

THE LABOR EXCHANGE.

Co-Operation in Civilization.

The civilization of today has left little to be learned in the way of organization and co-operation. The methods of conducting large industries are almost perfect—the division of labor and the co-operation of the different divisions being such as to facilitate the work in hand to the best possible advantage. The co-operative make-up of an ordinary city could scarcely be improved upon. The merchant keeps scores of articles on hand, the grocer and meat market are ready with your food, the clothier is on a convenient corner, and all of them are interdependent and mutually helpful. It is not necessary to go away into the wilderness and institute a new society to show how people should organize and co-operate. That part of society is already demonstrated. But all this perfection of organization has been brought about merely that a few may benefit by it. The very excellence of present society regulation is to the end that labor may be more easily and thoroughly exploited. The truth to be remembered then, is, not that it is necessary to go away from civilization and start a new society on new reform ideas, apart from the evils we have experienced, but that we should stay here and take the benefits of the civilization we have helped to build up and try and to eliminate its one bad feature—the power to exploit labor. The most important element in this power to rob is society's medium of exchange. Its legal medium is made precious, scarce, and easily controlled and monopolized by a few. The avenues of exchange are blocked, production is hindered, the needy cannot supply themselves with necessities, and suffering and crime follow. But let the people adopt a medium of exchange that is cheap, based on production, easily handled, and which it is impossible to monopolize—that is, in fact, free money—and they become free from that old power. They can take advantage of the co-operative features of society that have been developed; they need not suffer the deprivations and isolation of pioneer life to gain what they need. The Labor Exchange, planted in the midst of civilization, will in time eliminate its bad features and adopt its good ones. It will bring to the blessing of the widest and best co-operation, without the sacrifice and suffering incident to far-off isolated colonies.—Labor Exchange Guide.

From the Inland Empire.

Government control of public franchises is a good thing, but the ownership of all means of production and direction by the people is of far more importance. This is the ultimate of the Labor Exchange. The ship of state is drifting among the breakers without rudder or compass, liable to be wrecked at any moment. No pilot, officers half delirious, crew asleep, and passengers having a good time in the cabin.

Branch No. 85 Labor Exchange, Ukiah, has closed out its stock of merchandise, with \$500 surplus on hand, and it is now building a furniture factory, machinery for same having already been ordered from the east.

Are you interested in your fellow man? Or are you so supremely selfish that no thought ever enters your brain except of filthy lucre? If you do not love humanity perhaps you love your wife and children. In case you do, allow us to appeal to that good side and, if possible, persuade you to take enough interest to investigate the possibilities that now lie hidden to you in the Labor Exchange. We are anxious to do so, that you may place your family beyond the possibility of want, for if you become a patron, your stored-up accumulations will be a fund against which the Exchange can aid you. As sure as the light follows darkness, so sure will your children join the army of tramps now perambulating the country, or perhaps become the fuel to feed the fires of red revolution, unless the people shall make use of the common sense God has given them, and seek some way by which Labor can come into possession of the productive forces and retain the increment that now goes to Capital. The Labor Exchange will do it. Then why are you not willing to lend it a helping hand?

Labor Exchange Guide: Which is the better: money based upon credit, upon promises to pay, upon the fluctuations of a variable market, or checks upon the products of labor deposited in a secure place, and redeemable in those products.

LOCAL ITEMS.

Improvements are going on in all parts of town. Finest line of toilet soaps on the river at Coquille Pharmacy. Caskets and coffins furnished to order at the Coquille Furniture Store. Steamer Moro, from San Francisco, reached this place last Thursday evening. Frank Gilman, the boatbuilder at Myrtle Point, spent a day or two at this place last week. This has been a "berry" season, and almost everybody has had a hand at laying up a supply. The G. A. R. veterans, W. R. C. and friends are promised a good time at the encampment at Myrtle Point, August 18, 19 and 20.

WANTED—FAITHFUL MEN OR women to travel for responsible established house in Oregon. Salary \$750 and expenses. Position permanent. Reference. Enclose self-addressed stamped envelope. The National Star Insurance Bldg., Chicago.

The tug Triumph towed the schooner Antelope, Capt. Erickson, to our wharf last Tuesday. She loaded with lumber at Lyons' mill for San Francisco.

