OF INTEREST TO THE PEOPLE.

It was a noble Roman, in Rome's imperial day,
Who heard a coward croaker before the Castle say:
"They're safe in such a fortress; there's no way to shake it!"
"On—on!" exclaimed the hero, "*I'll find a way, or make it!*"
—John G. Saxe.

"Once to every man and nation comes the moment to decide,
In the strife of Truth with Falsehood, for the good or evil side;
Some great cause, God's new Messiah offering each the bloom or blight,
Parts the goats upon the left and the sheep upon the right;
And the choice goes on forever 'twixt the darkness and the light."
—James Russell Lowell.

GETTING STRAIGHTENED OUT.

The Capital Journal Now Sees that the Pop Fiatists are Right.

The Salem Capital Journal (Rep.) has ceased to belabor the crank Populists about their idiotic, fanatical and impolitic theories on fiat money, and now comes to their defense in this conservative, sensible manner:

The People's party is going slowly about joining its political fortunes with other political parties without receiving recognition of its fundamental conception of finance. As we understand its history and its platform declarations, the People's party is what is termed in derision a fiat money party, an irredeemable money party. It advocates money without any governmental pledge to redeem that money in some other kind of money. The number of people who are coming to be afraid of any kind of money that has to be redeemed in some other kind of money before it is money is growing very large. It gives the speculator in money an immense advantage to be able to demand such redemption at the hands of the government. Such money is not money in the true conception of the idea of money as a circulating medium. It is not primary money if it has to be redeemed in gold. It is not money at all. It is a promise to pay money, as much as an individual note or a private check on a bank. It is worse than a note because it is subject to demand at any time. It is less desirable than a check because it is redeemable against the entire public interest.

It can be presented over and over again. A check can be presented but once.

Redeemable money, worked as an endless chain to compell the government to issue bonds, has convinced other people besides Populists that the government better not have any money that is only used as buckets to bail out the treasury and increase the bonded debt. The People's party wants free coinage of gold and silver, both to be legal tender irredeemable money. The People's party wants besides paper money that is not redeemable. History will prove this is right. If we have national treasury notes they must not be redeemable unless we want to see the endless chain revolve and force a bond issue ever so often. The McKinley administration is now preparing the public mind for a "popular" loan of $50,000,000 or $100,000,000 bonds to take paper money out of circulation with, which is "redeemable" money.

We believe that the theory of the Independent Bimetallists is the only solution of our financial problem short of the absolute irredeemable fiat money theory of the People's party. The free coinage theory of finance would involve free coinage of gold and silver, without redemption of either. It involves making paper money interchangeable for either gold or silver at the option of the government. We could not have gold, silver and paper money circulate at par unless it was receivable by the government on equal terms and payable by the government on equal terms. But if the government retained the option of paying out either gold, paper, or silver, then there would be practically no redemption of either. Suppose paper was presented for the purpose of making a run on the treasury and the treasury to protect itself paid out silver. The expense of removing silver would be so great that the run would not last. We do not assume that the most extreme Populist would have the government issue unlimited paper money. The Populist platform does not demand that. It does demand free coinage of gold andsilver and sufficient paper money to provide an elastic currency.

The American Bimetallic party demands that. The Silver Democratic platform demands redemption in gold or silver, with the option in the hands of the government as the surest check on the endless chain. But we are glad to have the People's party adhere to its fundamental theory of non-redeemable money. Redeemable money is a snare and a delusion. The fundamental idea of free coinage at an established ratio is that it would give our country a larger volume of primary money to pay both debts with. The gold standard gives us a constantly diminishing standard to pay debts with, until debts are increasing faster than the people are able to pay interest. To make silver money and paper money redeemable in gold besides is a fatal policy that will only lead to irretrievable ruin and national bankruptcy. We want to see the People's party stand like a wall against "redeemable" money of any kind. No compromise along that line is safe after what we have seen of the operation of the endless chain of finance, whereby the government, the people's industries, and the country's resources become mortgaged forever to dead capital and the greed of the goldholder.

ED. HERALD: As an ardent supporter of Mr. Bryan's candidacy for the office of president, I felt keen disappointment at his defeat; still, there is solace in the fact that a majority of the citizens of Coos county cannot be hoodwinked by the misrepresentation of partisans and interested persons. If we possessed an artist with the power of a Nast, a fine picture of tergiversation was presented for his pencil, before election, in the appearance among us of a man from California who made a fortune in Coos county. He came with the avowed purpose of teaching us how to vote so as to obtain an honest dollar. The climax of the farce was his assertion that if McKinley were not elected he could close down his work. Thirty-seven years ago he did not talk quite so loud about a lockout; but "wait till the clouds roll by," next week.

