

OUR OBJECTS. More Leisure—Abolition of Poverty and Crime—Promotion of Human Brotherhood.

"The primary object of the Labor Exchange is to give idle labor a chance to employ itself in useful production."

"This sounds very simple, but it means much more than appears at first glance. Think that if all the vast army of the unemployed were given an opportunity to produce the wealth they need so badly, what a wonderful change would be brought about in society!"

"But if all were made producers there would be an 'over production' and panics would come again, it will be said. If society were arranged on correct principles, the plentiful production of the necessities, comforts, and luxuries of life ought not to be looked upon as a calamity, and would not be."

"Other objects of the Labor Exchange association are, co-operation in industries, the encouragement of fraternity, the lessening of crime, poverty, and the feeling that the whole world is against one, are the greatest incentives to crime on earth. Given a free opportunity to work with a prospect of getting an equivalent for their labor and few men would care to be bad; the few who are born wrong would soon die out. Are not these objects noble enough in themselves to work and sacrifice for? The Labor Exchange cannot put every man to work at once, or eliminate injustice and robbery from the beginning; only as it grows and begins to permeate all society will these evils fall away and disappear. Devotion, hard work, faithfulness, forbearance are needed now in the beginning to foster the development of the association. But so surely as it widens out and becomes general, so surely will poverty and misery disappear, equity will prevail, and human beings feel that sympathetic relationship which is inherent in their natures.—L. in Labor Exchange Guide.

Progressive Thought: Labor saving machinery is one of the workmen's best friends, but what we need is a plan by which the working people cannot only make the machines that save labor, but also retain the machines in their own control after they are made. This is all very easy to do, but it needs the honest co-operation of the producers upon correct lines through the Labor Exchange system. Those who claim that labor-saving machinery is an enemy to labor are simply in the dark on economic lines, and we kindly ask them to more fully investigate for their own benefit and the welfare of others.

Friend of Labor: When the carpenter builds a house for the capitalist, what does he get as pay? Wages—the means of living while working—that's all, while the capitalist retains the house—the product of the carpenter's labor. Now think, did the capitalist's money build that house? No. Did the carpenter's labor build the house? You can't deny that it did. Then why doesn't the carpenter keep the house himself? Friend, why don't you study the Labor Exchange and see how it is possible for the carpenter, the farmer and all the other producers to consume their "wages" and still retain the products of their labor?

Progressive Thought: It is really a disgrace for an honest, intelligent American citizen to be found celebrating the 4th of July in the manner it is generally done, as long as the working people are under the present conditions. The masses have less freedom today than they had under the reign of King George; although they are more educated on certain lines, they have less liberty and more oppression. The working people must learn to think more for themselves and then act upon their convictions, or they will soon become more degraded in their moles of life than the quadrupeds.

County Superintendent Barklow and Prof. Edmunds came up from the lower river last Wednesday forenoon as members of the board to conduct the teachers' examination.

Archy McNair, a good citizen and prosperous farmer of the Myrtle Point neighborhood, was in Coquille last Wednesday on business. Mr. Mc honored the HERALD with a call.

The G. A. R. Encampment will meet at Myrtle Point tomorrow (Wednesday, August 18) and continue three days. It is expected to be one of the most successful and entertaining yet held.

Mrs. Conkling, grand matron of the O. E. S., returned from her business trip to Marshfield on last Friday's train, whither she had been accompanied by a number of her sister members from this place. Mrs. Langhead of Bandou was also with her.

Our young friends Harvey James and George Mehl left for Gray's Harbor last Wednesday. They will probably winter there, and then in the spring go to the Klondyke section. We regret to lose such "boys," but since they have departed, we wish them health and prosperity.

The secret of a speedy cure in sickness lies in selecting the proper remedy and this is difficult to do unless one is sure what the ailment is. But one thing is sure, had the liver been actively at work sickness could not have come. It is then always safe to take Simmons' Liver Regulator which keeps the liver well regulated and all poison expelled from the system.

J. L. Bean, of Riverton, last Friday received a handsome gold watch from the Novelty Store at Roseburg as a prize, having guessed the winning number. He had purchased goods, made his guesses, and held the lucky number, and the merchant duly forwarded same. It is a Waltham, stem-winding, dust and water proof watch. A watch valued at \$50 is given each thirty days.

Col. Ross was in town a short while last Wednesday. He discussed various topics, including the Klondyke strike and the advantages of the tariff on lumber to protect American labor and raise their wages. He refers with pride to the big yellow poster that was flaunted during the last general election campaign, promising prosperity—more work and higher wages!

