The damage done on the beach and in the South slough section by the storm some weeks ago, at which time we made mention of the great slides in that vicinity, and in which what was known as the Seven Devils played a part, resulted even more disastrously than we were then informed. Dr. Cook had 14 acres damaged, but he thinks in course of time he can reclaim most of it. There were many other slides on that creek, seriously damaging several properties. The Seven Devils were much changed in their appearance, great bodies of the rock and earth being washed into the ocean. The breakers seemed never to have been more fierce.

The HERALD joins the many friends of Oscar Wickham and Miss Ora Sheppard in congratulations and well-wishes for a long, prosperous and happy journey together. These young friends were married last Sunday by Rev. C. A. Stine, and both are popular, well known and worthy young people. We give thanks for cake, also.

The Klondike fever has struck our community very hard; a host of our citizens contemplate going at an early day, and other victims are stricken every day. Well, we believe if any are successful, Coos county and this coast section will have its share of boys who are ready to face any emergency and reap any advantages that may accrue.

The mail brought us a kind remembrance last Monday in the shape of a slice of wedding cake from Miss Laura Goble (now Mrs. Archie Morrison) of Port Kenyon, Cal. The wedding of our young friend, Miss Laura, formerly a resident of this place, took place at the home of her parents, Mr. and Mrs. W. W. Goble, January 19th, Rev. Mr. Hutchinson officiating. Of course the HERALD and many friends here give congratulations to the young couple.

We are glad to observe the progressive spirit which manifests itself in the educational line by the good people of Marshfield. Last Saturday night a district school meeting was held and a 6-mill tax ordered by a vote of 79 to 4 for the purpose of running an 8-months' term of school. This, too, despite the construction of a nice, new schoolhouse, which a very few have asserted was an elephant on their hands, but which many have not learned and never will learn except that their generosity and public spirit had been somewhat strained in the extra expense of necessary and proper equipment of the building. However, the voters didn't seem to be frightened away from a good thing and have met the issue grandly.