The wealth of the country is being absorbed by the few, in which they are aided by special legislation; and, in proportion to the increase of their holdings, they depreciate the reward of labor. The result is seen in the ever recurring strikes, lockouts and the dismal array of tramps. With reference to the unemployed, England, with a far more dense population, is not in as poor condition today as the United States with an almost unlimited agricultural area. Notwithstanding this deplorable picture, the thieves who protect themselves by purchasing legislation and corrupt judges, are straining every effort to introduce Chinese labor. The man who would introduce cheap labor into a section where his own countrymen are roaming in want and unemployed, is a fiend, and his disappearance or taking off would be a virtue--a blessing undisguised. All such monsters may be classed with murderers.

The United States, or what was, at one time, colonies of Great Britain, broke away from the control of England, and formed a republic on the lines of greater freedom and government by the people. What kind or class of people rule us now? The class that rules England. The kings of finance, who, to gain their own ends—the appreciation of gold—would sink every human being into perpetual slavery. In war, they fatten but do not fight; in peace, they extort, for every dollar loaned, a hundred, aye, a thousandfold. They govern these United States today, and pay not a just tribute to its support. "Government gets its power from the consent of the governed." Show me the individual who believes in that legend; who has faith in its accomplishment under present conditions, and that it is carried out according to the terms of its construction, then, I will show you an ass on two legs. At the present period we possess irrefragable proof that, instead of thinking about responsibility to a constituency, the average legislator spurns the subject from his meditations as a matter of no importance. Happily, there are worthy exceptions; men of integrity who act as a check on the multiplicity of scoundrels; consequently, the final catastrophe is delayed, and we still entertain hopes of a brighter dawn. STAR KEY.

A generous gentleman in Bangor, Me., was asked for a donation to a hospital, and the convalescing patients smiled when they learned that he had sent 3500 cigarettes for their use.

Dangerous Agitators.

The Springfield (Mass.) Republican, which supported Mr. McKinley, must now be an "anarchist" paper as must also Bishop Potter be an "anarchist" and dangerous agitator, from the following excerpt:

"Bishop Potter indicts both machinery and the capitalists as causing the ill-feeling and uneasiness among the laboring classes. Machinery is turning the workingmen into idiots; and, after picturing graphically the work he saw a young man performing at a factory, the bishop said: "No wonder that 'at night-time he drank, gambled and fought.' He had to; otherwise he would go 'mad.' How many of us would stand this and not cry out! Not one of us but would 'become a striker. Myself among the first!' As for the employer, he "looks down upon 'his men.'" "He treats them as if they had 'no souls.'" He is constantly looking for new inventions which will save money and throw more men out of work. "The laboring men must make the capitalist respect 'their rights. Let them stand on their feet 'and use their voices,'" thus spoke Bishop Potter Monday evening, and thus he concluded:

This association (the church association for the advancement of the interest of labor) is looked upon as a dangerous and revolutionary one, because it tends to unite the church with the laboring man in his great struggle. Say what they will against it, but I for one announce that from today on the church of God is with the laborer.

That's good—that's coming back to the gospel as Jesus preached it. Jesus was with the laborer, every time. Let us hope that the professed churches of God will come to this bishop's standard, and speedily, moreover. From the point of view taken by the plutocratic civilization of the day, and expressed by almost every New York newspaper, and by too many others, however, Bishop Potter, must now be reckoned a dangerous man and a "reckless agitator." He is almost an "anarchist." But how precious are such men as Bishop Potter!

The governor lately appointed regents for the state normal school at Monmouth as follows: J. B. V. Butler, of Monmouth, to succeed himself, for a term of six years, Judge John J. Daly, of Dallas, to succeed J. C. White, of Crowley, for a six years' term, and E. C. Pentland, editor of the Independence West Side, to succeed P. Haley, formerly of Independence, but now a resident of Linn county, for a like term.

Roseburg Review: The trouble with these numerous witnesses who are springing up like mushrooms to give evidence favorable to Murderer Durrant, is that their testimony is contradictory. One swears that he murdered the girls himself for a paltry $700, and another affirms that he saw Rev. Gibson commit the crime. These little discrepancies mar the sensational effect of their evidence very materially.

It is reported that during the June campaign in Lane county Rev. I. D. Driver was accused by E. R. Skipworth, his oppenent for state senator, of being unable to adhere to the truth in public discussions. Feeling that he ought to resent such an imputation, Bro. Driver asked a friend what he should do in such a case, to which the latter replied, "Quit lying."

Gen. O. C. Howard is the only living American soldier who has commanded at one time 150,000 soldiers. Once when he was emerging from the battle of Fair Oaks minus his right arm he was met by General Kearney, who had lost his left arm, with the remark, "Never mind Howard, we will buy our gloves at the same shop."

A wag suggests that Mr. Bryan "apply for an injunction to prevent the gold democrats from doing business with the name of Thomas Jefferson." No use. Stealing the livery of heaven to serve the devil was recognized as an irrepressible offense thousands of years ago, and even the Christian religion can't stop it.

The name of Roy Prather of Excelsior Springs, Mo., is a new one on the scroll of fame, but that it is entitled to a place there cannot be questioned in view of the fact that the owner won out over more than 100 competitors in a pie-eating contest.

Do All That You Can.

MRS. M. E. SANGSTER.