The county board of equalization will hold its session in this place, the county seat, beginning on Monday, August 30, 1897, at 9 o'clock a. m. Taxpayers are interested, as this is the opportunity afforded them to correct assessments, if not properly assessed, or make complaint for any cause in that line, as the board at this meeting publicly examines the assessment rolls and corrects errors of valuation, description or qualities of lands, lots, etc.

John Perdue's barn on Days creek, Douglas county, was burned with all its contents Thursday night, 5th inst. The loss falls heavily on Mr. Perdue as it contained all his farm machinery and a large amount of hay. No explanation can be given as to the cause of the fire and it is supposed to be the work of an incendiary.

In a decision recently handed down at Pendleton the Oregon supreme court has held that the homestead exemption act is valid. This law provides that a free holder may claim exemption to the amount of \$1500. Nearly all the circuit courts of the state have decided that the law is imperative, but the supreme court now affirms the validity of that act.

East Oregonian: Since the tariff bill became a law 90 speculative stocks have increased in value in Wall street in the sum of \$476,824,903. This vast sum will go into the pockets of the few people who own stocks, the mass of the people having to make returns from their toil on the excessive valuations. This creates an extra heavy drain from the pockets of the masses into the coffers of the classes. Excessive capitalization is the greatest burden that prosperity has to carry and its exacting frequently afflict industry and enterprise to such an extent as to bring about an era of hard times.

Wednesday evening, 4th inst., Lilly Schaeffer, aged 14, who lives with her parents on Hill creek, in Baker county, had quite an adventure with wildcats. She was engaged driving up the cows for the evening milking, when she came face to face with a wildcat and kittens. The cats stood their ground, the old one making fight with the girl's dog. The young lady, not to be driven from the field by fright, gathered her apron full of stones, and the battle began in earnest. It ended by Miss Schaeffer killing one of the kittens, and carrying it home as a trophy of her bravery and skill in a close and dangerous encounter.

James Phillips is a union veteran, who was severely wounded at Antietam, which has ever since incapacitated him for work. He receives a pension of \$6 per month, upon which he, his wife and two grown sons—who lost their positions as mechanics the day after the wave of prosperity came—have subsisted for months. The other day Phillips was arrested for theft because, to feed his starving family, he "appropriated" a few potatoes that were rotting on one of the city's wharves. They were not worth 2 cents. Fruit and vegetables are often dumped into the bay because the prices attainable will not pay commission merchants to handle them. And yet a hungry man—and one who helped to preserve this nation—is punished for stopping a little of the waste! Blast such law!—S. F. Star.

Durrant's Long Lease of Life. San Francisco, Aug. 9.—The supreme court today decided to take no action in the appeal of Durrant from the order of Judge Bahrs, setting his execution for June 9 last, until the supreme court of the United States has disposed of the case pending before that body. Attorney Deuprey, who appeared for Durrant, contended that any action taken at this time upon the appeal would be null, in view of the fact that the case is now before the highest tribunal, and the court therefore granted a continuance of the appeal.

The So-Called Better Class. It is a curious and sad fact that in the long, weary, upward march of the human race, there was scarcely ever an act proposed for the protection, emancipation or elevation of the human race, but met with the most violent opposition from the so-called better class, as well as from statesmen and philosophers, and many of the clergy.—John P. Altgeld.

A Corning, N. Y., man gave a patent medicine house a testimonial. His picture was published. A Denver woman worth \$40,000 saw it, fell in love with the picture and wrote the man, proposing. He accepted, when she sent \$75 for his expenses to Denver and he left on July 14 for that city to complete the romantic affair. This ought to boom patent medicine testimonials.

There does not seem to be an over abundance of prosperity in India since England closed her markets against silver. Strange Reason for a Mother's Crime.

Quitman, Ga., Aug. 9.—Fisher-men discovered the body of a 6-year-old boy floating on the surface of a pond near this place and later identified it as the son of Mrs. Idella Powell Banks, a widow, owning a farm just outside of Quitman.

The actions of the mother when notified of the discovery aroused the suspicions of the coroner and was subsequently arrested and placed in jail. Here she was visited by a minister, to whom she confessed having murdered her child.

The reason she gave was that he was too ugly to be permitted to live, and was a constant source of embarrassment to her on that account. She said she walked by the pond, and when she tried to push him in he resisted with all his feeble strength. She has broken down completely in jail, and says she wants to be hanged as soon as possible. The child's face was disfigured by a birthmark.

