Good Blood!

Your heart beats over one hundred thousand times each day. One hundred thousand supplies of good or bad blood to your brain. Which is it?
If bad, impure blood, then your brain aches. You are troubled with drowsiness yet cannot sleep. You are as tired in the morning as at night. You have no nerve power. Your food does you but little good.
Stimulants, tonics, headache powders, cannot cure you; but

will. It makes the liver, kidneys, skin and bowels perform their proper work. It removes all impurities from the blood. And it makes the blood rich in its life-giving properties.

To Hasten Recovery. You will be more rapidly cured if you will take a laxative dose of Ayer's pills each night. They arouse the sluggish liver and thus cure biliousness.

Write to our Doctors. We have the exclusive services of some of the most eminent physicians in the United States. Write freely all the particulars in your case. Address, DR. J. C. AYER, Lowell, Mass.

A letter from Rev. B. B. Paul, dated at Spokane, Wash., May 1st, gives the sad news of serious sickness in the family, in one instance proving fatal. All had had the grip, but were about recovered, when Mrs. Paul and Sherman were taken down with the measles and were very sick. On the 27th of April Sherman took suddenly worse and died the next morning at about half past 7 o'clock. Mrs. Paul, who is so kindly remembered by many in the neighborhood of Fishtrap especially, was still very ill at date of the letter, and the son who visited here last winter—Leon Paul—had just reached home a few days before his brother's death and was himself made a victim of the same disease.

How to Find Out.

Fill a bottle or common glass with your water and let it stand 24 hours: A sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen, it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfill every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following the use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty cent and one dollar sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention that you read his generous offer in the Coquille City HERALD.

A hand-ax fell from the roof of the Alexson house last Saturday morning and struck Bert Tuttle on the head, quieting Bert for a few moments, but luckily doing no serious or painful injury. Bert was himself again and ready for business in a little while, but it was a miraculous escape. While the ax struck him fairly on top of the head, evidently it was a glancing blow, or the injury would have been serious.

Our friend J. M. Perkins, of the lower river, received a letter lately from his nephew, Hayes Perkins, well known in this section, dated the latter part of March at London. It is an interesting letter, and the boy is well, happy and seeing the sights of the old world. He reached London in a sailing vessel around Cape Horn, but is tired of that style and expects to make the trip around the world on steamships. He will visit Africa, China, the Philippine islands, Japan, Australia, and then face homeward, if the inducements to stop off are not too great and overcome him. He took in several of the historical landmarks of England and some of Ireland, as well as the special sights of London, the Tower, museum, etc., including a sight of the crown, jewels, etc., etc. But he was not much impressed with some of them, and while he says he is kindly treated, and the people are clever and hospitable, yet he says they are behind the times and slow in public service and enterprises.

George Conger got an ugly gash on his head with an ax yesterday, while chopping at his home near town. The ax caught on a limb, as he was bringing it down with all his force, which pulled it out of his hands and it tumbled on his head making quite a scalp wound, but luckily not fracturing the bone.
