ARAGO WRECKED!

Of Eight Passengers and the Crew

SIXTEEN PERSONS ARE DROWNED!

Our Townsman, Israel Noster, Saved; But Ellis McGraw is Drowned--The News as it Comes to Us from the Bay.

As we go to press the sad news reaches us by telephone from Coos bay that the steamer Arago, the well-known and favorite passenger and coal-carrying vessel of the Oregon Coal & Navigation Co., had attempted to sail from Coos bay, during a heavy fog, and while crossing the bar she came in contact with several heavy swells, which threw her from the channel and against the breakwater, causing a leakage, from which she sank, stern first, in a short time and was dashing to pieces. Boats were lowered, in one of which several persons started for shore, but she capsized on the way, and all were drowned but two--Is Noster of this place and the purser. Our townsman, Ellis McGraw, was in this boat, and was drowned.

Eight were reported drowned at first, but later news says the number is twelve.

Two tugs responded to the rescue and the life-saving crews on the bay and from this river. The fog hung so densely that no object could be seen but a few feet away. Capt. Reed hung in the rigging till rescued and his official services were ended.

LIST OF THE DROWNED.

Comrade Inman of Bandon is pointing the new Lorenz property.

There are a great many of the unfortunate ones in this world, greater in number than those who are blessed with good digestion. To some people the greatest misfortune is not to be able to eat everything set before them. "I suffered for years with Dyspepsia and everything I ate disagreed with me. I was induced to try Simmons' Liver Regulator and was cured. I now eat everything."--M. Brigot, Madison Parish, La.

Wm. Freese and family, who had been camping on the north edge of town for some time, were brought into town and housed last Friday through the efforts of the ladies of the W. C. T. U. Mrs. Freese was thought to be dying, having been sick for some days, and exposed and neglected in camp life, hence the action of the ladies. Mrs. Lyons, Mrs. Leeman, Mr. Heaton and City Marshal Brown were earnestly engaged in ministering to the comforts of all. Mr. Freese and family are from Mohawk, Linn county, and have been on the road to this section several months, camping along the way, during which one child died, and the wife and mother received injuries from which she is suffering now and may die. Mr. Freese has a fine team and good wagon, and under these new conditions of having his family housed during bad weather, if so disposed may be able to pull through. Several of the children, of whom there are five, have been taken into families here and are nicely provided for. Mr. H. claims to have been in the army during the late war, having entered the service in Michigan, but he says he has lost his papers and doesn't remember enough to establish a claim for a pension.

"AT THE PRESENT TIME"

The Silver Question is an Issue and Will Not Down at the Bidding of Its Enemies.

Gus Bennett, in the News, says: "The election of a representative for Coos county to the legislature is not a matter in which the free silver question cuts any figure at the present time."

Why not "at the present time," as well as at the June election, when your brother Joe discussed it among other issues when he canvassed the county?

Why not "at the present time," when the member elect will vote for a United States senator in favor of or against the free coinage of silver--only one step between the people and the enactment of legislation that will enslave the masses and enthroned the greedy money power?

Why not "at the present time," when that is the all-absorbing question for which the people are clamoring and you profess to favor, and yet when the people ask for bread, you "offer them a stone," and when they ask a fish, you tender them "a scorpion!"

Why not "at the present time," when the principles of your party have been declared in clarion tones both in state and national conventions, and you pretend to advocate them, while your brother Joe has deserted his party and flag, county, state and national, and is arrayed with the common enemy to defeat the will and wants of the people?

Why not "at the present time," or at any time, stand up for principle? Shall the people sacrifice this or any hold, for that matter, on the prospect of winning their freedom from the clutch of greed and starvation, merely for the privilege of voting for your brother, to be ever so clever a personal friend and gentleman in the eyes of his fellow-citizens?

No, no, friend of the News; it is not brothers, nor personal friends, nor long-resident citizens who are the issue today and whom the people are voting for or against--it is for life and the right to live, and the right to lift the foot of the oppressor from the necks of the people, that they may once more rise and breathe the breath of freedom as delivered to them by their fathers.

There is more catarrh in this section of the country than all other diseases and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses of 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case that fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by druggists, 75c.

The "Cause of Hard Times."

MR. EDITOR: While A. M. Simpson was making his goldbug speech at Marshfield the other evening, he undertook to tell why we had hard times and said: "Gentlemen, I will tell you the cause of hard times: It is caused by the combinations of capital against labor"--when D. L. Watson patted his foot on the floor and shook his head. This confused Mr. S., and it took him some time to get hold of the Republican string again. But he had only forgotten himself and got to telling the truth in spite of himself. TED.

Mrs. J. F. Bell, Ossawatimie, Kan., wife of the editor of The Graphic, the leading local paper of Miami county, writes "I was troubled with heart disease for six years, severe palpitations, shortness of breath, together with such extreme nervousness, that at times I would walk the floor nearly all night. We consulted the best medical talent. They said there was no help for me, that I had organic disease of the heart for which there was no remedy. I had read your advertisement in The Graphic and a year ago, as a last resort, tried one bottle of Dr. Miles' New Cure for the Heart, which convinced me that there was true merit in it. I took three bottles each of the Heart Cure and Restorative Nerve and it completely cured me. I sleep well at night, my heart beats regularly and I have no more smothering spells. I wish to say to all who are suffering as I did; there's relief untold for them if they will only give your remedies just one trial." Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1.50 bottles for \$5, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

You may not want to vote for "Coquille's interests"--you may have something against the town--but will you sacrifice your own interests and those of the whole people only to strengthen those of the corporations and combines on the lower bay? Well, hardly.

The Methodist church building held unusual audiences last Sunday morning and at night to hear the Rev. Mr. Ross, evangelist. Every vacant spot that could be utilized had a chair placed therein, including the platform at the pulpit, and the house was thronged with earnest listeners. The preacher has stirred up a deep interest and is entertaining and convincing in his manner. He will continue through this week, and the people are cordially invited to attend all the services.

The theory of the intrinsic value of money has been abandoned by the best writers and speakers--Encyclopedia Britannica.

Mr. Buckman holds property in other counties in the state, it is because he can't dispose of it owing to the hard times and scarcity of money brought to us by the g. o. p. and continued in force by the party and principles favored by Mr. Bennett. Mr. Buckman is a taxpaying citizen, all the same, a farmer, intelligent and in sympathy with the people. Vote for him for the legislature, and for your own welfare in doing so.

The Bane of Beauty. Beauty's bane is the fading or falling of the hair. Luxuriant tresses are far more to the matron than to the youth of time. Beautiful women will be glad to be reminded that falling or fading hair is unknown to those who use Ayer's Hair Vigor.