WANTED—A good dairy farm of from 100 to 300 acres, already stocked with good dairy cows, for a cheeseery. Will lease for a few years with privilege of buying.

HOMES—Several desirable and low-priced pieces of property not in our advertised list, and several town lots, way-down in prices, have been placed in our hands for sale. Call quick.

Our friend, W. Gallier, of Bandon, visited Myrtle Point last week, the first in 10 years. He stopped at this place a brief spell last Friday, and visited the HERALD sanctum also.

WANTED—A good dairy ranch, on or close to the river; enough land to have 30 to 40 head of cows. Address the HERALD, Coquille City, stating location and best terms to a good tenant.

Why pay a fancy price, including the traveling agent's commission and profits, for a sewing machine, when the HERALD can furnish you as good and handsome a machine, warranted for 10 years, at one fourth the cost? Don't do it.

We thank Mrs. R. E. Buck for a large and rarely handsome bouquet. One rose—something like la France, but not that—was extra large and beautiful. It measured 5 1/2 inches in diameter, and 16 1/2 inches in circumference. Mrs. B. has a beautiful yard of very choice flowers.

Some people who don't get the HERALD, because the times are so close, pay 20 or 25 years subscription to the agent of a sewing machine company. We can save you this, and furnish you as good or a better machine, guaranteed for 10 years, at the manufacturers' price. Try it, and see.

The steamer Coquille River is doing so well, affording such regular and quick service, that special efforts should be made by our people to guarantee her permanent employment on this run. She is first-class in passenger accommodations, and rapid and safe. She should receive the entire patronage of our section.

The cure of Rheumatism has often taxed medical skill, but its prevention has been very easy by an occasional use of Simmons' Liver Regulator. It keeps the liver well regulated, and the system free from poison. Therein is the secret of health. "I have used it for years for Indigestion and Constipation, and also found it gives me relief from a touch of Rheumatism."—N. Hughes, Lordsburg, N. M.

Captain Polhemus, government engineer in charge of the harbor improvements at the bay and on this river, has been visiting this section recently. He represents the work at these points as progressing very satisfactorily. Up to the last, as much as 90,000 tons of rock had been put in the jetty at Coos bay, since the date of the beginning of the work there last December. Last month 16,000 tons were put in place, breaking the record on that jetty. William Bretzke, of Wilnot, South Dakota, and John Minder, an acquaintance and friend from Roseburg, were at this place last Wednesday and Thursday prospecting. The former was looking out for others, as well as himself, and if he can locate here to advantage, will induce a number other families to come and locate also. He is a substantial, prosperous and progressive German farmer, and would be an acquisition to our valley of whom we would be proud. The HERALD had a pleasant call. Our townsman, J. B. Fox, esq., accompanied Mr. Bretzke to several neighborhoods.

A Testimonial.

We have mentioned the fact that The Arlington high-arm sewing machine, represented by the HERALD for the benefit of the people, is as good as the high-priced machines you buy from agents, and yet furnished at one-third or one-fourth the price. We ordered an Arlington a few weeks since for Elder S. S. Barklow at Norway, and here is a voluntary testimonial from Mrs. S. S. Barklow:

NORWAY, Oregon, May 20, 1897. Mr. McEwen—Dear Sir: Please excuse me for not writing sooner. I like the sewing machine very much. It gives perfect satisfaction so far as I have tried it. I think it is just as good as the \$65 machine. Yours, with respect, Mrs. S. S. BARKLOW. P.S.—A 10-year written guaranty goes with each machine.

Owing to a cave in the Beaver Hill mine the steamer Czarina was delayed several days 'till week waiting for a cargo.

H. Blakely, Jesse Noah, Dave Sneddon, Robert Sneddon, Tom Wern, Frank Vaise, Peter Morasso and Frank Chappel, formerly miners at Libby, leave this week for California. They will travel by land down the coast.

"Nemo." Bandon correspondent of the Marshfield Sun: The steamer Coquille River is making an excellent record under the management of Capt. Drisko, and has been making regular trips, and sailing on schedule time for several weeks past. The captain is a rattle beyond a doubt, and can make patronage for the boat if anyone can. He is deserving of great credit for what he has already done toward keeping the vessel on this route. A. Kellner promised us that if McKinley was elected he would be found doing a good rushing business at factory No. 95, with one or two more men employed. Well, Mac was elected, and now comes the result, and what is it? A. B. I first concluded that there was not quite business enough to support himself and partner, so they separated. Next, A. B. concluded he would have to let the one man he had go, and now comes the last but not least, and poor Abraham cannot make a living here and is forced to search for a new field to operate.

