

THE LABOR EXCHANGE. A PLAN OF EASY EXCHANGE.

Beneficial Influence of Gold Upon Trade—Labor's Products Should Be the Basis of Our Financial System.

S. J. Clark, an organizer of the Labor Exchange movement, addressed a large audience yesterday afternoon at 909 Market street.

"The subject of my address," he said, "gives the essence of the condition of the United States. If fifty years ago this country had been divided in two parts and one part had adopted the gold standard for its financial system and the other had taken as a financial system the simple exchange of the useful products of labor what would the result now be?"

"Orators keep telling us they have told us from the foundation of the union, that the United States is the best country on earth. It has inexhaustible resources and its people are the pick of all the nations. This country has advanced in the industrial science and arts greater than was ever expected, but what have we got for it all? Nothing but a condition of poverty and suffering. Our system of exchange is all wrong. That accounts for it. What we want is a simple exchange of the useful commodities we produce. It is a simple business proposition. We have the best spot on earth to produce all the commodities we need, but we must have some facilities to exchange them after they are produced."

"When this nation was founded the establishment of a financial system was left to designing men. They fixed a system that has placed in the hands of a few the power to extract the profits from the producers. It has been growing worse and worse and now the money powers dictate terms to the world. The industrial masses are in debt thirty times over all the money in the country and we are going deeper and deeper into misery paying the interest on it. There would be no reason for the failure of the people to build up this country of our forefathers had the wisdom to adopt a rational financial system. The people have the right and the power to establish a system for themselves and the principles of a Labor Exchange is the beginning of the establishment of such a system."—S. F. Examiner, March 8.

Will Organized Labor Uprise?

No man outside the status of a tramp likes the thought of depending on charity. It is a queer combination when the hand that does out the charity relief belongs to the man who made charity a necessity, and yet that is the present condition of affairs in many of our large cities, when the laborer out of work cannot strike at the rod of suffering without bruising the hand of charity. The subscription lists for relief funds today are signed in bold characters by the rich operators who yesterday cut wages, reduced their force or closed the doors to labor entirely. But the cause of the present suffering dates back of today; it goes back to the day when the unsuspecting toiler worked industriously and contented for the men who were then weaving the web of cunning powerful trusts and combines that would control the finances of the nation and the world, beat down the wages of the laborer and the price of his products. The result has been the accumulation of a few princely fortunes and the poverty of a multitude. The end as yet no man can see. Will it end in the uprising of labor, maddened by its long bondage to capital, or will the wisdom come that will awaken capital to the cruelty of its charity?—The Union Scout.

The Other Side—The Amity Branch is doing a flourishing business. They have a store and deal in groceries and clothing, also ship farm produce. This branch cleared \$75 last month. Ira Martin is their energetic manager, J. W. Martin is president.

The labor check system continues to spread, and if it keeps up it will not be a great while till every idle man will have all the work he can do. This of course will cause a weeping and a wailing and a gnashing of teeth among the goldbugs, but humanity will flourish all the same.

The Labor Exchange solves the question of how to employ the unemployed, which is the most important question now before the American people.

The Labor Exchange people of Ukiah, Oregon, expect to have their factory in full blast within two months, turning out all kinds of wood work.

Men are now discussing the money question like they did the tariff. The less they know about it the more they talk.—Littitz (Pa.) Prohibitionist.

A pleasant surprise party was given at Charley Strang's residence last Tuesday night in honor of Misses Amanda Kowan and Lilly Stillwell. Quite a number of young folks, friends of the young ladies, participated, while the host and hostess, Mr. and Mrs. Strang, spared no pains to make it a pleasant affair.

If there is any one thing that needs to be purified, it is politics, so the reformer says, and many agree thereto. But blood tells, and as a blood purifier and liver corrector Simmons Liver Regulator is the best medicine. "Use it in preference to any other."—So wrote Mr. S. M. Hysell, of Middleport, Ohio. And Dr. D. S. Russell, of Farmville, Va., writes, "It fulfills all you promise for it."

