OF INTEREST TO THE PEOPLE.

The Indignant Answer

BY J. G. WHITTIER.

Is this the land our fathers loved;
The freedom which they toiled to win?
Is this the soil whereon they moved?
Are these the graves they slumber in?
Are we the sons by whom are borne
The mantles which the dead have worn?

Of human skulls that shrine was made,
Round which the priests of Mexico
Before their loathsome idol prayed—
Is freedom's altar fashioned so?
And must we yield to freedom's God,
As offering meet, the worker's blood?

Shall tongues be mute, when deeds are wrought
Which will might shame extremest hell?
Shall freemen lock the indignant thought?
Shall pity's bosom cease to swell?
Shall honor bleed?—shall truth succumb?
Shall pen, and press, and soul be dumb?

No—by each spot of haunted ground
When freedom weeps her children's fall—
By Plymouth rock, and Bunker's mound,
By Griswold's stained and shattered wall—
By Warren's ghost—by Langdon's shade—
By all the memories of our dead!

By their enlarging souls, which burst
The bands and fetters round them set—
By the free pilgrim spirit nursed
Within our inmost bosom, yet—
By all above—around—below—
Be ours the indignant answer—No!

Up-to-Date Republican.

ED. HERALD: To be an up-to-date
Republican you must believe in,
first, the gold standard; second, the
issuance of 346 million dollars worth
of interest-bearing bonds with which
to take up a like amount of green-
backs that are not costing the peo-
ple one cent per year; third, the
partitioning, by wholesale, national
bank wreckers who were sent to the
penitentiary for having robbed de-
positors of millions of dollars of
hard-earned money; fourth, the ap-
pointment of one of the worst tools
of corporations to the supreme
bench; fifth, the high-handed bribery
of the representatives of the
people to obtain a seat in the United
States senate; sixth, the deception
of congress to prevent action by
that body so as to turn the Kansas
Pacific railroad over to the reorgan-
izing committee at a loss of seven
million dollars to the government;
seventh, opposition to an income
tax, whereby the millionaire would
pay his proportion toward running
the general government, which he
does not now do; eighth, a mistaken
and an abiding faith in the ability
of Hanna and McKinley having
influenced the Beneficent Creator to
send a drought, with the inevitable
consequences of destitution, misery
and death to Australia, Argentina,
Russia and India, that our wheat,
our sheep and our cattle, might
bring a better price.

UP-TO-DATE POPULIST.

To be an up-to-date Populist, you
must, first, believe in the Initiative
and Referendum—a government of,
for and by the careful that you don't
spoil it like Hanna does, i. e.
"buy" the people; second, the free
and unlimited coinage of silver and
gold at the present ratio and the
issuance of a sufficient volume of
money direct to the people, by the
government, to transact business on
a cash basis; third, many other
things, but since they are all covered
by the first principle—i. e., the
Initiative and Referendum—it is
useless to state them; fourth, and
last, a firm belief that "God still
reigns" and would continue to do so
if Hanna, McKinley, Plutocracy &
Co., should go out of business.

Union vs. Fusion.

While union and fusion are syn-
onymous terms, yet there is a vast
difference in their meaning as com-
monly applied in politics, since, for
illustration, it is called fusion, when
two parties having principles di-
ametrically opposed to each other,
endorse each other's candidates.
In such cases the office plum is
held so near the eye that principle
(being more remote in such case)
is entirely obscured from view;
while a union of parties implies
uniting on some great principle
common to the parties forming
such union, thus hoping to procure
so much of their theories enacted
into law. The proposed union of
this state, has as its basic principle
the Initiative and Referendum and
Imperative Mandate, as well as the
furtherance of a proper adjustment
of the money system, in the inter-
est of the whole people. It is a
well established fact in the minds
of all persons understanding the
Initiative and Referendum, that
were it in vogue all state questions
would be within reach of the peo-
ple, hence, no other plank is essen-
tial in relation to state affairs. The

WOMEN MAY VOTE AT SCHOOL ELECTIONS

Supreme Court Decides the School Election
Case—A Sweeping Opinion.

The suit of Laura A. Harris vs.
Sherwood Burr et al., appeal from
Lane; opinion by Wolverson, J. was
affirmed by the supreme court
today.

The sole question presented in
this was suit whether women are
entitled to vote at a meeting for elec-
tion of a school director of the dis-
trict in which the meeting is held.
Plaintiff was awarded damages by
Judge Fullerton for having been
denied the privilege of voting. Ap-
peal was taken and now the su-
preme court upholds the lower
court, and women entitled to vote
under the law of 1891 can collect
damages if refused the right.

