"For five weeks I lived on cold water, so to speak," writes a man who suffered terribly from indigestion.

He could hardly keep anything on his stomach. What stayed, wasn't properly digested and gave him terrible pain.

This is not uncommon case. Dyspeptics don't get enough nourishment. They are generally thin and weak.

They may eat enough, but they don't digest enough. Much of what they eat turns into poison. If this keeps on there's no telling what disease they may get next.

That's why it is best to take Shaker Digestive Cordial, as soon as symptoms of indigestion appear.

It cures all the evils of indigestion, and prevents the evils which indigestion causes.

MRS. JOHN WALLEY, of Jefferson, Wis., than whom none is more thoroughly esteemed or widely known, writes:

"In 1890 I had a severe attack of LaGrippe and at the end of four months, in spite of all physicians, friends and good nursing could do, my lungs, heart and nervous system were so completely wrecked, my life was despaired of, my friends giving me up. I could only sleep by the use of opiates. My lungs and heart pained me terribly and my cough was most aggravating. I could not lie in one position but a short time and not on my left side at all. My husband brought me Dr. Miles' Nervine and Heart Cure and I began taking them. When I had taken a half bottle of each I was much better and continuing persistently I took about a dozen bottles and was completely restored to health
