first impressions of the young city that nearly a score of years later he was to choose as his home and in which his labors have been so long and effective.

Dr. Calthrop has a striking personality. To the eye he is a most picturesque figure. His head and face, framed in luxuriant masses of silky, snow white hair and beard, are of the type of Bryant and Longfellow. Although over seventy years old, his rather spare figure is firm and erect, and every movement is active and graceful. His whole life long he has been an ardent admirer and promoter of athletic sports, and even at his advanced age, plays tennis with all the vigor and skill of a young man. To Syracuseans, perhaps, this remarkably versatile man is most widely known, apart from his profession, as a scientist.

On a bright April morning a reporter followed the winding driveway that curving around the hill leads to Calthrop Lodge, an old-fashioned, red brick mansion, surrounded by a grove of oaks and chestnuts. Wearing a black skull cap and a black coat of semi-clerical cut, the master of Calthrop Lodge graciously received the reporter who called to inquire about his health, for, though manfully repressing all visible evidence of his suffering, for many years he has been the victim of a distressing ailment, until by fortunate chance he was led to take the remedy which has effectually cured him.

During more than half of his pastorate in Syracuse, Dr. Calthrop has been troubled with rheumatism, and at intervals he suffered excruciating agony from it. At times the pain was so great as to prevent him from walking. Many remedies were tried without success, and he and his friends had given up hope of a permanent cure or of more than temporary relief when he took the preparation that drove the disease completely from his system.

In a letter written to the editor of the Evening News of Syracuse, last year, Dr. Calthrop told of his affliction and its cure. This is Dr. Calthrop's letter:

Dear Sir: More than thirty-five years ago I was wrenched my left knee, throwing it almost from its socket. Great swelling followed, and the synovial juice kept leaking from the joint. This made me lame for years, and from time to time the weak knee would give out

entirely, and the swelling would commence. This was always occasioned by some strain like a sudden stop. The knee gradually recovered, but always was weaker than the other.

About fifteen years ago the swelling re-commenced, this time without any wrench at all, and before long I realized that this was rheumatism settling in the weakest part of the body. The trouble came so often that I was obliged to carry an opiate in my pocket everywhere I went. I had generally a pocket in my waistcoat pocket, but in going to a conference at Buffalo I forgot it, and as the car was damp and cold, before I got to Buffalo my knee was swollen to twice its natural size.

I had seen the good effects that Pink Pills were having in such cases, and I tried them myself with the result that I have never had a twinge or a swelling since. This was effected by taking seven or eight boxes.

I need not say that I am thankful for my recovered independence, but I will add that my knee is far stronger than it has been for thirty-five years.

I took one pill at my meals three times a day. I gladly give you this statement.

Sincerely yours, S. R. CALTHROP.

Since writing this letter Dr. Calthrop has not had any visits from his old enemy and is even more cordial now in his recommendation of Dr. Williams' Pink Pills than he was then. To the reporter he said:

"I am continually recommending Dr. Williams' Pink Pills to acquaintances and those I chance to meet who are troubled with rheumatism or locomotor ataxia. They are infinitely superior to most medicines that are put up for sale. I know pretty well what the pills contain, and I consider it an excellent prescription. It is such a one as I might get from my doctor, but he would not give it in such a compact form and so convenient to take."

"I recommend the pills highly to all who are troubled with rheumatism, locomotor ataxia, or any impoverishment of the blood." Dr. Williams' Pink Pills for Pale People have an enormous sale, and from all quarters come in glowing reports of the excellent results following their use. An analysis proves that they contain in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, neuralgia, rheumatism, nervous headache, the after effect of la grippe, palpitation of the heart, pale and sallow complexion, that tired feeling resulting from nervous prostration; all diseases resulting from vitiated humors in the blood, such as scurvy, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppression, irregularities and all forms of weakness. They build up the blood, and restore the glow of health to pale and sallow cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. There are no ill effects following the use of this wonderful medicine, and it can be given to children with perfect safety.

entirely, and the swelling would commence. This was always occasioned by some strain like a sudden stop. The knee gradually recovered, but always was weaker than the other.

MAY MEMORIAL CHURCH, SYRACUSE, N. Y.

These pills are manufactured by the Dr. Williams' Medicine Company, Salem, N. Y., and are sold only in boxes bearing the firm's trade-mark and wrapper at 50 cents a box or six boxes for \$2.50, and are never sold in bulk. They may be had of all druggists or direct by mail from Dr. Williams' Medicine Company. The price at which these pills are sold makes a course of treatment inexpensive as compared with other remedies.--From the Evening News, Syracuse, N. Y.
