Devoted to the material and social upbuilding of the Coquille Valley particularly and of Coos County generally.
Subscription, per year, in advance, $2.

Rev. Father Desmarais, who at one time had charge of the Catholic church at Marshfield, and who is now in Canada, writing under a late date to the Jacksonville Times says: "I have traveled much since I left Jacksonville, and stopped in St. Paul, Minneapolis, Chicago and other large cities; and, truly of all places seen, I would say give me back Oregon. The weather in the northern states east of the Rockies and in Canada was so cold during June that an overcoat was needed at times during the day. Rain prevailed everywhere. The crops in eastern Canada are ruined, and are not much better in western Canada. Next winter will be a hard one for the people here in general. I have been in New York state. Times in the eastern states are very hard — manufacturing establishments working only half time, money scarce and no immediate prospect of better days. All are waiting as yet for "ye golden days of old," hoping that the McKinley heavens will soon open and rain down golden eagles. It is well for the Oregonians that they have a climate to rely on. They cannot realize how hard times are here when crops fail or mills stop."

The "nickel" social, announced in last week's HERALD to be held Saturday night at Mr. and Mrs. A. L. Nosler's, was later changed to Friday night owing to other announcements made for Saturday night. Notwithstanding the sudden change, the social was a decided success and exceedingly pleasant, though a very short program had to be improvised. Several charmingly rendered instrumental pieces were given by Miss Marvin Lamb and Misses Maud and Birdie Nosler; also a song by Misses Birdie and Minnie Nosler; a recitation by Miss Mamie Conwell; a solo by Mrs. Good; a male trio by Prof. Claud Nosler, J. W. Sugg and Fred Nosler — "The Sheep Upon the Mountain," original; then followed plays and social chat and lemonade, making a most enjoyable evening.

Bandon correspondent Sun: The Coquille River arrived last week bringing 15 passengers up, and [illegible] way 13 more, and carrying one of the largest and most valuable cargoes ever taken from this place. Capt. Drisko is doing well with this steamer since he has taken command, and is entitled to much credit for it.

Bandon correspondent Sun: Col. R. H. Rosa has been appointed Assistant Timber Inspector for the state of Minnesota. The appointment was received through Binger Hermann and carries with it a salary of $6 per day. The colonel telegraphed that he would accept it, and was notified to be there about the 1st of next month.

At the meeting of the stockholders of the Coquille Hotel Co., held at Mercantile hall last Tuesday evening, the following were chosen a board of directors: J. J. Lamb, R. S. Knowlton, L. Harlocker, J. H. Nosler and J. P. Goodman.

A. G. Aiken returned Sunday from his gold prospecting trip to the South Sixes country with Uncle Shad Hudson and George Wickham. The latter remain to make further investigations.

Mrs. Tupper, postmistress at Bandon, spent several days in town last week visiting her parents, Mr. and Mrs. Whetstone, and other relatives and friends.

Deputy Sheriff Clyde Gage was on the bay on business several days last week. Woodson Patterson assisted in the office during the absence.

### A Pneumatic Baby.

Pittsburg, Aug. 10.—Mrs. George Ruthman, of Beaver Falls, heard a peculiar noise on the back porch of her residence. She found her two sons, one aged 7 and the other one year older, in a corner. The babe was on its back. The elder brother had inserted the tube of a bicycle pump in the baby's mouth and was filling him with wind as fast as he could work the pump. The infant was unconscious and its little stomach was inflated like a balloon. The mother pulled the tube from the child's mouth and the air followed with a sharp sound like the exhaust of an air brake on a railway train. The baby recovered consciousness.

Twenty-three columns of delinquent tax sales are being published in the Oregonian—an evidence of prosperity.

[Bandon Recorder.]

Not the wave of prosperity but the wave of adversity has struck the mill hands at Coquille City. Wages have been reduced 10 per cent.

The old man Forty, of Elk river, died yesterday morning and will be buried at Port Orford this afternoon. James Forty, of Marshfield, passed through town this morning to attend the funeral.

The Coquille fishermen who have been fishing on the Columbia river have returned. Arthur Ellingson and Mr. Ashton came home yesterday, having come around from the bay in their fishing boat.

