THE LABOR EXCHANGE.

What the Branches Are Doing.

The Salem Daily Statesman recently published the following: The Salem Labor Exchange seems to have been caught in the wave of prosperity and is doing quite well. The Exchange is building a large kiln of brick at this time, is doing considerable work about the city and has just commenced to build a warehouse for D. J. Fry. It is running a delivery wagon about the city each day and numerous parties are supplied with green groceries, fruits, etc., fresh from the garden and orchard. This wagon is doing a rushing business, labor checks being the medium of exchange. Many tons of hay have been disposed of this season on the same basis and later on cord wood will also be sold. A cannery may be operated this season and it is expected much green fruit will be shipped. The managers are in communication with parties in the east and there is a prospect that a carload of shoes may be received to be sold for Exchange currency. Negotiations are also on foot for the handling of lumber, tile and building material. During the season hundreds of loads of sand and gravel have been sold and the management held a business session Saturday, at which time a full set of officers was elected to look after the business interests of this rapidly growing institution for the ensuing year. A good attendance of the members of the Exchange marked the meeting, and general satisfaction was expressed as to the conduct of the affairs of the enterprise. Following are the officers elected for the new year: John E. Murphy, president; G. W. Griswold, vice-president; Frederick Lockley, secretary; A. F. Holt, accountant; B. J. Sharp, director for two years; Henry Oleman, director for three years; G. B. Jacobs, E. Lynn Woodin and Joseph Wright, auditing committee.

F. W. C. in Progressive Thought and Dawn of Equity: We do not oppose waiting for the action of majorities. Five hundred people in a nation of seventy millions could cast their vote for single tax and it would amount to nothing, save perhaps a slight educational effect. But 500 people united in a Labor Exchange branch and proposing to settle in a body upon a single tract of land could find many places where land could be had for Labor Exchange checks. The land could then be rented to the 500 on the single tax plan, the rent going in the first place to redeem the checks issued against it and thereafter for public improvements or for anything else that will distribute economic rent. If the single taxers really want single tax they can join the Labor Exchange and get it. If they merely want to air their theories, they will no doubt go on appealing to the ballotbox sovereigns as heretofore.

By the way, I fancy that most anarchists would be willing to grant first choice of location to first comers so long as the earth is as thinly settled and varied in resources as it is, rather than submit to the authority of assessing and collecting agencies.

Appeal to Reason: "The greatest good to the greatest number," which some people thoughtlessly affirm as a good maxim, is bad, wholly unjust. Just why a thing should be endorsed because it will profit a majority is not plain to me—I might be in the minority. What is to become of the minority? To take all the property and give it to a majority might be the greatest good to the greatest number, but would be wholly unjust. The greatest good to all is the phase. That carried out will not be unjust to anyone, neither the greatest number nor the least. Any other theory of law is wrong.

Accountant: Much is being said in the papers about prosperity and the bounteous crops, but each laborer should notice particularly how much it affects his wages—especially employes of large factories. If the change is not appreciable, then give the Labor Exchange a serious thought, and see how nice it would seem to get a share of the profits in addition to the wages paid.

Accountant: The system of wage-working is rapidly losing ground and will soon be supplanted by the Labor Exchange or some other co-operative plan whereby each worker will be remunerated according to his toil and no idler will be enabled to roll in luxury at the expense of his fellowmen.

Labor Exchange Guide: Men do the most desperate things for gold; and after all it is of no use until they can exchange it for things they need. The labor check, easily obtained by staying at home and producing something useful, will accomplish this fully as well.

The best regulator to regulate a people, is Simmons Liver Regulator. It regulates the liver and the liver regulates the person. If the liver is regular then health is good, but if sluggish or diseased then there is constant Biliousness, Indigestion, Headache and all the disorders of the stomach that one hears of. Try Simmons Liver Regulator and prove this.

A large consignment of butter from the Coquille creamery arrived in town Saturday for shipment below.

Miss Maggie Anderson and Jottie Watson left Saturday to attend the state normal school at Monmouth.

The tug Triumph arrived from the Coquille, Saturday, and sailed next morning with a load of salt for the Coquille fisheries.

The outlook for disposing of the large apple crop of this section, at fair prices, is encouraging. Apples, nicely packed, were purchased on the wharf at Marshfield, last week, by a San Francisco buyer, for 50 cents a box.

This is the season of the year when big apples are displayed in the various resorts in town, and, judging from appearances, they are unusually plentiful this year. Some very large Gravensteins have been on exhibition, and other verieties are also noticeable. E. J. Coffelt brought an apple of the Red Beitigheimer variety to the News office, Saturday, which measured 13½ inches around, and weighed 17 ounces. He has several young trees of this variety just beginning to bear.

Figs from Curry County.

