OF INTEREST TO THE PEOPLE.

A Foretaste and a Forecast.

When it is considered that land-grabbers of all nationalities are of much the same style, and that such is emphatically the case when British and American are considered, their course in regard to New Guinea, which is only about 500 or 600 miles southeast of the Philippines, may be considered an indication of what is contemplated in the latter islands.

New Guinea is a rather recent product of British piracy, and, unlike the Philippines, was previously destitute of what is called "civilization," except a small white trading settlement here and there. It is not far from the northern coast of Australia, which contributes largely to the cost of its administration. It is telegraphed that an agreement has been entered into by the "administrator" (governor?) by which all the best land is at the option of purchase by the New Guinea Company, which has aroused intense denunciation by the Australian press, not because the inhabitants of New Guinea, present or prospective, are supposed to have any rights as men, but "because Australian prospectors have located all the best agricultural land, and some sections are known to have rich deposits of mineral," which the big robber will gobble from the little ones, unless the British government can be induced to call off the deal.

We believe that at this very time at least a dozen syndicates have been secretly organized to play the same game, as far as conditions permit, in Cuba and the Philippines. In the latter it will be largely done by buying up the claims of the ecclesiastical orders for a song, and then getting the titles ratified by this government. There will also be a wholesale chartering of gas, electric light, water and railroad monopolies, though in Cuba there may be vigorous opposition. Philippine mining lands, worth perhaps billions, will be seized by these disinterested patriots for a nominal compensation, and held, like valuable properties in many parts of the United States, on payment of taxes levied on valuation not over a hundredth part of their value.

Such is the program which will certainly be carried out unless it is foreseen and provided against.—S. F. Star.

The senate committee on the Nicaraguan canal has agreed to report a bill providing for the construction of the Nicaraguan canal, but on lines very different from those of the bills previously reported. The new bill practically provides for the construction of the canal by the United States. The Maritime Canal Company is to be continued in existence, but all stock is to be held by the governments of the United States, Nicaragua and Costa Rica. The bill provides for the payment of $5,000,000 to the stockholders for the work already performed.

The Ohio Republican state convention was held in Columbus, June 27th. The Hanna men were in complete control. The resolutions adopted *favor the construction of the Nicaragua canal by the United States.*

Special War News Bulletins.

TO HELP SHAFTER.

Washington, June 28.—Nine thousand troops have been ordered at once from Tampa, Fla., to reinforce General Shafter. It is believed the president will make another call for volunteers within a few days.

ORDERED TO MANILA.

New York, June 28.—The secretary of war has issued an order for all the troops remaining in New York to proceed at once to Manilla via San Francisco.

San Francisco, June 28.—Major-General Otis has issued orders for the reorganization of all troops remaining at San Francisco. It is thought that they will soon be ordered to Manilla.

WILL NOT ABDICATE.

Rome, June 28.—The pope has advised the queen of Spain not to abdicate. The queen has reconsidered and will not do so for the present.

BLOCKADE EXTENDED.

Washington, June 28.—The president has issued a proclamation extending the Cuban blockade from Cape Francis to Santa Cruz, inclusive, also ordering the port of San Juan, in Porto Rico, to be blockaded.

TO RUN THE BLOCKADE.

New York, June 28.—A New York Journal special, from Halifax, says: A number of vessels are fitting out here to run the blockade in Cuba, owing to the success of the steamer Newfoundland, the owners of the former having realized large sums of money on their former venture in Cuba. The Newfoundland was ordered to leave Cuba ports, but afterward ran into a Cuban port and disposed of her cargo.

OREGON ARTILLERY TO BE MUSTERED IN.

Portland, June 27.—Battery A, O. N. G., this evening received instructions to get ready for mustering into the service.

THE AUXILIARY CRUISER ST. PAUL PUTS THE DESTROYER TERROR OUT OF BUSINESS.

