THE LABOR EXCHANGE.

Pertinent Queries Answered.

Say neighbor, have you ever investigated the principles of the Labor Exchange?

No, what is it?

It is a national organization incorporated under the laws of Missouri, with local Branches in various parts of the country.

What is it for?

It is calculated to benefit the industrial class by furnishing employment to idle people.

Well, I have been idle for some time, and am looking for work. What can I do, and what is the pay?

You can have your choice of work, but we don't consider it necessary to pay.

What is the use for me to work unless I get pay for it?

When you apply labor to raw material and produce something of value, you rightfully own the product which is the pay for your work; but when you work for some one else you simply give him a share of your labor for nothing.

You don't expect each man to produce everything he needs or wants, do you?

No, but all men collectively can make all they need of material things, and each can exchange his surplus for the surplus of others.

How do you propose to effect the exchange?

Each person deposits his product with the Exchange, and receives, as an evidence thereof, a certificate of deposit redeemable in any article of like value in the possession of the Exchange.

What constitutes the basis of valuation?

At present we have to take market valuations. Later, when the Exchange is a factor in regulating commerce, the average time required to produce the article will determine its value.

But suppose I have nothing to deposit but my labor?

We propose to capitalize labor, and afford you an opportunity to invest this capital.

Will you explain how this is to be done?

By the employment of labor in mining coal, quarrying rock, making bricks, cutting and sawing lumber, building houses, farming, building ships and railroads; in the manufacture of shoes, clothing, and various necessaries of life.

How much of that do you expect to do here?

Whatever our natural resources will permit, our surplus of which we will exchange with other Branches whose facilities differ from ours.

Is there any benefit other than the employment of labor?

Yes, an interest in the accumulated wealth of the association.

How much interest has each member?

Each member's interest is proportional to the amount of his deposits of labor or its products.

Under what conditions can a member withdraw his interest?

Only in case of actual need. If the Exchange provides him with work, it expects him to leave the accumulation of wealth as a capital to employ other labor.

What would become of his interests if he should die?

It would be inherited by his heirs the same as other property, subject to the same conditions as before.

Is such interest transferable?

No.

Must a member go to your Exchange for everything he wants?

No, only so far as it is to his interest.

Can any one use these checks outside of the Excange?

Yes, whenever it is known that they are based upon actual wealth they will circulate freely.

Can any one pay interest and taxes with Labor Exchange checks?

Yes, if agreeable to the other party; if not, you are not deprived of any present facilities to pay in cash, and have the advantage of buying necessaries with checks and saving all your cash to pay taxes and interest.

What do you expect to do after you get all the idle men employed?

We would devote whatever time was required to the production of necessaries, and the balance to the production of additional comforts, luxuries, and the general improvement of human conditions, physically, mentally and morally.

What distinction do you make between skilled and unskilled labor?

As the product is the pay, the reward is according to the deed.

What does it take to become a member?

One dollar pays for a life membership. There are no dues or assessments.

Who is eligible?

Any person of good character not addicted to intemperate or immoral habits, who is willing to engage in a useful occupation.—From Leaflet of Branch No. 131, Salina, Kans.

For the regular subscription price of $2 in advance both THE HERALD and *Rural Northwest* may be received.

Hon. Thos. H. Tongue has succeeded in locating the lost muster rolls of the companies of volunteers that fought the Rogue River Indians in 1853. The veterans had long endeavored to obtain recognition from the government, but were informed that there was no record of their services in the war department. Through the efforts of General Lane, when a delegate in congress, they had obtained pay for their services by a special act, and Mr. Tongue traced this up and found the muster rolls in the treasury department.

E. P. Mast was down from Fairview last Thursday and included a pleasant call at our sanctum. Mr. M. came to Coos county in 1872 and now lives on the same place upon which he located at that date, in one of the best portions of the county, now well settled with thrifty, intelligent people, and he says the present season's crops are the best he has ever seen in Coos county, of all kinds. The fruit crop is immense, of the healthiest, prettiest, most delicious kinds, perfect as wax work, without blemish or blight. The vegetables, grain and hay crops are just of the best. The health of the people, too, is first-class. Although Mr. M. is now 50 years of age, we doubt if he was in the market but that the young ladies would regard him as a "catch," and not over 30.

Late Literary News.

