Since compiling the above, the grand Commodore Schley has 1 1, whereby he stands at the head of the late naval engagement at Santiago, giving to Spain a Cervera blow than any yet given, and shows how our trinity of naval heroes "figure" up to date.

The vote for member of congress in Oregon this year is 82,844; two years ago, 89,554. Decrease, 6710. In 1894 the vote was 86,561.

How we Celebrated the Fourth.

ED. HERALD: The good people of Gravel Ford are not lacking in patriotism, judging from the number that assembled in J. D. Bennett's grove on Independence Day to celebrate the birthday of the nation. At 10 o'clock the procession formed at the postoffice and marched to the grove. This procession was led by Marshal J. S. Coleman, followed by President of the Day K. H. Hansen and the orator, Prof. W. H. Bunch. Then came the color-bearer, J. M. Bright, and next Liberty, represented by Miss Bertha Hall, escorted by W. W. Bennett, personating Uncle Sam, and Miss Mabel Weekly, of Angel Peace. On one side of these was the navy, represented by W. T. Johnson; on the other side was the army, represented by Robert Parrish. These were followed by girls and boys representing states and territories. These all marched to music of fife and drum, manipulated respectively by S. E. Johnson of Myrtle Point and Mr. Wilcox of McKinley.

The literary part of the exercises opened by the entire assemblage singing "America." Mr. Fay Hervey recited the Declaration of Independence. This was done in a masterly and oratorical manner, much to the delight of the audience and the credit of the speaker. A beautiful solo, with full chorus, "We'll Go Down Ourselves and Teach the Spanish Something New," was rendered by the choir, with Miss May Bunch as soloist. Miss Netta Hanson showed us "How Betsy Cut the Star" for the first flag. The choir sang "Freedom's Banner," after which Miss Annie Weekly recited a beautiful poem describing the development and military achievments of our nation. A German solo was then rendered by Mrs. Rudolph Schinz.

The orator was then introduced. Prof. Bunch was at his best, and his oration was so full of eloquence, enthusiasm and patriotism that at intervals the audience wildly cheered for our living heroes as their names were mentioned in the discourse. The literary program closed with the song, "Tenting on the Old Camp-Ground." This was rendered by the ladies, octet of Gravel Ford.

Then came dinner—and such a dinner as it was! The tables were spread with everything good. Meat barbecued to perfection, and other eatables and delicacies were spread before us in profusion. A thousand people partook of this bounteous feast, and enough remained for fully five hundred more.

The afternoon exercises consisted of a Hobo parade and celebration, in which Gen. Merritt, Admiral Dewey and the Flying Squadron figured conspicuously. There were the usual games and races. And last, but most prominent, was the presence of the small boy and the fire crackers.

All felt themselves greatly repaid for coming, and many said it was the best celebration they ever attended. SHERMAN.

[Marshfield Sun.]

Joshua Nelson is seriously ill with dropsy.

Frank Batter and W. H. Wilson, formerly of Marshfield, joined the volunteer engineer corps of the army in Portland last Friday. They intend to leave this week for San Francisco and think their destination will be Manila.

Gus Engblom, marshal of the town of Empire City, shot himself in the hand last Saturday, inflicting a flesh wound. The accident happened while Engblom was in a "deadfall" in that city and was trying to make an arrest.

Loyd Lennan, a lad of about 10 years of age, while playing with a 44 caliber revolver, which was "not loaded," last Monday afernoon, accidentally shot Ida Wickman, a playmate. The bullet passed through the arm near the elbow, missing the bone and inflicted a flesh wound. Dr Evans was called and dressed the wound and at last accounts the girl was on the high road to recovery.

Dora Doings.

Dora, July 8.—The click of the mower can be heard on every hand, as farmers are harvesting the fine hay crop.

Campmeeting commences today, the 8th, on the North Fork, above the Fox bridge. Revs. Bell and Epperly will conduct the meeting.

The glorious Fourth was celebrated in grand style at Gravel Ford. Thirteen guns at sunrise and procession organized at 10:30 at Bennett's corner and marched to ground. The many states were represented by girls dressed in white. The music by the choir was good. The Declaration of Independence was recited by Fay Hervey, he having committed it to memory. Also an oration by W. H. Bunch was good and well delivered. Take it all together there was a very nice program carried out, after which a bountiful table of pies, cakes, meats and various other eatables was spread, not forgetting Mosier's fine supply of cheese. After all had filled the inner man to its utmost capacity, the Hobo gang was marched on the ground and occupied the stand for some time; then came the races and greased pole walk.

1st race, for girls from 8 to 10, was won by Vernie Weekly.

2d race, from 10 to 12, won by Mattie Martin.

3d, ladies' race, free to all, won by Fannie Sturdivant.

4th, boys' race from 12 to 14. (Don't know winner.)

5th, men's race, won by Mr. Rookard.

6th, three-legged race, won by Hardy Mast and Walter Laird.

7th, sack race, won by Walter Laird.

Old men's race, from 50 up, J. Moss and J. P. Taylor ran, Mr. Moss being the winner.

Walking greased pole over water was won by Hardy Mast, who got the flag the first dash.

