Oregonian: A record hard to beat—Portland's immense wheat and flour shipments foreign for the past 90 days, aggregating in value $5,647,833.

Wall Street News: It is said that Mr. Elijah Smith aspires to be the next president of the Oregon Improvement Company. Elijah is entirely too modest.

A new Georgia insurance law providing for the incontestability of insurance policies after their first year, passed the house of representatives by a vote of 92 to 41.

Among the twenty election cases which will come before the house at Washington during the present term of congress, is that from the First Oregon district—W. S. Vanderburg, Populist, vs. Thomas H. Tongue, Republican.

Charles Spaulding, ex-president of the Globe Savings bank, at Chicago, was on 1st inst. sentenced to an indeterminate term in the penitentiary. He was charged with embezzling the funds of the university of Illinois, of which he was treasurer.

A phrenologist claims to have made the interesting discovery that the ears of the murderers Holmes, Thorn and Durrant are alike. This may be true, if important. But the necks of these three worthies are not alike by any means. Holmes' has been stretched.

In Colorado three prominent positions are held by women. One is the state superintendency of public schools, held by Professor Grace Espy Patten, and the two others are the legislative offices filled by Mrs. Martha A. B. Conine and Mrs. Evangeline Hartz.

Many people have been in doubt as to whether the young lady appointed on Governor Taylor's staff should be addressed as "Colonel Miss Nellie Ely" or as "Miss Colonel Nellie Ely," until she married the other day. After that her friends were of the opinion that she should be addressed as "Mrs. General Thompson."

The Democrats of Springfield, Mass., seem to be converted to "anarchistic" principles, as they have called them, and have nominated a candidate for mayor on the platform of municipal ownership of gas, electricity and street railroads. This platform was advocated on the ground that "municipal ownership, is in line with national ownership, which is coming to the front in the near future as a national question."

The western manufacturers of print paper will fight the proposed eastern combine, if it is effected. The western mills propose to establish a selling agency in Chicago and fight the combine. The Fox river, Wis., manufacturers claim they will enter the western combine, and that the selling agency will have back of it mills which produce over 100 tons of print paper a day, so that it will be in good condition to cope with the big eastern concerns.

The Herald thanks "The New Dispensation," published at Corvallis, for its kindly notice. We appreciate it highly, because it is voluntary and comes from a stranger, personally, but one whose labor of love for the cause of reform is able, true, earnest and self-sacrificing. We wish Brother Jones' Leaflets could reach many thousands of readers, and would commend them to all. They are sent monthly for only 25 cents per annum. Address J. L. Jones, Corvallis, Or.

England's prison authorities are abolishing the use of the treadmill and oakum-picking in the penal institutions of the United Kingdom, and are putting convict labor to a more profitable use. Army and navy stores, especially the making of garments and accoutrements are now engaging the attention of the inmates of her majesty's jails, who likewise manufacture the mailbags of the postal department, and the shirts, uniforms and boots of their arch-enemies, the police. The result is a vast saving all around, and an announcement is made that the government has some badly worn treadmills for sale to the highest bidder.

The elocutionary exercises last Saturday evening, by Prof. L. R. Traver, is highly spoken of by all.

Chas. Schroeder has been appointed road supervisor, to fill the unexpired term of John Bartell, resigned.

The social dance in opera hall Saturday evening was another treat to the young folks, and on true American principles.

If you know a good news item don't say anything about it, and it will still be new when it gets in print, which it is sure to do.

Two large slides came into the wagon road on the Middle Fork last week and is causing inconvenience to the mail carriers.

Our city dads still go on in their iniquity. This time they have placed a new sidewalk along the public square and did not ask us a word about it.

The many friends of Miss Mollie Kinnicutt, who recently went to Tucson, Arizona, for her health, will be pleased to learn that she is fast improving and will doubtless regain her health.

Uncle M. Hickson, from whom Dr. K. A. Leep removed a cancer by chemical process recently, is now convalescing and will ere long have escaped the ravages of one of the most dreaded diseases known to the medical fraternity.

Ed Page, an old resident and miner of Coos county, who went to Cooks Inlet, Alaska, about two years ago, returned to Myrtle Point by Monday's train, direct from the Inlet. He reports general satisfaction among the miners of that section and says he will return in the spring.

