We live in a country of which the principle scourge is stomach-trouble. It is more widespread than any other disease, and very nearly, more dangerous.

One thing that makes it dangerous is that it is little understood. If it were better understood, it would be more feared, more easily cured, less universal than it is now.

So, those who wish to be cured, take Shaker Digestive Cordial, because it goes to the root of the trouble as no other medicine does. The pure, harmless, curative herbs and plants, of which it is composed, are what render it so certain and at the same time, so gentle a cure.

It helps and strengthens the stomach, purifies and tones up the system.

How to Relax. Cold weather, whether damp or dry, will produce, even if we are extremely careful, sudden soreness and stiffness of the limbs and muscles. This is much owing to sudden change of temperature from a warm room to outdoor air.

Cold contracts and warmth expands or relaxes, and it is for this reason that when one is sore and stiff from sudden cold, the application of St. Jacobs Oil brings immediate and sure relief, as it gives warmth and relaxation to the stiffened muscles and makes supple the sore and cramped limbs. With a vigorous rubbing with this great remedy for pain, no one need suffer with soreness or stiffness more than a very short time. It is especially the best remedy for suffering where we require a prompt cure, and it is particularly the best because it cures are permanent.

A dear friend advised me to try Dr. Miles' Restorative Nervine. I took 2 bottles and am happy to say, I am in better health than ever.