A sample box of dried figs of excellent quality was yesterday received by Mrs. W. C. Gould, of this city, from the fruit farm of her father, S. T. Malehorn, at Langlois, Curry county. Mr. Malehorn was formerly a resident of this city, but went to Curry county some 12 or 14 years ago to go into the business of raising fruit. His place is situated on a plateau some 200 feet above sea level, and here fruits of many kinds flourish finely. He has ten acres in olives, which are doing well; a large prune orchard, and has been experimenting successfully with figs. He has also experimented with tea and has raised some of excellent quality. The climate along the coast of Curry county is much milder than that of the Willamette valley, and most fruits which flourish in California can be raised there.—Oregonian.

Exchange: Fortunately the farmers still hold about six-sevenths of the crop and will get these higher prices for their holdings. This means prosperity all around the circle. For when the farmer gets good prices he buys goods. When he buys goods the country merchant "stocks up." When the country merchant "stocks up" the jobber and the wholesaler increase their orders to the manufacturer. Then the manufacturer takes on more hands, runs on fuller time and pays out more wages. Then the operatives spend more money with the butcher, the grocer, the baker and all other tradesmen, and everybody is benefited.

Roseburg Review: Judge Fullerton goes to Coquille City tomorrow, where he holds an adjourned term of court to hear the tax injunction case of the Southern Oregon company against Coos county. The annual term of circuit court for Curry county opens at Gold Beach next Monday. Geo. M. Brown will go there to defend Frank Jones, who killed Thomas Hartman in the Chetco mountains several months ago. Both were prospectors. In Curry county only one term of circuit court a year is held, and this frequently causes prisoners to remain in jail many months without an opportunity for trial.

May Rivers, aged 3 years, and a daughter of Lansing Rivers, one of the hop-pickers at A. D. Pettyjohn's farm south of Salem, died very suddenly last Tuesday forenoon. At an early hour in the morning she was taken ill and vomited much. A messenger was sent to Salem for Dr. J. D. Shaw, but before he could reach her side she had expired. It is supposed she had found some poisonous berry and eaten it.

Five Corvallis girls were in Albany Saturday afternoon on bicycles, says the Democrat. They remained until 9 o'clock at night, and got to cutting up so and became so noisy that Night Watchman Baiess ordered them out of the city and advised them to go home, which they did. Their father should use a whip on them or keep them at home, is the Democrat's comment.

Redwood Forest Day, at one time a resident of Gold Beach in Curry county, and well-known in that county, died in San Quentin prison on August 8, aged 28 years. Day was sentenced to the penitentiary for eight years for stage robbery, had served over two years, and owing to exemplary conduct, was to have been pardoned out next December.

Review: Elijah Smith, ex-president of the Oregon Improvement company, and the principal stockholder in the Southern Oregon company, with large interests in Coos county, was in Roseburg Friday.

Roseburg Review: The Oregonian is talking prosperity so much that Mayor Pennoyer writes that paper, offering to sell it his $80,000 sawmill for $25,000.

Laborers Unpaid.

The girls that worked in the Jeffries packing house were much excited yesterday when they learned that those in charge had departed. It appears that the management still owed the girls from one to three dollars each for work in packing fruit, amounting in the total to about $50. This sum they said they were unable to pay and left for Portland. The hands that worked at the cannery had received only $100. The balance will be paid if the fruit brings enough over freight and commission charges, which is somewhat doubtful. Many of those unpaid need the money badly.—Eugene Guard.

The Douglass Mixture.

This famous poultry remedy is made as follows: "Dissolve a pound of copperas in 2 gallons of water; then add 2 ounces of sulphuric acid. Put in stone jar and keep well corked. The dose is a tablespoonful to each quart of drinking water. When handling the sulphuric acid be careful, as it is poisonous.

It is valuable for roup, cholera and other ailments, but must be administred, with great care.

The executive committee of the soldiers' home board met and audited claims for the months of July and August at Salem on the 9th inst. The expenditure allowed for July amounted to $1601, and for August, $1429. Of the latter, claims amounting to $269 were referred back for correction.

There is more catarrh in this section of the country than all other diseases and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses of 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials Address, F. J. Harry Lockwood Dead.

The sad intelligence was received yesterday morning from Drain of the death of Captain Harry Lockwood at that place. Deceased had resided in this county for many years and made many friends, all of whom deplore his loss and speak kind words of his memory. He had been an invalid for about two years past, during which time he had the constant care of a devoted wife and loving relatives, who mourn his loss. The funeral will take place at Drain. There is a deep feeling of sympathy expressed in this community for the bereaved relatives in their hour of grief.—Marshfield Sun.

A Singular Case.

