People of Coos and Curry, will you rally to the support of the school? Be assured every dollar you spend on the school will be used to enlarge its facilities and thus increase its usefulness. The Kansas editor sarcastically announced that he wants to buy a sack of flour, a pair of three-ply pants and a hat, and is ready to receive bids for the same. He says that is the way some merchants do with him when they want two dollars' worth of printing.

One of the worst cases of "mother-in-law" in high life is the suit of Earl Russell against his wife's mother, Lady Scott, who accused him of unnamable crimes, for which she is on trial. It all came out of yachting. Whichever side is wrong, the case presents British aristocracy in a most repulsive light.

S. F. Star: Mrs. Susie B. Martin, who killed her worse than worthless husband because of continued and most brutal abuse and neglect, was acquitted by a jury upon the untenable ground of insanity, when it should have been justifiable homicide. Judge Wallace, therefore, caused her to be tried for insanity, and the jury pronounced her sane so that she is now free. The feature of the case, unnoticed by the daily press, is that this drunken, brutal politician was employed in the county clerk's office \$150 a month.

Portrait of D.W. Marion, President of the Swamp Angel Medicine Co. with text: "Two years ago, at 38, I was a consumptive, dyspeptic, emaciated, debilitated, dying man, weighing but 120 pounds. Now, at 40, I weigh 170 and am in perfect health. Each one the wonderful results of using Swamp Angel Medicine for two years when every physician of disease showed themselves unable to find a cure or relieve me. When the scientific man of the world, and the most malignant and fatal diseases, were caused and produced by living bugs, germs or microbes, I then determined to find a germ or microbe killer. I then bought and tested every preparation on sale for throat troubles, bronchial affections or consumption. I could not find a germ or microbe killer in the entire lot of medicines. I then commenced experiment with Swamp Angel, and produced a medicinal similar in effects to Iodo-naphthal. While my medicine was very strong, yet, I could drink it like water. But the sweet wonderful thing was that one drop would not only kill millions of germs and microbes, but would instantly kill any large insect. I named this remedy Swamp Angel Medicine in honor of the Swamp Angel canon, a gun very destructive to enemies but harmless to its operators, its friends. Even so, Swamp Angel Medicine destroys all lower germ life, the cause of human disease. Under heat, this medicine decomposes into gas, air, and can be inhaled directly into the lungs, thereby killing all germ and microbe life on these organs. Like lightning, this same medicine will rush through the skin, and therefore kill any ache or pain from a common toothache to a severe neuralgia or rheumatic pain. Every family should have a bottle. Cut out the ticket on this page and get one."
