Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mistake the symptoms.

Pale, thin people, who are overworked, who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested.

It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain fibre, courage, endurance, energy; increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial.

Warren and Pinkston Laird, when driving home from the social at Fishtrap schoolhouse last Friday night, had a close call from a runaway mishap. It was midnight and quite dark, calling for careful driving, but the horse frightened at something, ran, spilling them on the ground near each other, leaving them quite uninjured but taking in the music of the retreating horse's hoofs and the racket of vehicle, with every now and then a staccato by the wheels colliding with a tree or the railing of a bridge. Finally all seemed quiet and the boys hurried to get possession of what was left of their outfit, which they found had been strewn all along the road, with nothing on the horse at home but a small portion of the harness, though himself unhurt. It was a most happy escape from serious or possibly fatal injury.