With five delightful stories in the August Cosmopolitan, one might judge that it was intended solely for light reading in midsummer; but a second glance shows that it contains as well much of serious interest. The second paper by the special commissioner sent by The Cosmopolitan to India tells a tale, the like of which has never before appeared in any periodical. We have in histories second-hand accounts of great famines, but they lack that startling distinctness which comes from beholding at first sight the sights described. Twenty million of people slowly starving to death, many of them in sight of the railways! No American can form any idea of the state of affairs now existing in India. Mr. Hawthorne has gone into the interior and stood amongst the dead and dying. It is the first time that we have had an American investigation of the condition of affairs in India. The report will open the eyes not only of the civilized world, but of the English Parliament and the Queen herself to the necessity of extraordinary exertion in behalf of these unfortunate millions.

Dora Doings.

Dora, Aug. 23.—Having returned from Douglas county, after a three weeks, absence, will try and give you a few items.

Threshing is nearly done on the South Umpqua and surrounding country. Grain is yielding well according to the size of stacks threshed, but a light yield per acre. A large percent of land in Douglas county has been cropped to small grain for so long a period, with nothing done to keep up the land, that grain crops are very light to what they used to be twenty years ago. Wheat is selling at 75 cts. in Salem, and 75½ cts. in Roseburg.

B. C. Agee and Mr. Winson have picked and shipped east several car-loads of Bartlett pears and silver prunes. They expect to clear 1½ cts. per lb.

B. C. Agee has put up two new dryers, having now five ready to start the 6th of September, and he thinks he will dry 400,000 lbs. of prunes, having 160 acres in orchard on river bottom land. Mr. Winson has about 45 acres in orchard.

Sheriff Agee last Wednesday took an insane man to the asylum at Salem, he being the fourth person received that day.

The weather has been very warm in the valley, registering 102 to 108 degrees.

Charles Heller, of Dora, has started his thresher, and is on the East Fork.

Rev. T. E. Scofield has arrived back on his place at Dora from Newberg, his family with him. He has come to stay, so he says.

R. J. Coke is building a new house on his place on Middle creek.

E. N. Harry has returned from the headwaters of Coos river, the surveying party having completed their contract.

J. D. Laird has his new barn up and filled with hay.

Marshall Alford, the mail carrier on the Myrtle Point and Dora route, met with quite an accident on the 21st while driving a horse to a cart. The horse got to kicking and kicked Marshall in the face. Republican Bosses on the Bay Playing for Advantage—A Fight On.

ED. HERALD: Since coming to Marshfield I have found out what seems to be a little family unpleasantness in the Republican party on the bay. It seems from what I can learn that the Republicans of Marshfield intended to meet Hon. Thos. H. Tongue and give to him a suitable reception, and dispatched a committee of one to Myrtle Point to inquire of Mr. Tongue when he could visit Marshfield. When the committee arrived at Myrtle Point he learned that Mr. Tongue had been spirited away an hour before, and that same night stopped with an alien at the depot without coming to Marshfield. Next day he was escorted to the government works as per article in Coast Mail, as follows:

"A TRIP DOWN THE BAY.

"Thomas H. Tongue, congressman from this district, arrived in Marshfield on Thursday evening, coming from Myrtle Point, where he had been speaking at the G. A. R. encampment. On Friday morning some of the citizens of town and members of the Chamber of Commerce, amongst whom we noted C. W. Power, H. Sengstacken, Judge Hyde, Jas. H. Flanagan and the editor of the Mail chartered the steamer Yarrow for a trip to the government works," etc.

The following is the way a prominent Republican put the case in my hearing, and I give it as I heard it. Speaking of the article as above noted, he said: "There's a man who wanted it declared from the house-tops that he would defeat the Republican ticket in Coos county. A passive Republican, two Democrats and a Democratic editor of a Republican R. R. organ, these we found with other Democrats at Empire City. After coming from the government works, Mr. Tongue could not get away from his guards long enough to speak to his Republican friends, a number of whom wanted a short chat with him. This is their opinion of things. Now I will give mine, and that is if any one thinks that when dealing with Mr. Tongue that they have a spring chicken to deal with, they are away off; but whatever is believed makes no difference to

The other day an exchange in a neighboring city gave notice that in case a buggy whip was not returned to a certain place before the next issue, it would publish the name of the party who took it. Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

5 DROPS

Hundreds of thousands of Sufferers cured without a single failure by "FIVE DROPS."