Mr. and Mrs. S. H. Bryan and son, B. L. Bryan, left for California last Wednesday where they expect to make their future home. They were respected citizens and old pioneers of Coos county, Grandpa Bryan having opened the first furniture store in Coquille City. Through many adversities the old gentleman lost his home on Catching creek where he and his estimable wife have lived for many years, hence his removal to California where we trust dame fortune will smile more serenely, and that these old people may spend their declining years among kind friends and in luxury.

News from the mines on Sixes river, as reported by W. H. Corbin, who recently visited that section and spent a couple of weeks among the miners, is to the effect that there is but little doubt that this season will witness the largest output of gold from the Sixes that has been known for many years. Every claim is being worked with fair results, while a number of new ones have been discovered. The mine formerly owned and operated by Russian Mike has recently been put in running order and is now showing up in fine shape. The old China claim, now owned by Dr. G. D. Elgin, is also being fitted for the season's run. This claim prospects well and will doubtless be one of the best mines on the river. The St. Clair mine will make a big run this winter, having cleared away the brush and logs from a large scope of ground and now have it ready for the wash. They have put in some 400 feet of 8-inch iron pipe to convey the water from the ditch to the giant. W. O. Corbin, the superintendent of the mine, feels assured of a large haul this winter, as the claim has been thoroughly prospected, and is known to be one of the best mines on the coast. Fitzhugh & Culver are opening up a new claim which is one among the best. Newt Divilbiss has a very rich mine, which he has heretofore operated at a great disadvantage, running a drift for the gravel then send it down a chute to where he could work it with a rocker, making an average of $5 per day to the hand with this primitive process. He now has a large ditch and giant and will make the gravel get a move on itself that will surprise its goldbug neighbors. The iron pipe that supplies the giant is 16 inches in diameter at the upper end, on head, and tapers down to 10 inches, which is the largest pipe on the river. They have 10 feet pressure and an endless dumping ground. This mine is a Klondike of itself. Ed Divilbiss and partner are working a claim just above the big slide and are doing well. I might tell you much more about the Sixes and her riches, but I can not do it justice, so if you are thinking of mining this winter you will do well to spend a few weeks in that section.

[Bandon Recorder.]

Grandma Langlois received a paralytic stroke yesterday morning about 10 o'clock and is lying at death's door, with no hope of recovery.

The steamer Chilkat got into Coos bay Monday on her way north to Portland. She is now on the Portland-San Francisco route and will call in at the principal way points between.

The lumber trade is looking up and the schooner service to this river is almost as large as it was in the halcyon days of the past. There are ten schooners calling here now. The greatest number that ran here at any one time was eleven.

A stomachful of undigested food is about as unhealthy a mass as one can well imagine.

What can be done with it?

There it stays. It won't digest. It churns up, ferments and decays; becomes poisonous (as all putrid matter does) and causes great pain and deep-seated disorders.

In order to change all this, take Shaker Digestive Cordial.

It stops fermentation and decay at once, so that no more poisons are created.

It clears the stomach of poisons already there. It helps it to turn the food that remains into healthful nourishment. It strengthens the stomach for the next meal.

Here is the whole philosophy and cure of indigestion in a few words. And what's more, *it's all true.* Try it.

Shaker Digestive Cordial is for sale by druggists, price 10 cents to $1.00 a bottle.

WANTED.—TRUSTWORTHY AND active gentlemen or ladies to travel for responsible established house in state of Oregon. Monthly $65.00 and expenses. Position steady. Reference. Enclose self-addressed stamped envolope. The Dominion Company, Dept. Y, Chicago.

Riverton Ridings.

Riverton, Dec. 5.—Joseph Ferry has his hoisting engine and pump in place and at work.

Robert Marsden and several of the Riverton men spent four days last week prospecting on Mrs. Faugh's place. They faced up the Beaver Hill vein of coal.

The steamer Jennie took another load of coal from the Timon mine.

J. H. Timon had no shut down this time and if the Moro arrives soon he will have steady work for his men.

Mrs. Lilly of Arago was in town last week visiting her son Wellington.

One evening last week we were surprised on arriving home from work to find that the Bandon constable had invaded our premises and took therefrom several articles, including windows that were fast in the building. Be a little careful, Mr. Smith, as the steamers don't carry freight to Bandon and back gratis.

Rev. Craig is holding protracted meetings here now.

A. L. Nosler is now a citizen of our town and will remain so indefinitely.

DONNA ANA.

