THE LABOR EXCHANGE.

Workmen as Contractors.

A system of public work that has much to commend it is that of co-operative contract now in vogue in New Zealand. Under that system a public work is divided into small sections by the engineer in charge, and an estimate is made of its cost. Each section is then let out to a group of workmen, who do the work under a foreman of their own choosing, but who receives no more than his fellows. They receive the full profit that would otherwise go to the professional contractor and they share the proceeds equally. Each worker is interested in seeing that his companions do their full amount of work and the sooner the work is completed the greater the return for each day of toil. If any tools are needed which the men do not own, the government supplies them at a moderate rental. The adoption of this system should provide a method whereby direct employment by the government would be consistent with a full return for the money expended, giving the community an advantage in the economical execution of public enterprise equal to that enjoyed by private employers.—Inland Empire.

The Mortgaged Home.

"A Home for Sale." How much we dislike to read so sad an announcement in advertising departments of the papers. Not a house and grounds only, but all the long, cheering memories and tender associations of the place that enrich it with a wealth beyond the computation of business men, the traders in homesteads and other classes of real estate. It is a sorry day for a man, and the more so for a family, when he is obliged to give up his home and go drifting again over the world. No experience shocks the sensitive heart like this. All gone, all deserted. The lights shining no more in the window. The familiar faces no longer pressed against the panes. The fires dead and gone out. The smoke no more curling from the chimneys. The dear voices will not be heard there again, though the man pass and repass the house daily. Ah! there is indeed no desolation of a sort like this. He must be a hard and undeveloped nature that can contemplate such a scene without the deepest emotion. To lose one's home is to lose nearly all that earth has to offer of happiness to man.

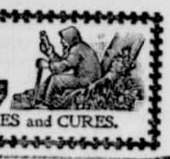
A True Method.

The interest and respect shown by the working clan to the Labor Exchange methods is unquestionable evidence that the conditions surrounding them are unsatisfactory. A close, honest investigation of this system of business reveals to any reasonable investigator the true methods upon which business should be conducted. The growth of the many branches—which are now numbered by the hundreds—is not only phenominal, but is conclusive evidence of the feasibility of the proposition.—Inland Empire.

Accountant: See here, fellow worker, how much of your earnings did you lay by last year? Didn't lay by a cent, eh? Cost you all that you could make to live and keep up your doctor bill for an invalid wife, did it? That's discouraging, to say the least. Your wages amounted to about $500 for a whole year's service. If you worked for either woolen or paper mills, the product of your labor probably amounted to $1000, thus your employer magnanimously(?) allows you one-half of the products of your toil for the contribution of your labor in producing the above amount of woolen goods or paper as the case may be, while he only takes the remaining half for the use of his "legal tender" and management(?) of the concern. May be that he doesn't realize so great a per cent, but any way, he seems to get along better than you do—he can take a vacation, sets a good table, dresses his family better than yours, smokes good cigars and doesn't look half as jaded as you do. Isn't that so? Now, candidly. Wouldn't it be more advantageous to you and your co-laborers to make these goods on your own hook exchanging them for the products of other laborers on the Labor Exchange plan, and thus get the benefit of your entire product? Did the idea never strike you? Is there any reason why you should give any of the products of your labor to a non-producer for the privilege(?) of producing them? If it requires all that you can earn to exist for the time being what are you going to do when old age comes on? Say! Come up to our meetings and investigate the Labor Exchange plan; we are studying your interests, possibly you can learn something to your advantage.

Each member of the Labor Exchange may employ himself at any useful occupation, and through the depository find a market for what he produces.

Is't so? Don't idle and ask, BUT USE St. Jacobs Oil for NEURALGIA,



and you'll find out how quickly and surely it SOOTHES and CURES.

The campaign for the election in 1898 is opening up already in several counties and promises to be hot. Coos is all right. She never had a more honest, economical and equitable administration of her affairs than since she downed the "bosses," and even this has been gained in spite of the tyrannous hold of monopoly and greed, who through their hireling corporation lawyers and press conspired and sold out the people in two or three instances.

