Rev. T. F. Gammage, of Houston, Texas, arrived at this place last Saturday. Mr. G. is a young minister of the M. E., south, and has been brought here for missionary effort and as a helper on this circuit. The editor of the HERALD knew his uncle, Judge Gammage, of Palestine, Texas, intimately, in the '70s, and was also well acquainted with other friends of the young gentleman at Austin, and at the university at Georgetown, of which school he was an attendant. We hope he may find his field of labor agreeable and fruitful.

We learn that Rev. Mrs. Barrett, the evangelist, who has been conducting protracted religious meetings at Bandon, will not come to this place as had been hoped. We understand that she has been called home, though she fully intended to conduct services here. This will be a great disappointment to our people.

Rev. Mr. Stine received a paper from Butler county, Kansas, a few days since, where he had formerly resided, giving him detailed intelligence of the outright killing of an old friend and neighbor, a Mr. Woodyard, and wife and two children, by the cyclone at Chandler, Oklahoma, a few days before. Mr. Stine had read of the fearful occurrence and recognized the names of his friends as among the victims, but this home paper brought the facts before him in a manner as to make him realize the awfulness of the disaster.

The Eli Perkins of the Bandon Recorder still refuses to believe that any damage has been done to the jetty by the storms. So far as the HERALD is concerned, we hope he has good grounds for his position, and will take it for granted that no damage has been done. This refusal, however, of Eli, is more based upon the fact that he would not reveal over the telephone the name of our informant, a prominent, interested, well-informed, and we supposed truthful and reliable, businessman of that place—we knowing that Eli would rather go out of the way and publish a cock-and-bull story about some dynamites and bomb-throwers he imagines he has discovered than to publish matters of concern and interest to the public.

The editor is indebted to two charming lady friends for a delightful serenade last Friday night. We were roused from pleasant slumber by the sweet chords of a mandolin and a guitar, and when we discovered who the parties were, we felt all the more the honor that was granted to us, and the music was the sweeter, being assured of the sincerity of the good-will and kindly sentiments held by the ladies. We thank them, sincerely, for their kindness.

The Shakers have made a great hit. Their Digestive Cordial is said to be the most successful remedy for stomach troubles ever introduced. It immediately relieves all pain and distress after eating, builds up the feeble system and makes the weak strong.

The fact is, foods properly digested are better than so-called tonics. The Cordial not only contains food already digested, but is a digester of other foods. Food that is not digested does more harm than good. People who use the Cordial insure the digestion of what food they eat and in this way get the benefit of it and grow strong.

The little pamphlets which the Shakers have sent druggists for free distribution, contain much interesting information on the subject of dyspepsia.

LAXOL is not a mixture of drugs. It is nothing but Castor Oil made palatable.

Riverton Riotings. Riverton, April 12.—The first coal was dumped into Joseph Perry's bunkers last Saturday. He is now turning rooms, crowding the gangway on and having crossoots and air courses cut; in fact, the Perry mine has begun business operations and will soon ship its first cargo of coal.

The Hotel de Martin closed down Saturday eve last, caused mainly by failure to collect bills for board. That is not right or just. The coal company should collect the bills that is justly due for board.

Death of Elder J. C. Bunch.

Mrs. Watkins received word last week of the death of her father, Elder J. C. Bunch, at Milton, Florida, which occurred March 27th. The old gentleman was well and favorably known in Coos county, and this news will occasion sincere regret to a host of acquaintances and friends, and sympathy to a large circle of bereaved ones, among whom are still here, his aged wife, several sons and daughters and many grandchildren. Elder Bunch was advanced in years, being above the three-score and ten allotment of life, and had eventful experiences therein. He was a resident of our section for twenty odd years, an enterprising, good citizen, respected by all. He was a veteran of the Mexican war, and had been much of his life on the frontier. Mr. Bunch went to Florida on church work, somewhere about a year ago; he seemed to be doing well and had purchased a home, expecting soon to have at least a portion of his family with him, but he took sick recently of some local malady and it was too much for him. The HERALD sincerely extends sympathy to the family and friends in this bereavement.

North Fork Items.

Fairview, April 10.—Reports say that Mr. Wilson of the upper North Fork has lost several head of cattle. We have not heard of the loss of one in this neighborhood, and those that wintered out on the ranges are looking well.

Quite a number of the young men from North Fork went to Coos river to get work. Most of them have returned and report three men to one job.

Uncle Billy Benham, though past his three-score and ten, is still able to make the avul ring, and has the name of being the best plow doctor in these parts.

During the last cold spell Elder Hollenback lost about 300 early cabbage being transplanted from the hot-bed. It was too cold for them.

Cattle buyers are still in the country, and many of our farmers regret that they sold before, as they are now offered more than they sold for.

Quite a number of the Fairview people met at our schoolhouse last Sunday, April 4th, and organized a Union Sunday-school. Now, there is within about two miles of our schoolhouse 19 church members, representing four different denominations, yet there is only one of that number directly connected with this so-called Union Sunday-school. What a strange "union!" PIONEER.

The School and Arbor Day.

The observance of Arbor Day by our public schools occurred last Friday, and although somewhat of an impromptu affair, passed charmingly and agreeably. The day was everything that could be desired, mild and summer-like. The morning session was conducted in the usual manner. A program occupied the first hour of the afternoon, in the following order: The pupils of Prof. Nosler's and Miss Quick's departments were marched into Prof. Hawkins' room and seated. There were a few visitors present—not many parents—including D. F. Dean, esq. of the HERALD, and Mr. Collier and Mr. McEwen of the school board. Then the exercises opened with a song by the school—America; reading of the Law of Arbor Day—Prof. Nosler; recitation by Dollie Skeels; recitation by Henry Adams; recitation by Mary Dickson; dut by George Johnson and Mary Lee Tutell; short address by J. S. McEwen, including the presentation of a handsome globe and Cran's Railway Atlas of the World—which were received on the part of the school by Prof. Hawkins; recitation by Laura Fox; recitation by Bertha Wilkins; recitation by Mabel Hayes; dut, Juanita—Misses Marvin Lamb and Birdie Nosler; closing remarks and instructions about the outdoor exercises, by Prof. Hawkins.

The schools marched out in order, Miss Quick's primary department at the head of the column, Prof. Nosler's next, and the high-school and visitors following, and proceeded to the hill and wood above Mr. Notley's, where ranks were broken and all were free to enjoy themselves, subject to the restraints of the teachers. At 4 p. m. roll-call was answered in the school-rooms and the schools dismissed. The time had been enjoyably spent and no accident of any kind happened.

The festive trout is being taken at a lively rate by some of our fishermen.
