

THE LABOR EXCHANGE.

An Editor Asks a Question.

In a letter to the writer a few days ago, a well known author and contributor to current literature, states that he was asked the following question by the editor of the Pennsylvania Grit, and which he requested the writer to answer through Pennsylvania Labor Exchange: Suppose persons were to deposit a certain amount of wheat, corn, oats, potatoes or anything else that fluctuates in value, taking the exchange script for its value; Suppose the value or price of these articles fall, how is the exchange going to get the script, providing it has gotten into the hands of persons who do not belong to the exchange? In the first place let it be understood that the goods are deposited at wholesale or jobbing prices, and in amounts as the board of directors and managers may determine to be safe and profitable, thus placing a sufficient safeguard against overstocking and largely protecting the association against vicious breaks in the market. Now keep in mind that the checks are redeemable at retail prices (excepting goods manufactured for the trade by the association) in any of the products of labor on deposit, as well as being a claim upon all the accumulations of property of the association. It may be observed here that no outsider is likely to deposit enough merchandise with the exchange to seriously affect its standing from market fluctuations until the accumulations of property have made the association strong enough to stand even more than the possible results of the wildest market breaks. Adding the safeguards above referred to and it is apparent that the danger supposed is scarcely a remote possibility. When we take into account the embarrassment entailed by bank failures, overreaching by dealers and the many losses to business men from bad accounts under the present system, and remembering that the Labor Exchange system abolishes the credit or "tick" business, the comparison is highly satisfactory to the advocates of the Labor Exchange movement. It affords pleasure to know that editor Manson and other thinking men are beginning to inquire into the movement, but the greatest pleasure lies in the fact that so far no question has failed of a clear and satisfactory answer. We trust Pennsylvania Grit will maintain its fair record and give some attention to this movement that is spreading with such marvelous rapidity.

Cincinnati Commercial Gazette: Why does organized capital seek to destroy organized labor? The more surely to enhance its profits, to render labor dependent and to drive the individual man back on himself. It is not claimed that organized labor has been wise or prudent always, or that it has always resorted to the most intelligent methods; but insofar as it has failed in any of these respects the result has been due to the absence of real, effective organization. Industrial society in the United States is no less today than a great scheme of corporate socialism. Aside from the farmer, there is no man outside of the corporations who can stand alone, and he is able to do so only because he is rooted to the soil. Why cannot the workingmen see the philosophy of all this? There are none so blind as those who will not see. It must be organization if humanity shall preserve its rights in the present stage of human progress. The workingman who will read and ponder over this has the key which will unlock the world's treasures for him and his kind.

Progressive Thought: We notice some of the papers which to reform journals are trying to oppose the Labor Exchange. Just as if they could prevent the truth from coming to light! When it does come the littleness of those who opposed it will glare too oppressively for their endurance. The time is near at hand when the old defrauding schemes will go down and the new theories based on facts will ascend toward the throne of reason. Deception will not always thrive as it has in the past.

Baltimore papers are howling prosperity over the starting of the Sparrow Point steel works. It appears, however, that the men go back at a reduction in wages until such a time as the company considers it has recouped itself from \$50,000 expended in alterations. This is a great scheme. By and by it will be proposed that the men pay out of their wages the cost of operating the plant.

The Inland Empire: The Dallas Branch of the Labor Exchange fired their first kiln of brick today. They intend firing two more larger kilns this season, making about six hundred thousand brick in all.

The deposit certificates and balance checks of all the Labor Exchanges which have got in good running order are selling at from 5 to 25 per cent premium.

Death of Judge Watson.

Judge James Finley Watson, who had been in failing health for some time past, died at his home in Portland early Friday morning. He was born in Dubuque, Iowa, March 15, 1840, emigrating to Oregon with his parents in 1853, residing one winter in Eugene and then locating at Roseburg. Judge Watson read law in this city under Rufus Mallory and commenced practice here in 1863. He was twice elected prosecuting attorney in the second district, and served full terms. In 1872 he was elected state senator from Douglas county and in 1876 associate justice of the supreme court from the same district. He was twice elected circuit judge of the second judicial district, resigning in 1872 to accept from the president the appointment of U. S. district attorney for Oregon. At that time he moved to Portland where he has since resided, being a member of the law firm of Watson, Beckman & Watson at the time of his death. At one time during his residence in Roseburg he associated with the late LaFayette Lane in the practice of law. Judge Watson was twice married, his first wife was Miss C. Flint, deceased, by whom he leaves a daughter, Miss Winnifred Watson. Those surviving him beside the daughter are his wife, who was Virginia Kinnie, and several brothers and sisters. Among the latter are Mrs. Dr. S. Hamilton, Mrs. A. M. Crawford, J. L. Watson and C. F. Watson, all of this county, and Judge D. L. Watson of Coos county.—Roseburg Review.