A Testimonial.

We have mentioned the fact that The Arlington high-arm sewing machine, represented by the HERALD for the benefit of the people, is as good as the high-priced machines you buy from agents, and yet furnished at one-third or one-fourth the price. We ordered an Arlington a few weeks since for Elder S. S. Barklow at Norway, and here is a voluntary testimonial from Mrs. S. S. Barklow:

NORWAY, Oregon, May 20, 1897.

MR. MCEWEN—*Dear Sir:* Please excuse me for not writing sooner. I like the sewing machine very much. It gives perfect satisfaction so far as I have tried it. I think it is just as good as the $65 machines.

Yours, with respect,
MRS. S. S. BARKLOW.

☞ A 10-year written guaranty goes with each machine.

The Marion county grand jury voted 4 to 3 to indict County Judge Terrell; but as it take 5 out of 7 no indictment was made. The majority found that the judge is guilty of criminal negligence in allowing exhorbitant charges against the county. That the judge altered the bill presented by Pugh & Gray for courthouse improvements by inserting the figure 2 before $9.80 in one item, making it read $29.80; also inserting the figure 5 before the figures 65c in another item, making it read $5.65 instead of 65 cents; also for raising the bill of one A. Mason for improving a road east of Gervais from $250 to $325. The Salem Journal says that the grand jurors who refused to indict the judge made enough money to pay their taxes for several years to come, and the Statesman intimates that undue outside influence was used in favor of the judge.

The Oregon conference of the United Brethren church of the radical faction, which has been in session at Abiqua, came to an end on the 28th. Rev. H. L. Owens. Roseburg circuit, A. D. Westfall; Cottage Grove circuit, C. R. Davis; Lane circuit, W. H. McLain; Linn circuit, A. Bennett; Philomath circuit, F. J. Cocking.

Our Dead Presidents.

Every one of our departed presidents died from heart failure—that is when their hearts failed they were dead. Washington's fatal malady was croup, while the others died from these causes: Adams, Madison, Monroe and Hayes, natural decline and general debility; Jefferson and Polk, chronic diarrhea; John Quincy Adams, Fillmore and Johnson, paralysis; Jackson, dropsy; Van Buren, asthma; Harrison, pleurisy fever; Tyler, bilious attacks with bronchitis; Taylor, cholera morbus and typhoid fever; Pierce, dropsy and inflammation of the stomach; Buchanan, rheumatic gout; Lincoln and Garfield, assassination; Grant, cancer of the tongue; Arthur, Bright's disease.

McMinnvile Tel-Reg: Success to the reform forces of the state can only come through a union of the common people at the primaries; not through a union of bosses after a state convention. Men who are talking old party organizations and old party tickets are men who have either a personal ax to grind or have sold out to the Republican committee. When the political leaders of the state are the common people assembled in primaries, then reform is possible, but so long as the dictation of self-appointed leaders is accepted, reform is impossible.

Portland Dispatch: The warrants of our neighboring state, Washington, are quoted at a cent and a half premium. That does not indicate that capital has lost confidence in a state that went for Bryan, free silver and has a reform administration. "I notice in the paper," said Mrs. Barracks, pouring out Mr. Barracks' coffee, "that a clergyman says the woman should be permitted to whistle." "Yes," retorted Mr. Barracks, agreeably, "he is right; we should surely not deny to women the privilege we accord to tugboats and locomotives."

and their marvelous cure.

5 DROPS

Hundreds of thousands of Sufferers cured without a single failure by "FIVE DROPS."

Though so universally used and tested did you ever hear anyone speak ill of this great remedy? No, you never did and never will, for if taken as directed and in the proper quantity "5 Drops" cannot fail to cure any of the diseases for which it is recommended. What it has already done to relieve the suffering is told in thousands of letters of grateful praise.

Mr. J. P. Limeburner, widely known for many years as the special representative of the Populists and Free Silver Press of the United States, has kindly forwarded the following letter for publication:

Jan. 25, 1897.

