IT'S CURES THAT COUNT. Many so-called remedies are pressed on the public attention on account of their claimed large sales. But sales cannot determine value. Salesmen simply argue good salesmen, shrewd peddlers, or enormous advertising.

It's cures that count. It is Ayer's Sarsaparilla. Its sales might be boasted. It has the world for its market. But sales prove nothing. We point only to the record of Ayer's Sarsaparilla, as proof of its merit.

50 YEARS OF CURES.

An Accident to Rev. C. A. Stine.

Rev. C. A. Stine, of the Christian church at this place, went to Bendon last Saturday to fill appointments to preach on Sunday. Word was received by the boat Sunday at noon that an accident had happened to Mr. Stine Saturday night, and that he was badly hurt about his head and shoulders from a fall.

As we learned it, Mr. Stine had been at Mr. Shoemaker's residence, which is reached by a stairway from a sidewalk or platform constructed over the middle near the steamer landing. At the foot of the stairway the platform is very narrow and uneven, and as Mr. S. reached the place in the dark he made a misstep and was precipitated to the hard gravelly beach below, a distance of about 14 feet, striking on his head and shoulders. When found he was unconscious, but recovered later and was believed not to be seriously hurt. He is about 64 years of age, and somewhat crippled and infirm from wounds and service during the late war, hence his escape from serious and possibly fatal injury by this fall is quite remarkable.

News brought by Capt. Vale Perry of the Dispatch yesterday was to the effect that Mr. Stine was doing well, though a collarbone was broken and he was bruised and cut on the head. He was feeling better and conversing with friends who called upon him. Mrs. Stine accompanied him to Bendon and was on hand to render attention to her injured husband.

LATER—Rev. Stine and wife returned per steamer near noon today. Mr. S. is in great pain, suffering intensely from internal tearing of the flesh from the bones, besides the fracture of the left shoulder-blade, the collar-bone, three ribs, and the painful bruising of his left shoulder and head.

The Coquille cyclists, Fred and Is Nosler, made the circuit from this place via Marshfield, Empire City, Bendon and Myrtle Point, a distance of 93 miles, last Wednesday, as announced in the HERALD that they would, except in the particular of starting at 6 a. m. Fred had been almost persuaded not to undertake the run, but later made ready to "go," and at 7 the twin were on their way over the wagonroad toward Marshfield. They reached Marshfield, 22 miles, in an hour and forty minutes; from Marshfield to Empire, 6 miles, in thirty-five minutes; Empire to Bendon, 30 miles, in four hours; Bendon to Myrtle Point, 26 miles, in two hours and forty minutes; from Myrtle Point to Coquille City, 9 miles, in fifty minutes. The distance, therefore, of 93 miles was covered in nine hours and forty minutes.

RECAPITULATION. Coquille City to Marshfield, 22 miles, in 1:40; Marshfield to Empire, 6 " " 35; Empire City to Bendon, 30 " " 4:50; Bendon to Myrtle Point, 26 " " 2:40; Myrtle Point to Coquille, 9 " " 50.

Total, 93 miles, in 9:40. The total time between leaving and returning, was 10 hours and 10 minutes.

Some pressing numbers on the program next Saturday night—admission only 10 cents; refreshments, 10 cents.

LADY BICYCLIST GETS A FALL

Of 22 Feet Off a Bridge—Turns a Double Somersault, Lands on the Ground and Only Slightly Hurt.

Last Saturday evening Miss Pearl Baxter and Miss Agnes Rogers, the latter from Coos bay on a visit to friends here, were coasting on their wheels from the hill on the west side of the long new bridge down to and on the bridge. Of course the way looked altogether safe and the young ladies were having a fine time. However, on this particular run, the calculations were not mathematically correct, for it was found that the coaster and a pedestrian could not pass on a single track, and to avoid a collision at such a rate of speed appeared impossible. Our old friend W. E. McDuffee was on the bridge close to a side railing, and Miss Rogers was also keeping close to the railing till they were so near together that neither could with safety turn out. Miss Rogers did take the chances, however, and turned, but was going at such speed that in turning the corner on the bridge, where the roadway runs south, the wheel dashed against the railing, which is three feet high, and through under it, while the rlier went circling through the air over the railing, landing on the soft, marshy ground 22 feet below. Besides this great fall, Miss Rogers struck between two stakes, standing about three feet apart, and missed them entirely, or she must certainly have been killed or very badly hurt. The accident was witnessed by Comrade McDuffee, Miss Pearl Baxter, Mrs. D. F. Dean and Sam Nosler. The last named hastened to the young lady's rescue, who seemed to be stunned by the fall, and raised her from the ooze in the marsh. She proved to be all right, except some badly rent clothing, and was quickly heard from in the ejaculation: "Well, but what's become of my wheel?" The thought it must be broken to pieces and seemed to occupy first consideration in her mind. If the fall had been just a few feet further along the lady would have certainly been killed on striking the hard earth. The witnesses were quite overcome with fright. Mr. Nosler being the first to rally sufficiently to render assistance.

Miss Rogers took yesterday morning's train for home, and remarked to this reporter that she had sustained no injury, and was feeling as well as ever.

The Wonders of Science Lung Troubles and Consumption Can Be Cured.

An Eminent New York Chemist and Scientist Makes Free Offer to Our Readers.

The distinguished New York chemist, T. A. Slocum, demonstrating his discovery of a reliable and absolute cure for Consumption (Pulmonary Tuberculosis) and all bronchial, throat, lung and chest diseases, stubborn coughs, catarrhal affections, general decline and weakness, loss of flesh, and all conditions of wasting away, will send THREE FREE BOTTLES (all different) of his New Discoveries to any afflicted reader of the Coquille HERALD writing for them.

His "New Scientific Treatment" has cured thousands permanently by its timely use, and he considers it a simple professional duty to suffering humanity to donate a trial to his infallible cure.

Science daily develops new wonders, and this great chemist, patiently experimenting for years, has produced results as beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude," filed in his American and European laboratories in thousands from those cured in all parts of the world.

Medical experts concede that bronchial, chest and lung troubles lead to Consumption, which, uninterrupted, means speedy and certain death.

Simply write to T. A. Slocum, M. C., 98 Pine street, New York, giving postoffice and express address, and the free medicine will be promptly sent. Sufferers should take instant advantage of his generous proposition.

Please tell the Doctor that you saw his offer in the Coquille City HERALD.
