

THE LABOR EXCHANGE.

Success and Failure.

There are some people in the world who feel an interest in the Labor Exchange, and believe in the principle of a medium of exchange based on labor's products...

In one of Olive Schreiner's "dreams," the woman was told that thousands must go down into the water and die until a bridge was made over which future woman should pass in safety...

Common: What a tale of misery and woe the advertisements unfold. One business man advertises the "bankrupt" stock of another fellow man in ghoulish gleam!

J. A. Freeman, Mgr. Branch No. 158, Denver, Colo.: Our last order (check) just received, and is going so fast we have to order immediately, and I am afraid we will be out before we can get them.

Accountant: Several communications have been received at this office relative to the location of a Labor Exchange colony on the Pacific coast and a tract of fine land is offered for that purpose in an excellent locality.

People's Watchman: Interest a dead weight to progress; the greater the amount of interest to pay the less progress there will be.

Household Hints.

Moths do not love the light. A lighted store room is valuable. If you must omit either fruit or meat from the breakfast table omit meat.

Unless you are courting despatches avoid hop pancakes, however delicious. A teaspoonful of borax in a basin of water will reduce the oiliness of your skin if used daily.

Make the breakfast early enough to avoid the rushing of the men to business and children to school. The woman who has learned how to reduce the disagreeables of life to a minimum has learned the secret of wise living.

Cold tea, much sweetened with sugar, will, if set in open vessels about a room, collect and destroy flies.

Remember the crust of bread is more digestible than the soft part, and that coarse-grain breads are better than smooth flour ones.

Do not invariably serve oatmeal. It is the least wholesome and the least appetizing of the breakfast cereals. It evidently thickens the complexion.

Embroidery patterns on colored fabrics may be easily drawn with a pen dipped in a solution of stone blue, sugar and water. Do not make the mixture too fluid.

Ink stains on white material may be removed most effectually by washing in a strong brine, and then wetting the spot with lemon juice. This is harmless, as well as dependable.

This is said to be a good drink for an invalid: To a pint of sweet milk add the juice of a sweet orange. Heat slowly until curd forms. Remove from the stove, strain and let the mixture cool.

Ammonia has been proved to be an excellent stimulant for growing flowers. A few drops twice a week in a can of rainwater will make fuchsias, geraniums and other flowers bloom freely.

Mix a teaspoonful of pounded plaster of paris with double the quantity of oatmeal and a small quantity of sugar; strew this on the floor, or near the chinks in the wainscoting, and it will exterminate roaches.

There are some people who are never positive in anything. It is always, "I don't know," or "I guess so." There is a world of such people, and it is refreshing sometimes to hear a person speak as one having convictions, like Mr. Chas. F. Snyder, of Bangor, Pa., who wrote: "I can heartily recommend Simmons Liver Regulator to all who are troubled with Dyspepsia or Liver Complaint."

"Patronize Home Industry" is the somewhat ambiguous placard displayed in the show window of a local business house, the proprietor of which is a native of the celestial kingdom. The old process of state taxes being turned over by county treasurers direct to banks for the state treasurer, and leaving it there, is or ought to be a thing of the past. Pap Richardson recently discovered San Jose scale on a poor man's fruit trees, when he immediately enjoined the horticultural commissioner to exterminate. He said, "You can't be too radical on this matter." But a few days later when informed that the big orchard, owned by the company of which he is president, was badly infected, he was not half so radical.

There are two happy old men in Walla Walla, whose names are William Taylor and Thomas Taylor, says the Statesman. The men are brothers, and met again after a separation of about 66 years. Kansas girls have thrown a boomerang. The young women of Harper, according to the Atchison Globe, formed an association recently for the purpose of refusing to "go with" any young man who drinks, smokes or uses profane language. The young men immediately met, and resolved not to have anything to do with the girl who wears her hair untidy; who gossips; who gads around doing church work; who comes down town with powder on her ear, or chewing-gum in her mouth; whose shoes are untidy; whose skirts gap in the back; who says petty and unjust things about her associates; who is willing to stay out late with a fellow; who lets her mother do all the work; who is on the streets at meal time; or who takes longer than a half hour to do all her shopping for a week.

Socialist, Williamsport, Pa.: If a laboring man unable to get work, asks an individual or the government to assist him, he is called a pauper, a hobo and a tramp. When a gigantic corporation asks the government to assist it by placing a high tariff, it is called "protection to labor." Such an industry, it appears to us, is also in fact a pauper, hobo and a tramp. It is a blood sucker and a parasite.

What shall be done to make men marry? Ella Wheeler Wilcox has some original ideas on the subject of bachelors. She wants them taxed. She says women are entitled to support by men. "Men should earn money, and women should use it in the maintenance of the family," she adds. "And a fund should be created for unmarried women to draw upon for their support."

The great Yerkes telescope has unmasked several objects hitherto unseen. The great lens has been focussed into space, and the light-gathering power of the glass has been proved perfect. TITLED PRISONERS.

Sent to Jail for Defrauding Boarding House-Keepers.