DEAR SIRS—I am anxious for the sake of the suffering and out of gratitude to you to give my personal endorsement of your wonderful remedy. On the 9th of January, 1897, I was in Washington and was suddenly seized with an aggravated case of inflammatory rheumatism; so severe and painful was the attack that within 24 hours my left arm was paralyzed and I was only able to dress with assistance. I secured a bottle of 5 DROPS and took a dose that night, rubbing some on externally as directed. The following morning I was surprised to find myself immensely relieved, and continuing treatment woke the second morning cured. My arm was absolutely free from pain, and all swelling and stiffness had disappeared. The quickness and completeness of my cure was remarkable. I have known for over a year of the great curative properties of your medicine and have several friends who have been cured by it of **Neuralgia, Catarrh** and **Asthma.** Wishing you every success and trusting that those similarly afflicted will at least give this remedy a trial. Sincerely yours
J. P LIMEBURNER,
Bureau of Populist and Reform Papers, Old Stock Exchange Building, Chicago, Ill.

CURES THE INCURABLE.

DEAR SIRS:—I would like to thank you for your great remedy, "5 DROPS," and tell you what it has done for me. I had Rheumatism in every joint and in the heart, and I had Catarrh of the head for 30 years, I was so poorly that I lost the use of my legs and arms, and could not move without pain. I was so crippled, that I had done but little work for seven years, and our family physician, a good doctor, told me that my Rheumatism and Catarrh were incurable, and I believed him. But now, after using "5 DROPS" only two months, I can truly say I have not felt so well for seven years. **This medicine does more than is claimed** for it. At this time my Catarrh is much better, and I have scarcely any Rheumatism at all and the heart weakness and pain are gone. My hearing is now good and my eyesight is much better. I have gained more than 10 pounds of flesh and can do a full day's work. It is the best medicine I ever saw to give a mother who has a young child, for it has the same effect on the child as on the mother, it wards off croup and cures the hives of the child and causes sweet and refreshing sleep to both young and old.

Yours respectfully,
WM. M. KELLEMS,
Jan. 29, 1896. Siberia, Perry Co., Ind.

We received the following letter from Mr. J. J. Wilson of Omaha, Ill. Mr. Wilson has been for many years an invalid, and reading the above letter which was published, wrote Mr. Kellems, asking if his endorsement was genuine, and received this reply, which he forwarded us.

MR. J. J. WILSON.

DEAR SIR:—Your letter of recent date at hand, the testimonial you speak of is genuine. The company who manufactures and sells "5 Drops" published my testimonial just as I gave it to them and every word of it is true, and I could swear to it and prove it by many witnesses. The company did not ask me for this letter, I sent it to them last January for publication in order that poor sufferers, incurable as I once was, and as you are, might be cured. Get "5 Drops" and use it and it will cure you as it has cured me. I have received many letters like yours, and it is a pleasure to me to answer all who write. Tell all your neighbors what I have written about "5 Drops." I know how to sympathize with those who are afflicted, for though I suffered so long, it is now 8 months since I have felt any pain.

Dr. S. W. Kellems, my brother, uses "5 Drops" in his practice, and joins me in endorsing this great remedy. He says for a case like yours it is a positive cure.
Sept. 21, 1896. MR. W. M. AND DR. S. W. KELLEMS.

If you have not sufficient confidence after reading these letters to send for a large bottle, send for a sample bottle, which contains sufficient medicine to convince you of its merit. This wonderful curative gives almost instant relief and is a permanent cure for **Rheumatism, Sciatica, Neuralgia, Dyspepsia, Backache, Asthma, Hay Fever, Catarrh, Sleeplessness, Nervousness, Nervous and Neuralgic Headaches, Heart Weakness, Toothache, Earache, Croup, "La Grippe," Malaria, Creeping Numbness, Bronchitis and Kindred Diseases.**

"FIVE DROPS" is the name and dose. Large bottles (300 doses), $1.00. Six bottles for $5.00. Sample bottle prepaid by mail 25c. Not sold by druggists, but only by us and our agents. Agents appointed in new territory.
