OF INTEREST TO THE PEOPLE.

Bonds! Bonds! Bonds Galore!

Let us issue them until the cows come home and blow in every cent we can raise on them building gunboats. Let us issue ten hundred million dollars in bonds at any price and more if the bond hogs want them. Keep on issueing them until the Morgan-Belmont-Hanna-Cleveland-Rothchilds gang of plunderers yell—stop. Then let us take our gunboats and shoot the everlasting treachery and greed out of the gang and invite the world to collect the bonds if they can. Here is some history:

Republican Hessians and Democratic Tories, the advocates of the Gold Standard in America and champions of the proposed Anglo-American alliance, will find instructive and interesting information in the following extract from the London Times, published at the close of the civil war in 1865:

"If that mischievous financial policy which had its origin in the North American republic during the late war in that country should become indurated down to a fixture, then that government will furnish its money without cost. It will have all the money that is necessary to carry on its trade and commerce. It will become prosperous beyond precedent in the history of the civilized governments of the world. The brain and wealth of all countries will go to North America. That government must be destroyed or it will destroy every monarchy on this globe."

THE FAMOUS HAZZARD CIRCULAR.

The following is an extract from the famous Hazzard circular, issued in London in 1862, to the capitalists of New York City:

"Slavery is likely to be abolished by the war power, and chattel slavery destroyed. This, I and my European friends are in favor of, for slavery is but the owning of labor, and carries with it the care for the laborers, while the European plan, led on by England, is for capital to control labor by controlling the wages. This can be done by controlling the money. The great debt, that capitalists will see to it is made out of the war must be used as a means to control the volume of money. To accomplish this, the bonds must be used as a banking basis. We are now waiting for the secretary of the treasury to make the recommendations to congress. It will not do to allow the greenback, as it is called, to circulate as money any length of time, as we cannot control that."—Denver New Road.

Silver and the Republican Party.

When the present editor of The Journal came to Oregon in 1889 he found the leading Republicans were bimetallists, and in 1890, the first campaign we took part in, the party adopted a platform of free coinage at the ratio of 16 to 1, and gave its reasons therefor. It was a little queer to our taste, but we got accustomed to it all the easier when a Republican congress passed the bill to coin all the silver then produced in the United States, four and a-half millions a month, and President Harrison signed it. McKinley made a speech in congress in favor of free coinage.

The next fall we were in North Dakota and found Senator Hansbrough, a Republican, making free silver speeches, and we made arguments there against the Populist party, saying that the Republican party stood for bimetallism and was a free coinage party in Oregon.

And this continued until 1896, when we helped make the fight for Mr. Mitchell's return to the senate on his silver record. He encouraged the Silver Republicans of the state to do that, and wrote them that not for fifty elections to the senate would he compromise his silver views. Then he made his deal with Mark Hanna and came to help carry Oregon on the St. Louis platform, which he declared was a silver platform, and the Republican party was as good a silver party as it had ever been, and that was good enough for him.

Well, the sincere Silver Republicans did not believe that, and refused to be caught on that kind of bait, but went out like men of principle and conviction and supported Mr. Bryan openly, rather than be parties to a fraud and stultify themselves and vomit up all that Mr. Mitchell and the Republican party had taught them to believe was true and sound on the subject of bimetallism, even though Mr. Mitchell might do so, and then turn around dog-like and eat his own vomit.

And the sincere Silver Republicans and sincere silver men, though they had been pledged to support him and elect him United States senator, regardless of party, showed Mr. Mitchell that they could not be bartered and sold, and neither could their principles, and they joined with his sincere gold men and saw to it that such a double-faced fraud was not continued in the United States senate. Now that is the history of the assassination of silver in the state of Oregon, and its deathblow was delivered by its most loud-mouthed advocates. But silver will have a resurrection.—Salem Capital Journal.

Yaquina Bay News: It's unfortunate that the people of Lincoln county should be so short-sighted at this critical time as to let the control of our county government pass into the hands of the Populists.

To which the Albany Press says: The Republicans have had control of the government of Lincoln county since its organization and the business has been conducted in a most unbusiness-like manner, and instead of the "Populist" county court being a calamity to Lincoln county, the people of Linn county, who have been under Populist control for two years and will be for two years more at least believe it will be the greatest blessing ever bestowed upon our sister by the sea.

Special War News Bulletins.

ARMY OF INVASION IS OFF SANTIAGO.

Fleet of Thirty-five Transports Under Convoy and Carrying Fifteen Thousand Soldiers Reaches Its Destination.

On board Associated Press Dispatch-boat Dandy, off Santiago de Cuba, Monday, June 20, 1 p. m., via Mole St. Nicholas, Hayti, Tuesday, June 21.—The United States army for the invasion of Cuba, about 15,000 strong, and commanded by General Shafter, arrived off Santiago de Cuba at noon today. The time of its debarkation has not yet been determined upon, but it probably will be within the next three days. When the fleet of 35 transports, with its freight of fighting men, swept up the southern coast today and slowed up within sight of the doomed city of Santiago, the anxiously awaited soldiers were greeted with ringing cheers which faintly echoed to the transports from the decks of the blockading warships far in shores, which were answered by the troops most enthusiastically and in kind.