A gentleman by the name of Wilks died at Beaver Hill Monday. His death, which resulted from a ruptured artery, was singular. He was employed in the mine and was struck on the leg. The blow ruptured an artery, but scarcely made a scar in the skin. When told that his leg would have to be amputated, Wilks said he would prefer death to the operation as he might as well be dead as alive with his leg off. Deceased was from the state of Washington and 65 years of age.—Marshfield Sun.

5 DROPS 49 YEARS OF SUFFERING FROM RHEUMATISM.

Read carefully this testimonial found below, also letters from those who have been cured of other diseases, and remember that "5 Drops" has and can never fail to quickly relieve and permanently cure.

Sept. 9, 1896.

DEAR SIR:—Your bottle of "5 Drops" received. It was for an old friend, Mr. Wm. Edwards, of Martinstown Wis. He has had Neuralgia in his chest, suffering a great deal of pain, so much so that it affected his heart and he could not sleep on account of a smothered feeling. He has been under the care of the most eminent physicians, but found no relief until I gave him a dose of "5 Drops." The very first night he rested well, and has ever since, and is gaining daily. I myself am 67 years old and began taking your medicine last April for Rheumatism, which I have had for 49 years, also for a weak heart. Since taking "5 Drops" the Rheumatism has all disappeared, the stiffness is gone from my joints, and my heart never misses a beat. I am to-day a well, strong woman, and I owe it to "5 Drops." I only wish I could sound my bugle of praise loud enough to be heard all over the world, and could convince every one that "5 Drops" is all you claim it to be and more.

Mrs. D. T. Carver, Winslow, Stevenson Co., Ill.

34 YEARS OF SUFFERING.

DEAR SIR:— JANUARY 2, 1897.

Over 34 years ago, I had Typhoid Fever, and barely escaped with my life. It left my system so shattered that I have had ever since, Rheumatism and Throat Trouble, which gave me a terrible Cough. I had been unable to find any relief for these diseases, until I learned of your "5 DROPS", which I commenced taking only two months ago, and my cure has been indeed WONDERFUL. Already my cough has entirely disappeared, and the Rheumatism which for a few years past has threatened to make a cripple of me is cured, and I am free from pain. This is the most wonderful and the cheapest remedy ever discovered. I am more thankful to you than words can tell and I want everybody to know what "5 DROPS" has done for me. Although I am OVER 70 YEARS old, I am feeling better than I have in years.

I shall be glad to answer any questions regarding my case from anyone enclosing a two cent stamp. Gratefully yours,

MRS. SAMUEL RIBLET, Litchfield, Mich.

CATARRH AND HAY FEVER.

I find the bottle of "5 DROPS" to be very good and just what you claim. My wife has been suffering with Catarrh and Hay Fever over 16 years. She has tried everything and doctored much, but no cure until she tried "5 DROPS" which completely cured her.

Yours truly REV. L. VON WALD,
March 31, 1896. Milbank, S. D.

NEURALGIA AND SCIATICA.

For twenty long years my wife suffered untold tortures from Sciatica and Neuralgia, and I thank God for the day that your heaven-sent remedy fell into my hands, for it completely cured her. I am a minister of the Gospel, and when I find any who suffer, cannot help but recommend "5 DROPS", for I know it will do more than you claim for it. REV. F. M. COOPER, Washington Center, Mo.

PARALYSIS AND RHEUMATISM

DEAR SIRS; NOVEMBER 9, 1896.

It is with pleasure I speak of your priceless remedy and of the good it has done me. For the last eight years I have been an incurable cripple from paralysis and rheumatism, but think, for eight years a total cripple, not able to earn a penny nor able to walk or step on the ground without the aid of something to lean on. Heaven bless the man who discovered this remedy, for, thanks to him and to God, I am able to walk and able to work. I have only taken two-thirds of a bottle, but have not had any pain in my back since I took the first dose, and after the second I walked across the floor, which I have not done in years. I have thrown away my cane and shall never need it again. To anyone sending me a two-cent stamp I will send my affidavit. I have another bottle of "5 DROPS" and value it at $1.00 per drop.

Thankfully yours, EDWARD CASTLE,
1005 Wall Street. Sioux City, Iowa.

INFLAMMATORY RHEUMATISM.

DEAR SIRS; SEPTEMBER 24, 1895.

I wish to tell you and suffering humanity how much good "5 DROPS" has done me. On the beginning of this year I took down bedfast with Inflammatory Rheumatism, and I was doctored by as good physicians as this country has, but they could not cure me. On August 4, I began to take "5 DROPS." At that time every joint in my body and my limbs were stiff, so that I could not be moved. Even my tongue was getting so that I could hardly speak so any one could understand me, but to-day, only seven weeks from that time, I am absolutely cured, and thank you and God for my recovery.

Gratefully yours,
HORACE F. ANDERSON, McCracken, Kans.
