AGUINALDO A TYRANT.

Condemning All Who Favor Reconciliation and Peace.

Manila, March 20, 8:30 a. m.—It is reported, on hitherto reliable authority, that Aguinaldo is taking extreme measures to suppress signs calculated to cause a cessation of hostilities. Twelve adherents of the plan of independence, residents of Manila, have been condemned to death because they write advising surrender, and all loyal Filipinos have been called upon to perform the national service of dispatching them.

On last Friday La Garda visited Lagordas for the purpose of advising Aguinaldo to quit. He argued with the insurgent leader, and attempted to convince him of the folly of his persistence in the face of overwhelming odds. Aguinaldo was furious at the advice, and ordered General La Garda to be executed immediately.

Some Oregon Boys.

Manila, March 20.—The American loss in yesterday's battle was seven killed and thirty wounded. Among the dead and wounded are the following from Oregon: Privates James Page, Co. D, and Thos. J. Smith, Co. E, second Oregon, killed; Privates Clark, Hough, Yount and Brown, of the Second Oregon, wounded. Brown belonged to Co. M.

THE OREGON AT MANILA.

Washington, March 19.—The following is a cablegram received from Admiral Dewey:

"Manila—The Oregon and Iris arrived today. The Oregon is in fit condition for any duty."

Murderer Re-Sentenced.

Roseburg, March 20.—J. M. Olberman, who murdered Jasper Casteel, was re-sentenced today by Judge Hamilton to be Hung April 28.

Boom for the Pacific Coast.

St. Paul, March 21.—A homeseekers, half-fare rate on all transcontinental lines west went into effect today. All railroads are compelled to double their facilities to handle the crowds. Not less than 5000 people took advantage of the low rates and many travelers bought only one-way tickets, which is taken as an indication of their intention to locate permanently in the west.

Ready to Strike.

Rome, March 21.—The Opinione raises the story that Don Carlos, the Spanish pretender, has secured advances of several millions from English and French bankers, and will soon enter Spain. The precise date is deferred until the ratifications of the treaty of peace between Spain and the United States have been exchanged, but, according to the Opinione, the Carlists and Spanish Republicans will start a revolution immediately after the exchange is made.

State School Circular.

SALEM, Oregon, March 14, 1899.

Department of Public Instruction, State of Oregon—To the county superintendents, Gentlemen: I would respectfully call your attention to the following:

1. Examinations for state and county papers will be held as usual, beginning on the second Wednesday in May, next.

2. State board of education has not yet made rules and regulations governing examinations for state papers, under the new law, but will do so in the near future.

3. The provisions relating to state papers, under the new law, will not be in force till May 20, 1899.

4. School clerks' bonds require a fifty cent revenue stamp.

5. Your annual reports to this office are to be mailed by the first Monday in April.

Respectfully yours,
J. H. ACKERMAN,
Supt. Pub. Instruction.

A Woman's Severe Charges.

Rev. Kasson Smith, who spent a few months in Roseburg, leaving for eastern Oregon last summer, has a woman on his trail. Mrs. Mollie Smith writes to the sheriff, claiming to be Kasson's wife and wanting to know his present whereabouts. She says he left her in 1898 without being divorced, and she understands that he has a wife in Milton, eastern Oregon, whom he also deserted. She wrote to the sheriff of Walla Walla (Wash.) and he answered that Smith had six wives. Mrs. Smith states that part of her husband's religion was that a man should be entitled to all the wives he wanted. Evidently, if her story be true, Kasson is practising what he preaches.—Roseburg Review.

Colored troops will now garrison Vancouver barracks, Washington.

Chronological Statement of Important Events and Discoveries.

Prepared for the HERALD by J. S. Kanematz, A. M.

Niagara suspension bridge is constructed of four main cables, each measuring ten inches in diameter and composed of 3640 wires. The ultimate strength of these four cables is estimated at 12,000 tons, and the length of the four cables combined is 4908.

Pyramid of Egypt built in 2170 B. C. is 762 feet long at its base, 453 feet in height, and its weight is estimated an 5,272,600 tons.

The sun's ray has a velocity of 184,900 miles per second.

The diameter of the sun is 882,634 miles. Mean distance of the sun from the earth is 95,000,000 miles.

