Editors and Proprietors.

Devoted to the material and social up-
building of the Coquille Valley particularly
and of Coos County generally.

Subscription, per year, in advance, \$2.

By special arrangement made
with the publishers of the
FARM JOURNAL, we are en-
abled to offer a 5-year sub-
scription to that paper to every
new subscriber who pays for
every new HERALD one year
ahead; and the same offer is
made to every old subscriber
who will pay all back dues and
one year in advance—both
papers for the price of ours
only.

In order to get the FARM
JOURNAL as a premium for
advance payment it will be nec-
essary to walk right up to the
captain's office, for we have
only a limited number of 5-
year subscriptions to dispose
of. The FARM JOURNAL is
in solid foundation and per-
fectly trustworthy.

FREE, TO CASH SUBSCRIBERS.
In order to get our delinquent
subscribers to pay up and in advance
we will
make them a present
of a year's subscription
to the
NORTHWEST PACIFIC FARMER,
published at Portland, Oregon.

The Farmer is now in its 30th year,
and is authority on all subjects per-
taining to farm work and conditions
of the northwest.

As the regular price of that paper
is \$1 per year, it is easy to see what
a valuable premium we are willing
to give to our paid-in-advance sub-
scribers. This applies to all new
subscribers, and all who will pay
their delinquencies and a year in
advance before March 1, 1899.

Protection Bubble Punctured.
It has been reserved for the trusts
to puncture the high-protection
bubble. A faithful example of the
awakening of minds everywhere to
the danger of the trusts is shown in
the paragraph from the Ameri-
can Wool and Cotton Reporter.

The worsted mills have
been acquired by the new trust—
known as the American Woolen
Company—for \$12,000,000. The
present capital of the mills cannot
exceed, say \$7,500,000. It is stated
that \$16,000,000 of 7 per cent preferred
and \$25,000,000 of common
stock is to be issued at this time by
the new trust. Now we are told
that "the aggregate net earnings for
the last two years of \$2,000,000
show a dividend on the preferred
stock and nearly 6 per cent on the
common." But if these mills with
a capital of, say, \$7,500,000 were
able to earn in the last two years—
one of the most depressed periods
in the history of our wool manufac-
tures—an amount equivalent to a
handsome dividend on \$11,000,000,
what importance can now be at-
tached to their previous statements
that excessive protective duties
were necessary to keep the industry
from going to the dogs? It takes
a bigger head than ours to reconcile
these two views.

There is no answer to such a dem-
onstrated as this. Every duty that
protects a trust must either be re-
duced to the greatest revenue-pro-
ducing point or abolished altogether.

Grants Pass Courier: Coffee and
sugar will soon go to war when Ar-
buckle and Havemeyer lock horns.
It will not be a war for humanity
but supremacy, and the people will
pay all the expenses. If not at first
they will at last. John Arbuckle
says that he will not compromise,
for the reason that he is making
money out of both sugar and coffee.
If Arbuckle can succeed in driving
Havemeyer out of the coffee trade
and Havemeyer Arbuckle out of the
sugar trade, then each will have a
monopoly of his special line and
their prices go up to his notion and
the people will pay for all losses
sustained by each of these parties
while the conflict may have been
going on. The music may be very
pleasant and soothing for a time,
but the fiddler must be paid in the
end.

There is another revival of the
story that Secretary Alger will re-
sign, but the active interest he has
taken in Cuba and his retention of
a grip on the department through
cable indicates that he is to resign
it will only be by request of the
president.

Clyde Holladay, one of the mail
clerks injured at the Santa Fe wreck
at Lang, Kan., in 1897, has just set-
tled with the company. He received
\$11,000. This is said to be the largest
sum ever paid a mail clerk who
was injured for injuries sustained in
a wreck.

COAST TOWNS OF SAMOA

Bombarded by American and British Cruisers.
Exiled Chiefs Brought
Back to Apia.

Berlin, March 30.—A brief official
dispatch from Apia, Samoa,
dated March 30, says: The bom-
bardment of the coast villages by
British and American warships con-
tinues. In pursuance of military
orders, white residents have evacu-
ated many houses.

The chiefs of the Malietoa Tanu
party, who were exiled to the other
islands, have been brought back
from Upolu. The firearms and am-
munition taken from Tanu January
2 have been returned.

Washington, March 30.—The
state department has not received
detailed official advice relating to
occurrences in Samoa. The demon-
stration is regretted, but the opinion
is expressed that Kautz acted on
what was his best judgment and
information. The state department
acknowledges that no permanent
agreement can be reached under a
treaty in which all three powers do
not agree, and hopes some settle-
ment of the difficulty may be
brought about when it becomes
apparent present conditions cannot
exist indefinitely.