It was 1 o'clock this morning when the lookout on board the cruiser Brooklyn reported seeing the smoke of several steamers away to the southeast, and a moment or two later he announced that a dozen or two transports were in sight. The news was exchanged from ship to ship. Half an hour later, grim forests of masts had sprung up apparently from the sea, and a most impressive scene was presented as the armada swept gracefully up from the horizon toward the shores where the great struggle is to take place. The transports were ranged in three shifting lines, with the battle-ship Indiana on the extreme right, and the other men-of-war on the outskirts of the fleet. In this order the transports and their escorts steamed slowly in toward where Morro's red walls gleamed in the sunlight.

It was intended to take the entire fleet to the lines of Rear-Admiral Sampson's fleet of warships, but an order from the admiral stopped the advance of the ships about 15 miles to the southeast; and General Shafter went forward on the Seguralca to confer with the admiral. The transports lay on the smooth sea while plans were discussed by the leaders on board the flagship.

Not the faintest hint of their intentions regarding a landing has been allowed to escape. Undoubtedly, however, some of the troops will be landed at Guantanamo bay, but it is generally believed the main body will be landed much nearer Santiago.

The long and trying journey from Tampa left the men in better condition than was anticipated. There are 14 mild cases of typhoid on the hospital ship, among them being Major Horton, of the Twenty-fifth infantry, and several cases of measles. There are, however, no serious cases of sickness.

The dispatch boat of the Associated Press, as she steamed among the transports, was eagerly besieged on all sides for news of Admiral Sampson's operations, officers and men clamoring for news from the blockading fleet. Much satisfaction was expressed among the troops when it became known that the actual capture of Santiago is to be left to the army.

The American fleet off Santiago has been materially strengthened by the addition of the warships, which escorted the transports, consisting of the Indiana, Detroit, Montgomery, Bancroft, Helena, Ericsson and Foote.

SPANISH FLEET RETURNS.

Washington, June 21.—(By way of Marseilles, France.)—The state department has received and transmitted advices confirming the report that the Spanish reserve fleet had returned to Cadiz. The dispatch states that the Victoria came into port disabled and in tow of another vessel.

HOLLAND THINKS OF TRADING WITH RUSSIA.

Baltimore, June 21.—John C. Holland, the inventor and builder of the submarine-boats Holland and Plunger, was here today, en route from Washington. He informed some of his friends that he was far from satisfied with the treatment he is receiving from the government, and he thought of dealing with Russia.

WILL NOT EXCHANGE LIEUTENANT HOBSON.

Washington, June 20.—Word was received here today from Commodore Watson, who is in command of the Havana blockading fleet, that General Blanco states that the Spanish government refuses to exchange Hobson and his men. It is reported from Key West, on the authority of several naval officers, that General Blanco has notified the commander of the American fleet that he will hereafter recognize no flag of truce.

GONE ON ITS LONG JOURNEY.

Big Raft on Its Way to San Francisco—Over 5,000,000 Feet of Lumber to Be Towed a Thousand Miles.

Inman, Poulsen & Co's big raft was completed yesterday and started on its long journey this morning in tow of the Monarch and Rescue, which have been chartered to take it to San Francisco. Some speculation has been indulged in as to the probable value of the lumber it contains, and a competent authority furnishes the following statement in regard to the lumber market at the Golden Gate: About a year ago lumber was selling at $7.50 per 1000, but it was gradually raised to $14.50 by a combine which, however, failed to keep it at that figure. The reason for the drop was that the San Francisco harbor commissioners, having need for great quantities of lumber, advertised for bids, and prices were cut until lumber is now selling in San Francisco at $11.50 per 1000 feet. The trade has been falling off for the past three months and there is a prospect that it may yet go lower. The big raft with its 5,222,000 feet of lumber will bring about $60,000 at the present price, which is about $15,000 more than it is worth here, hence the venture will be a paying one if no loss occurs.

The raft has been visited by many persons who viewed it curiously and indulged in speculations regarding its fate while at sea. Mr. Poulsen considers that more danger will be encountered in the strong currents of the Columbia river than elsewhere on the trip; but the two steamers ought to be able to manage it, even there.

A small cabin has been built on the decks of the raft, supplied with a stove, table, bunk and provisions for the use of a man, who will ride to San Francisco upon it. He will be supplied with life lines and buoys, and his principle duties will be to look after the hawsers and signal lights.

The departure of the raft with its consorts was loudly applauded by all the river steamers as it slowly passed down the river in front of the city. Hundreds of people crowded the banks and wharves to see it pass, and everyone wished it a safe trip and a speedy arrival at the Bay City. In the event of its safe arrival there, the mill company will send several more like it, having solved the problem of a permanent market for lumber, as Oregon fir is always in demand in California, although the prices may fluctuate.—Evening Telegram.