Washington, June 28.—The navy department today posted the following bulletin: Admiral Sampson reports that the auxiliary cruiser St. Paul arrived off Santiago yesterday and discharged her troops. Captain Sigsbee reports that on Wednesday afternoon, while off San Juan, he was attacked by a Spanish unprotected cruiser and the Spanish torpedo-boat Terror. The Terror made a dash, which was awaited by the St. Paul. Shots from the guns of the St. Paul hit the Terror three times, killing one officer and two men and wounded several others. The Terror dropped back under cover of the fortifications with difficulty, and was towed into harbor in a sinking condition, where she is now being repaired. Later—The cruiser and gunboat started out again, but remained under protection of the forts.

To Cure Constipation Forever.
Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

Should Be a National Motto.

If the Examiner correctly reports an interview with Admiral Dewey, he said that which ought to shame a recreant congress for not having passed long ago a bill completely demolishing the last atom of seamen's servitude, thus so elevating the tone of the mercantile service that an abundant supply of the best men for the navy could be ensured. He said:

"The second lesson of this battle is the complete demonstration of the value of high-grade men. Cheap men are not wanted, are not needed, are a loss to the U. S. navy. We must have the best men filling all positions on shipboard."

This emphatically condemns whoever is responsible for employing Chinese, or permitting them to be employed, on steamships conveying troops to the Philippines.

But more than this, the admiral's remark applies to the entire labor question. "High-grade men" are as valuable to the entire nation as to its navy, and "cheap men" are correspondingly detrimental; and "high-grade men" are not made by low wages or long hours.

Admiral Dewey, you have struck the key-note for the rights of labor which may be echoed and re-echoed until it becomes a national motto.—S. F. Star.

Everybody Says So.
Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. to-day; 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

An Atchison woman says she never thinks of opening her husband's mail unless it is marked "private."

S. F. Star: The injunction is not dead yet. Judge Palmer of Denver (state official) has issued one against the striking coal miners of northern Colorado to facilitate importations of cheap labor.

"Last summer one of our grandchildren was sick with a severe bowel trouble," says Mrs. E. G. Gregory, of Fredericktown, Mo. "Our doctor's remedy had failed, then we tried Chamberlain's Colic, Cholera and Diarrhœa Remedy, which gave very speedy relief." For sale by R. S. Knowlton.

Between Sprague and Spangle, in eastern Washington, is a tract of land of considerable extent known as the "poison strip." It is nearly as deadly for sheep to pass through it as the celebrated Death Valley in California is for human beings and stock. A poisonous weed grows on the strip and sheep die soon after eating it. Last week 85 head out of 3000 died, entailing a loss of over $250 to the owner. Dr. Nelson, state veterinary surgeon, and Professor Piper, of the botanical department of the Pullman agricultural college, are making an investigation. Dr. Nelson does not agree with some stockmen that the poisonous weed is larkspar. He fed larkspur to a sheep, and the sheep grew fat on it.

NEW NATIONAL GUARD.

Separate Co. K is Provided for in the New Organization.

By direction of Governor Lord, orders have been issued by Adjutant-General Tuttle for the organization of the Third regiment, O. N. G. The organization will consist of battery A, troop B and separate companies A and K, and contemplates for the infantry, one regiment to consist of three battalions, each of four companies, the companies to have a minimum strength of 56 and a minimum of 72 in peace, and in war a maimum of 106 or such a number as may be prescribed by the war department for the volunteer army.

The organization is to be a practical military one, based on the requirements of actual war, as regards physical qualifications, etc., that it may be available as a whole for muster into the service of the United States.

Reasons Why Chamberlain's Colic, Cholera and Diarrhœa Remedy is the Best.

1. Because it affords almost instant relief in case of pain in the stomach, colic and cholera morbus.
2. Because it is the only remedy that never fails in the most severe cases of dysentery and diarrhœa.
3. Because it is the only remedy that will cure chronic diarrhœa.
4. Because it is the only remedy that will prtvent bilious colic.
5. Because it is the only remedy that will cure epidemical dysentery.
6. Because it is the only remedy that can always be depended upon in case of cholera infantum.
7. Because it is the most prompt and most reliable medicine in use for bowel complaints.
8. Because it produces no bad results.
9. Because it is pleasant and safe to take.
10. Because it has saved the lives of more people than any other medicine in the world.

