## OF INTEREST TO THE PEOPLE.

### When You Will.

MILES MENANDER DAWSON.

Did poor little children nowhere cry for bread,  
Did no willing son of labor go unfed,  
And the precious food no idler's stomach fill,  
Would you like it? It will be so when you will.

Had each family a roof-tree of its own,  
Were there none unsheltered, friendless and alone,  
Wandering and outcast, desperate and ill,  
Would you like it? It will be so—when you will.

Were there none half-naked in the piercing blast  
By their warm-apparelled fellows coldly passed;  
Were none ragged, none with needless frip and frill,  
Would you like it? It will be so—when you will.

Were there none in garrets shivering with cold,  
While hard-hearted men wring from their torments gold;  
Were not rich men's hearts and poor men's bodies chill,  
Would you like it? It will be so—when you will.

Were all born of healthy stock and strong,  
Did all live together wholesomely and long,  
Did each man his freely chosen part fulfill,  
Would you like it? It will be so—when you will.

Were there none to lackey, none to domineer;  
Were there none of service low and never fair;  
Did men serve their fellows with all zest and skill,  
Would you like it? It will be so—when you will.

—New Occasions.

### UNITY AND ACTION COUNSELED.

A Call Issued By the Union State Central  
Committee to the Reform Forces.

The query as to how a union of reform forces can be formed, and who will make propositions and arrange the conditions looking to this end, is the question of the hour. The state committee of the union party has received many letters from men in touch with the plain people in nearly every section of the state and the universal desire is for a union of forces pledged to reform. I have recently held personal interviews with many men of kindred opinions on this question and have traveled from the Columbia to southern Oregon, holding counsel individually and collectively, and they all want a union of forces on some honorable grounds.

A conference of men representing the principal counties of western Oregon was held at Albany the 8th inst., consisting of Populist, Democrat and independent free silver Republicans. About twenty prominent men were present, including two Democratic and two Populist state central committeemen and all were unanimous for a union of forces. The question of platform will be easy, for the condition of the people is such, and the desire for union so strong, that they are in a singular mind to that of President Lincoln at the beginning of the war when he told the commissioners who were trying to arrange terms of peace between the north and the south, if you will write "union and peace" at the top of the proposition, you can write any terms below. It is plain that Populists will not make unreasonable demands, that Democrats will make all reasonable concessions and Silver Republicans will throw down everything to accomplish a union of forces.

There is a firm determination which culminates in an emphatic declaration, to avoid personal and factional politics. As to United States senator, the reform people will have no choice between a man who will use his great influence to turn the state into the hands of Mark Hanna and bind it to his political policies, or the man who will vote to retire the greenbacks and issue \$500,000,000 in bonds. They will have neither.

There is a strong desire on the part of all honest reformers to go to the people with all propositions on which practicable action may be had. The primary system of nominating officers is wanted, and all who want endorsement should make their appeal direct to the people. In all conferences held, the desire for a union of forces in primary conventions is universal, and though I feel justified in asking the co-operation of the Populist and Democratic state and county committees, I am authorized to recognize any proposition that does not tend to bring about a direct union of the people at the primaries.

The union state convention here last July was represented in person by about 100 delegates from the counties of Jackson, Josephine, Marion, Clackamas, Polk, Yamhill, Washington, Multnomah and Baker. It was composed of able and thinking men of all parties. The platform adopted declared for the free and unlimited coinage of silver at the present ratio, without waiting for the consent of any other nation, and the issue of legal tender paper money by the general government without the intervention of the banks; opposition to the issue of interest bearing bonds in time of peace; emphatic opposition to the

gold standard and in favor of a distinctively American system of finance. They appealed to the people to leave in abeyance for the moment, all other questions, however important and even momentous they might appear; to sunder if need be all party ties and affiliations, and unite in one supreme effort to free themselves from the domination of the money power—a power more destructive than any which has ever fastened upon civilized men of any race or any age, and invoked the gracious favor of divine providence upon the consummation of their desires and efforts.