Mrs. Madeline Twambley and Lennan, of Empire City, met with an accident, Monday, while driving home in a buggy from this place. On the road, near the North Bend lake, they met a team coming to Marshfield, and before they could pass the same their horse became frightened and ran upon the grade turning the buggy over and hurling its occupants to the ground. Frank Saunders by this time grabbed the horse by the bridle, but the infuriated animal did not cease kicking until it had freed itself from the buggy. Mrs. Lennan's little baby was in the buggy at the time. Fortunately all escaped without serious injury.

In Supreme Court. Salem, June 14.—In the supreme court yesterday the following order was made by the court: J. J. Stanley et al., respondents, vs. J. A. Lyne et al., appellants; ordered on motion that respondents' default in serving and filing brief be excused and that they have until June 10th to serve and file the same.

Die!—At Scranton, Pennsylvania, June 10, 1897, Rev. Eneas McLean, aged 48 years. The deceased was a brother of Rev. Robert McLean of Grants Pass, and spent a year or two in this valley lately, conducting religious work for the Presbyterian denomination and establishing churches in several neighborhoods. He made headquarters at Bardonia, but operated as high up as Myrtle Point, having established a Myrtle church at Willowdale (Fishtrap neighborhood) and at Myrtle Point, as also at Bardonia. His wife died at Bardonia some three years since, some while before he left this section.

Roseburg Review: "The railroad commissioners," says the Salem Journal, "made another plea with Gov. Lord today to file and acknowledge their bond, but he would not consider the matter at all." These persistent efforts of this parasite commission are really amusing to a looker-on who realizes the turning down which every attempt to fleece the state's treasury will receive at the hands of Governor Lord and Secretary of State Kincaid.

FOR ANNEXATION OF HAWAII.

No Provisions in this for "Pansolving" the Ex-Queen and Making a Gift to the Princess.

Washington, June 14.—A draft of a treaty for the annexation of Hawaii to the United States is being prepared by Judge Day, the assistant secretary of state, and Mr. Hatch, the Hawaiian minister to Washington. The proposed new treaty will not contain any provisions for a pension to the late queen, or a gift of money to the princess, but it will probably be provided that the princess shall receive a pension out of the territorial revenues.

It is interesting to know that the proposition to pension ex-Queen Liliuokalani did not come from the Hawaiian commissioners, but was suggested by the then secretary of state, Foster. This is also true in regard to the gift of money to Princess Kaiulani.

A leading member of the senate committee on foreign relations said that two plans are under consideration by the administration. One is to annex the islands and admit them into the union as the territory of Hawaii. The other is to make them a county of California. No decision has yet been reached.

Killed by a Thunderbolt. Bellaire, O., June 14.—The lives of three young ladies were blotted out yesterday evening by lightning. The victims are Minnie McGaule, Alpha Taylor and Emma White, each aged 19. Sarah Bellinger was badly stunned and may die. They were residents of Jacobsburg, 11 miles west of this city, and were walking home from church when struck by lightning. It is believed the steel corsets worn by the three that were killed was the chief cause of their death.

To Recognize Cuba. Washington, June 14.—The house today adjourned until Thursday. Sauter presented a petition favor of 6,000,000 names, in favor of recognition of the Cubans as belligerents.

Rev. Robert McLean, Presbyterian minister at Grants Pass, is the complaining witness before County Judge Chiles at that place against Street Superintendent Elliott, charging him with getting some boys drunk on beer the night of the city election in May. We need some parents here—or in their absence a minister or some law and order loving citizens—to see that the laws now on the statute books are enforced against the sale or furnishing of liquors to minors and habitual drunkards are enforced; and also the sale or giving of cigarettes to boys and youth.

RHEUMATISM, NEURALGIA, CATARRH, ASTHMA, HEADACHE and their marvelous cure.

Science of the 19th Century looks on with amazement at the most remarkable record of cures ever known in the World's history.