The Chief Burgess of Milesburg, Pa., says DeWitt's Little Early Risers are the best pills he ever used in his family during forty years of housekeeping. They cure constipation, sick headache and stomach and liver troubles. Small in size but great in results. R. S. Knowlton.

The heavy run of bluebacks in the Columbia river has taxed the Astoria canneries to their utmost. Chinook salmon are now more plentiful and it is expected that a very large season's run will be made.

Everybody Says So.

Her Boy was Dying.

How a child was brought back from the brink of the grave to enjoy a healthy, happy childhood. One mother's advice for parents concerning the health of their children.

The boy about whom this strange, true story is told wasted away till he seemed nothing but skin and bones. Then his health turned and he became fat and hearty.

The first stage is familiar to many parents. The second is of deep interest to all parents or friends of ailing little ones.

Fathers and mothers, who long to have their children healthy and happy cannot fail to sympathize and rejoice with Mr. and Mrs John F. Williams.

Their comfortable home, a short distance from Damon, Ill., is happy now because of the wonderful events that are told in words eloquent with simple truth and gratitude, by the mother of the boy.

"Our Josie was never strong," said Mrs. Williams. "From his birth he was weak and puny.

"Two years ago, when he was two years old, he had an attack of lung fever. Dr. N. A. Jones cured this fever, but the child did not recover strength.

"He began fading away beneath our eyes.

"He had no appetite, vomited a great deal, coughed continually, his limbs became withered.

"He became painfully weak and emaciated. We waited for his death.

"At this time a boarder named Asa Robinson suggested that Dr. Williams' Pink Pills for Pale People would do the child good.

"They had cured Mr. Robinson of rheumatism and he believed in them.

"My husband bought three boxes of the pills. We began giving Josie one-third of a pill three times a day.

"In three days the child was brighter His appetite was better. He began to show interest in toys and was less fretful.

"We increased the dose, giving him half a pill at a time. He gained every day in weight and appetite.

"At the end of this treatment, after taking three boxes, he was a new boy.

"He was happy, hearty, enjoying life with his little companions.

"I have no doubt that Dr. Williams' Pink Pills for Pale People saved him from an early grave."

Mrs. Williams made affidavit to the truth of her statement before David Crisp, a Notary Public.

Dr. A. A. McCabe examined the child and made oath before Notary Mort Brooks, that he is now physically sound and well.

The evidence is completed by Dr. N. A. Jones, who made affidavit before Notary George Rupp, that the child has been in the condition described by Mrs. Williams, as the result of catarrhal pneumonia.

The action of Dr. Williams' Pink Pills for Pale People on the blood and nervous system, in eliminating poisons and furnishing materials for new tissues, makes them a sure remedy for wasting diseases and the long train of evils arising from disordered blood and nerves. All druggists sell the pills; one box for 50 cents; six boxes for $2.50.

A $65.00 Machine
For $18.50
Cash with Order and Coupon

The Improved New High-Arm Self-Threading "Arlington" Sewing Machine
NEW HOME STYLE — LATEST BEST CHEAPEST

STYLE No. 55. "ARLINGTON."

Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.

10 years' written warranty with each machine.

A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority:

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. Highest Arm—Space under the arm is 5¾ inches high and 9 inches long. This will admit the largest skirts, and even quilts. Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. Stitch Regulator is on the bed of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. Feed is double and extends on both sides of needle; never fails to take goods through; never pulls at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—For filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. Light Running—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitch is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. Tension is a flat spring tension, and will admit thread from 8 to 50 sewing, and can be changed without changing. Never gets out of order. The Needle is a straight, self-setting needle, flat on one side, and cannot be put in wrong. Needle Bar is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. Adjustable Bearings—All bearings are case-hardened steel and easily adjusted with a screw driver. All foot motion can be taken up, and the machine will last a lifetime. Attachments—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ½ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. Woodwork of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, dress guards to wheel, and device for replacing belt.

DON'T PAY HIGH PRICES FOR SEWING MACHINES BUY DIRECTLY OF MANUFACTURERS AND SAVE AGENT'S AND DEALER'S PROFITS

OUR GREAT OFFER. $22.50 is our Special Wholesale Price, but in order to introduce this high-grade sewing machine, we make a special coupon offer, giving every reader of this paper a chance to get a first-class machine at the lowest price ever offered. On receipt of $18.50 cash and coupon, we will ship the above-described machine anywhere securely packed and crated, and guarantee safe delivery. A ten years' written warranty sent with each machine. Money refunded if not as represented after thirty days' test trial. We will ship C. O. D. for $18.50 with privilege of twenty days' trial on receipt of $5.00 as a guarantee of good faith and charges. If you prefer thirty days' trial before paying, send for our large illustrated catalogue with testimonials, explaining fully how we ship sewing machines anywhere to anyone at the lowest manufacturer's prices without asking one cent in advance. The best plan is to send all cash with order, as you then save the $1.00 discount. Remember the coupon must be sent with order.

Coupon No. 2970 good for $5.00 if sent with order for Arlington Sewing Machine No. 55

Or make your order direct through the HERALD, as [illegible] extra charge