I was appointed chairman of this state central committee of this union party and have been carefully watching the trend of events. The time is ripe for action. Already the work is beginning; one county sends a petition asking that a committee be appointed consisting of three Populists, two Democrats and one Silver Republican to take steps to call union primaries for the campaign of 1898. This will be done. Another county has held two joint conferences to consider the matter. Another asks for a committee of six, two of each. Several others are discussing the question and getting ready for action. This county won a decided victory in 1896, by a union of forces at the primaries, and will continue solid for union work.

The earnest co-operation of the people in this work is of importance now! Let union picnics and union meetings be held, resolutions passed and sent to the committee. Now is the time to work and not sleep while the enemy sows tares. It is proposed to call a conference, composed of three men from each county, carefully selected from the three elements of the reform forces, pledged to union, to meet at Albany on the 2d day of June, 1897, to devise a plan for systematic party organization, to adopt a proper statement of principles, and to form a more perfect union. No nominations or discussions of candidates whatever will be at this conference. The committee will be glad to receive letters from all parties interested, and especially resolutions and suggestions from union meetings, and to principles and policies.

Newspapers everywhere are respectfully requested to give this call prominence. Communications relating to local work solicited. Address, J. C. Cooper, chairman state committee, McMinnville, Oregon.

### Chinese Will Be Deported.

San Francisco, May 10.—United States District Judge W. W. Morrow today handed down a decision whereby he dismissed the writs of habeas corpus sued out in behalf of Wong Fock and Tsu Tee Mee, two Chinese held for deportation. A novel point was raised in each case. The Chinese were ordered deported by United States commissioners in Arizona and Texas, respectively. The attorneys for the Chinese held that the commissioners had no jurisdiction in the matter. Judge Morrow decided otherwise and the Mongols will be deported.

### The Beam Pool Collapsed.

Pittsburg, May 9.—The rumor is prevalent that the beam pool has collapsed, though local manufacturers will not discuss the matter. The pool was composed of the Carnegie Steel Company, the Lackawanna Steel Company, the Illinois Steel Company, the Chicago and North Western Steel Company and the Jones-Langhams. It is said that within a week prices have dropped from 15.45 cents to 11.95 cents.

### THE SUGAR BEET BELT.

Secretary Wilson Believes There is a Great Future for the Industry.

Chicago, May 10.—A special to the Times-Herald from Washington says: A map of the United States, with a broad red stripe running across it from the Atlantic to the Pacific, will soon ornament the walls of the office of the secretary of agriculture. This map particularly interests two great classes of citizens of the United States—the farmers and the capitalists.

"Having distributed sugar-beet seed to about 20,000 farmers," said Secretary Wilson, "I want to take up the practical end of this subject now and show to the capitalists as well as the farmers where they can afford to make such experiments and enter upon such business investments as are likely to be a success financially and otherwise. We are going into the sugar business in this country in a dead earnest."

"You still have faith, then, in the beet sugar enterprise, from a practical standpoint?" "Undoubtedly; and it is evident that the people of the United States have faith in it. We have supplied in the last few weeks 20,000 farmers with sugar beet seed for experiments during the coming season. They are scattered through practically every state north of the extreme southern line of states. The people as far south as the Carolinas, Tennessee and Texas believe that they can grow sugar beets successfully. And we are quite willing to give them full opportunity to make that test everywhere. If they succeed in extending the beet-sugar territory down to the very line of cane-sugar area, there ought to be no difficulty in producing in the United States all of the \$100,000,000 worth of sugar for which we are going abroad every year.

"The practical business end of the experiment," continued Secretary Wilson, "is the next thing to be taken up. We have supplied people in all parts of the country with sugar-beet seed, and they can now go on with their experiments in growing them."

"You think, then, that there is capital in the country ready to go into the beet-sugar manufacturing business?" "Undoubtedly, and plenty of it. A number of factories are already in process of erection, and people with capital are willing and ready to establish many more, as soon as they determine what sections of the country are best adapted for practical beet-sugar production. I hope to have a broad line extending across that map from the Atlantic to the Pacific in a comparatively short time, indicating the practical sugar-beet belt of the country, in which capitalists as well as farmers may safely enter upon the work of supplying the people of the country with sugar."

"Your other experiment in behalf of the farmers, Mr. Secretary, are making good progress?"