Trouble in Samoa and its Origin.
Three men reached Portland Sat-
urday night who were in Apia,
Samoa, during the recent trouble.
They are E. J. Wood, Joseph Quin-
n and William Jeppson, of Salt
Lake. They had been in Samoa for
several years, and the tales they
bring of the conditions there are
very interesting.

"The trouble in Samoa dates back
some years," said Mr. Wood yester-
day. "It is, in fact, a fight between
the London Mission and the Catho-
lics. The London Mission was
established there in 1836, and has
done much good. It is the oldest
mission there, and is non-sectarian,
simply teaches the Bible, and
furnishes medicine to the sick.
This mission has become very pros-
perous and very strong."

Riverton Pick-Ups.
Riverton, April 3.—Last week
the blind organist, accompanied by
O. Corson, made our town a busi-
ness call. They were here to sell
the Estey organs to our citizens.
They left one at the Riverton
Hotel, which is duly appreciated by
ye guests.

The laboring class have made
themselves scarce here. There is
but one mine now in operation,
the Liberty, and it is now employ-
ing only a few men. The other
mines have several more men
at work. The Banner mine will
soon start work again, as its new
incline is about complete. If the
steambots and other vessels that
ply between here and San Fran-
cisco are properly supported by
the business men of the Coquille
river valley, we are positively
assured of a safe and quick me-
dium of transportation. That means
prosperity not only for Riverton,
but for the entire Coquille valley.

Agents Curry and Bounds, rep-
resenting the Singer sewing ma-
chine company, made a business
call upon our citizens last Satur-
day.

Last Sunday was the regular
drill day for company K. O. N. G.
The Riverton members met and
took a lesson in the manner of
dealing death to our enemies.
Our section has received several
recruits lately.

Rev. Dahuff, of Bandon, held
services in the church last Sunday.
Before reading his text, he read a
chapter from Hill's Code which
threatens dire vengeance upon ye
transgressors of the laws of our
country. We have listened to the
expounding of the gospel in the
churches in the east, north, south
and west, yet never before have we
heard a text read preceded by a
chapter of the civil or criminal
code. What does that mean?
Are our citizens so low, so debased,
so lost to all sense of self-respect,
that they must be threatened with
the execution of the criminal laws
of our country against them, before
a minister of the gospel can speak
from the pulpit of our church or
receive respect during the admin-
istration of his ministerial duties?
Or does this mean the first link
in the chain and state together?

A. L. Nowler has been removing
the machinery from the old saw-
mill. He has already shipped one
sawload.

John Jenkins, one of Coos
county's old loggers, stopped in
our town last week. He was col-
lecting logs and rafting them down
the river. DONNA ANA.

The steamship Tacoma, which
arrived at Tacoma last Monday from
China and Japan, brought 327 Japa-
nese, most of them of the laboring
class.

Joseph Medill left the Chicago
Tribune property, valued at \$5,000,
000, to his two daughters, Mrs. Pat-
erson and Mrs. McCormick.

Manchurian dog farmer will own

THAT ARMY BEEF INQUIRY.

Major Black Testifying Before the Court.
Eagan Cusses.

Washington, March 29.—At the
beef inquiry hearing today, Major
Black, who was chief commissary on
Miles' staff during the Porto
Rican campaign, detailed the con-
versation had with General Eagan
after his return to Washington.

"I called upon Eagan," Black
began, "to confer with him concern-
ing the conduct of affairs at Ponce.
He asked me why refrigerator beef
was not issued. I replied because
the issue commissaries did not want
it, they were getting native beef.
Thereupon Eagan exclaimed 'G—
d—them; they have no right to
refuse it. I consider it the best
beef in the United States and G—
d—them, I'd have made them take
it.'"

OREGON TAXES.
The Levies Made by the Various Counties of
the State.

The following is a list of tax levy
made by the county courts of the
various counties of the state. From
it will be seen that the tax levied by
the various counties range from 16
mills to 35 mills:

Table with 2 columns: County Name and Tax Levy (mills). Includes Baker, Benton, Clackamas, Crook, Columbia, Coos, Curry, Clatsop, Douglas, Grant, Gilliam, Harney, Jackson, Josephine, Klamath, Linn, Lane, Lake, Lincoln, Marion, Malheur, Multnomah, Morrow, Polk, Sherman, Tillamook, Union, Umatilla, Washington, Wallowa, Wasco, Yamhill.

Libby Items.

Libby, April 2.—It's a boy and

The friends of Jim Hutchison
will be pleased to learn he has lo-
cated here. He was formerly one
of Marshall's crack bicyclists, but
now he performs some light duties,
and is enjoying what a Frenchman
would call le pensance.

The Wilson is down fast with la
grippe, but is recovering a little.

