## OF INTEREST TO THE PEOPLE.

### Voice of the People.

The black forms of night are retreating,  
The white peaks have signalled the day,  
And Freedom her long roll is beating,  
And calling her sons to the fray.

And woe to the rule that has plundered  
And trod down the wounded and slain,  
While the wars of the Old Time have thundered,  
And men poured their life-time in vain;  
The day of its triumph is ending,  
The evening draws near with its doom,  
And the star of its strength is descending,  
To sleep in dishonor and gloom.

The soil tells the same fruitful story,  
The seasons their bounties display,  
And the flowers lift their faces in glory  
To catch the warm kisses of day;  
While our fellows are treated as cattle  
That are muzzled when treading the corn,  
And millions sink down in life's battle  
With a sigh for the day they were born.

Ah, woe to the robbers who gather  
In fields where they never have sown,  
Who have stolen the jewels of labor  
And builded to Mammon a throne.

"When you see a fellow mortal,  
Without fixed and fearless views,  
Cringing to the skirts of others,  
Walking in their cast-off shoes,  
Hold yourself with firmer bearing;  
Throw your moral shoulders back;  
Show your spine has nerve and marrow—  
Just the things which his most lack.  
A stronger word was never heard  
Than this:  
BACKBONE!"

—AND.

### WHEN TRUSTS RULE.

Ballot Will be Worthless and the People  
Enslaved—How Corporations Dodge the  
Assessors.

The New York Journal says that  
if the issue should be put in this  
form, "Shall the trusts run the  
government or the government run  
the trusts?" it needs no special  
forefront to predict the popular  
answer.

The people cannot afford to allow  
the trusts to become so powerful  
that they will practically rule the  
country. When the trusts rule,  
they will not merely control the  
necessaries of life, but the people.  
They will have it in their power not  
only to limit production and raise  
prices, but to throw out of employ-  
ment the masses of producers. By  
closing some factories and open-  
ing others during a political cam-  
paign, and by shifting bodies of  
workers about the country they  
could disfranchise large numbers  
of voters. By secretly spreading  
rumors of threatened shut downs  
they could intimidate and coerce  
thousands of others.

If they are allowed to become  
powerful enough, they will have on  
their side armies of ignorant par-  
tisans, with nothing but the fear of  
losing their "bread and butter" in  
mind. They can arm these men  
and defy local authorities. They  
can put in operation a system of  
blacklisting that will terrorize the  
body of workers. As they will  
have more to fear from the voter  
than from the striker, they can  
place upon their blacklists every  
man who dares to vote against their  
interests and reduce him to the  
ranks of the paper and the tramp.

When the trusts rule, where will  
the government be? When the  
trusts rule, what will the ballot  
amount to? The people must elect  
attorney generals in every state  
who will fearlessly put in effect  
the antitrust laws. Trust magnates  
must be taught the lesson Broker  
Chapman has learned.—St. Louis  
Post-Dispatch.

### ESCAPING TAXATION.

There are two methods resorted  
to by the unscrupulous officers of  
a certain class of corporations to  
evade taxation, says the New York  
Tribune (Rep.). The first, and  
that which is generally practiced,  
is to mark down the value of their  
assets to the lowest possible figure.  
They allege a depreciation in value  
for all their property. The officers  
of one corporation lately carried  
this trick to its extreme when it was  
discovered that they had actually  
marked their cash on hand as  
depreciated in value from \$10,000  
to \$3000. When this was discov-  
ered they endeavored to explain by  
saying that they had placed the  
other \$7000 in a reserve fund.

The second method is to fix the  
salaries of its officers at a high sum,  
which is fictitious, while the real  
salary, which is actually paid, is  
much lower. The difference ap-  
pears in the tax return as salaries  
unpaid.

These corporations make two  
distinct and separate reports each  
year—one to the stockholders, in  
which all the property owned by

## GLOOMY DAYS THROUGH OHIO

NAUGHT BUT MISERY AND WANT IN ALL  
CHANNELS OF TRADE.

Property Valued at Over \$50,000,000 Involved  
in Failures and Assignments During  
the Year.