Hundreds of thousands of Sufferers cured without a single failure by "FIVE DROPS."

Though so universally used and tested did you ever hear anyone speak of this great remedy? No, you never did and never will, if it taken as directed and in the proper quantity. "Five Drops" cannot fail to cure any of the diseases for which it is recommended. What it has already done to relieve the suffering is told in thousands of letters of grateful praise.

Mr. J. P. Linschmeier, widely known for many years as the special representative of the Register Press of the United States, has kindly forwarded the following letter for publication: DEAR SIR:—I am anxious for the sake of the suffering and out of gratitude to you to give my personal endorsement of your wonderful remedy. On the 24th of January, 1897, I was in Washington and was suddenly seized with an aggravated case of inflammatory rheumatism; so severe and painful was the attack that within 24 hours my left arm was paralyzed and I was only able to dress with assistance. I secured a bottle of FIVE DROPS and took a dose that night, rubbing some on externally as directed. The following morning I was surprised to find myself immensely relieved, and continuing treatment twice the second morning cured. My arm was absolutely free from pain, and all swelling and stiffness had disappeared. The quickness and completeness of my cure was remarkable. I have known for over a year of the great curative properties of your medicine and have several friends who have been cured by it of Rheumatism, Catarrh and Asthma. Wishing you every success and trusting that those similarly afflicted will at least give this remedy a trial. Sincerely yours, J. P. LINSCHMEIER, Bureau of Populist and Reform Papers, Old Stock Exchange Building, Chicago, Ill.

DEAR SIR:—I would like to thank you for your great remedy, "FIVE DROPS," and tell you what it has done for me. I had Rheumatism in every joint and in the heart, and I had Catarrh of the head for 30 years. I was so poorly that I lost the use of my legs and arms, and could not move without pain. I was so crippled, that I had to be carried in a chair. Seven years, and our family physician, a good doctor, told me that my Rheumatism and Catarrh were incurable, and I believed him. But now, after using "FIVE DROPS" only two months, I can not tell so well for seven years. This medicine does more than is claimed for it. At this time my Catarrh is much better, and I have scarcely any Rheumatism at all. I have gained more than 10 pounds of flesh and can do a full day's work. It is the best medicine I have ever given to my wife, who has a young child, for it has the same effect on the child as on the mother. It wards off Croup and cures the lives of the child and causes sweet and refreshing sleep to both young and old. Yours respectfully, W. M. AND DR. S. W. KELLEMS, Jan. 29, 1897.

We received the following letter from Mrs. J. J. Wilson of Omaha, Ill.: Mrs. Wilson has been for many years an invalid, and reading above letter of cure of Mrs. Kellems, asking if his endorsement was genuine, and recollecting this reply, which he forwarded, MR. J. J. WILSON: DEAR SIR:—Your letter of recent date at hand, the testimonial you speak of is genuine. The company who manufactures and sells "Five Drops" published my testimonial just as I gave it to them and every word of it is true, and I could swear to it and prove it by many witnesses. The company did not ask me for this letter, but I sent it to them last January for publication in order that poor sufferers, incurable as I once was, and as you are, might be cured. Get "Five Drops" and use it and it will cure you as it has cured me. I have received many letters like yours, and it is a pleasure to me to answer all who write. Tell all your neighbors what I have said, and I will be glad to send you as many samples of "Five Drops" as you are afflicted, for though I suffered so long, it is now 8 months since I have felt any pain. Dr. S. W. Kellems, my brother, uses "Five Drops" in his practice, and joins me in endorsing this great remedy. He says for a case like yours it is a positive cure. MR. W. M. AND DR. S. W. KELLEMS, Sept. 21, 1896.

If you have not sufficient confidence after reading these letters to send for a large bottle, send for a sample bottle, which contains sufficient medicine to convince you of the truth. This wonderful curative gives almost instant relief and is a permanent cure for Rheumatism, Sciatica, Neuralgia, Dysepsia, Backache, Asthma, Hay Fever, Catarrh, Sleeplessness, Nervousness, Headaches, Heart Weakness, Toothache, Earache, Croup, "La Grippe," Malaria, Creeping Numbness, Bronchitis and Kindred Diseases. "FIVE DROPS" is the name and dose. Large bottles (30 doses), \$1.00. Six bottles for 50c. Not sold by druggists, but only by us and our agents. Agents appointed in new territory.