At the government jetty on last Saturday 358 tons of rock were dumped, this being the greatest amount yet recorded for one day. Last month the output of the quarry exceeded 6000 tons, and it is expected to reach 7000 this month.

About fifteen of Delphi K. of P. boys chartered the Antelope Saturday and proceeded to Cedar Point where they met the train to take them to Beaver Hill, to participate in the instalation of a K. of P. lodge at that place. A working team from Myrtle Lodge of Marshfield, numbering about twenty members, had arrived at the mines some hours previously. The work of installation began early in the evening and by 9 o'clock the following morning Lycurgus Lodge, No. 72, K. of P., was an accomplished fact. Our delegation report a royal reception at the hands of the Beaver Hill boys.

Judge Fullerton has granted the Southern Oregon Co. another injunction sretraining the sheriff from selling property for the collection of the taxes against the company's property. This is the third time that injunction proceedings have been brought in the S. O. Co's case, and the delinquent taxes of that company now amount to $24,000. We have noticed in the past four years, during which time the S. O. Co. has been fighting against paying its taxes, that when lawlessness touched its possessions it was just as quick to call on the officers of the law to step in and protect its property and punish offenders who held up hands against it as any other company, or any individual taxpayer in the county, and we think that where a company is so zealous of protection, and so ardent in the punishment of offenders against its holdings, that it ought, in justice to itself, pay its share of the burden of securing protection against lawless persons. It should not ask the public to pension it and give it a bonus besides.

# UPPER-RIVER DEPARTMENT.

## Myrtle Point and the Upper-Coquille and What is Going on There.

Capt. W. T. McCloskey is building an addition to his residence property.

G. M. Stroud, grand lecturer of Oregon A. F. & A. M., is expected to visit Myrtle Point this week.

A. A. Jameison, of Curry county, has been visiting with his relatives and friends in this place for the past week.

Madeleine B. Conklin, of Roseburg, grand matron of Oregon O. E. S., is still in Coos county and busily engaged instructing the various lodges of that order.

The German Baptist church of this place held a love-feast on last Saturday and Sunday in their church house below town. The attendance was large and much interest manifested. Five were baptized.

The river improvement work was brought to an untimely halt on last Saturday by a misunderstanding between the contractors and the government supervisor. However we hope ere this communication is in print that an agreement will be reached and the work again pushed ahead.

When one generation adopts a reform the next generation invariably "go 'em one better." Our older sisters have been trying various styles of dress reform for some years past. At the present the little girls of our town have got right down to perfection and now wear overalls, all the same as men.

Report reached here last week of a coup[illegible] of neighbors residing in Curry county who had had some little difficulty over trifling matters. One, in order to wreak revenge, deliberately shot a fine span of work horses for the other. Such a person as this should be dealt with severely, as they are dangerous men in a community.

T. J. Greene came over from Greene & Sinclair's placer mines on Sixes river last Friday, and informs us that those gentlemen are making arrangements for a big run this season, the mine having been thoroughly prospected. A grand clean-up is assured. He also informs us that the Divilbiss Bro's are digging a ditch to bring water on their placer mine, which is also very rich. In fact mining on the main Sixes has taken on new life and will present a scene of activity the coming winter.

### Rumblings from Rural.

Rural, Aug. 16.—Our farmers of this locality have put up large quantities of hay of the best quality, and are now engaged in harvesting and threshing, and I don't think crops have ever been better than they are this season.

I have recently traveled over a portion of the county and have never seen a finer prospect for a large yield of grain, grapes, fruit and vegetables. A kind Providence seems to have smiled upon the efforts of our farmers this season and crowned their labors with success.

Now if there was only enough money in the country to enable our farmers to dispose of their surplus crops at reasonable rates, the cry of hard times and scarcity of money would soon be heard no more, and peace, prosperity and happiness would once more reign supreme.

And why is it that the laboring classes—the bone and sinew of the country, and creators of all the wealth therein—should ever suffer for want of money? How can the monopolists and money lords reconcile it to their feelings to oppress the laboring classes, when they know their existence on earth would soon terminate, were they—the laboring classes—to cease operations? But I trust the time will not be distant when a laboring man on his farm will be more highly respected and honored than the monopolistic bondholder as he revels in his palatial residence and counts his millions of ill-gotten gain.