[Marshfield Sun.]

Lester Smith killed a panther on Daniels creek yesterday that measured 7½ feet from tip to tip.

John Enegran killed 3 panthers last week near his farm on Catching slough. The largest measured 6 feet.

The steamer President arrived Saturday from San Francisco. She has taken the place of the wrecked steamer Truckee on the Yaquina-San Francisco route.

The Next Election—"Organize, Educate Agitate."

MARSHFIELD, Dec. 1, 1897.

ED. HERALD: For some time past I have desired very much to communicate with you in regard to a vigorous, effective organization of the People's party in this county. Our time is limited and we cannot begin any too soon. I would suggest to the chairman of the central committee that he appoint one man in each voting precinct to organize a club, also to distribute literature relative to the Initiative system, that our people may fully understand the importance of the Initiative.

A party, or organization, to make a success, must work continually. They should stand by each other, assist each other when and wherever it is possible. If there are any appointments to be made by our officials, they must favor their Populist brethern, provided they are eligible and fully qualified. I should in particular call their attention to the "Old Reliable," the Coquille Herald of Coquille City, which has fought and stood the brunt of our battles, the ridicule, jeers, taunts and conspiracies of our enemies since the organization of the Populist party. It is today the only paper in the county that dares openly to declare the principles of our party and the wants of the people. For its heroic efforts in behalf of the people's rights, it has been boycotted, and it is therefore essential that it should have the support of our people. As in time of old, the reformers and men of progressive thought were persecuted so they are today. It has been only through coercing the laboring man's vote in voting the Republican ticket that Mark Hanna succeeded in placing McKinley in the presidential chair. Right here in our midst, I know of a corporation that will not employ a laborer if it is known that he is a Populist.

Respectfuly, OLD SUBSCRIBER.

The "Third Term" Issue.

MARSHFIELD, Dec. 3, 1897.

ED. HERALD: In a few short months the Populists will again be called together to choose the standard bearer in the next campaign. In your issue of the 23d of last month I noticed a communication from here, in regard to holding one or more terms of office, which is entirely uncalled for, as under the Initiative system the people make their choice of candidates and not a ring of delegates, as it is with the old parties. Should the people again choose one who has served them faithfully one or more terms, what right have a few individuals who believe in majority rule to question the choice of the people?

MORE ANON.

The Sooner the Better.

San Francisco, Nov. 30.—The writ of mandate applied for by the attorneys of Durrant to compel Judge Bahrs to set the date for the trial of his case for the murder of Minnie Williams was denied by the supreme court. This means that there will be no interference with the decree in the Lamont case, and it now begins to look as if Durrant will have to expiate his crime at a date sooner than his attorneys anticipated.

Could Scorch on It.

"Well, my son," said the editor of the "Danville Breeze" to his son who wanted a wheel, "You'll find one in the front end of the wheelbarrow, and there is a big pile of coal ashes back of the house that will have to be removed. The handle-bars are of white ash and are adjustable, so that you can get any kind of a hump on that suits your fancy. It is regulated largely by the load you put on. The bigger the load the more you have to hump yourself. Be careful and don't mar the enamel on the frame and keep the bars well oiled, so they won't cut into the cones. The tire is absolutely punctureless, so you won't have to take pump and repair-kit with you. By the time you have removed that pile of ashes I think you'll have made a century run; also the perspiration. You'd better come in to dinner now."—New York Tribune.

Booker T. Washington, the colored orator, in a recent speech, told a yarn of an old negro who wanted a Christmas dinner and prayed night after night: "Lord, please send a turkeyto this darky." But none came to him. Finally he prayed: "O Lord, please send this darky to a turkey." And he got one that same night.

How to Prevent Pneumonia.

At this time of the year a cold is very easily contracted, and if left to run its course without the aid of some reliable cough medicine is liable to result in that dread disease, pneumonia. We know of no better remedy to cure a cough or cold than Chamberlin's Cough Remedy. We have used it quite extensively and it has always given entire satisfaction.—Olagah, Ind. Ter. *Chief.* This is the only remedy that is known to be a certain preventive of pneumonia. Among the many thousands who have used it for colds and la grippe, we have never yet learned of a single case resulting in pneumonia. Persons who have weak lungs or have reason to fear an attack of pneumonia, should keep the remedy at hand. The 25 and 50 cent bottles for sale by R. S. Knowlton.
