THE LABOR EXCHANGE.

What is the Labor Exchange.

In the space of a newspaper article we cannot give a comprehensive idea of the Labor Exchange. Hence we shall limit ourselves to general outlines. The fact that the Labor Exchange is attracting just now attention at home and abroad, and has Branches in more than half the states of the union, is part commendation only. We have seen other industrial upheavals flash suddenly over the whole country, then as suddenly collapse and disappear. In order that we may judge properly of a new comer, person or institution, three questions should be propounded. 1st. Who or what are you? 2d. What is your object here? 3d. How do you expect to attain that object? The answer to these questions will enable us to decide whether the new comer should be invited in or bidden to depart.

1st. What is the Labor Exchange? It is an industrial association, incorporated under the laws of Missouri as a benevolent institution.

2d. What is the object of the Labor Exchange? It is to employ labor and save the products thereof for the use and benefit of the producers. Very simple, is it not? But to give an idea of the vast scope of this object, we lay down these questions:

1st. Is it not true that the more machinery we have the more persons are thrown out of employment, and consequently, the more misery in the land?

2d. Is it not true that the ebb and flow of money carries with it industrial activity or depression, "good or bad times," prosperity or adversity?

3d. Is it not true that he who has no money, though endowed with superior degree of skill, talent and morality, yet is dependent on him who has money though destitute of all those qualities? And are such conditions and social relations good and desirable? Are they conducive to that happiness which is the universal aspiration of humanity? Certainly not.

The Labor Exchange aims to harmonize invention and prosperity, so that the more machinery, the more ease and comfort; so that the ebb and flow of gold and silver shall no longer disturb the activity and well-being of man; so that superiors in skill, genius and morality shall no longer bow down to inferiors, though loaded with gold. Behold the new reformation!

3d. How is the Labor Exchange going to attain its object?

1st. It aims to gain the good will of all classes by abstaining from the abuses and vilifications which have been the prominent characteristics of reform associations both industrial and political. The Labor Exchange is optimistic in principle. It does not believe that there is a natural inclination in man to injure his fellow man. It believes that the nature of man is pre-eminently good and philanthropic.

2d. By demonstrating, with object lessons, that money is not an ingredient in the composition of wealth, nor a factor in its production; and that "good times and hard times," prosperity and adversity, which are attributed to the presence and absence of gold and silver or money, are no more nor less than the effect of hypnotism of man's brain and laws issued and enforced in compliance with such hypnotized condition. Hence the remedy for such financial malady should be applied to the brain, and not to inert, unconscious pieces of gold and silver.

The Labor Exchange aims to produce wealth by the only means it can be produced, viz., the DIRECT EMPLOYMENT OF LABOR, and not by the roundabout investments of money. It will substitute the beneficence of co-operation to the warfare of competition. It will capitalize labor and its products, and thus secure to the workers the increase resulting from this work, an increase which under the present system goes to the money-lender as interest.

In this work of reformation, the Labor Exchange adapts itself to all sorts and conditions of persons; it interferes with no private rights or individual opinion; it touches no man's fortune; it seeks to extract no profits from other human beings; it expects no gifts; it asks no favors. It incriminates no class; charges no person or persons for evils due to ignorance and superstition; it contemplates no strike, no boycott, no blacklist, no violence. Finally, it makes no terms with the speculator and breaks no faith with the industrions.

Such is the Labor Exchange, and such its objects and methods.

LOCAL ITEMS.

Our circuit court adjourned last Wednesday.

Lyons' store is now in its new and ample quarters on Front street.

Attorney J. M. Upton of Bandon returned home from court last Friday.

Miss Mary Nosler went to Marshfield on Friday's train, where she will conduct dressmaking.

Charley Strang is moving down from Morras Bro's mill to his own property on the East Side.

Mrs. G. S. Twambly of Empire City visited in this place a few days last week. She was a guest of her friend, Mrs. J. W. Leneve.

Mr. and Mrs. T. N. Johnson, of Coos city, have moved to Coquille with their family and occupy the Norton house, West Side. Mr. J. follows the logging business, and Mrs. J. is a skilled nurse.

Mrs. J. Wes Nosler made a visit to friends in Myrtle Point last week, returning Friday. She enjoyed the trip, and was nothing the worse of it. It has been her first absence from home for a long while.

Sam Nosler is putting up a small home in the North Addition; so, also, is R. J. Dean. This will be ten new buildings within a few weeks, some of them very handsome and capacious structures.

The difference between Pills and Simmons Liver Regalator, is just this: Pills don't go down very easy with most people, and you feel them afterwards. While Simmons Liver Regulator in liquid or powder is very pleasant to take, and the only feeling that you have afterwards is the great relief that it gives from Constipation, Biliousness, Sick Headache and Dyspepsia. It is a mild laxative and a tonic.

