Mother Shipton's Prophesies.

Readers of George's Weekly have often read Mother Shipton's prophesies. We publish them again and hope everybody will live until 1981 to see if they come true in every particular:

Carriages without horses shall go,
And accidents fill the world with woe.
Around the world thoughts shall fly,
In the twinkling of an eye.
Water shall more wonders do,
Now strange, yet shall be true,
The world upside down shall be,
And gold be found at roots of tree.
Through hills man shall ride,
And no horse nor ass be at his side.
Under water men shall walk,
Shall ride, shall sleep, shall talk.
In the air men shall be seen,
In white, in black, in green.
Iron in the water shall float
As easy as a wooden boat.
Gold shall be found mid stone,
In a land that's now unborn so,
England at last admit a Jew;
And this world to an end shall come,
In nineteen hundred and eighty-one.

Great Greed of Merchants in Cuba.

Havana, Cuba, July 11.—The influx of Cubans into Bayamo, province of Santiago de Cuba, in anticipation of the payment for the surrender of their arms, continues, and the merchants of that place have attempted to profit beyond reason by this situation. They raised the prices beyond reason, upon which point the mayor argued with them, pointing out the injustice of their attitude. The merchants, however, refused to modify their prices, and the mayor therefore issued an order regulating prices and providing a heavy fine for the violation of the ordinance. Food is now cheaper, but the price of liquor is high.

Ex-Governor Altgeld spoke of trusts as follows, the other day, at a Democratic meeting in Kentucky: "For a quarter of a century both political parties have denounced corporations, trusts and monopolies. Nearly every state in the union has legislated against them. The federal government has legislated against them. Yet, in spite of this denunciation, they have gone on multiplying. State legislation has been found to be absolutely futile, because federal judges uniformly declared it to be unconstitutional. Federal legislation has likewise been found to be futile. The trusts are masters of the situation. It is evident that to simply go on denouncing trusts is an insult to the intelligence of the American people. They have come to stay, and therefore, it is the mission and the duty of the Democratic party to secure the benefit of monopoly for the public—for the people. That means municipal and governmental ownership of all monopolies which it is practicable for the government yet to control. That politician makes a mistake who thinks that by a mere denunciation of trusts you can fool a great number of the people in 1900. The people want to know what we propose to do about it."

"I have used Chamberlain's Cough Remedy in my family for years and always with good results," says Mr. W. B. Cooper of El Rio, Cal. "For small children we find it especially effective." For sale by R. S. Knowlton.

Address at the Grave of W. P. Hermann.

Orvil Dodge, esq., historian and secretary of the Coos and Curry County Pioneers' Association, delivered the following eulogistic words at the burial of the remains of the late W. P. Hermann, at Myrtle Point, July 12, 1899:

My Friends: Another one of those heroic spirits, who had helped to build up our beautiful country, has passed away. Nothing remains to our vision of a once animated form but this casket and its sacred contents. We judge our fellowmen by their character, which is made known to us by their acts, by their motives and their dispositions. If the tendency of their desires have a lofty and pure motive, a character is thus formed that commands the admiration of all men, and those who knew our departed friend most intimately could but notice that he belonged to that class of men who aimed higher in life than the majority of mankind, and it was evident that he had cultivated all of the noble traits of which we speak.

Speaking from my own experience and acquaintance with our departed friend, I can say, from the bottom of my heart, that I am glad that I was so fortunate over thirty years ago to form the acquaintance of the one who has passed over the river and journeyed to the unknown realm, because he always had a kind word, a genial smile and cordial welcome to a friend or neighbor, and almost invariably he had some thought to impart which was the result of diligent research, the tendency of which was to elevate the mind and lead to better conditions in life. And it seemed to ever be his aim to advance the interests of our beautiful valley. He was always endeavoring to introduce to the outside world the grand and important resources of our country.

Our friend was a pioneer who fully appreciated the grand gifts of nature which were discovered to exist in this land of "milk and honey" by that Baltimore company of settlers who followed Dr. Hermann to this promising wilderness forty years ago last May. To that energetic and courageous little band Coos county, especially this upper Coquille settlement, owes the kindest recollections, because of their moral worth and honest purposes. They subdued the wilderness, and through their efforts it now blossoms with luscious fruits and fragrant flowers. But they are passing away, and when one falls by the wayside their virtues rre then remembered, as is evidenced today by this large assemblage of sympathizing friends.

It has been my fortune to enjoy more than a passing acquaintance with our departed brother and friend. We have roamed over these beautiful hills together, where no doubt our tracks were the first made by the white race. We have penetrated the wild thickets on the mountains and hillsides, guided only by the trail of the wild animals of the forest. We have navigated the beautiful and placid Coquille in the mild summer season, and chatted in the shade of the evergreen and aromatic myrtle, and inhaled the refreshing zephyrs that were perfumed by silvery dewdrops from the lofty and spreading boughs of the maple; we have faced the raging current of our majestic river with the primitive canoe of the redman of the forest and when the elements had loosened their fury; we participated in the struggle of early days together, and gladly enjoyed some of the luxuries which were the result of the faithful labor of the pioneers; and in all the vicissitudes of life I have always found our friend to be congenial and a companion that gave good cheer and encouragement under all circumstances and conditions. He had faith in man's ultimate destiny. He believed in a higher and grander life. He believed in justice here and was willing to trust to the justice of the Supreme God of the Universe. The survival of the fittest was his reasonable conclusion, and his last words, I am told, were addressed to his Maker, which is not a surprise to those who knew him best. He made no pledges to be broken soon, and his moral standard was of a high order and humanity has been benefited because of his having dwelt among men. We remember our lost friend as a boy struggling with the early days while under his father's roof. We remember him as a teacher in the days of the first schools of our county; and during the last two decades we remember him struggling with the difficulties of a husbandman, always experimenting with agricultural propositions, endeavoring to find out some new theory that would bless mankind. In this he was not entirely unsuccessful, and many of his ideas may yet be taken up by others and proved to be a blessing to his race.