Since the weight of the earth is 39 times that of the moon and the distance between them is 237,000 miles, a point 5925 miles from the earth towards the moon will be the fulcrum upon which these two massive bodies will swing in a perfect balance.

The earth revolves upon its axis at a speed of 1036 miles per hour, while at the same time it travels 68,000 miles around the sun.

Area of the earth is approximately 196,862,342 square miles. Three-fourths of the area is covered with water, estimated at 68,637,248,064,000,000 gallons, and weighing 351,422,800,087,680 tons.

The standard measure of length established by law in Britain is the yard, being the distance at the temperature of 62 degrees of Fahrenheight's thermometer, under mean atmospheric pressure, between two marks on a certain bar which is kept in the office of the exchequer at Westminster.

The side of a perfect square inclosing one acre of land is 208.71 feet nearly.

First complete aneroid barometer was built by Vidi, in 1848.

Gunpowder is made of soft wood charcoal, sulphur and potassium nitrate, commonly called salt peter, in proportions of 70 to 80 per cent of the nitrate to 10 to 20 per cent of each of the other. When exploded, gunpowder will generate gas nearly 2000 times of its own bulk.

Largest modern cannons are those built in Great Britain, weighing 110½ tons a piece. Its length is 44 feet and 6 inches, with calibre of 16½ inches. This gun with the full charge of 960 pounds of powder will throw a projectile weighing 1800 pounds clear through a wrought iron plate 2 feet and 10 inches thick.

How the Farm Was Saved.

John Smith owned a good Kansas farm. His wife owned four cows and about 100 hens. John raised Norman horses, Short Horn cattle and Poland-China swine. He had served in the legislature, and was known as a man of brains.

John hired men and money. His wife hired nothing. She was simply "Mrs. John Smith," had a very large family, was a great hand to raise chickens and make good butter. She always took her butter, poultry and eggs to town herself. She was very careful about lowering John's dignity through marketing of butter and eggs. Mrs. Smith was a very quiet woman. She merely sold enough butter and eggs to keep the family and feed the hired hands. More than this she managed to bring a barrel of salt for John's stock when it was needed, and somehow or other she always evened up the dry goods bill. John was a great business man, but alas! his hired maney and hands, cattle, hogs and dignity took a tumble. The sheriff gobbled up the whole business, dignity and all. A crop failure came along and gobbled up his crops. "What in the world will become of us?" moaned he. "My dear husband," replied modest Mrs. Smith, "my cows and hens have been keeping us for years, and since you are now fortunate in not having any hired hands and fine stock visitors, I believe we can make some money. Mrs. Smith's prediction proved to be true, and more than this, it eminently vindicated itself right through two drought years. Mrs. Smiths cows and hens not only paid for their own high-priced feed, but they paid for John's feed also. John Smith is today a changed man, and he begins to suspect that his wife is a cool and level-headed person. John Smith's bank account is growing a little. His barns and sheds come very handy for Mrs. Smith's chickens. He accompanies his wife to town but does not actually sell the produce. His wife does that while John holds the team.

"Does your son belong to any of the college fraternities?" "No; they wouldn't let him in." "Why?" "Well, you see, he devoted all his time to study and neglected the athletic features of the business. There was serious talk of expelling him before he could graduate."

A Swede in Court.

It was in a Duluth court, and the witness was a Swede who was perhaps not so stupid as he seemed to be.

The cross-examining attorney was a smart young man, whose object was to disconcert the witness and discredit his testimony.

"What did you say your name was?" was the first question asked.

"Yahn"—very deliberately—"Peterson."

"John Peterson, eh? Old man Peter's son, I surpose. Well, John, where do you live?"

"Where Ah live? In Dulut."

Now, Peterson, answer this question carefully. Are you a married man?"

"Ah tank so. Ah was married."

"So you think because you got married you are a married man do you? That's funny. Now tell the gentlemen of this exceptionally intelligent jury who you married."

"Who Ah married? Ah married a woman."

"See here, sir! Don't you know any better than to trifle with this court? What do you mean, sir? You married a woman? Of course you married a woman. Did you ever here of anyone marrying a man?"

"Yas. Mah sister did."

Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good work; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. It is especially prized by mothers for their children, as it never fails to effect a speedy cure, and because they have found that there is not the least danger in giving it, even to babies, as it contains nothing injurious. Sold by R. S. Knowlton.