Cleveland (O.), June 10.—So black  
and bitter is the misery in Ohio  
that native-born mechanics are  
actually leaving their own soil to  
seek a chance to earn bread in  
England. This is the most terrible  
and impressive thing that has been  
seen in the industrial and commercial  
gloom which deepens every day.  
Some of these poor fellows have  
been driven from their little homes  
in this country in which Mark  
Hanna has risen to wealth and  
supreme political power.

I have learned that a great many  
engineers and other mechanics have  
been leaving Cleveland to seek for  
employment in England. The  
local labor unions have received  
reports on the subject. Some of  
the men have asked for cards to the  
British labor unions. Is there a  
thoughtful man or woman in the  
United States who can read these  
facts without emotion? No one can  
blame manufacturers for cutting  
wages or closing their shops, for  
most of the factories in Ohio are  
being run practically without profit  
at this moment. It is not because  
of any foreign competition, but  
simply because farmers and toilers  
in towns and cities are too poor to  
buy.

It is an absolute fact that the  
amount of house rent now overdue  
in this state alone amounts to  
several millions of dollars. Go where  
I will, in Cincinnati, in Cleveland, in  
Toledo, in Dayton, in Sandusky, in  
Canton—the real estate men all tell  
the same story—they cannot collect  
their rents, and I have seen lists of  
at least a thousand persons who are  
six, seven and eight months behind  
in their payments.

As I have already shown in a pre-  
vious dispatch, foreclosure of mort-  
gages, assignments and other rec-  
ords of failure for the present year  
in Ohio aggregated more than \$50,  
000,000. This is the prosperity that  
has come through the great Garden  
State of the Union in this year of  
Republican rule. Why, even employ-  
ees of Cowell & Hubbard, Cleveland  
manufacturing jewelers, who went  
to Canton with yellow hats to hear  
McKinley's promises last fall, are to  
have their wages cut 10 per cent,  
and these very men have been asked  
to take about for signature a peti-  
tion asking for the election of Mr.  
Hanna to the senate at the next  
session of the legislature.

There is a ghastly humor in it all.  
The great Cleveland Rolling Mills  
have cut down the wages of men  
working by the ton from 20 to 45  
per cent within the past ten days.  
The leaders of organized labor—and  
I have talked to men of all parties  
—say that there are more than 15,  
000 men out of employment in  
Cleveland today, not counting raw  
laborers.

Wages are falling everywhere in  
Ohio. The condition of farmers is  
pitiful. I know of many cases in  
which farmers have offered to give  
up their farms for a clear quitance,  
but they will have to go through  
the pain of foreclosure proceedings,  
lose their homes and still be in debt.

### Only Needs Starting.

Eighty years ago there were no  
sewing machines, no steam machin-  
ery, no motor cars, no Lucifer  
matches, no pneumatic bicycles, no  
phonographs, no typewriting ma-  
chines, no electric lights, no electric  
motors, no palace cars, no dining  
cars, no sixty-miles-an-hour engines,  
no twenty-two knot steamers, no  
thirty-knot torpedo boats, no free  
education, no breech-loading guns,  
no Maxim guns, no Suez canal, no  
woman cyclists, no doctors, no  
woman doctors, no woman clerks,  
no woman bargainers, no woman  
golfers, no steel steamers, no triple  
expansion engines, no refrigerators,  
no free libraries, no telephones, no  
telegraphs. What wonders will the  
next eighty years produce?—Brig-  
ham Bugler.

The next great wonder that ought  
to be produced is to discover a plan,  
and put it in operation, that will  
give the masses of the people the  
benefits that arise out of these  
wonders.—Living Issues.

Horace Greeley once said: "The  
way to resume is to resume," speak-  
ing of again putting gold into  
circulation after the war. But you  
may say "resume" any number of  
times to that torpid liver of yours  
and it won't budge until you take  
Simmons Liver Regulator. Many  
people seem to forget that Constipa-  
tion, Biliousness and Sick Head-  
ache are all caused by a sluggish  
liver. Keep the liver active.

## Coast Coal.

Washington, June 16.—The re-  
port upon coal production in this  
country issued by the United States  
Geological Survey today shows that  
during the year 1896 California and  
Alaska produced 93,776 short tons,  
valued at \$220,523; Oregon, 101,721  
tons, valued at \$294,564; and Wash-  
ington, 1,195,504 tons, valued at  
\$2,396,078.

