Put Your Finger on Your Pulse

You feel the blood rushing along. But what kind of blood? That is the question. Is it pure blood or impure blood? If the blood is impure then you are weak and languid; your appetite is poor and your digestion is weak. You cannot sleep well and the morning finds you unprepared for the work of the day. Your cheeks are pale and your complexion is sallow. You are troubled with pimples, boils, or some eruption of the skin. Why not purify your blood?

will do it. Take it a few days and then put your finger on your pulse again. You can feel the difference. It is stronger and your circulation better. Send for our book on Impure Blood. If you are bilious, take Ayer's Pills. They greatly aid the Sarsaparilla. They cure constipation also.

Write them freely all the particulars in your case. You will receive a prompt reply, without cost. Address, Dr. J. C. Ayer, Lowell, Mass.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A. SMOOK, Hopomoko City, Md. For sale by R. S. Knowlton.

Epidemic scourges are prevailing in many sections of the country, not only in Oregon, but in California, Washington and east of the Rocky Mountains from Canada to the gulf, in some localities in various forms, in some mild and others contagious, malignant and fatal. A letter was received yesterday by C. A. Stine from his son Melville, who is clerking at Yreka, Cal., giving an account of the ravages of sickness there. That town is somewhat smaller than Coquille City, an exceedingly healthy section, and yet for two or three weeks past they have had one or two funerals a day, and he says, "One day last week there were three funerals. One funeral has just passed the store and there is to be another this afternoon." The forms of disease prevailing at Yreka and adjacent territory are said to be meningitis and pneumonia.

The Portland Evening Telegram of March 27th contains a statement that there was a case of scarlet fever developed at the Boys' and Girls' Home, brought by a girl named Florence Irvine, just arrived from Marshfield the day before. It was the first case reported by the board of health. The patient was isolated in the home hospital department, which provided against the spread of the disease, and Superintendent Gardner anticipated no danger of spreading the disease, while the school proceeded without interference. The girl stated "that there was considerable scarlet fever in Coquille City, but none at Marshfield, and was at a loss to understand how she contracted the disease herself." However, up to last Friday's Telegram, two new cases of scarlet fever had been reported by the board of health as appearing in different portions of that city. It is not stated that they caught the infection at Coquille City, and possibly they did not, never having been here.

How to Find Out.

Fill a bottle or common glass with your water and let it stand 24 hours: An unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfill every wish in curing rheumatism, pain in the back and kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and sending pain in passing it, or bad effects following the use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty cent and one dollar sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention that you read his generous offer in the Coquille City Herald.

The Town Board and the Quarantine.

The town board met at Mercantile hall last Saturday afternoon at 2:30 o'clock, and after a report from Health Officer Culin of the existing conditions of the prevailing sickness, and on his recommendation that ordinance No. 41 be enforced—except that relating to public meetings and the public schools—the question was discussed by the members of the board and some citizens present and the following action had: On motion of Cecil, seconded by Nosler—that the board enforce the quarantine ordinance, place flags at infected homes, and permit public meetings and schools. Carried.

Chairman of the board wrote out the order for the marshal.

Sunday morning Marshal Back visited about nine homes and placed flags, instructing the inmates as to their new duties of staying off the streets.

In consequence of this changed order, the Salvation Army held services Saturday night and Sunday. None of the churches opened, owing to having no ministers present to occupy the pulpits. Rev. Mr. Kitch of the Methodist church was a Myrtle Point assisting in a protracted meeting.

THE SCHOOL BOARD

Held a meeting Saturday night, and after discussing the situation, concluded to open the schools Monday morning.

On Monday morning the school bell rang, but few of the pupils answering to the call. The members of the school board were present, having with them a list of the homes that were quarantined and from which the inmates were to be excluded, the list having been supplied by both the local physicians, and with the assurance of both that if the quarantine should be enforced it would be entirely safe to go on with the schools.

Killed in the Wimer Mine.

Waldo, March 27.—At 9 p. m. last night while Alex Young and Tom Bayse were piping in the Wimer Brothers' mine, a bank fell on Bayse, killing him instantly. Mr. Young was knocked down and partly covered up but not injured. They were 30 feet in front of the giant and within about 12 feet of a 23-foot bank which had been piped for several hours. They were entirely too close to the bank. Mr. Bayse was warned at 6 p. m. to look out for the bank ahead. Wimer Brothers examined the bank at 6 o'clock and considered it perfectly safe at the giant. No blame whatever attaches to any one.

SOME WORDS OF TRUTH AND SOBERNESS.

An intelligent but indignant Fellow-Citizen Calls a Halt.

ED. HERALD: As there have been some statements published in the Oregonian and other papers regarding this little city and the health of the people, I ask a small space to correct false impressions made by those erroneous statements. I attach no blame whatever to the editors of those papers, but would say of their informants that if they are malicious and ought to be hunted down; if the latter, they should be sent to Salem.

Now as it regards the health of this community, I may say that quite a number have had what has been pronounced to be "scarlatina in a mild form." There has been no other disease prevalent, except whooping cough (of a very peculiar type), and there have been but two deaths since last fall in this city and vicinity. One of these was from an unknown cause, as the party died when alone on his own premises, the body being found after many hours. An inquest was held and the cause of death duly certified to by the jury and physician, "that deceased came to his death by strangulation, during a spasm of which he was subject," and the other was an aged lady. I doubt very much that another town of the size of Coquille City can be found on the coast, or in the state, that can show a smaller percentage of fatality from disease.

This short letter is written for the information of others, not for ourselves. Therefore I trust outside papers will copy, and make the statement that we live in a live city, doing more building and general improvement than all other towns in the county. That this is a land of plenty, mild temperature and subject to no drought or other drawbacks. A wonderful future is before us, and we invite the home-seeker to come and see us and be convinced. We do not fear honest and truthful investigation. But it is a poor policy for other towns or disgruntled howlers to use slander and falsehood. I request that the following papers will please copy: Oregonian and Evening Telegram; Salem Statesman and Capital Journal; Roseburg Review and Plaindealer.

Respectfully, X. RAY.