Capital Journal "X-Rays."

If there has got to be liquor selling, pool selling, gambling and stake racing during the state fair it can be furnished at Salem without making it part of a state institution. ....The trusts have solved the problem of bringing the producer's income to the lowest notch and his out-go to the highest. Now if these beneficent concerns could only compel the courts to sustain them their work would be complete.

Pethy Paragraphs.

United we stand but divided we are misunderstood.

A fox has a reputation for shrewdness among silly old hens.

The crusty old bachelor, if consistent, would make his own bread.

The telephone enables some men to lie without becoming confused. The more a nobody a man is, the more important he thinks he is.

Many a man who thought himself wise, has been declared otherwise by a jury.

Patience is all right in its place, but it is better to back tenacity to win.

The hen should not be blamed if the egg is bad. It was good when she marketed it.

But few people are satisfied with their own fortunes, or dissatisfied with their own wit.

After a politician has been dead thirty or forty years, he is sometimes referred to as a statesman.

When a man steals he does it for himself, but when a woman steals she does it for some worthless man.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cures. I am happy to say that it has not since returned.—JOSH EDGER, Germantown, Cal. For sale by R. S. Knowlton.

Roseburg Review: The gallant Capt. Clark, who commanded the battleship Oregon during the late war, receives now a salary of $2700 a year. Gen. Eagan, who was sentenced to dismissal from the army for libelling Gen. Miles, receives $5500, and has gone to Honolulu to engage in the sugar business. Great is a pull with the present administration.

A dispatch to the London Evening News from Brussels revives the rumor that Cardinal Gibbons may be the next pope.

Amendments to the Constitution.

Five amendments to the constitution of Oregon will be submitted by senate bill 224, for adoption or rejection at the general election in June, 1900. They are:

Abrogate section 10 of article 6 and substitute therefor a section providing that no city, school district, etc., shall become indebted to exceed 5 per cent on the taxable property.

Abrogate section 10 of article 7 and substitute therefor a section giving the legislature authority to provide for the election of five judges of the supreme court.

A new section to be known as section 19 provides for the construction of reservoirs or storage basins for irrigation purposes.

One amendment provides for the repeal of the negro suffrage section. This, however, is of no effect, as it was annulled by the 14th amendment of the constitution of the United States.

The 5th amendment is as follows: Add the following to the Oregon constitution:

"Article 1. The elective franchise in this state shall not hereafter be prohibited to any citizen on account of sex."

The equal suffrage proposition is the only amendment of the five heretofore submitted to the electors of Oregon. It was voted upon at the general election held June 2, 1884, and rejected by a vote of nearly 3 to 1.

Attorney-General Blackburn, at the request of Superintendent Ackerman, has rendered an opinion on a point of school law. He holds when a school district raises money by taxation for a specific purpose, and it afterwards becomes unnecessary to use the whole amount for that purpose, the district has the power at an annual meeting to divert the remainder to some other use. School districts are corporations, and the qualified electors in the district have absolute control over the funds raised by taxation, unless their power is limited by law.

T. F. Fisher's barn at Olalla was burned with its contents on Friday night, 17th. The fire was not discovered until too late to save anything. It is thought there was $300 insurance and his loss at a low estimate would probably be dooble the amount of the insurance.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a boitle of DeWitt's Little Early Risers, the famous little pills. R. S. Knowlton.

BLANKETS We have a large stock of heavy, ALL-WOOL MARYSVILLE CALIFORNIA BLANKETS, now offered below Mill prices, as they were bought before the rise in wool. We name only a few. Mention this paper and we'll pay freight on purchases over $10 to any R.R. station in California.

Nervous People.

Nervous people not only suffer themselves but cause more or less misery to everyone around them. They are fretful, easily worried and therefore a worry to others.

When everything annoys you; when your pulse beats excessively; when you are startled at the least unexpected sound, your nerves are in a bad state and should be promptly attended to.

Nervousness is a question of nutrition. Food for the nerves is what you need to put you right, and the best nerve food in the world is Dr. Williams' Pink Pills for Pale People.