Coquille improvement is calling into use many who have been waiting and watching for a job a long while. Grover's term draweth to an end, and it is known to the people—they feel it in their bones—that McKinley will not take the place to carry out the same policy, but Bryan, Bread and Butter are at hand and prosperity in the air; in other words, "confidence is being restored."

Jerry Huntley, esq., late Republican candidate for joint representative of Coos and Curry counties, visited our county seat and this place last week. Mr. Huntley has had served notice of contest on W. H. Nosler, on the ground of ineligibility of the latter to be a representative. When Mr. N. was nominated by the Populists, the fact that he was constitutionally disqualified was not known, and his canvass was prosecuted honestly and earnestly to a successful result. It was later discovered by his party that he was ineligible and an effort made to get him to resign and open the way for a new election, but he took counsel of false friends and hoped to be made eligible by "voting right" and gaining the friendship and influence of the majority, who would be the judges of the qualifications of members in that body. It was urged, too, that "voting right" would certainly give him his seat, and allay any disposition of his new-made friends to make a contest; but the contest has come, just at the moment that his peace, calling and election had been thought secure. Now, the chances are, that a Republican who was not elected will be seated to misrepresent a strong Populistic constituency—all through the stubbornness of Mr. N. and the advice of those who voted against him, but have since wrecked his popularity and future political usefulness by a pretended friendship toward him.

Effect of Our Jetty Improvements.

[Bandon Recorder, Oct. 9, 1896.]

EDITOR RECORDER: We wish to make a few remarks through the columns of your valuable paper in regard to the jetty improvements at this place. Until last year the average high water on the bar was 9 feet, but since the extension of the south jetty last year, we now have, and have had, an average depth of 12 feet and have had even 14 feet of water, allowing vessels which come to this port to depart as soon as loaded, whereas before that time, these same vessels were compelled to lay over sometimes for months, before the channel deepened sufficiently to allow them to go to sea. Now with further improvements on both jetties the entrance to this river could be greatly improved and a depth of water be obtained to allow larger vessels to come into this port, especially now, as the coal mines along this river are being opened up, and which produce, not only large quantities of coal, but also of better quality than any other on this coast.

We are watching the channel of this river, and also observing the depth of water on the bar almost constantly, and we know the importance of such jetty improvements, and also the benefits obtained therefrom, as deeper water on the bar reduces the dangers in vessels coming to port and going to sea to a minimum.

LIFE-SAVING CREW.

A Difference.

"As I understand it, doctor, if I believe I'm well, I'll be well. Is that the idea?"

"It is."

"Then, if you believe you're paid, I suppose you'll be paid."

"Not necessarily."

"But why shouldn't faith work as well in one case as in the other?"

"Well, you see, there is considerable difference between having faith in the Almighty and having faith in you."

The Chetco is all right, and has double the power of the Moro. When her new machinery is brightened up some with use, she will make quick trips to and return from San Francisco.

C. W. Paterson, the artistic marble worker at Marshfield, has been filling some orders from this place the past week. He put up a handsome monument at the grave of Fred Lyons at Masonic cemetery, and had other orders nearly completed. Read the advertisement in the HERALD.

The editor of the News cannot carry water on both shoulders. He cannot be consistent and advocate certain principles and vote for a candidate who is opposed to them. No, Gustavus, the people are not to be deceived any longer—they have studied the issues and will vote for their own interests.

IS YOUR NERVE GONE?

Dr. Chascot's Kola Nervine Tablets Will Restore Nerves, Brain, Blood and Muscles to Health and Vigor.

The Kola nut has been used for centuries by Africans as a renewer of the tissues and a preventer of fatigue.

Dr. Charcot, the eminent authority on nervous diseases, prepared a prescription from Kola which he vouched for as a true specific in all nervous diseases and a sure invigorator for the blood.

Dr. Charcot's Kola Nervine Tablets are prepared upon the above mentioned prescription from the fresh nuts especially imported from western Africa.

Kola is not a cure-all. It is a food for nerves, brain and muscles and a tonic for the blood.

Kola Nervine Tablets are absolutely certain and speedy in their effects. They cure all nervous diseases, prevent fatigue, renew failing vigor, give tone to the whole system.

Kola Nervine Tablets cure sleeplessness and the nervous troubles from which sleeplessness comes. They are specific in cases of nervous dyspepsia.

The druggists say the demand for the Tablet is astonishing. Kola is what the debilitated want.

Thousands of packages have been sold. Good effects were felt at once.

Hundreds of letters say: "One package of the Tablets, costing $1, has done for me what physicians, who cost me $100, failed to do."

We absolutely guarantee that no harmful or secondary effects are felt from the use of the Tablets.