Though so universally used and tested did you ever hear anyone speak ill of this great remedy? No, you never did and never will, for if taken as directed and in the proper quantity "5 Drops" cannot fail to cure any of the diseases for which it is recommended. What it has already done to relieve the suffering is told in thousands of letters of grateful praise.

Mr. J. P. Limeburner, widely known for many years as the special representative of the Populists and Free Silver Press of the United States, has kindly forwarded the following letter for publication:

Jan. 25, 1897.

DEAR SIRS—I am anxious for the sake of the suffering and out of gratitude to you to give my personal endorsement of your wonderful remedy. On the 9th of January, 1897, I was in Washington and was suddenly seized with an aggravated, case of inflammatory rheumatism; so severe and painful was the attack that within 24 hours my left arm was paralyzed and I was only able to dress with assistance. I secured a bottle of 5 DROPS and took a dose that night, rubbing some on externally as directed. The following morning I was surprised to find myself immensely relieved, and continuing treatment woke the second morning cured. My arm was absolutely free from pain, and all swelling and stiffness had disappeared. The quickness and completeness of my cure was remarkable. I have known for over a year of the great curative properties of your medicine and have several friends who have been cured by it of **Neuralgia, Catarrh** and **Asthma.** Wishing you every success and trusting that those similarly afflicted will at least give this remedy a trial, Sincerely yours J. P LIMEBURNER,
Bureau of Populist and Reform Papers, Old Stock Exchange Building, Chicago, Ill.

CURES THE INCURABLE.

DEAR SIRS:—I would like to thank you for your great remedy, "5 DROPS," and tell you what it has done for me. I had Rheumatism in every joint and in the heart, and I had Catarrh of the head for 30 years. I was so poorly that I lost the use of my legs and arms, and could not move without pain. I was so crippled, that I had done but little work for seven years, and our family physician, a good doctor, told me that my Rheumatism and Catarrh were incurable, and I believed him. But now, after using "5 DROPS" only two months, I can truly say I have not felt so well for seven years. This medicine does more than is claimed for it. At this time my Catarrh is much better, and I have scarcely any Rheumatism at all and the heart weakness and pain are gone. My hearing is now good and my eyesight is much better. I have gained more than 10 pounds of flesh and can do a full day's work. It is the best medicine I ever saw to give a mother who has a young child, for it has the same effect on the child as on the mother. It wards off Croup and cures the hives of the child and causes sweet and refreshing sleep to both young and old.

Yours respectfully, WM. M. KELLEMS,
Jan. 29, 1896. Siberia, Perry Co., Ind.

We received the following letter from Mr. J. J. Wilson of Omaha, Ill. Mr. Wilson has been for many years an invalid, and reading the above letter which was published, wrote Mr. Kellems, asking if his endorsement was genuine, and received this reply, which he forwarded us.

MR. J. J. WILSON.

DEAR SIR:—Your letter of recent date at hand, the testimonial you speak of is genuine. The company who manufactures and sells "5 Drops" published my testimonial just as I gave it to them and every word of it is true, and I could swear to it and prove it by many witnesses. The company did not ask me for this letter, I sent it to them last January for publication in order that poor sufferers, incurable as I once was, and as you are, might be cured. Get "5 Drops" and use it and it will cure you as it has cured me. I have received many letters like yours, and it is a pleasure to me to answer all who write. Tell all your neighbors what I have written about "5 Drops." I know how to sympathize with those who are afflicted, for though I suffered so long, it is now 8 months since I have felt any pain. Dr. S. W. Kellems, my brother, uses "5 Drops" in his practice, and joins me in endorsing this great remedy. He says for a case like yours it is a positive cure.
Sept. 21, 1896. MR. W. M. AND DR. S. W. KELLEMS.

If you have not sufficient confidence after reading these letters to send for a large bottle, send for a sample bottle, which contains sufficient medicine to convince you of its merit. This wonderful curative gives almost instant relief and is a permanent cure for **Rheumatism, Sciatica, Neuralgia, Dyspepsia, Backache, Asthma, Hay Fever, Catarrh, Sleeplessness, Nervousness, Nervous and Neuralgic Headaches, Heart Weakness, Toothache, Earache, Croup, "La Grippe," Malaria, Creeping Numbness, Bronchitis and Kindred Diseases.**

"FIVE DROPS" is the name and dose. Large bottles (300 doses), $1.00. Six bottles for $5.00. Sample bottle prepaid by mail 25c. Not sold by druggists, but only by us and our agents. Agents appointed in new territory.