The entertainment given at Fairview by Prof. G. W. Doney's music class and friends, on the 6th inst., is said to have been very successful. We have the program and would give it, but for the fact that it was not carefully made out and we should have to omit some of the numbers, which would not be satisfactory. The glee choir rendered several choruses and part songs very creditably, and the recitations and dialogues were entertaining and generally well performed, making a very enjoyable time.

Dangers of the Grip. The greatest danger from La Grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for the grippe, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventive of that dread disease. It will effect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by R. S. Knowlton, druggist.

Salem, March 14.—The county judges of the state are seriously considering the matter of holding the state taxes in the several county treasurers, instead of paying it over to State Treasurer Metcalf, inasmuch as he will be called upon to pay out a very small part of the state funds until an appropriation bill is passed. Judge Terrell, of Clatsop county, relative to the matter, and stating that a convention of the judges is to be held in Portland the 18th inst., when it is the purpose to agree, if possible, upon a concerted action. Judge Terrell is inclined to the opinion the county treasurers should pay over to the state as usual.

The members of the lower house of the Washington legislature last Thursday presented to the Populist speaker, Chise, as a token of their good will, a handsome gold watch and chain. The gift was from all the members, Populist, Fusion and Republican, and the presentation speech was made by Kittenger, Republican.

"FACTS"

FROM DENVER, the big western reform newspaper which reaches 100,000 readers every week, although only 47 weeks old, is filled with reform news and stirring articles from such well-known and powerful writers as Rev. F. F. Fasson, Eugene Bloodgood Beebe, Myron W. Reed, Henry Cohen, W. S. Morgan, and a host of others, equally prominent.

To make you acquainted with Facts is to make you a regular subscriber—for you can't get along without Facts—consequently for a short time, we make you this reckless offer: For 10c, we will send you Facts every week for 10 weeks on trial and a copy of "Morris England," the book which so startled England that for nearly a year 100,000 copies a month have been sold. The work contains about 3500 words, and we send it complete and unaltered with Facts 10 weeks for only a dime. We want 50,000 new readers immediately, and trust that every individual reader of this paper will take advantage of this offer at once, before it is withdrawn, as we reserve the right to return all moneys received from above offer which reaches us later than 30 days from date. Don't disappoint us, but sit right down today and write the publisher—The Reed Publishing Co., 1509 Larimer street, Denver, Colo.

D.W. MARION, President of the Swamp Angel Medicine Co.

Two years ago, at 38, I was a consumptive, dyspeptic, emaciated, debilitated, dying man, weighing but 120 pounds. Now, at 40, I weigh 170 and am in perfect health. Such are the wonderful results of using Swamp Angel Medicine for two years when every symptom of disease showed themselves.

When the scientific men of the world, and all the health boards of the large cities informed the public that consumption, and the most malignant and fatal diseases, were caused and preserved by living upon germs or microbes, I then determined to find a germ or microbe killer. I then bought and tested every preparation on sale for that purpose, but all failed to cure my consumption. I then commenced experiment with naphthol, and produced a medicine similar in effects to Iodo-naphthol. While my medicine was very strong, yet, I could drink it like water. But the most wonderful thing was that one drop would not only kill millions of germs and microbes, but would instantly kill any large insect. I named this remedy Swamp Angel Medicine in honor of the Swamp Angel canon, a gun very destructive to enemies but harmless to its operators, its friends. Even so, Swamp Angel Medicine destroys all lower germ life, the cause of human disease. Under heat, this medicine dissolves into gas, air, and can be inhaled directly into the lungs, thereby killing all germ and microbe life on these organs. Like lightning, this same medicine will rush through the skin, and therefore kill any ache or pain from a common toothache to a severe neuralgia or rheumatic pain. Every family should have a bottle. Cut out the ticket on this page and get one.