The law upheld defines the rights
of voters at school meetings as fol-
lows: Twenty-one years of age,
resident of the district one month
preceding election, and who has
paid a tax other than road tax in
the county; women who are widows,
and have children and taxable prop-
erty in the district, may vote if they
choose.

The decision is a sweeping one,
and completely overrules the opin-
ion held by Judge Burnett at Sa-
lem, under which women have been
shut out of school elections.

The only question now seems to
be the property qualifications of
judges of elections, as any woman
qualified to vote who is refused the
right may sustain a suit for dam-
ages against the judges of the elec-
tion.

The news was telegraphed to
Eugene and there will be a celebra-
tion by the ladies of that city. The
result will be gratifying to those
at Salem who have contended for
the right of women to vote at school
elections.

ANOTHER SCHOOL DECISION.

In State of Oregon vs. Hubert
Hingley, appeal from Washington
county, the supreme court decided
today against the defendant. De-
fendant was indicted for voting un-
lawfully at a school election, in that
not having property in the district
in which he pays a tax, or children
of school age to educate. The
court refers the matter to its de-
cision in the Eugene case, Harris
vs. Burr et al, that section 2609
making above restrictions as to who
may vote at a school election is con-
stitutional.

The question of applying the
general law fixing penalty for
illegal voting, Sec. 1846, to illegal
voting at a school election, is also
decided by the court, which holds
in this case that the statute does
apply.

The Eugene decision was to the
effect that a woman owning prop-
erty in the district on which she
paid a tax could vote in the district.
This decision today is that it is a
felony for a man to vote at a school
election who has no property or
children to educate.

John Brown's Son.

In a recent dispatch to the O-
regonian, from Salem, the following
appeared:

"A meeting of fusionists that was
not advertised is reported to have
been held in the basement of the
East Salem school last night. Sal-
mon Brown and others refused to
take part. As a reason for not par-
ticipating, they said they are Re-
publicans. Salmon Brown is a son
of John Brown of Ossawatimie
 fame."

Commenting on this dispatch the
Salem Journal says:

"The above also misrepresents
Mr. Brown, as he was present and
took part. As a reason for not par-
ticipating, he is inclined to
"get hot," as he says, when he dis-
cusses the gold standard. Mr.
Brown denounces these reports as
lies made of whole cloth, and
thinks some one has wilfully mis-
represented him to the Tribune and
Oregonian reporters. Of course it
gave those papers a chance to tele-
graph the report all over the world
that a son of John Brown who sup-
ported Bryan in 1896 had gone over
to McKinley. That it will ever be
corrected, no one believes. It will
serve its purposes as a campaign
lie. Messrs. Lyon and Davey, the
reporters in question, are generally
fair and accurate, but in this in-
stance were imposed upon. Mr.
Brown is an uncompromising op-
ponent of the gold standard and is
in favor of a union of the silver
and reform forces on any honorable
terms."

Thus it is verified that "John
Brown's soul goes marching on in
the interest of universal freedom.
The father died to give liberty to
the black slaves of the south, and
the son lives to plead for the em-
ancipation of the white slaves of the
money power."

addressed stamped envelope. The Domini-
on Company, 1 apt 7, Chicago.

An Oregon Vendetta.

Last October near Chetco, Curry
county, Thomas Van Pelt and his
two sons were implicated in the
fatal shooting of Al Coolidge, jr.
They were recently released on bail
pending their trial. Saturday
morning, Feb. 19, Thomas Van Pelt
himself was shot and killed from
ambush. That this murder was
committed by a member of the
Coolidge family, either direct or
collateral, is not questioned in the
vicinity of Chetco, but no public
accusations are ventured. The
latest advices from that locality
fail to say whether an arrest for the
latest murder has been effected.
But it is doubtful as to one having
been made, else that fact would
have reached here ere this. The
impression prevails near the scene
of this unnecessary bloodshed that
the climax of this feud will not be
attained till every male member of
these two families has "bitten the
dust," together, possibly, with some
of their staunch adherents.—Port-
land Telegram.

Miss Francis E. Willard Dead.

New York, Feb. 17.—Francis E.
Willard died at midnight, at the
Imperial hotel.

Francis Elizabeth Willard was
born in Churchville, N. Y., Sept. 28
1839. She was graduated at North-
western female college, Evanston,
Ill. in 1859 became professor of
natural science there in 1862, and
was principal of Genesee Wesleyan
in 1866 '67.

Miss Willard left her profession
in 1874 to identify herself with the
Woman's Christian Temperance Un-
ion, serving as the national corre-
sponding secretary until 1879, and
since that date as president. As
secretary she organized the home
protection movement, and sent an
appeal from nearly 200,000 people
to the legislature of Illinois asking
for the temperance ballot for wom-
en.

