Frank Strang is making a successful book agent, even in these hard times. But, then, we don't wonder, when he represents two of the most valuable and low-priced publications as those for which he is canvassing. "The Students' Compendium" should be in the hands of all our youth. It has 440 pages of beautifully illustrated information for young men and women for education, in training the voice, reading and speaking, gesturing and physical culture, and as manual of health and beauty. Price is only \$1.50. He also has "The Story of our Country—Progress and Achievements," a compendium of historical facts, of 640 pages and over 200 new and fine engravings illustrating that which is best, noblest, most interesting and inspiring in the history of our land we live in. Price only \$1.50. Both are beautiful and useful publications, and parents or teachers could make no more appropriate holiday presents.

\$38,617.82.

The Marshfield Sun, News and Mail, and the Myrtle Point Enterprise, and persistent writers to the same, are glorying in their share of once having run the county into a debt of \$100,000, and are using it to frighten citizens against re-occupating the county seat.

Yet last week's Sun published the official semi-annual financial statement for six months ending September 30, 1896, which places Coos county's liabilities at \$38,617.82.

There is more catarrh in this section of the country than all other diseases and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses of 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & Co., Toledo, O.

Mr. Kerrigan, living near the creamery above town, last Saturday delivered a sack of potatoes, the Seal Paw variety, at this office, that are a marvel. Mr. K. gathered 39 potatoes from one stalk. Cut and see them.

Another work is "Our Best Speaker," for home and school; 464 pages, 40 full-page illustrations illustrating Delavarte gestulations, physical culture, etc., and selections of prose and poetry for recitations and instruction in voice culture, etc. Price, \$1.50. Our Lee communication reached us far behind time, for some cause, and instead of publishing it we extract two or three living items from it. A private school will be taught at the Lee schoolhouse, beginning November 19th. Prof. Robison is the teacher. R. H. Mast and family of Bandon spent a week or so visiting relatives and friends in the neighborhood. A dance at L. Chandler's residence on the night of the 17th was most enjoyable to a large number of young people.

Dig down to the cause of your sickness, if you want to get well and stay well. Most likely it's indigestion. The irritating poisons of fermenting, putrid food, left in the stomach by indigestion, cause headache, neuralgia, nervousness, dizziness, stomachache, nausea, irritability, and all the other well-known symptoms of indigestion.

They also cause many pains and disorders which are often laid to other causes and hence are not easily cured. But as soon as the poisons are removed, all these symptoms and disorders disappear, because there is nothing left to cause them. Nothing succeeds in this like Shaker Digestive Cordial, because it prevents the undigested food from fermenting in the stomach and helps the stomach to digest its food.

Sold by druggists, price 10 cents to \$1.00 per bottle.

Bald Attempt at Robbery.

Wednesday evening of last week, at about 10 o'clock, while the night-watch of the Parkersburg cannery, Ed Canterbury, was absent for the purpose of dispatching a messenger for the doctor for his sick wife, two masked men went into the office and ordered A. H. Symonds, the foreman, and who was still working on the books, to open the safe. This Mr. S. positively refused to do. The masked men then assaulted him, one of them knocking him down with a heavy revolver, and the ruffians beat him severely.

To divert them, he told them the outside door of the safe was open, and upon release Mr. S. snatched the mask off one of the culprits. This made the situation of the robbers somewhat uncomfortable, who then hurriedly fled.

[We have not been able to get further information, without interfering with possible arrests.]

Three bodies were recovered early last week from the wrecked Arago, recovered by the life-saving crew. They were George Patience, registering from Beaver Hill; F. Speck, a stranger, and H. Saunders, a sailor. The bodies were discovered on the surf near the wreck. Reports came later in the week that two other bodies had been picked up, and that one was the remains of our late townsman Ellis McGraw, but the rumor was an error. Mr. McGraw, the father, arrived at this place Friday on his return to his mining operations in Douglas county. He was in company with J. Walters, of Oakland, father of young A. R. Walters who was drowned at the same time. They had scoured the beach from the jetty to twelve miles north and along the bay shore, but gave up the search as futile.

