

President Electors. M. L. Onsted, of Baker, W. D. Hare, of Washington, W. H. Spangh, of Lane, Henry Watkins, of Yamhill.

For Representative of Coos County, THOMAS BUCKMAN. [Special election November 3, 1896.]

McKINLEY vs. History.

McKINLEY. [In his first speech of the 1896 campaign.] "We are all ready and anxious to get back to the period of 1892, when this country was enjoying its highest prosperity."

HISTORY. [As collected by Senator W. M. Stewart from Bradstreet and other official sources.] "Business failures in 1892, \$114,000,000. 'Strikes in 1892, (see U. S. Commissioner of Labor Wright's report), 1,288 lockouts, 717."

Thanks of the Herald to Hon. B. Hermann, member of congress, for a copy of the "Abstract of the Eleventh Census, Second Edition."

W. J. Bryan, nominee for president of the Chicago convention, is the youngest candidate ever nominated for that office, being just 16 months over the constitutional requirement.

The young men of the Democratic and Republican parties of Eureka, Cal., says the Watchman who do not propose to stand by the gold standard, are forming a silver club in that city.

The "Farm, Field and Fireside" is a good publication in interest and for the benefit of the farmer and ranchman. It is printed in Chicago at only \$1 per year.

The youth of Mr. Bryan, candidate for president, is proving a wonderful magnet in drawing young men of the old party fence. They are just tumbling over—think the "dollar of our daddies," which served so well in the past, can be made to serve while yet, without Great Britain's consent.

"The Pacific Northwest" is a new monthly issue at Portland by the Pacific Northwest Immigration Board, a large 16-page quarto, finely printed and splendidly illustrated with photo-gravures of beautiful coast scenery.

Word reaches us that Miss Rose Williams, who was taken to California from Fishtrap some while since for her health, died on the 12th inst. We have not the particulars as to the place of her death.

Don't fail to read our article headed "Ten Sensible Farmers," 1st column, 4th page, under "Labor Exchange" heading, and save full article is completed and re-read it.

Dr. Strange will go to Bandon next Monday, but will return to Coquille City before leaving the county. Call on him this week for your dental work.

W. J. Wavter, Grand Master for the state of Oregon, is expected to pay an official visit to the Lodge of Odd Fellows of this place next Saturday evening.

We are sorry to state Judge Dyer seems to be gradually failing. His family is gathered about him and hardly expects any change for the better.

T. A. Walker, who took an insane person to the asylum on the 10th inst., returned Sunday. He reports hot and dry weather in the valley.

Postmaster Aiken has been on a high horse the past few days. A fine, big son came to his home last Friday, and this accounts for it.

Mrs. D. P. Strang met with an accident yesterday morning that should be a pointer to the authorities to have the sidewalks fixed at once.

Mrs. S. was walking out near Jim Whetstone's residence with her daughter-in-law, Mrs. Zenie Strang. The latter stepped on a plank, which flew up, tripping Mrs. Strang the elder, throwing her forcibly to the ground, and jolting her up badly, besides scratching and bruising her.

A repetition of such an accident should be provided against. Many nails are sticking up, and others broken off, thus making the walks unsafe.

Mrs. Eugene Pannenburg, of Empire City, and little daughter, Eureka, visited this place Thursday and Friday of last week. She also visited at Arago and Myrtle Point before returning home.

She will visit soon at San Diego for a month or two, where she had lived formerly for several years.

C. A. Snow & Co., of Washington, D. C., Patent Lawyers, whose ad. is in another column, have a solid reputation for procuring patents for inventions in the United States, Canada and Europe.

They will send printed advice about procuring patents free to any address.

Word reaches us that Miss Rose Williams, who was taken to California from Fishtrap some while since for her health, died on the 12th inst. We have not the particulars as to the place of her death.

Don't fail to read our article headed "Ten Sensible Farmers," 1st column, 4th page, under "Labor Exchange" heading, and save full article is completed and re-read it.

Dr. Strange will go to Bandon next Monday, but will return to Coquille City before leaving the county. Call on him this week for your dental work.

W. J. Wavter, Grand Master for the state of Oregon, is expected to pay an official visit to the Lodge of Odd Fellows of this place next Saturday evening.

T. A. Walker, who took an insane person to the asylum on the 10th inst., returned Sunday. He reports hot and dry weather in the valley.

Postmaster Aiken has been on a high horse the past few days. A fine, big son came to his home last Friday, and this accounts for it.

Miss Lizzie Johnson, of Huron, Cal., is on a visit here to her uncle S. P. C. Johnson. She came up with her cousin John.

FOUND—A small package, containing kid gloves and mail order of goods. Call at this office and pay for this notice.

Dr. Darrin in Marshfield

WILL BE HERE TILL AUGUST 8.

An Eminent Specialist—His Success in Treating Disease Simply Marvelous—List of Endorsements from People Who Have Been Cured By Him.

We are pleased to announce that there is a physician in Marshfield—not simply a medical practitioner but a physician of a very high order of merit, a scientist—one whose years of close study, close practical experience has enabled him to draw not only testimonials, but the highest personal endorsements from the leading men of the country—congressmen, judges, etc.—and whose success in the medical field is today without a parallel.

