

THE LABOR EXCHANGE.

Some Cold Facts.

It sometimes becomes necessary—for the welfare of mankind—to measure out in small doses an occasional prescription made up entirely of cold facts, unpleasant as they are to some, and especially so to those who are wilfully their own source of distress.

Value and Price.

What is the difference between price and value? Most people get puzzled at once and can see no difference. We wish to prevail upon our readers to think this matter over carefully.

Increasing Daily.

Hundreds of letters are being received at the National Headquarters monthly, making enquiries about Exchange work.

The Labor Exchange aims, in its modest way, to defeat monopoly by overcoming it. It aims to overcome the capitalist system by inaugurating a system here and now which enables its members to produce, distribute and exchange wealth without the aid of the capitalist.

The law permits a great many things which are morally wrong, and prohibits many things abstractly and morally right. The law protects men in the greatest crimes I can imagine and aggresses on the most sacred rights of the people.

The McMinnville labor exchange is about to begin the manufacture of pottery, roofing, tiles, etc.

SPRAINS AND PAINS St. Jacobs Oil the oil. Use it and promptly feel the cure. That's all, but that is something sure.

It's about as hard to break some people of bad habits as it is to break Malarial Fever when it once gets a firm hold upon one. Mr. C. Hiram of Lancaster, Ohio, says, "Simons Liver Regulator broke a case of Malarial Fever of three years' standing for me, and less than one bottle did the business. I shall use it when in need of any medicine, and I recommend it."

Coos Bay News: Fred Webber, formerly of Marshfield, lately sued the Clatsop Mill Co., Astoria, for insurance, and the jury awarded him \$313. He was sawyer in the mill, and a few years ago met with an accident, which has since resulted in the loss of sight of his right eye. It seems the mill company was in the habit of deducting a certain percentage every month from the wages of employes, for accident insurance, but for some reason declined to pay in this instance.

The Empire, which sailed Sunday, had 1300 sacks of potatoes on board, and the Acreta took 1400 more on Monday.

In the marshship contest, the motion to advance cause on docket and hear case on oral argument, was allowed by supreme court, and the hearing was set for March 31st, at Salem.

A California man named Moon was presented with a daughter by his wife. That was a new moon. The old man was so overcome that he went off and got drunk. That was a full moon. And when he got sober he had but twenty-five cents left. That was the last quarter. But when the old lady met him with a rolling-pin there was a total eclipse, with a comet in the distance.

Holland has multiplied her area twenty times; that is it is now twenty times as large as it was 1000 year ago. But they intend to add 787 square miles more by reclaiming another part of the sea. The undertaking calls for an expenditure of \$50,000,000.

Last year the output of cigarettes in this country was 4,150,000,000, or 60 per capita. But as the smokers are estimated to be only a little in excess of 1,000,000, it leaves about 3500 for each one.

Over the door of a Missouri church is an inscription which reads: "This is the gate of heaven." Just below it is another which says: "Close! by the American Loan Company."

Senator Ingalls lowered himself unnecessarily in public esteem by going as a reporter to the Carson prize fight. Verily, a statesman out of a job will do strange things.

Dangers of the Grip.

The greatest danger from La Grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for La Grippe, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventive of that dread disease. It will effect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by R. S. Knowlton, druggist.

The aged Mrs. Delia Parnell, since her arrival in Ireland last year, has lived at the family ancestral mansion at Acreta by permission of the bankruptcy court, in whose hands the family estate now is. She has a pension of \$500 a year from the United States government and that is her sole income now. She is supporting out of it not only her daughter, Mrs. Dickson, but her son, John H. Parnell, M. P., a member of Radmond's party. He is as undistinguished and ineffective as his brother was remarkable and forceful.

Mrs. W. P. Lord spoke at Engene Saturday night, 20th inst., in the interest of flax culture in Oregon, handling her subject in a clear and forcible manner. At the close of her lecture a business meeting was held, resulting in the appointment of a committee to receive subscriptions for stock.

Chicago Record: Major McKinley would do well to borrow General Weyler's trocha. It doesn't seem to be of much use to Weyler, and it would enable McKinley to ward off some of those office-seekers.

Capital Journal "X" Rays.

It is gratifying to know that the city has recovered \$4 on \$5000 of the city funds placed in Mayor Richardson's busted bank.... Yale university students, who sent a college flag and a letter of good wishes to the faculty, and expressed regret that "unwillingly and unwittingly" they cast a slur who would not permit Bryan to speak last fall, but were charmed with the wonderful genius of a Chinatown hoodlum.... The suits to compel Kincaid to pay money that was never appropriated to officials that were never elected are not being brought so fast.... How funny, that the first act of the McKinley Republican administration should be to break itself in two passing a "revenue" tariff bill.... Recovery must be slow, says the goldbug organ, but we suppose it will be awful sure; if we are only not all in our graves when it comes.

Oregonian: The promoters of the flax industry in Oregon have received from many sources encouragement to undertake the work, and in no instance has any discouraging data or estimate been furnished. It is seldom indeed that a proposition to diversify the industry of agriculture of a state meets with such general approval as in this case. It is now only necessary that the approval should be sufficiently generous in a substantial way to inaugurate the culture of flax for the fiber and lay the foundation of an industry that will be a source of wealth to the state in the near future.

D.W. MARION, President of the Swamp Angel Medicine Co. "Swamp Angel" Medicine From Life.

Two years ago, at 38, I was a consumptive, dyspeptic, emaciated, debilitated, dying man, weighing but 120 pounds. Now, at 40, I weigh 170 and am in perfect health. Each are the wonderful results of using Swamp Angel Medicine for two years when every symptom of disease showed themselves.

When the scientific men of the world, and all the health boards of the large cities informed the public that consumption, and the most malignant and fatal diseases, were caused and produced by living bugs, germs or microbes, I then determined to find a germ or microbe killer. I then bought and tested every preparation on sale for threat of tubercle, bronchial affections or consumption. I could not find a germ or microbe killer in the entire lot of medicines. I then commenced an experiment with naphthol, and produced a medicine similar in effects to Ely's naphthol. While my medicine was very strong, yet, I could drink it like water. But the most wonderful thing was that one drop would not only kill millions of germs and microbes, but would instantly kill any large insect. I named this remedy Swamp Angel Medicine in honor of the Swamp Angel canon, a gun very destructive to enemies but harmless to its operators, its friends. Even so, Swamp Angel Medicine destroys all lower germ life, the cause of human disease. Under heat, this medicine dissolves into gas, air, and can be inhaled directly into the lungs, thereby killing all germ and microbe life on these organs. Like lightning, this same medicine will rush through the skin, and therefore kill any ache or pain from a common headache to a severe neuralgia or rheumatic pain. Every family should have a bottle. Cut out the ticket on this page and get one.