The run of salmon on the Coquille this season was never so small, and there have been several conjectures as to the cause. The opinion that received special prominence was that of washings from the woolen mill, but within the past fortnight the run has increased immensely. In view of the lateness of the run, the governor was petitioned to extend the open season, and word is received that the request has been granted for a term of two weeks from last Friday night—Oct. 30. The fishermen had been much put out and discussed the cause from many standpoints. If the lateness was caused by the dye washings from the woolen mill, it is explained that the late rains have cleared the water of the offensive matter and the fish come in. The canneries are in good running order, and fish so plentiful outside that it would be a pity so great an industry on this river should be injured through neglectfulness and disregard of law by any other industry. Every suspicious cause should be removed.

How to Ward off an Attack of Croup.

In speaking of this much dreaded disease, Mr. C. M. Dixon, of Pleasant Ridge, Pa., said, "I have a little girl who is troubled frequently during the winter months with croupy affections. Whenever the first symptoms occur, my wife gives her Chamberlain's Cough Remedy, and the result is always prompt and satisfactory." This remedy is used by thousands of mothers throughout the United States, and in many foreign countries, and always with perfect success. It is necessary to give it freely when the children become hoarse or as soon as the croupy cough appears and all symptoms of croup will disappear. For sale at 25 and 50 cents per bottle by Dr. S. L. Leneve, druggist.

Vote for Bryan and American money.

Teachers' Examination.

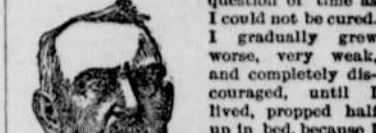

Notice is hereby given that for the purpose of making an examination for all persons who may offer themselves as candidates for teachers of the schools of this county, the county school superintendent thereof will hold a public examination at Marshfield, commencing on Wednesday, at 1 o'clock p. m., the 11th day of November, 1896.

Teachers who are eligible for state certificates and diplomas must make application at the same time. Dated this 24th day of October, 1896. J. H. BARKLOW, County School Superintendent.

HEART DISEASE, like

many other ailments when they have taken hold of the system, never gets better of its own accord, but constantly grows worse. There are thousands who know they have a defective heart, but will not admit the fact. They don't want their friends to worry, and don't know what to take for it, as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Dyeville, Ohio who writes June 18, 1894, as follows:

"I had heart disease for 23 years, my heart hurting me almost continually. The first 15 years I doctored all the time, trying several physicians and remedies, until my last doctor told me it was only a question of time as I could not be cured. I gradually grew worse, very weak, and completely discouraged, until I lived, propped half up in bed, because I could not get down nor sit up. Thinking my time had come I told my family what I wanted done when I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking Dr. Miles' New Cure for the Heart and wonderful to tell, in ten days I was working at light work and on March 19 commenced framing a barn, which is heavy work, and I haven't lost a day since. I am 55 years old, 4 ft. 4 1/2 inches and weigh 250 lbs. I believe I am fully cured, and I am now only anxious that everyone shall know of your wonderful remedies."

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1.00 bottles for \$5 or it will be sent prepaid on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

Dr. Miles' Heart Cure Restores Health

A singing class was organized last Friday night at the little church by Prot. Millard. There was a good attendance, notwithstanding the rain storm, most of whom subscribed for a course of instruction. It is to be hoped that with the instruction given at the Collegiate Institute and in outside music classes we shall have a community of good musicians, giving us both refinement and entertainment. The music class will meet next Friday night again and begin a course of instruction. Now is the time to start in.

A miner who, among the many others at Newport, trade considerably to Marshfield to trade, complains that the Marshfield papers are bragging so much about the good roads they have made between that place and Empire, yet they get no trade from Empire. Moreover, the general public gets no particular benefit from the expensive improvements, but we see by the same papers that it is now a fine drive for their horsemen and sporting men, for the lawyers and gentlemen of means! Why is not some of that ashes from the dump put on the road to Libby? If it had been thus, Mr. Bennett, the friend of the miners, might have reached Libby at less cost than \$200 at the time of having an attachment served on the coal company to secure their wages.