We allude to Dr. Darrin, who has offices at the Blanco hotel until August 8th.

Dr. Darrin has an enviable rank in his profession as a wonderfully successful physician. He is essentially original in his methods of practice, and those who have been under his treatment are surprised at the newness and novelty of his system of practice by electricity.

His honest and straightforward advice before taking a case has won for him the confidence of his patients as well as the general public. The doctor is a gentleman of genial social nature, and his private practice is marked by the formation of a personal friendship with those with whom he comes in professional contact.

He is without doubt one of the most thoroughly qualified physicians now before the public, as his wonderful cures can testify.

Ex-Mayor C. H. Hill's son, of Albina, Oregon, cured of an offensive discharge of both ears since five months old.

UPPER - RIVER DEPARTMENT.

Myrtle Point and the Upper-Coquille, and What is Going on There.

Baleh & Myers have Caddy Lockwood's neat cottage enclosed.

Prof. Knight was over from South slough visiting his family. He returned to his school Sunday.

Sunday was the warmest day of the season, and the two ice-cream stands in town did a good business.

Arrangements are being made by Judge Bender to send a carriage to Roseburg about the 1st of August after Hon. B. Hermann and family.

Various opinions are being expressed as to what should be done at the St. Louis convention. Next Wednesday will be an eventful day for American history.

Lieutenant Macklin was over from Smith's logging camp last Sunday. Well, that's not news, however, because Marshall likes to be among the young folks.

The Myrtle Point Kids were disappointed because the Coquille boys did not come up Sunday to get beat at a ball game. Some of the little kids say they "dassant."

D. Giles & Son employ over a dozen men at their brick manufactory. Their turnout this season will be superior in quality to that formerly made, as the hot, dry weather is favorable to the enterprise.

Mrs. W. H. Brown arrived home from an extended visit to her parents at Oakland, Or., last Saturday evening. Good thing, for Will began to be counted as one of our merry bachelors, and some say he was very polite to the young ladies.

Col. Jewell Post, G. A. R., of Myrtle Point, has appointed Orvil Dodge, T. M. Hermann and John Bartell as a committee of arrangements for the encampment. They would be pleased to confer with any of the Coquille committee before the program is made up, as their post will furnish short literary exercises if required. Address Orvil Dodge, chairman.

The G. A. R. boys had a pleasant post meeting last Saturday, and they resolved to help make the coming encampment of veterans and pioneers one of great interest.

If the dust is not too thick and the weather is favorable, it is intended to form a procession at this place Friday morning, Aug. 14, and drive to Coquille City with suitable decorations and loaded wagons.

Besides a filibustering squad, there will be fun for the juvenile part of the concourse.

Empire Cityisms.

Empire City, July 20.—We were mistaken about the arrival of Mrs. Seaman, mother of Attorney Seaman, as announced in our last. But she is expected soon.

The sale of the "Duke's" household furniture is exciting our people at present. Deputy Clerk Louis Hazard and Mill Superintendent Rennie seem to be very much interested. Wonder what use they could find for "kitchen" furniture in the clerk's office or the mill?

Court adjourned last Thursday, making a record for short July term on election year.

Julius Brandt got too much "bug juice" aboard last week and armed himself with a knife and went after Bob Hughes, the slugger. Julius was knocked out in the first round, both eyes were closed and he lost a large quantity blood, and is now boarding with Sheriff Gage until the grand-jury meets. Bob was unscathed. Many persons think Julius should be sent to the asylum.

Assessor Hansen is "doing" our town this week.

Lijah is looked for soon.

J. A. Dubell, the nurse and jailor for Albrecht while the latter was in jail, talks of making a trip to Douglas county some time this summer. Sheriff Gage speaks very highly of Mr. Dubell's services, he having proven himself one of the most trustworthy men employed in a like position. He is not the guard who let Albrecht escape.

KRANK.

Scrofula

Makes life misery to thousands of people. It manifests itself in many different ways, like goitre, swellings, running sores, boils, salt rheum and pimples and other eruptions. Scarcely a man is wholly free from it, in some form. It clings tenaciously until the last vestige of scrofulous poison is eradicated by Hood's Sarsaparilla, the One True Blood Purifier.

Thousands of voluntary testimonials tell of suffering from scrofula, often inherited and most tenacious, positively and permanently cured by Hood's Sarsaparilla.

Prepared only by C. I. Hood & Co., Lowell, Mass. Be sure to get Hood's and only Hood's.

Hood's Pills purify the blood, and give strength to the system.

The Coquille valley has been settled for 35 years, and the first settlers who are now living say that this year's crop is the poorest that has ever been known. However, it is believed that there will be a considerable surplus for the market.

The farmers are beginning to calculate on only a half crop, and some assert that unless rain falls soon the yield will be less than one-half of the usual harvest of grain as well as vegetables. The haying is about over and the cutting was lighter than was expected. However the quality is good, as it grew less rank than usual.

The will of the late John W. Brown has been probated and final settlement had at court last week and the property distributed to those whom he made beneficiaries.