"Yes; our first shipment of butter to Europe in the experimental form is going forward now. The butter has reached New York, several tons of it, from the best creameries in the United States, and in various forms as to size of package, method of production, salting, method of packing, etc. Every pound of butter is so recorded as to its method of production and otherwise, that we know its history and will be able to judge by its reception and popularity what ought to be done in future shipments."

"There is now a gap between the point where refrigerator cars stop in New York and refrigerator vessels start from New York for Europe. We have men there now seeing that the shipments of butter are not exposed to the sun in their passage from one refrigerator system to the other, and have indicated to the railroad people the necessity of covering this gap in some way which I feel assured they will do.

"Shipping our butter by American vessels, as we are doing, I have been able to arrange to have refrigerator apartments set aside exclusively for the butter, so that it shall not absorb odors from meats, fruits or vegetables. In this way I hope to put into the market the best products of our best creameries in the best possible condition. We are going to have our fair share of the English butter market, or know the reason why."

### A Baker City Woman's Suicide.

Baker City, May 10.—Mrs. Pearl Reith died this morning from a gunshot wound inflicted by her own hand on Saturday. Despondency was the cause of the rash act.

Exchange: Lift your hat reverently when you meet the teacher of the primary school. She is the good angel of the republic, and takes the banishing fresh from the home nest, full of pouts and passions—very often an ungovernable quantity whose mother admits she sends him to school to get rid of him. The lady takes a carload of these little anarchists, one of whom single handed and alone is more than a match for his parents, and puts them in the way of being useful and upright citizens. At what expense of toil and soul weariness? Here is the most responsible position in the whole school, and if her salary was double she would not receive more than she earns.

Capital Journal: Mr. Skook, the Salem carpenter who got the contract for building the new courthouse at Coquille City, has returned quite discouraged. He has spent nearly \$100 traveling back and forth, only to find that the county commissioners, court had to annul his contract. This is not due to any fault of Mr. Skook nor of the county court of Coos county, but because warrants are already out for all the taxes levied and delinquent, and that the court has made an error in setting aside enough money to build the courthouse out of these taxes that are already drawn against.

The Southern Pacific Railroad Company's tax on its track in Benton county was paid Thursday. It amounted to \$1018.10 and was paid in gold coin. The same company has to pay the taxes on 40,000 acres of land it owns in the county, amounting to \$857.60, payment of which is expected this week. The total tax the company pays in the county is \$2042.70.

### REAP THE BENEFITS.

Tea Importers Forestall the Tariff Bill by a Sharp Advance.

New York, May 11.—The tea importers have not waited the passage of the tariff bill with its proposed duty of 10 cents a pound upon that commodity, but have advanced all grades of tea from 3 to 5 cents a pound.

The condition of the market, which was very sluggish a week ago, has been changed into one of great activity. The speculators have not been slow to take advantage of the situation, and the rate prices are being pushed up. Wholesale merchants will find themselves compelled to pay the full amount of the proposed duty in the new tariff bill, before the measure becomes a law.

The best plan is to send all cash with order, as you then save the \$10.00 discount. Remember the coupon must be sent with order.

Or make your order direct through the HERALD, as agent, without extra charge.

### "FACTS"

FROM DENVER, the big western reform newspaper which reaches 50,000 readers every week, although only 47 weeks old, is filled with reform news and stirring articles from such well-known and powerful writers as Rev. F. F. Passmore, Eugene Bloodgood, Beebe, Myron W. Reed, Henry Cohen, W. S. Morgan, and a host of others, equally prominent. To make you acquainted with Facts in to make you a regular subscriber—for you can't get along without it. Facts—consequently for a short time, we make you this reckless offer: For 10c, we will send you Facts every week for 10 weeks on trial and a copy of "Merrie England," the best and most startling England that for nearly a year 10,000 copies a month have been sold. The work contains about 50,000 words, and we send it complete and unbridled with Facts 10 weeks for only a dime. We want 50,000 new readers immediately, and trust that every individual reader of this paper will take advantage of this offer at once, before it is withdrawn, as we reserve the right to return all moneys received from above offer which reaches us later than 30 days from date. Don't disappoint us, but sit right down today and write the publishers—The Best Publishing Co., 1509 Larimer street, Denver, Colo.