London, Sept. 7.—The duke and duchess of Rio Grande were arraigned in Marlborough police court this morning, charged with defrauding hotels and boarding-houses. The duke is said to be a Brazilian nobleman, and the duchess, it is asserted, is the niece of ex-United States Senator Conger, of Michigan.

The prisoners were brought up in the midst of a motley assemblage of ragged criminals. They had slept in cells at Holloway, and showed the effects of the uncomfortable night they had passed. The charges were made by Mrs. Elizabeth Stanley and other boarding-house-keepers.

After hearing the evidence, the magistrate said it was a clear case of defrauding, and remanded the prisoners for a week. They returned to Holloway jail in the black maria. The female prisoner appealed to the United States embassy for protection on the ground that she was an American, but the officials replied that she had forfeited her citizenship by marrying a foreigner.

There is more catarrh in this section of the country than all other diseases and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses of 10 drops to a teaspoonful. It acts directly on the blood and its curative gives almost instant relief and one hundred dollars for any case it fails to cure. Send for circulars and testimonials Address: F. J. RHEUMATISM, NEURALGIA, CATARRH, ASTHMA, HEADACHE and their marvellous cure. Science of the 19th Century looks on with amazement at the most remarkable record of cures ever known in the World's history.

DROPS Hundreds of thousands of Sufferers cured without a single failure by "FIVE DROPS."

Mr. J. P. Linsbarger, widely known for many years as the special representative of the Populist and Free Silver Press of the United States, has kindly forwarded the following letter for publication: Jan. 25, 1897. DEAR SIR:—I am anxious for the sake of the suffering and out of gratitude to you to give my personal endorsement of your wonderful remedy. On the 26th of January, 1897, I was in Washington and was suddenly seized with an aggravated case of inflammatory rheumatism; so severe and painful was the attack that within 24 hours my left arm was paralyzed and I was only able to dress with assistance. I secured a bottle of DROPS and took a dose that night, rubbing some on externally as directed. The following morning I was surprised to find myself immensely relieved, and continuing treatment woke the second morning cured. My arm was absolutely free from pain, and all swelling and stiffness had disappeared. The quickness and completeness of my cure was remarkable. I have known for over a year of the great curative properties of your medicine and have several friends who have been cured by it of Neuralgia, Catarrh and Asthma. Wishing you every success, and trusting that those similarly afflicted will at least give this remedy a trial. Sincerely yours, J. P. LINSEBARGER, Bureau of Populist and Reform Papers, Old Stock Exchange Building, Chicago, Ill.

DEAR SIR:—I would like to thank you for your great remedy, "DROPS," and tell you what it has done for me. I had rheumatism in every joint and in the heart, and I had Catarrh of the head for 30 years. I was so poorly that I lost the use of my legs and arms, and could not move without pain. I was so crippled, that I had done but little work for seven years, and our family physician, a good doctor, told me that my Rheumatism and Catarrh were incurable, and believed him. But having heard of your medicine, I bought a bottle, and I can truly say I have not felt so well for seven years. This medicine does more than is claimed for it. At this time my Catarrh is much better, and I have scarcely any Rheumatism at all, and the least weakness and pain are gone. My hearing is now good, and my eyesight is much better. I have gained more than 100 pounds of flesh and can do a full day's work. It is the best medicine I ever saw. It is so good for a mother, it cures for it has the same effect on the child as on the mother. It wards off Croup and cures the lives of the child and causes sweet and refreshing sleep to both young and old. Yours respectfully, SIBERIA, Perry Co., Ind. Jan. 29, 1896.

We received the following letter from Mr. J. J. Wilson of Omaha, Ill., Mr. Wilson has been for many years an invalid, and reading the above letter which was published, very kindly, in the Populist, he was so much interested, and received this reply, which he forwarded to MR. J. J. WILSON.

DEAR SIR:—Your letter of recent date at hand, the testimonial you speak of is genuine. The company who manufactures and sells "DROPS" published my testimonial just as I gave it to them, every word of it is true, and I could swear it and prove it by many witnesses. The company did not ask me for this letter. I sent it to them last January for publication in order that poor sufferers, incurable as once was, and as you are, might be cured. Get "DROPS" and use it and it will cure you as it has cured me. I have received many letters like yours, and it is a pleasure to me to answer all who write. Tell your neighbors what have written about "DROPS" and they will be cured. I have only those who are afflicted, for though I suffered so long, it is now 8 months since I have felt any pain. Dr. S. W. Kellems, my brother, uses "DROPS" in his practice, and joins me in endorsing this great remedy. He says for a case like yours, it is the best. Sincerely yours, MR. W. M. AND DR. S. W. KELLEMS, SIBERIA, Perry Co., Ind. Sept. 21, 1896.

If you have not sufficient confidence after reading these letters to send for a large bottle, send for a sample bottle, which contains sufficient medicine to convince you of its merit. This wonderful curative gives almost instant relief and is a permanent cure for Rheumatism, Sciatica, Neuralgia, Dyspepsia, Backache, Asthma, Hay Fever, Catarrh, Sleeplessness, Nervousness, Heart Weakness, Toothache with Swelling, "La Grippe," Malaria, Creeping Numbness, Bronchitis and Kidney Disease.