Can you, in justice to yourself, refuse to pay 3 cents a day for sure relief from neuralgia, bloodlessness, brain fatigue, sleeplessness, nervous dyspepsia, loss of vigor, melancholia, and all the evils resulting from a nervous condition? Ask yourself the question with all seriousness.

Dr. A. C. Sherwin is one of the best physicians in New England. He writes:

"Hotel Pelham, Boston, Dec. 6th, 1895.—Gentlemen: I am prescribing Dr. Charcot's Kola Nervine Tablets for Nervousness, Insomnia, Dyspepsia and Neuralgia, with excellent results. I have no hesitation in stating that they are infallible in all forms of nervous diseases. Their invigorating properties are wonderful.

"Yours truly, A. C. SHERWIN, M. D."

Edward Everett Hale, D. D., the famous author of "The Man Without a Country," in an editorial in the Boston Commonwealth, and later in a personal letter, wrote thus:

"I am assured by a careful inquiry among leading physicians and personal friends who have used them and in whom I have the utmost confidence—that Dr. Charcot's Kola Nervine Tablets are invaluable in insomnia and all nervous diseases.

"EDW. E. HALE."

John Goodman put up a substantial brick flue at A. C. Wilson's residence quarters at the rear of his new blacksmith and wagon-shop.

The logging camps above town have 3,000,000 feet of timber ready to deliver on the bay before a rise in the river sets in. The railroad is delivering them now night and day.

Schoolhouses should be put as near the centre of the district as possible for the convenience and benefit of all. So should a county seat be in or as near the centre of the county as would serve and benefit the masses of citizens. No one citizen nor community has a cinch on the balance of the people.

Nervous Shock.

E. W. JOY COMPANY—Gentlemen: This is the first time I have attempted so write for three years. Have been to nervous and weak that I have aid in bed most of the time.

A friend who had taken your Sarsaparilla sent me two bottles. The second one is most gone, and I have gained twenty pounds, and surely feel a new woman I was pale, thin, no ambition. Had given up, as I had tried so many remedies and doctors, but found no benefit. If you care to publish this you have my consent, (Signed)

625 Kearney street, San Francisco, Cal.

Two years ago, at 38, I was a consumptive, dyspeptic, emaciated, debilitated, dying man, weighing but 120 pounds. Now, at 40, I weigh 170 and am in perfect health. Such are the wonderful results of using Swamp Angel Medicine for two years when any symptoms of disease showed themselves.

When the scientific men of the world, and all the health boards of the large cities informed the public that consumption, and the most malignant and fatal diseases, were caused and produced by living bugs, germs or microbes, I then determined to find a germ or microbe killer. I then bought and tested every preparation on sale for throat troubles, bronchial affections or consumption. I could not find a germ or microbe killer in the entire lot of medicines. I then commenced to experiment with nophthol, and produced a medicine similar in effects to Hydronaphthol. While my medicine was very strong, yet, I could drink it like water. But the most wonderful thing was that one drop would not only kill millions of germs and microbes, but would instantly kill any large insect. I named this remedy Swamp Angel Medicine in honor of the Swamp Angel canon, a gun very destructive to enemies but harmless to its operators, its friends. Even so, Swamp Angel Medicine destroys all lower germ life, the cause of human disease. Under heat, this medicine dissolves into gas, air, and can be inhaled directly into the lungs, thereby killing all germ and microbe life on these organs. Like lightning, this same medicine will rush through the skin, and therefore kill any ache or pain from a common toothache to a severe neuralgia or rheumatic pain. Every family should have a bottle. Cut out the ticket on this page and get one.

CATARRHAL DISEASES, the Symptoms, as Described by Leading, Scientific, Medical Men.

CATARRH OF THE HEAD

Is the most prevalent form of Catarrh, and results from neglected colds.

Is the breath bad
Do you spit up slime
Do you ache all over
Do you blow up scabs

Does a deposit form when left standing
Have you a chilly feeling down the back
Do you see spots floating before the eyes?

Catarrh of the head, throat, bronchial tubes and ears are all directly the result of germ or microbe life—living minute lice—and the same can be removed with the only germ killer on earth; the only germ killer that is harmless to human beings, Swamp Angel Medicine.

Liver Pills!!

Swamp Angel Liver Pills act with the greatest ease and the least irritation. Be sure you take no substitute. Small box, 10 cents, large box 25 cents, by mail.

FEELS LIKE A NEW MAN.

Lapell, Ind., Dec. 10, 1895.

Dear Sirs:

I received your medicine all right and it is doing wonders. I have been troubled with La Grippe and Catarrh, and I do believe your medicine will cure me of both. Already I feel like a new man.

Yours, truly,
SAMUEL DURANT.