Farewell, noble friend. As we stand upon the brink of your tomb, we forget your foibles. We appreciate your great worth to mankind. We see more clearly your virtues. We shall miss your pleasant greetings and your kindly nature. We grieve with your loved ones; we renew our unfeigned friendship to your bereaved family and will try to bind up their broken hearts with our human efforts; and we beseech our Maker to console them with a blessing that humanity cannot give. And while doing this, that great Anchor of the Soul, Hope, swells up in our hearts and leads us to a felicitous expectation that some day we shall meet you in blissful realms where sad and bereaved scenes like this will never come. Again, farewell.

The Spreckels-Graham Suit.

The San Francisco Examiner of the 9th inst. says:

R. A. Graham, who was sued for over half a million dollars by John D. Spreckels & Bro's Company, has been given six months by the superior court in which to make a financial deal to recover the property pledged to the Spreckels company.

Mr. Graham was one of the principal owners of the Beaver Hill coal mine and also held a large share in the Coos Bay and Eastern Railway and Navigation Company, besides being interested in other valuable properties in Oregon. In 1889 he applied to the Spreckels company for monetary aid and secured $523,-161.52, agreeing to pay the same in one year or at any time when the interest became delinquent, the rate of interest to be 6 per cent a year.

When the Spreckels company demanded payment last February, because of default of interest payments, Mr. Graham filed a cross-complaint charging that the Beaver Hill coal mines had been greatly injured by the Spreckels company, and that he was himself entitled to recompense.

Notwithstanding this showing, experts were produced in court who swore that the coal in sight in the Beaver Hill mines was worth from $1,000,000 to $[illegible],000, and Mr. Graham was entered [illegible] of judgment against him for the full sum demanded, together with $37,753.23 interest. He is allowed six months in which to redeem the property. At the sale which is to take place in this city, both sides to the litigation may be bidders.

GREEN SICKNESS

Or Chlorosis derives its name from the fact that the skin assumes a greenish tint. It is rather a common disease and is met with amongst young women. It is caused from an impoverished condition of the blood. Being a blood disease Chlorosis can be cured by HUDYAN, the great vegetable remedy for blood and nerves. HUDYAN will enrich the blood and give it back its healthy, red color. HUDYAN will relieve all the symptoms if its use is continued. The symptoms are marked. The blood being in a poor condition, none of the organs of the body are properly nourished. HUDYAN will cause the blood to become pure. HUDYAN will restore the organs to a healthy condition. HUDYAN will bring back the bloom to the cheeks and cause the green tinge to disappear. If you have the symptoms, take HUDYAN now, and they will leave you.

THE PRINCIPAL SYMPTOMS ARE:

1. CONSTANT HEADACHE—Due to the impaired quality of blood that reaches the brain. HUDYAN will make the blood pure and nutritious and the headache will disappear.

2. GREENISH OR YELLOWISH GREEN COMPLEXION. HUDYAN will make the complexion red and rosy, by restoring the blood to a healthy condition.

3. PULSATION IN THE NECK. This is due to the watery condition of the blood, and will disappear shortly after the use of HUDYAN is commenced.

4. WEAKNESS AND PALPITATION OF THE HEART. HUDYAN will strengthen the heart and make the beats full, strong and regular.

HUDYAN is the remedy that you want. Have your blood purified. Your friends will soon tell you you are looking more healthy. The color will return to your cheeks. Your headache will disappear and you will no longer appear weak and miserable. HUDYAN will restore the functions of nature. After you have used HUDYAN tell other sufferers what it has done for you. Remember that HUDYAN is for men and women. Go to your druggist and get HUDYAN and follow the directions as given in the circular. HUDYAN is sold at 50c per package, or 6 packages for $2.50. If your druggist does not keep it, send direct to the HUDYAN REMEDY COMPANY, San Francisco or Los Angeles, Cal. Remember that you can consult the HUDYAN DOCTORS FREE. Call and see the doctors. You may call and see them or write, as you desire. Address

Without Birds.

A French naturalist says that if the world were to become birdless, man could not inhabit after nine years' time. In spite of all the sprays and poisons that could be manufactured for the destruction of insects, the bugs and slugs would simply eat up orchards and crops.

Each of the numerous dispatches from General Otis costs the government about $225. The total bill for the telegraphiug between Washington and Manila amoants to about $18,000 a week and aggregates a total of $228,000 since the beginning of hostilities. The telegraph companies regard the prospect of an interminable war with complacency.

Who said Congress?
What do I care for Congress?
Congress ain't in it along side of me. Let 'em make laws—I'll smash 'em. I can take a law made by Congress for the good of the people and read it backwards, upside down, inside out, and interpret it so that its own mother wouldn't recognize it.
I play few favorites—mighty few. Corporations and

Correct—Stand Up.

Every newspaper has a sacred duty to its public. It should give that public its honest opinions and the conclusions reached after honest and painstaking investigation. Many may disagree with it, but all will respect it. An honest error will be forgiven readily or reluctantly, but a deliberate attempt to mislead or deceive, or the assumption that the reading public is ignorant and can be trifled with, is a sin that is unforgiven and unforgetable. And should be.—Memphis Commercial-Appeal.