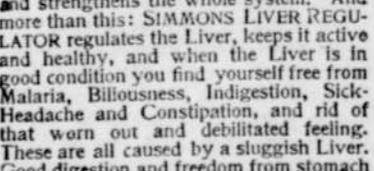

In 1889 she accepted the leader-
ship of the White Cross movement
in her own unions, which has ob-
tained, through her influence, enact-
ments in twelve states for the pro-
tection of women.

A man stands no chance of being
elected to the mayorship of a city
unless he enjoys the confidence and
esteem of his neighbors. Geo. W.
Humphrey is the popular mayor of
Swanton, Ohio, and under date of
Jan. 17, 1896, he writes as follows:

"This is to certify to our apprecia-
tion of Chamberlain's Cough Rem-
edy. My family and neighbors have
tested it, and we know it is an excel-
lent remedy for coughs and colds."
—GEORGE W. HUMPHREY. Sold by
R. S. KNOWLTON.

Dr. Miles' Pain Expeller.

Mike Negro is a Kansas City, Mo.,
Italian.

GOOD FOR EVERYBODY

Almost everybody takes some laxative
medicine to cleanse the system and keep the
blood pure. Those who take SIMMONS'
LIVER REGULATOR (liquid or powder)
get all the benefits of a mild and pleasant
laxative and tonic that purifies the blood
and strengthens the whole system. And
more than this: SIMMONS' LIVER REGU-
LATOR regulates the Liver, keeps it active
and healthy, and when the Liver is in
good condition you find yourself free from
Malaria, Biliousness, Indigestion, Sick-
Headache and Constipation, and rid of
that worn out and debilitated feeling.
These are all caused by a sluggish Liver.
Good digestion and freedom from stomach
troubles will only be had when the liver
is properly at work. If troubled with any
of these complaints, try SIMMONS' LIVER
REGULATOR. The King of Liver Medi-
cines, and Better than Pills.

EVERY PACKAGE
Has the Z Stamp in red on wrapper.
J. H. Zettl & Co., Phila., Pa.

To the Unfortunate

Dr. Gibbon
This old reliable and
most successful ap-
pointed in San Fran-
cisco, still continues to
cure all Sexual and
Venereal Diseases,
such as Gonorrhoea,
Gleet, Syphilis, in all its
forms, Skin Diseases,
Nervous Debility,
Impotency, Seminal Weakness and Loss of
Manhood, the consequence of self-abuse
and excesses producing the following symp-
toms: Sallow countenance, dark spots un-
der the eyes, pain in the head, ringing in
the ears, loss of confidence, diffidence in
approaching strangers, palpitation of the
heart, weakness of the limbs and back, loss
of memory, pimples on the face, cough,
consumption, etc.

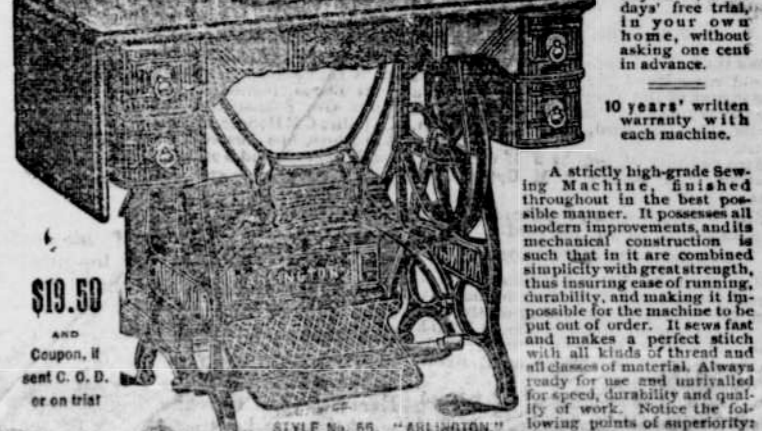

A HISTORIC HOTEL

The Favorite Hostelry in Ante-Bellum Days—Often Patronized by
Abraham Lincoln—From its Veranda Stephen A. Douglas Deliv-
ered a Great Speech—Again the Scene of an Important Event.

From the Tri-County Scriber, Plymouth, Ill.