Here Is Yellow Journalism.

The Spanish press is equal to the situation in keeping up the courage of their people notwithstanding their country's reverses. Only three weeks ago the El Tiempo, a Madrid journal, regaled its readers with the following bit of choice news:

"Word has just been received here that the Indians are rising against the Yankees in Illinois, Ohio, and other places. The farmers are petitioning the government to protect them from the bloodthirsty savages, who are burning houses and killing on every side. Troops are asked for Colorado, in state of Denver, and at St. Louis (San Luis), in Missipa.

"News is brought to us that Buffalo Bill, a notorious outlaw and leader of a band of half-breeds, has risen against the American government, and is burning towns near his birthplace in New York."

Making It Worth While.

An Irishman walking over a plank sidewalk, in counting some money accidentally dropped a nickel, which rolled down a crack between two of the boards. The Irishman was much put out by the loss, trifling though it was, and continued on his way swearing audibly.

Early the next day a friend, while walking by the spot, discovered the Irishman in the act of deliberately dropping a dollar down the same crack through which he had lost his nickel. The friend was, of course, much astonished at what he saw, and, desiring to learn why Pat should deliberately, to all appearances, throw away money, inquired his reasons, and was fairly taken off his feet by the following lucid (?) explanation:

"It was this way," said Pat: "It's yesterday I was for passin' this way when I lost a nickel down that hole. Now, I reasoned that it wasn't worth me while to pull up that sidewalk for a nickel, but last night a scheme struck me, and I am dropping down the dollar to make it worth me while."—Current Literature.

S. F. Star: Railroads charge 58 cents freight from Boston to San Francisco, 75 cents to Los Angeles, 93 cents to Denver—about 1300 miles nearer than San Francisco—and $1.93 to Arizona stations, which are much nearer Boston than Los Angeles. This is the result of railroads being run by private corporations. Charges and service are not related.

The game stands—Cevera one home run; Schley at the bat, with Sampson on deck; Hobson out on foul.

"Where is Jones?" "Gone to California." "What for?" "To regain his health." "How did he lose his health?" "Earning the money to go to California."

Fitzhugh Lee and Mosby.

The conversation had naturally drifted into war channels and the major had the floor.

"Well, Colonel Mosby, you now, was a good fighter, but when General Grant sent him to China the Virginians turned the cold shoulder on him. He told the Virginians that they ought to vote for him.

"'Why,' said the colonel, 'I fought all over northern Virginia for four years. Talk about war records. Why, my war record is a part of the state's history. Why, gentlemen, I carried the last confederate flag through this very town.'

"'Yes,' replied Fitzhugh Lee, 'for I was here at that time.'

"'Thank you for your fortunate recollection,' gratefully exclaimed Mosby. 'It is pleasant to know that there still live some men who move aside envy and testify to the courage of their fellow beings. As I say, gentlemen, my war record is a part of the state's history, for the gentleman here will tell you that I carried the last confederate flag through this town.'

"That's a fact," said Fitzhugh Lee, "I saw him do it. He carried the confederate flag through this town, but Kilpatrick was after him, and he carried it so blamed fast you couldn't have told whether it was the confederate flag or a smallpox warning."—New York Sun.

The Chief Burgess of Milesburg, Pa., says DeWitt's Little Early Risers are the best pills he ever used in his family during forty years of housekeeping. They cure constipation, sick headache and stomach and liver troubles. Small in size but great in results. R. S. Knowlton.

"What preparation have you made for the future?" asked the old man whom he hoped to make his father-in-law. "Well, sir," he said confidently, "I am a Methodist, but if that doesn't suit your views I am willing to change."

Win your battles against disease by acting promptly. One Minute Cough Cure produces immediate results. When taken early it prevents consumption. And in later stages it furnishes prompt relief. R. S. Knowlton.

Ever and Ever?" Matter-of-Fact Maiden—"No; I stop for meals."

A Pill for the Ill.