Cor. New York Union Printer:  
Stripped of verbiage, the contention  
of those who favor the tax on land  
values is a very simple one. It is  
nothing more than an assertion of  
natural law. We believe that  
humanity, ages ago, got a false start,  
and we desire to go back to first  
principles. What has all along been  
wrong should be made right. That  
which belongs to all should be given  
to all, for the benefit of all. Land  
is the heritage of man. He cannot  
exist without it any more than he  
can without air or water. To say  
that present and future generations  
are debarred from their rights by  
the dictum of past errors, and must  
perpetuate them, is a monstrous  
proposition. In the court of nature  
we are all equals before the law—  
nature's law. The land is the peo-  
ple's and all benefits accruing from  
its individual possession, aside from  
improvements, should go into the  
general fund. This is the single tax  
proposition in a nutshell.

Corvallis (Or.) New Dispensation:  
The Savior of mankind was crucified  
with full legal formality and cere-  
mony. The whole machinery of law,  
ecclesiastical, political, and military,  
was called into requisition. The  
conspirators were priests and rulers,  
and they assembled at the palace of  
a high priest. The captive was con-  
demned by Jewish and Roman law,  
the one religious, the other civil and  
military. The soldiers carried out  
the sentence, the mob applauded.  
The church added its benediction to  
the crime, and buried its anathema  
at the man. Christ as a symbol of  
humanity, which is continually  
crucified under the same kind of  
law.

Yamhill Independent: It is  
Bishop Barkley now. The United  
Brethren in their national conference  
at Richmond, Ind., last week elected  
Rev. H. L. Barkley to be Bishop of  
four Pacific coast states, including  
Oregon. He is one of the cleanest,  
men that ever held a place in Oregon  
public life and many will regret  
that his new duties will cause him  
to leave politics to other and prob-  
ably less worthy hands. However,  
his host of friends will rejoice to  
know that his worth has been fitly  
recognized by his church.

S. F. Star: Cumberland, Md.,  
voted for municipal electric light  
recently by 1343 to 497. "Uncle  
Sam," which is an able weekly paper  
advocating municipal ownership of  
public necessities, and other econ-  
omic and political reforms, says that  
"1343" is just its city circulation.  
That is a "pointer" for those alleged  
"reformers" who think they can  
carry anything without the aid of  
an independent press.

A financial concern on the princi-  
ple of the Credit Foncier has been  
projected in New York. The con-  
cern will have a capital of \$100,000,  
and is planned to do a business of  
\$2,000,000,000. It is proposed to  
loan money to farmers, etc., at  
one-half the rates now paid. The  
charter of the new concern will be  
submitted to congress within the  
next two weeks.

S. F. Star: The Spanish sport of  
bull-fighting was among the attrac-  
tions by which Hanford (Cal.) cele-  
brated the opening to that point of  
the Valley railroad. One matador  
was dangerously wounded, which  
doubtless greatly enhanced the  
interest of the occasion. Next in  
order should come some exhibitions  
a la Weyer of murdering women,  
children and unarmed men.

Roseburg Review: The people  
demand that the railroad company  
shall pay taxes upon a fair valuation  
of its property. To make that valua-  
tion \$10,000 a mile would be treat-  
ing the railroad company magnani-  
mously, indeed, considering the val-  
uation placed upon farm and city  
property in Douglas county. Let  
justice be done.

A St. Louis man who died  
recently left a will in which there  
was a bequest of \$1000 to a young  
woman "on the score of gratitude,  
because she declined to marry me  
and thereby enabled me to spend  
my last years happier.

S. F. Star: An attempt to tax  
tea in the seventeen-seventies made  
a nation. A like attempt in the  
eighteen-nineties may have even a  
more important result in making a  
real republic, where there will be no  
taxes.