Weekly & Martin made enough off their candy stand and games to pay them well for their trouble.

No trouble of note occurred on the ground: everything went along smooth.

The barbecued meat was well done and thanks to A. Bright, Wm. Brady and others for the fine roast they prepared DON REX.

Riverton Reverberations.

Riverton, July 11.—Mrs. Davidson held services in the church last Sunday.

Miss Ella True is now keeping house for her adopted father, John Donaldson. Miss Daisy Jackson is with her.

The gasoline schooner, Barbara Hernster, is expected back promptly, so also the schooner Lizzie Prien. This insures steady employment at the mines.

Alex Zevely was down the river last Sunday on a business trip.

Our soldier boys expect to drill at Bandon next Sunday.

A Sunday-school has been organized at Beaver slough schoolhouse. Miss Nina Tennisson was elected superintendent. Hereafter Sunday-school will be held there every Sunday at 2 o'clock p. m.

John Jenkins & Son have opened a match-wood camp just below this place.

F. C. Kinnicutt has been engaged to teach the next term of our public school.

Mrs. McCormac of Libby is now visiting her parents, Mr. and Mrs. C. A. Peterson. DONNA ANA.

Gravel Ford Gleanings.

Gravel Ford, July 8.—The farmers are busy haying.

Miss May Bunch has moved into her new store-building on Park avenue.

Mr. Robert Parrish was down from the South Fork and spent the Fourth.

The Fourth of July celebration at this place was a grand success. The music and literary exercises were perfect; the oration and the responses thereto showed patriotism on the part of both speaker and audience.

The table was spread with a bountiful repast, and everybody went home happy.

The Seventh-Day Adventists of Coos county will hold their annual campmeeting at this place, commencing July 27th. Extensive preparations have already commenced and the meeting promises to be well attended.

Mr. James Laird of Sitkum gave a musical entertainment at the Gravel Ford schoolhouse on the evening of the Fourth. Of course it was good; Uncle Jimmie never makes a failure of anything.

LITTLE WANDERER.

Mr. C. L. Hasbrouck, a druggist at Mendon, Mich., says all of the good testimonials that have been published by the manufacturers of Chamberlain's Colic, Cholera and Diarrhœa Remedy could be duplicated in that town. For sale by R. S. Knowlton

Eugene Guard: Charles Williams arrived over today from Silver Lake with freighting teams to haul the monument to be erected in memory of the victims of the Silver Lake fire. W. W. Martin, of this city, did the work. The teams will probably start on the return trip Monday.

[Contined next week.]

Late to bed and early to rise, prepares a man for his home in the skies. Early to bed and a Little Early Riser, the pill that makes life longer and better and wiser. R. S. Knowlton.

"Hi! jarvey!" "Yessir!" "What's the fare from here to Kingsbridge?" "One shilling, sir." "Thanks. I only wanted to know how much I would save by walking."

A South American president, not having been shot at for a fortnight, remarked, "This want of interest in public affairs is the curse of the country."

She—An editor has to have great command of language, does he not? He—Oh, yes. He often orders four or five thousand words.

Breaks Down the Health of an Oregon Man

What a Few Bottles of Hood's Sarsaparilla Did for Him.

"Our home is in Clark county, Washington. My little boy was taken with asthma when only two years old, and grew worse until he was five, when the physician advised us to take him to a dry climate. I resolved to go to the great wheat fields of Eastern Oregon and work in harvest, but I soon found my own health was failing. I could neither eat nor drink without getting sick. I was blind and dizzy. I procured a bottle of Hood's Sarsaparilla and began taking it, and in a few weeks I was well and able to work every day. My little boy is now taking Hood's Sarsaparilla with good results." D. PATTEE, Wasco, Oregon.

Dredging Rogue River.

The magnitude of that dredging plant in Rogue river has hardly been understood by our people. The Risdon Iron Works has a contract, says Engineer J. S. Howard, to build the boat—dredger—and put in the machinery at a cost of $35,000. The company which is putting in the dredger has five others on rivers in California and Nevada. From all of these boats big money is being made, and from one in particular there is reported to be a daily output of $500 in gold. Three engines are required to do the work. One of these works the dredger, another pumps the water with which the gold is washed from the gravel and the third one will operate an electric light plant on the boat—the operations being carried on day and night.—Oregonian.

For the Past Fiscal Year.

San Francisco, July 6.—The financial report of the Southern Pacific Company for the past fiscal year shows an increase in profits of $4,000,000 over the business of the preceding year. This shows that the last 12 months were the most prosperous in the history of the corporation.

Simon Lake, inventor of the submarine boat Argonaut, built by the Columbian Iron Works & Dry Dock Company, Baltimore has been talking interestingly of his 200-mile trip under and on the surface of Chesapeake bay in his wonderful little craft. He says: "During the trip we made various experiments to demonstrate the practicability of our system of submarine navigation. The whole trip was made with our own power. The Argonaut was handled very easily either under the surface or when running on the bottom, and we proved that the boat was perfectly seaworthy. On hard bottom, where the water was comparatively clear, the door was opened, and it was a beautiful sight. We picked up a few oysters as we were traveling along. We discovered that we could see farther under the surface at night with our electric lights than in the daytime. The greatest distance seen in the bay was about 20 feet. We hope to get into the ocean next week, where we well get clear water, and see much farther. Our divers were sent out from the boat and demonstrated the entire practicability of our system." Mr. Lake expresses confidence in being able to destroy mines laid to protect any harbor in the world.