"They'll do you good," a physician said in giving some pills to his patient, a woman who had suffered for months from diseases which baffled skillful treatment. His words proved true. The woman rejoices.

The hurry and bustle of the housewife is extremely wearing upon the delicate organism of womanhood.

Her intense earnestness in whatever she undertakes, tempts her constantly to go beyond her strength.

Mrs. L. E. Browning, of Pueblo, Colo., was one who did this.

"Eight years ago," said she, "my husband died and I was left with three children to care for and educate.

"The burdens of life fell heavily upon me, but I determined to make the best of it.

"I succeeded in my undertakings for a livelihood, but in doing so overtaxed myself, and undermined my health.

"I was very ill about two years ago with blood poisoning, caused by an abscess that had not received proper treatment.

"The disease settled in my throat for a time, causing intense agony.

"Then inflammatory rheumatism set in. For four months and a half I was a prisoner in my room, most of the time confined to my bed.

"My hands were swollen so that I could not feed myself, and the swelling in my feet and ankles would have made walking impossible if I had been strong enough.

"One day, after considerable treatment, my physician brought me a box of pills.

'You need a tonic,' he said, 'and something that will act at once, and this is the best medicine for that purpose.'

"Pills!" I exclaimed in surprise as he opened the box and showed them.

'Yes,' he replied, 'these are Dr. Williams' Pink Pills for Pale People, but you need not be alarmed, they are not physic, and my word for it, they'll do you good.'

"Before I had been taking them a week I noticed a great improvement in my condition. Soon my rheumatism was gone.

"I grew stronger each day and now am in the best of health.

"I consider Dr. Williams' Pink Pills for Pale People, the best tonic.

"A friend not long ago was telling me of her mother who is at a critical period in her life.

"She was subject to terrible fainting spells, and the entire family would work over her.

"Dr. Williams' Pink Pills have not only stopped the fainting spells, but given her so much strength that she is able to take up life's duties again."

To more highly endorse her words, Mrs. Browning made affidavit before George W. Gill, Notary Public.

All diseases arising from an impoverished condition of the blood, and most all come from that, are cured by Dr. Williams' Pink Pills for Pale People.

They act directly upon the blood. Building it up with lacking constituents; it becomes rich and red, the various organs are nourished and stimulated to activity in performing their functions, and thus disease is eliminated from the system.

These pills are sold everywhere, the sale being enormous.

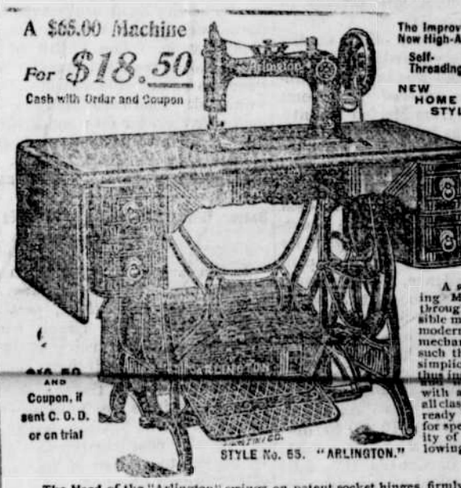
The Improved New High-Arm Self-Threading "Arlington" Sewing Machine
NEW HOME STYLE — LATEST BEST CHEAPEST



Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.

10 years' written warranty with each machine.

A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority:

STYLE No. 55. "ARLINGTON."

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. **Highest Arm**—Space under the arm is 5½ inches high and 9 inches long. This will admit the largest skirts, and even quilts. **Self-Threading**—Absolutely no holes to put thread through except eye of needle. **Shuttle** is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. **Stitch Regulator** is on the bed of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. **Feed** is double and extends on both sides of needle; never fails to take goods through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. **Automatic Bobbin Winder**—For filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. **Light Running**—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. **Stitch** is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. **Tension** is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. Never gets out of order. **The Needle** is a straight, self-setting needle, flat on one side, and cannot be put in wrong. **Needle Bar** is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. **Adjustable Bearings**—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. **Attachments**—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ⅞ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. Woodwork of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, dress guards to wheel, and device for replacing belt.