## Sad State of Affairs in the Best Fields.

San Francisco, Cal., June 14.—  
State Labor Commissioner Fitz-  
gerald, who has just returned from  
a personal investigation of the  
labor employed in the best fields at  
Pleasanton, Alvarado, Wilsonville  
and Salinas, says:  
"I find that between 95 and 98  
per cent of all the labor used in the  
best fields of California, is Japa-  
nese and Chinese, with the Chinese  
fast going to the wall as against  
the competition of Japanese. The  
canefields of Hawaii have over 14  
per cent of white labor, while the  
best fields of California show but  
5 per cent at present. The Japa-  
nese bosses in the fields told me  
that next year they will handle the  
entire industry, and that they can  
get all the Japanese necessary by  
way of Victoria. They say, too,  
that they expect to become farmers  
and did against the whites in re-  
taining land."

The man on the rear of the tandem  
Spoke quite bluntly  
"You sit so straight I can't see over you!"  
Drove in front!"  
His wife, on the front of the tandem,  
Answered: "Jack,  
I'll sit as I please. You quit your talking  
behind my back!"

A \$65.00 Machine  
For \$18.50  
Cash with Order and Coupon

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial head and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. Highest Arm—space under the table 3 1/2 inches high and 3 inches long. This will admit the largest skirts, and even quilts. It is Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle cylinder opens and closes entirely self-acting, easy to put in or take out; bobbin holds a large amount of thread. Stitch Regulator is on the bed of the machine, beneath the bobbin winder, and never stops the number of stitches to the inch, and can be changed from 8 to 22 stitches to the inch. Feed is double and extends on and under needle, never fails to take goods through; has a scale showing as seams movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—fills the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, and easily adjusted, with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. Attachments—2200 pieces furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One rubber and gather, one binder, one shirring plate, one set of four hemmers, different widths up to 1/2 inch, one button maker, one under holder, one short or attachment foot, and one thread cutter. Woodwork of finest quality oak or walnut, Gothic cover and drawers, nickel-plated rings to hold the thread, and a special device for replacing belt.

## "FACTS"

FROM DENVER, the big western reform newspaper which reaches 50,000 readers every week, although only 47 weeks old, is filled with reform news and stirring articles from such well-known and powerful writers as Rev. F. F. Passmore, Eugene Bloodgood Beebe, Myron W. Reed, Henry Cohen, W. S. Morgan, and a host of others, equally prominent.  
To make you acquainted with Facts is to make you a regular subscriber—for you can't get along without Facts—consequently for a short time, we make you this reckless offer: For 10c, we will send you Facts one week for 10 weeks, and you will receive a copy of "Merrie England," the book which so startled England that for nearly a year 100,000 copies a month have been sent from New York, and it contains 85,000 words, and we send it complete and unabridged with 1000 readers' testimonials, and trust that every individual reader of this paper will take advantage of this offer at once, before it is withdrawn, as we reserve the right to return all moneys received from above offer which reaches us later than 30 days from date. Don't disappoint us, but sit right down today and write the publisher—The Reed Publishing Co., 1559 Larimer street, Denver, Colo.

If you prefer thirty days' trial before paying, send for our large illustrated catalogue with testimonials, explaining fully how we ship sewing machines anywhere to any part of the world, and how we will make good on our coupon. The best plan is to send all cash with order, as you then save the \$1.00 discount. Remember the coupon must be sent with order.  
Or make your order direct through the HERALD, as agent, without extra charge.

## "FACTS" Daily Capital Journal

OF SALEM.  
FROM DENVER, the big western reform newspaper which reaches 50,000 readers every week, although only 47 weeks old, is filled with reform news and stirring articles from such well-known and powerful writers as Rev. F. F. Passmore, Eugene Bloodgood Beebe, Myron W. Reed, Henry Cohen, W. S. Morgan, and a host of others, equally prominent.  
To make you acquainted with Facts is to make you a regular subscriber—for you can't get along without Facts—consequently for a short time, we make you this reckless offer: For 10c, we will send you Facts one week for 10 weeks, and you will receive a copy of "Merrie England," the book which so startled England that for nearly a year 100,000 copies a month have been sent from New York, and it contains 85,000 words, and we send it complete and unabridged with 1000 readers' testimonials, and trust that every individual reader of this paper will take advantage of this offer at once, before it is withdrawn, as we reserve the right to return all moneys received from above offer which reaches us later than 30 days from date. Don't disappoint us, but sit right down today and write the publisher—The Reed Publishing Co., 1559 Larimer street, Denver, Colo.