Pendleton has a city jailer who knows his business. His name is Hutchinson. He works city prisoners on the streets, and has repaired many crosswalks, and filled many holes in the pavement. He says that if property-owners will co-operate with him, he will have every street in the city in first-class condition by July 4. When a Pendleton prisoner sits down to his evening meal it is safe to say that Hutchinson made him earn it during the day. Jailer Hutchinson's admirable system keeps the jail comparatively free of prisoners, and the streets in passable condition.

The steamer Columbia arrived at Astoria on the 4th and reported a collision with the schooner J. Eppinger, six hours out from San Francisco, in a dense fog. The Eppinger undertook to cross the Columbia's bow, and was run down and cut in two aft the foremast. The crew were all rescued.

Sick headache, biliousness, constipation and all liver and stomach troubles can be quickly cured by using those famous little pills known as DeWitt's Little Early Risers. They are pleasant to take and never gripe. R. S. Knowlton.

Patrick Haggins, said to be the oldest man in Pennsylvania, died at Scranton, Pa., aged 117. His age is authenticated by a record and certificates, which show that he was born in County Londonaderry, Ireland, in 1781.

It was in 1862 that Spain recognized the belligerency of the south. She now is in a position to do it again.

Vermont will be next to hold a state election, which will be in September.

Roseburg Review: T. R. Sheridan shipped a car load of ungraded prunes in sacks to St. Louis Wednesday. He paid 2½ cents a pound for them.

Oregonian: Sampson, like Dewey, thought that: "When you go to it to do it, do it; and if you don't do it when you go to it to do it, never go to it to do it again."

Oregonian: Spain's queen regent did not act in time on Blanco's recommendation that Cervera be removed from the command of the Spanish fleet. Sampson got ahead of her.

Representative Tongue was to deliver an oration at the Washington monument on the Fourth of July. The celebration at that point was held under the direction of the Sons of the American Revolution.

You may hunt the world over and you will not find another medicine equal to Chamberlain's Colic, Cholera and Diarrhœa Remedy for bowel complaints. It is pleasant, safe and reliable. For sale by R. S. Knowlton.

Oregonian: The city ordinance prohibiting spitting or expectorating on sidewalks, floors of public buildings, or other places, is now in effect, and chewers of tobacco and others will please take notice and govern themselves accordingly.

A dispatch from Vera Cruz, Mexico, says that Captain Argurdin, an aid to General Blanco, and Lieutenant Velasquez of the staff of General Pando, have arrived at that port and are making strenuous efforts to arouse the Spanish enthusiasts to join them in an expedition to raid towns along the Texas border.

Oregonian: The Vesuvius, the pneumatic gunboat that threw shells filled with guncotton against the Spanish works at Santiago, is still officially styled a dynamite gunboat, of 929 tons displacement and 21.42 knots, but our naval high explosive for use in great quantities is still guncotton, so that she is really a guncotton or pneumatic gunboat. The Vesuvius is an unarmored craft and could be easily riddled and sunk by an adversary, but she throws an enormous shell filled with high explosives at short range, and it is believed that such vessels will be very useful in attacking forts and defending harbors or narrow passes. The next step in their evolution will be to armor them.

"My friend," said a visitor to one of the convicts, with a patronizing air, "never despair. Don't lose your heart. No one knows what the future has in store for you. I was once a poor miserable thief like yourself. Now," he added, as he lighted another cigarette, and threw away the match, "I am a kleptomaniac."

The Wonders of Science

Lung Troubles and Consumption Can Be Cured.

An Eminent New York Chemist and Scientist Makes a Free Offer to Our Readers.

The distinguished New York chemist, T. A. Slocum, demonstrating his discovery of a reliable and absolute cure for Consumption (Pulmonary Tuberculosis) and all bronchial, throat, lung and chest diseases, stubborn coughs, catarrhal affections, general decline and weakness, loss of flesh, and all conditions of wasting away, will send THREE FREE BOTTLES (all different) of his New Discoveries to any afflicted reader of the Coquille HERALD writing for them.

His "New Scientific Treatment" has cured thousands permanently by its timely use, and he considers it a simple professional duty to suffering humanity to donate a trial to his infallible cure.

Science daily develops new wonders, and this great chemist, patiently experimenting for years, has produced results as beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude," filed in his American and European laboratories in thousands from those cured in all parts of the world.

Medical experts concede that bronchial, chest and lung troubles lead to Consumption, which, uninterrupted, means speedy and certain death.

Simply write to T. A. Slocum, M. C., 96 Pine street, New York, giving postoffice and express address, and the free medicine will be promptly sent. Sufferers should take instant advantage of his generous proposition.

Please tell the Doctor that you saw his offer in the Coquille City HERALD.