They give strength and tone to every nerve in the body, and make despondent, easily irritated people feel that life has renewed its charms. Here is proof:

Miss Cora Watrous, the sixteen-year-old daughter of Mr. I. C. Watrous, of 61 Clarion St., Bradford, Pa., was seized with a nervous disorder which threatened to end her life. Eminent physicians agreed the trouble was from impoverished blood, but failed to give relief. Mr. Watrous heard Dr. Williams' Pink Pills for Pale People were highly recommended for nervous disorders, and gave them a trial. Before the first box had been taken the girl's condition improved. After using six boxes her appetite returned, the pain in her head ceased, and she was stronger than ever before. "My daughter's life was saved by Dr. Williams' Pink Pills for Pale People," said Mrs. Watrous. "Her condition was almost hopeless when she commenced taking them, but now she is strong and healthy. I cannot recommend these pills too highly."—*Bradford (Pa.) Era.*

The full name is on each package. Sold by all druggists or sent, postpaid, by the Dr. Williams Medicine Co., Schenectady, N.Y. Price 50¢ per box; 6 boxes $2.50

BIGGLE BOOKS

The Improved New High-Arm Self-Threading "Arlington" Sewing Machine
NEW HOME STYLE
LATEST BEST CHEAPEST

Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without asking one cent in advance.

10 years' written warranty with each machine.

$19.50 AND Coupon, if sent C. O. D. or on trial

STYLE No. 55. "ARLINGTON."

A strictly high-grade Sewing Machine, finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength, thus insuring ease of running, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect stitch with all kinds of thread and all classes of material. Always ready for use and unrivalled for speed, durability and quality of work. Notice the following points of superiority:

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold. Bed plate has rounded corners and is inlaid or countersunk, making it flush with top of table. **Highest Arm**—Space under the arm is 5½ inches high and 9 inches long. This will admit the largest skirts, and even quilts. **It is Self-Threading**—Absolutely no holes to put thread through except eye of needle. **Shuttle** is cylinder, open on end, entirely self-threading, easy to put in or take out; bobbin holds a large amount of thread. **Stitch Regulator** is on the bed of the machine, beneath the bobbin winder, and has a scale showing the number of stitches to the inch, and can be changed from 8 to 32 stitches to the inch. **Feed** is double and extends on both sides of needle; never fails to take goods through; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. **Automatic Bobbin Winder**—Put filling the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. **Light Running**—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. **Stitch** is a double lock stitch, the same on both sides, will not ravel, and can be changed without stopping the machine. **Tension** is a flat spring tension, and will admit thread from 8 to 150 spool cotton without changing. Never gets out of order. **The Needle** is a straight, self-setting needle, flat on one side, and cannot be put in wrong. **Needle Bar** is round, made of case-hardened steel, with oil cup at the bottom to prevent oil from getting on the goods. **Adjustable Bearings**—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. **Attachments**—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruffler and gatherer, one binder, one shirring plate, one set of four hemmers, different widths up to ⅞ of an inch, one tucker, one under braider, one short or attachment foot, and one thread cutter. Woodwork of finest quality oak or walnut, gothic cover and drawers, nickel-plated rings to drawers, cross guards to wheel, and device for replacing belt.

DON'T PAY HIGH PRICES FOR SEWING MACHINES BUY DIRECTLY OF MANUFACTURERS AND SAVE AGENT'S AND DEALER'S PROFITS

OUR GREAT OFFER. $23.50 is our Special Wholesale Price, but in order to introduce this high-grade sewing machine, we make a special coupon offer, giving every reader of this paper a chance to get a first-class machine at the lowest price ever offered. On receipt of $18.50 cash and coupon, we will ship the above-described machine anywhere securely packed and crated, and guarantee safe delivery. A ten years' written warranty sent with each machine. Money refunded if not as represented after thirty days' free trial. We will ship C. O. D. for $18.50 with privilege of twenty days' trial on receipt of $2.00 as a guarantee of good faith and charges. If you prefer thirty days' trial before paying, send for our large illustrated catalogue with testimonials, explaining fully how we ship sewing machines anywhere to anyone at the lowest manufacturer's prices without asking one cent in advance. The best plan is to send all cash with order, as you then save the $1.00 discount. Remember the coupon must be sent with order.

Coupon No. 2970 Good for $5.00 If sent with order for Arlington Sewing Machine No. 55