"I cannot do much," said a little star,
"To make this dark world bright;
My silvery beam cannot pierce far
Into the gloom of night;
Yet I am a part of God's great plan,
And so I will do the best that I can."

"What can be the use," said a fleecy cloud,
"Of these few drops that I hold?
They will hardly bend the lily proud,
If caught in her chalice of gold;
But I, too, am a part of God's great plan,
So my treasures I'll give as well as I can."

A child went merrily forth to play,
But a thought, like a silver thread,
Kept winding in and out all day
Through the happy golden head—
"Mother said, 'Darling, do all that you can;
For you are a part of God's great plan.'"

She knew no more than the twinkling star,
Or the cloud with its rain-cup full,
How, why, or for what all strange things are—
She was only a child at school;
But she thought, "'Tis a part of God's great plan
That even I, should do all that I can."

So she helped another child along
When the way was rough to his feet,
And she sung from her heart a little song
That we all thought wondrous sweet;
And her father—a weary, toil-worn man—
Said, "I, too, will do the best that I can."

Maids of De Motte.

Crown Point, Ind., May 4.—Fully a score of marriageable girls of De Motte, Jasper county, have declared war against the young men of that town and have formed a league to promote refinement among the men, which, the ladies say, is sadly lacking there. They have just met in a body and passed the following resolution:

"Be it resolved that the ladies of De Motte, Ind., will not hereafter marry a young man who is not a patron of his home newspaper, for it is strong evidence of want of intelligence, and that he will prove too stingy to provide for a family, educate his children, and encourage institutions of learning in the community,"

Resolution Signed.

Washington, May 24.—The resolution appropriating $50,000 for the relief of American citizens in Cuba reached the white house at half past 12 o'clock today, after being signed in both houses while they were in open session. The president signed the resolution immediately. He will at once consult with the state department respecting the adoption of measures of relief, in addition to those taken last week, when Consul-General Lee was authorized to draw upon the state department for $10,000 for procurement of immediate supplies.

Murderer Dunham Arrested in Texas.

San Jose, Cal., May 24.—Sheriff Lysdon is in receipt of a telegram, from LaGrange, Texas, which indicates that possibly Dunham, the murderer so much wanted, may be under arrest there. The telegram received from Sheriff Lossein, of LaGrange, says that Dunham is in jail there. His identity was given away by Furgason, a chum of his, to whom he made the statement of being the murderer from California.

The Farce of Havemeyer's Trial.

Washington, May 24.—President Henry O. Havemeyer, of the American Sugar Refining Co., will be placed on trial in the criminal court tomorrow morning on an indictment charging him with having refused to answer questions put to him by the senate committee investigating the sugar trust.

Storm in Denver.

Denver, Col., May 24.—Denver was deluged this afternoon. About 2 o'clock streaks of lightning were seen in the north, while great sheets flashed in the west. As the two storms approached each other the heavens opened and let fall such a deluge of water as has not been seen in Denver for years. It was accompanied by wind and hail. The storm was so severe that it was almost impossible to see ten feet ahead, while traffic was absolutely suspended during the downpour, which did not last long. The lightning struck the East Denver high school and almost created a panic. The electricity shocked a number of students in the building, and several girls fainted.

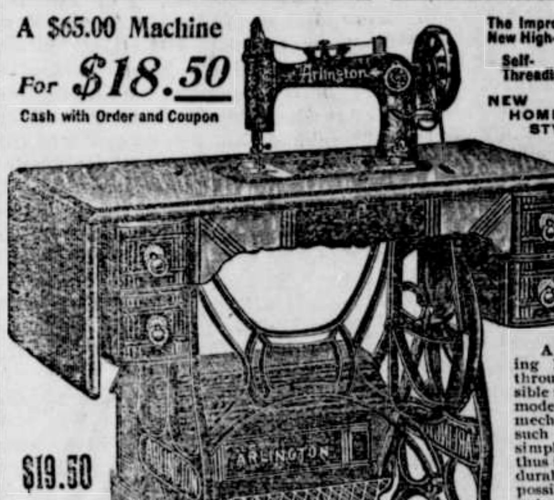
NEW HOME STYLE
LATEST BEST CHEAPEST



STYLE No. 55. "ARLINGTON."

$19.50 AND Coupon, if sent C. O. D. or on trial

Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.

10 years' written warranty with each machine.

A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority:

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. **Highest Arm**—Space under the arm is 5½ inches high and 9 inches long. This will admit the largest skirts, and even quilts. **It is Self-Threading**—Absolutely no holes to put thread through except eye of needle. **Shuttle** is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. **Stitch Regulator** is on the bed of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. **Feed** is double and extends on both sides of needle; never fails to take goods through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. **Automatic Bobbin Winder**—For filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. **Light Running**—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. **Stitch** is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. **Tension** is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. Never gets out of order. **The Needle** is a straight, self-setting needle, flat on one side, and cannot be put in wrong. **Needle Bar** is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. **Adjustable Bearings**—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. **Attachments**—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ⅞ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. **Woodwork** of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, dress guards to wheel, and device for replacing belt.