I hear but little from our miners and prospectors, but hope their labors will be crowned with success, and that none of them will have to go to far-off Alaska to find their "Klondike," but that they will find it in Johnson mountain, or thereabout, and that it will yield enough of the precious metal to amply reward them for all their arduous toils and privations, while traveling over "those massive mountains high," exposed to many dangers, seen and unseen.

A part of the U. S. geological surveyors are still in our locality, and the others were away back among the mountains when last heard from. From the surveyors, we learn that Rural is about 275 feet above sea level.

D. Giles & Son's brickyard started up Monday last and will make a short run.

Owing to an extra rush of business or too much resting "X-Ray" failed to reveal anything for publication in the Bulletin last week.

Mrs. W. H. Brown and family, and Mrs. Brown's brother, Master Fred Russell, are enjoying an outing at Bandon, the famous health resort.

William Wilson, son of Thomas Wilson, was arrested on last Friday for setting out fire on the premises of Godfrey Rhom, and tried before Justice Orvil Dodge. He was acquitted, the evidence being insufficient.

R. W. Lundy and son-in-law, Mr. Lane, returned from the mines last Wednesday. They bring much encouraging news from our Klondike regions, especially from the M. P. M. & D. Company's mines where gold is tramped underfoot.

A CARD.

It has been reported in town that I offered four dollars per week to a certain young lady to do the general housework for my family. Now I wish to state that this report is entirely false. In fact an ordinary girl, and at the going wages of the neighborhood, is good enough for me.

Attorney L. L. Burtenshaw and family returned from Curry county last week, where Mr. B. was circulating a petition for a new mail schedule between this place and Gold Beach. The people are very enthusiastic over the proposition and give it their combined support, as it will give them their mail many hours earlier than by the present schedule.

Of course everybody will attend the G. A. R. Encampment at this place and make it a pleasant occasion for the old soldiers, who are now stacking their arms, as the battle of life is closing. Only a few more years and those noble patriots will have answered the bugle-call beyond the river, where the faithful are rewarded. Then gather around their camp fires (while yet they are burning) and cheer them on their journey. 'Tis a debt of gratitude we owe the guardians of our country. Walk with each and every one to the river's brink, and pray the Guardian Angel to see them safely home, for their work was willingly, well and faithfully done.

### Riverton Risings.

Riverton, Aug. 15.—Steamer Coquille River took fuel from Timon's bunkers on her last trip. She brought up some freight for Riverton.

Steamer Moro loaded at Timon's mine last Sunday.

Emerson Ferry starts for the Siletz river next Sunday. He says he must raise a stake by spring in order to go to Alaska.

A company is now being organized here to go to Alaska next spring. We now have 8 members who have pledged themselves to go. No man can accompany this gang that cannot girdle $150 in his jeans.

Thomas Anderson, the Bandon butcher, was in our neighborhood buying cattle, which he shipped down the river last Saturday.

Still the B. B. coal mines remain closed. We are told the mines will be worked this week.

One by one our floating population have disappeared and now Riverton holds but few who do not have homes here.

Price Brothers are now working the Lyons mine. They have placed an engine and pump in their mine. Success, boys. More work there is the better times we will have.

### STEAMER MEXICO SUNK.

**Was On Her Return Trip from Alaska, Having Left Her Gold-Seekers at Dyea.**

San Francisco, Aug. 10.—A special from Victoria says: The steamer Topeka, which arrived here this evening, reports that the steamer Mexico, on Aug. 5, while going into Dixon entrance from Sitka during a heavy fog at full speed, struck West Devil's rock. After two hours the steamer sank in 500 feet of water, stern first.

The captain exhibited great coolness, and, with the officers, did everything that was possible.

The passengers and crew were saved, with their hand baggage in small boats. After rowing till midnight, they arrived at Metlakahtla. The time the ship struck is believed to be 4 in the morning. The ship is a total loss.

The San Francisco Examiner of the 8th inst. says: "The creditors of the California Lumber company, which was attached a few days ago, have petitioned the superior court to have the corporation declared insolvent. The creditors and their claims are: H. Levi & Co., $17,848.15; Abraham Brown, $1,231.07; Leon Blum, $1,550.87; Otto H. Greenwald, $12,929.65, and B. Sheideman, $1,016.89. The claims are all based on promissory notes."