The two farms were awarded to the widow of the deceased, and B. C. Shull and David McNair, executors, and their bondsmen, discharged from further liabilities. Orvil Dodge acted as attorney in the case.

The Enterprise man and a number of ladies and gentlemen went out hunting squirrels one day last week, and from the fun they have been enjoying since we conclude that they must have had a good time. It is said that the editor killed a squirrel and yet the bullet did not penetrate the hide nor enter the eyes, ears, nor mouth. The man whose cow was maliciously shot in the neck about that time exonerates the publisher, as he knows now that he aimed differently.

The Myrtle Point Mining & Development Co. held a stockholders' meeting Saturday evening at the secretary's office in this place. All the stock was represented and the company is highly encouraged at its prospects. There is a crew of four men sinking a shaft on their ledge which is making an excellent showing and causing considerable excitement among miners.

The decision of the meeting was to push the development work with vigor, which it is believed will open up a vast wealth within the next ninety days.

Riverton Riottings.

M. Tollar, of Parkersburg, was up last Thursday greeting his old friends with a hearty handshake.

Mr. Burns and daughters, Mrs. Lamb and Miss Effie, came in from Yoncalla last Wednesday. They created considerable excitement in town as being the first parties that passed over our new road in a wagon. They report our road over the mountain as good, but on the Fat Elk bottom it is scarcely passable. That road ought to be repaired.

Mrs. Mary Faugh has become a resident of our town and will remain for some time.

Stacy Lee is having his house painted. A little paint now and then, is admired by the most of men. A house worth building is worth protecting.

Miss Mollie Kinnicatt purchased lot 4 in block 3 of Stacy Lee, consideration \$50.

A petition is now being circulated for a road from Riverton to Lampey creek along the foothills. Let the good work proceed.

The Monmouth State Normal.

The report of the State Normal school at Monmouth shows excellent results for the work of the past year. The Normal enrollment was unusually large. Four states and 24 counties of Oregon were represented in the school. The average age of the students was about 21 years. Of the 361 students graduated from the school during the past fourteen years, 289 are at present engaged in teaching.

A Campmeeting. Bandon, Or., July 12, 1896.

ED. HERALD: There will be a campmeeting held near Bagnell Ferry, on Rogne River, commencing August 7, 1896, continuing over two Sundays. All well-disposed persons are cordially invited.

Yours, respectfully, F. M. SANDERLIN.

Mr. Edison has only once tried to make a speech. It was before a girls' seminary where he had agreed to lecture on electricity. He had engaged a friend named Adams to operate the apparatus while he talked. But when the wizard arose before his audience, he felt so dazed that he simply said: "Ladies, Mr. Adams will now address you on electricity, and I will demonstrate what he says with the apparatus."

I WANT YOU TO UNDERSTAND THAT I'LL HAVE NOTHING BUT THE GENUINE BLACKWELL'S DURHAM! Illustration of a man holding a bag of tobacco.

W. R. Wells, of Olalla, writes to the Plaindealer: The quartz discovery made here by Messrs. Bander & Co., is attracting attention. They put a shaft down 10 feet and at that depth the assay runs from \$9.50 to \$50 per ton. The ledge shows 16 feet in width, and the owners are so sure of the richness of their mine that they are already negotiating for a mill for the mine, and will doubtless have one in full blast within a few months. There has lately been a number of discoveries made near by that prospect well, one of which is the Lamb. This seems to be a mountain of quartz. The company who have located it, intend putting in a tunnel soon to make a thorough test. Indications here now seem favorable for an extensive mining boom for Olalla soon.

Wedderburn Gazette: The corps of U. S. geological surveyors who will work in this district this summer have arrived in Coos and are at work. They will this season make a survey of the Sixes river mining belt, and make a thorough investigation thereof, and no doubt their report thereon will be found of great interest. It is hoped to have the mineral belt in the eastern end of this county surveyed next summer.

The Veterans' Association of Marion and Linn counties will hold its third annual reunion the first week of August, beginning Monday, August 3, and lasting five days.

HILLSBORO'S SENSATION.

Congressman-Elect Tongue Accused of Conspiracy and Unprofessional Conduct.

Hillsboro, Or., July 12.—Zera Snow of Portland and S. B. Huston of this city have brought suit in the circuit court of Washington county against Thomas H. Tongue, congressman-elect for the First district, Jackson Monroe and James Imbrie, clerks of Washington county. In the complaint filed Tongue is charged with having conspired with Monroe and Imbrie to defraud the plaintiffs out of a one-half interest in a judgment for \$2800. The judgment stood in the name of Jackson Monroe, but the complaint alleges that Tongue was fully advised of plaintiffs' ownership of a portion of the same. It is also alleged in the complaint that Tongue is the owner of a second mortgage on a piece of land on which the judgment was a prior lien.

The most serious complication in the charge, however, is the allegation that litigation over this judgment was still pending, and in such litigation Snow and Huston represented Edith Monroe. The claim is made that Tongue has been also guilty of unprofessional conduct.

W. R. Wells, of Olalla, writes to the Plaindealer: The quartz discovery made here by Messrs. Bander & Co., is attracting attention.