Mr. and Mrs. Campbell Thompson run the
historic Cuyler House at Plymouth, Ill., a ho-
tel where Abraham Lincoln often slept,
where Dick Yates, Lyman Trumbull and
Richard Oglesby bought refreshments for the
insane man in ante-bellum days, and where
the veranda of which Stephen A. Douglas de-
livered one of his great speeches.
This article has not so much to do, how-
ever, with this historic hotel, as it has with
the landlord's thirteen-year-old laughing,
bright-eyed, rosy-cheeked daughter Ollie.
As one sees her today, the picture of per-
fect health, it is hard to believe that nearly
nine of the thirteen years of her life were spent
on the bed of invalidism, that for months she
never walked, and for years suffered the pain,
nervous and distress of inflammatory rheuma-
tism in its worst form.
Able physicians were employed but no
permanent benefit resulted.
"Mrs. Thompson heard of a wonderful cure
which had been effected by Dr. Williams' Pink
Pills for Pale People, and was induced
by it to purchase some of the pills for
her daughter.
Before she had taken half a box, there was
marked improvement in her condition; when
she had taken two boxes she was completely
restored to health. Today, there is not a
healthier child than Ollie Thompson.
The case came to the attention of the editor
of the Tri-County Scriber, and a reporter was
detailing to learn the story of this remarkable
cure from Mrs. Thompson's own lips. She
said:
"I cannot say too much for the Dr. Wil-
liams' Pink Pills for I believe Ollie would
have been dead long ago if she had not been
restored."
W. S. BOMICK, Notary Public.
I hereby state that I have examined Miss
Ollie Thompson, and find no outward ap-
pearance of rheumatism."
W. D. WADE, M. D.
Subscribed and sworn to before me this 15th
day of September, 1897.
W. S. BOMICK, Notary Public.
I hereby state that I have examined Miss
Ollie Thompson, and find no outward ap-
pearance of rheumatism."
Subscribed and sworn to before me this 17th
day of September, 1897.
W. S. BOMICK, Notary Public.
All dealers sell Dr. Williams' Pink Pills
for Pale People, or they will be sent post-
paid on receipt of price, 50 cents a box or six
boxes for \$2.50 (they are never sold in bulk).
Ing condition. At three, she could not walk,
and her spine was drawn out of air, so that
she could not stand straight. One of the doc-
tors said if she became well she would be a
cripple for life.
"Dr. Grigman, of Augusta, was the first
doctor who had her case. He doctored her
through two serious times of the disease, and
finally told us he could not cure her. We
doctored her most all the time, but when she
was ten years old she had so constantly severe
attacks, and we called in Dr. Kreider, of Pral-
erie City, where we were then living. He
tried hard to cure her, but finally gave it up.
He said, "I can do nothing further, the case is
the worst I have witnessed."
"We nearly gave up hope then, but called
Dr. McDaniel who doctored her after we came
to Plymouth, but no benefit was derived."
"Then I heard how Uncle Wesley Warren
had been cured by Dr. Williams' Pink Pills
for Pale People. Knowing the condition he
had been in, I thought if the pills cured him,
they might help Ollie. Consequently I bought
a box for her, and before she had finished it
she was much better. She continued taking
them, and when the second box had been used
she was well, and has never had rheumatism
since."
"I cannot say too much for the Dr. Wil-
liams' Pink Pills for I believe Ollie would
have been dead long ago if she had not been
restored."
W. S. BOMICK, Notary Public.
I hereby state that I have examined Miss

A \$65.00 Machine
For \$18.50
Cash with Order and Coupon

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, bent and polished in design, and beautifully ornamented in gold. Highest Arm—space within the arm is 20 inches high and 9 inches long. This will admit the largest eye of needle. Shuttle flycatcher, open on end, entirely self-threading, easy to put in or beneath the bobbin winder. Large amount of thread. Stick regulator is on the top of the machine, never fails to take goods, through never stops. Sewing movement is positive, no slipping, no break and get out of order can be raised and lowered at will. Automatic Bobbin Winder—Filling the bobbin with thread is so perfectly smooth without holding the thread, that the thread does not run while winding bobbin. Light turning—Machine is easy to turn, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, will not unravel, and can be changed without touching the machine. Sewing speed—The machine will admit thread from 15 to 50 speed cotton without changing. Never gets out of order. The Needle is a straight, fine needle, set on one side, and cannot be put in wrong. Needle Bar is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. Adjustable bearings—All bearings are case-hardened steel, and the machine does not run while winding bobbin. Light turning—Machine is easy to turn, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, will not unravel, and can be changed without touching the machine. Sewing speed—The machine will admit thread from 15 to 50 speed cotton without changing. Never gets out of order. The Needle is a straight, fine needle, set on one side, and cannot be put in wrong. Light turning—Machine is easy to turn, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, will not unravel, and can be changed without touching the machine. Sewing speed—The machine will admit thread from 15 to 50 speed cotton without changing. Never gets out of order. The Needle is a straight, fine needle, set on one side, and cannot be put in wrong. Needle Bar is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. Adjustable bearings—All bearings are case-hardened steel, and the machine does not run while winding bobbin. Light turning—Machine is easy to turn, does not fatigue the operator, makes little noise and sews rapidly.