Deafness Cannot be Cured. By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness results, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; time goes out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous membrane.

RHEUMATISM, NEURALGIA, CATARRH, ASTHMA, HEADACHE and their marvelous cure. Selection of the 19th Century looks on with amazement at the most remarkable record of cures ever known in the World's history.

Hundreds of thousands of Sufferers cured with a single failure by "FIVE DROPS."

Though so universally used and tested did you ever hear anyone speak of this great remedy? No, you never did and never will, for it is taken as directed and in the proper quantity. A Drop cannot fail to cure any of the diseases for which it is recommended. What has already done to relieve the suffering is told in thousands of letters of grateful praise.

Mr. J. P. Lindbjerger, widely known for many years as the special representative of the "Drops" in the United States, has kindly forwarded the following letter for publication: Jan. 25, 1897.

DEAR SIRS—I am anxious for the sake of the suffering and out of gratitude to you to give my personal endorsement of your wonderful remedy. On the 15th of January, 1897, I was afflicted with a severe and painful attack of rheumatism, and my left arm was paralyzed and I was only able to dress with assistance. I secured a bottle of "DROPS" and took a dose that night, rubbing some on externally as directed. The following morning I was surprised to find myself immensely relieved, and continuing treatment woke the second morning cure. My arm was absolutely free from pain, and all swelling and stiffness had disappeared. The quickness and completeness of my cure was remarkable. I have known for over a year of the great curative properties of your medicine and have several friends who have been cured by it of Rheumatism, Catarrh and Asthma. Wishing you every success and trusting that those afflicted with these ailments will at least give this remedy a trial. Sincerely yours, J. P. LINDBJERGER, Bureau of Populist and Reform Papers, Old Stock Exchange Building, Chicago, Ill.

CURES THE INCURABLE. DEAR SIRS—I would like to thank you for your great remedy, "DROPS," and tell you what it has done for me. I had Rheumatism in every joint and in the heart, and had Catarrh of the head for 30 years. I was so poor that I lost the use of my legs and arms, and could not move without pain. I was crippled. I had done with my work for seven years, and our family physician, a good doctor, told me that my Rheumatism and Catarrh were incurable, and I believed him. But now I am cured, and have recovered my health. I can truly say I feel well for seven years. This medicine does more than is claimed for it. At this time my Catarrh is well better, and I have scarcely any Rheumatism at all and the least weakness and pain are gone. My hearing is now good, and my eyesight is much better. I have gained more than 100 pounds of flesh and can do a full day's work. It is the best medicine I ever saw give a mother who has a young child, for it has the same effect on the child as on the mother. It wards off Croup and cures the lives of the child and causes sweet and refreshing sleep to both young and old. Yours respectfully, S. KELLEMS, Siberia, Perry Co., Ind.

DEAR SIRS—Your letter of recent date at hand, the testimonial you speak of is genuine. The company who manufactures and sells "DROPS" published my testimonial just as I gave it to them and ever word of it is true, and I could swear to it and prove it by many witnesses. The company did not ask me for this letter. I sent it to them last January for publication in order that poor suffering, incurable Rheumatism and Asthma might be cured. Get "DROPS" and use it and it will cure you as it has cured me. I have received many letters like yours, and it is a pleasure to me to answer all who write. Tell all your neighbors what I have written about "DROPS." I know how to sympathize with those who are afflicted, for though I suffered so long, it is now 8 months since I have felt any pain. Dr. S. W. Kellems, my brother, uses "DROPS" in his practice and has had just as much endorsing this great remedy. He says for a case like yours it is a positive cure. Sincerely yours, S. W. KELLEMS, M. W. M. AND DR. S. W. KELLEMS.

If you have not sufficient confidence after reading these letters to send for a large bottle, send for a sample bottle, which contains sufficient medicine to convince you of its merit. This wonderful curative gives almost instant relief and is a permanent cure for Rheumatism, Sciatic, Neuralgia, Dyspepsia, Backache, Asthma, Hay Fever, Catarrh, Sleeplessness, Nervousness, Nausea and Headaches, Heart Weakness, Toothache, Earache, Croup, "La Grippe," Malaria, Creeping Numbness, Bronchitis and Kindred Diseases.

"FIVE DROPS" Malaria, Creeping Numbness, Bronchitis and Kindred Diseases. Large bottles (50 doses), \$1.00. Six bottles for \$5.00. Sample bottle prepaid by mail free. Not sold by druggists, but only by us and our agents. Agents appointed in new territory.