The Arcata arrived last Tuesday
and brought a fan to ventilate the
mines, the first ever used here.

Heretofore the mines were ven-
tilated by air shafts and furnace,
which was eminently successful, but
now ventilation of the mines is very
defective, hence the necessity for
putting in fans.

The miners are again at work and
will put in eleven days this month
of March.

The broom-handle mills shipped
about 40,000 handles to San Fran-
cisco this week.

Frank Flam last week sold 150
head of yearling calves to Mr.
Black, of Myrtle Point.

The woolen mills received about
8000 pounds of wool on the Town-
send and will begin active opera-
tions before long.

Last Saturday evening members
of the Eastern Star tendered to
James Mast a farewell party. Mr.
Mast departed Tuesday morning
for his farm on the North Fork,
where he intends to remain during
the summer.

It is reported that a large flat-
bottomed boat will be constructed
to run on the river, principally for
the purpose of carrying freight to
and from the upper river, where
the water is shallow, to make con-
nection with the ocean vessels.

Work of manufacturing brick at
the penitentiary will begin soon.

Stockbuyers are abroad in Mal-
heur county, but are making few
purchases, owing to prohibitive
prices.

SERIOUS CRISIS IN JAMAICA.

Anarchism or Rebellion if the English Gov-
ernment Does not Lighten the
People's Burdens.

New York, March 28.—A dispatch
to the Herald from Port Antonio,
Jamaica, says: This island is pass-
ing through a severe crisis. The
governor is afraid to occupy his
residence, and if anarchism does
not break out it will be entirely due
to the unequal loyalty of the
people.

Though the island is taxed to its
utmost capacity with a tariff of 60
per cent on necessities, a weak gov-
ernment, in order to provide funds
to prevent the reduction of its mem-
bers' salaries, has actually intro-
duced a higher tariff. The salaries of
the Jamaica officials amount to
nearly 50 per cent of the revenue
collectible. The people, while will-
ing to support these officials, have
not the means to do it. The home
government will not permit coun-
ter-vailing duties, and thus the sugar
industry is crippled.

Jamaica then will be driven by
the British government to anarch-
ism or, perhaps worse, rebellion.

Rumblings from Rural.
Rural, March 30.—Snow fell
twelve inches deep on the level last
week. The weight of the snow
broke down four barns in the neigh-
borhood. John L. Wagner lost two
barns by the snow storm, John
Hayes lost one and Charles Morris
lost one. The snowfall broke down
more timber than any storm that we
ever had.

Will Wigant and E. B. Robinson
took a pack train into the mines the
first of this week, and we learn that
they will take another in the last of
this week.

George Colvin and Bob Whited
are making preparations to put in
there brood stock.

J. C. Franz has his claim open
and is taking out some of the yel-
low metal. He says he will take
out his fortune this summer.

E. B. Robinson has finished his
house and moved into it.

Calvin Gant has moved back on
his farm in our neighborhood.

Miss Mary Hayes was visiting
her sister, Mrs. L. R. Gant, and was
snowbound for one week.

We learn that J. McD. Hayes will
be our next postmaster, vice Miss
Mary Hayes, resigned.

A. M. Arnold and daughter
started for the Point this morning.

The farmers of this section have
not got any of their wheat sowed
yet.

Smallpox and scarlet fever,
and scarlet fever is recommended by
an army physician, who says:
I herewith append a recipe which
has been used to my knowledge in
hundreds of cases. It will prevent
or cure smallpox, though the pit-
tings are filling. It is as unfailling
as fate, and conquers in every in-
stance. It is harmless when taken
by a well person. It will also cure
scarlet fever. Here it is as I have
used it to cure smallpox. When
learned physicians said the patient
must die it cured:

Sulphate of zinc, one grain; fox
glove (digitalis), one grain; half a
teaspoonful of sugar; mix with two
tablespoonfuls of water. When
thoroughly mixed add four ounces
of water. Take a spoonful every
hour.

Either disease will disappear in
two hours. For a child, smaller
doses according to its age. If
counties would compel their physi-
cians to use this there would be no
need for pest houses. If you value
advice and experience, use this for
that terrible disease.—George's
Weekly.

The Portland papers announce the arrival at that city during two days of last week of 900 home- seekers from the middle west states.

Many had already "cut loose" from their old homes, coming with tickets only to the coast section ready to settle; others had come with round-trip tickets, make this prospecting tour, and then return and dispose of their belongings to come and join the citizen- ship of Washington, Oregon and California. These are only the fore- runners of many thousands more who will visit this coast the present summer and locate. But how many will come here if the falsehoods that have been given currency to be continued and sent out to be used against us by Portland, Rose- burg and other communities for their own advantage?