DROPS Hundreds of thousands of Sufferers cured without a single failure by "FIVE DROPS."

Though so universally used and tested did you ever hear anyone speak ill of this great remedy? No, you never did and never will for it taken as directed and in the proper quantity "Five Drops" cannot fail to cure any of the diseases for which it is recommended. What it has already done to relieve the suffering is told in thousands of letters of grateful praise.

DEAR SIR:—I am anxious for the sake of the suffering and out of gratitude to you to give my personal endorsement of your wonderful remedy. On the 24th of January, 1897, I was in Washington and was suddenly seized with an aggravated case of inflammatory rheumatism so severe and painful was the attack that within 24 hours my left arm was paralyzed and I was only able to dress with assistance. I secured a bottle of FIVE DROPS and took a dose that night, rubbing some on externally as directed. The following morning I was surprised to find myself immensely relieved, and continuing treatment wrote the second morning cured. My arm was absolutely free from pain, and all swelling and stiffness had disappeared. The quickness and completeness of my cure was remarkable. I have known for over a year of the great curative properties of your medicine and have several friends who have been cured by it of Rheumatism, Catarrh and Asthma. Wishing you every success and trusting that those similarly afflicted will at least give this remedy a trial. Sincerely yours, W. F. LIMBURNER, Director of Populist and Reform Papers, Old Stock Exchange Building, Chicago, Ill.

DEAR SIR:—I would like to thank you for your great remedy, "DROPS," and tell you what it has done for me. I had Rheumatism in every joint and in the heart, and I had Catarrh of the head for 20 years. I was so poorly that I could not get out of bed and could not move without pain. I was so crippled that I had done but little work for seven years, and our family physician, a good doctor, told me that my Rheumatism and Catarrh were incurable. I believe him. But now, after using "DROPS" only two months, I can truly say I have not felt so well for seven years. This medicine does more than to claim that my Catarrh is cured. My Rheumatism is cured, and my eyesight is much better. I have gained more than 10 pounds of flesh and can do a full day's work. It is the best medicine I ever saw to give a mother who has a young child, for it has the same effect on the child as on the mother. It wards off Cramp and cures the lives of the child and causes sweet and refreshing sleep to both young and old. W. M. KELLEMS, Siberia, Perry, Ind.

DEAR SIR:—Your letter of recent date at hand, the testimonial you speak of is genuine. The company who manufactures and sells "Five Drops" published my testimonial just as I leave it to them and every word of it is true, and I could swear to it and prove it by many witnesses. The company did not ask me for this letter. I sent it to them last January for publication in order that poor sufferers, incurables as I once was, and you might be cured. Get "Five Drops" and use it and it will cure you as it has cured me. I have received many letters like yours, and it is a pleasure to me to answer all who write. Tell all your neighbors what I have written about "Five Drops." I know how to strengthen with those who are afflicted, for though I suffered so long, it is now 8 months since I have felt any pain. Dr. S. W. Kellems, my brother, uses "Five Drops" in his practice, and joins me in endorsing this great remedy. He says for a case like yours it is a positive cure. Sept. 21, 1896. MR. W. M. AND DR. S. W. KELLEMS.

If you have not sufficient confidence after reading these letters to send for a large bottle, send for a sample bottle, which contains sufficient medicine to convince you of its value. This wonderful curative gives almost instant relief and is a permanent cure for Rheumatism, Sciatica, Neuralgia, Dyspepsia, Backache, Asthma, Hay Fever, Catarrh, Sleeplessness, Nervousness and Neuritic Headaches, Headaches, Heart Weakness, Stomach Troubles, "La Grippe," Malaria, Creeping Numbness, Bronchitis and Kindred Diseases. "FIVE DROPS" is the name and dose. Large bottles, \$1.00. Six bottles for \$5.00. Sample bottle free by mail 25c. Not sold by druggists, but only by us and our agents. Agents appointed in every territory.
