If strength is what you want, you should study what causes your weakness.

It is practically lack of food. But you eat three meals a day, and all you can eat at a time.

Yes, but do you digest it? Food undigested, is not food. It is not nourishment.

It doesn't create strength. To digest your food take Shaker Digestive Cordial at meals. After a while you will digest your food without it. Then you will get well, and strong and healthy.

Shaker Digestive Cordial cures indigestion and all its symptoms, such as nausea, headache, eructations, pain in the stomach, giddiness, loss of appetite, etc. It makes your food nourish you, and makes you strong and fat and hearty.

Druggists sell it. Trial bottle 10 cents.

Prof. Kanematz exhibited to us yesterday some of his first crop of silk cocoons this season, a sight worth seeing. Some interesting data is given us by the gentleman, among which is the fact that these cocoons are the largest that are grown anywhere in the world.

These will average 130 cocoons to the pound, while the first propagation from this same breed of silkworms—a cross of two Italian colonies—two years ago, averaged 230 or 240 to the pound. Cocoons generally average from 230 to 300 to the pound. These are large and shapely and of a cream color. These cocoons were completed in one day's shorter time, too, than usual, being 34 days, and of the host of them all were finished except just two cocoons, which from some cause had fallen behind.

This should establish southwest Oregon, and especially Coos and Curry counties, as adapted to the silk industry, and should inspire an earnest effort to make it a business of profit and usefulness.

Sinclair prosecuting, and W. H. Hughes, colored, defending. The negro, Troinger, refused to prosecute, and the evidence plainly showed that the complaint was actuated by personal motives and was spite-work. On motion of the defending attorney, Justice Harlocker dismissed the case as being without sufficient cause.

The Woodmen's Reception.

To their "Neighbor" and our fellow-townsmen George A. Robinson and bride (nee Annie Leneve), given at Masonic hall last night, was a most charming affair and added a new feature to our social functions.

There was present, besides a large representation of our local camp of Woodmen, a large delegation of the camp at Myrtle Point, a sprinkling of neighbors from other towns, and a host of invited guests, including the Choral Society. Mr. and Mrs. Robinson, so well known and popular here, were seated on the platform to the left of the consul, Jesse Simmons, who presided and stated the object of the meeting.

The Choral Society rendered a Greeting Glee. The Misses Daisy and Ella Wickham gave a beautiful vocal duet; then followed the Waltz Song by the Choral Society. The orator of the evening, A. J. Sherman, esq., then delivered a "congratulatory address," replete with humor and kind words. The Misses Wickham then gave another duet, "A Mother's Welcome."

Consul Simmons then announced refreshments, and the clever, hospitable Woodmen stirred themselves in the distribution of delicious ice-cream and cake. They had prepared an abundance, and that social feature was a complete success. After a short respite, the Choral Society sang "Evening Echoes," and then all restraints were announced to be "off" and the throng could enjoy themselves to their own satisfaction.

Of course greetings, conversation and plays filled in to a late hour and a pleasant time was passed.

The Woodmen spared no pains to make this feature of their organization pleasurable and attractive, and succeeded admirably. Neighbors G. W. Canning and Dad Johnson excelled themselves, being untiring and earnest in preparation of a veritable feast.
