Unless some unforeseen trouble intervenes, such as occurred the last term, an epidemic disease scare of other cause, our approaching term of public school will be a grand success and a gratifying advance in our educational interests.

Scholars desiring to attend from the outside will learn the conditions and terms by addressing the district clerk and principal, Prof. Claude Nosler, at this place.

Capt. Hark Dunham turned out of bed and took in the town last Thursday, including a call on the HERALD also. We were both surprised and pleased at seeing the captain so much improved from his late injuries. In the absence of Dr. Moore, he refused to "consult" with other physicians and just rested up and nursed his injuries to the best advantage at hand. He has continued to improve along from day to day till this morning he thought he would resume work.

Dairymen on the lower river are thinking of putting up, or encouraging the construction of a creamery of their own. The Bandon Recorder says that, "from what can be learned, it appears that the majority of dairymen on the lower river are dissatisfied with the Coquille creamery for various reasons."

We are not aware of expressed cause of dissatisfaction. We still think it would have been better to have run as at first owned and operated, co-operatively, under strict rules, impartially enforced, and by those who were patrons and financially interested.

18 lbs. dry granulated sugar \$1 at the Fair Store. The Herald is prepared to do job printing in the best style.

A large supply of up-to-date wallpaper is expected daily at Coquille Pharmacy. All grades and prices.

The steamer Blanchard is becoming a great favorite as a passenger boat to and from the bay and the city.

Work began on Hersey's new building last Thursday, but with a full force yesterday and will be pushed to early completion.

The Presbyterian services were held in the courthouse last Sunday, and a Sunday-school organized, enrolling about 30 scholars. Rev. R. Ennis, the pastor, was present from Bandon.

A light shower surprised our people last Friday morning, finding them both unsuspecting of rain and also caught so many out and unprepared. It cleared up about the middle of the afternoon.

Mrs. Hoxter, of Portland, lecturer and agent for the Florence Crittenden Refuge Home in that city, will visit Myrtle Point and lecture there the latter part of this week. She is a talented lady and pleasant speaker.

Joel Patterson came over last Saturday from the bay and will temporarily serve as turkey and janitor at the courthouse, vice Eugene Robinson, who will engage in fishing at Parkersburg during the fishing season.

John Raynor, an old settler on South slough, came over on last Friday's train and went to the county infirmary. Old age and declining health are the cause, and he is baching, therefore without any one to care for him.

The time card of the railroad has undergone a change, which we note in today's HERALD. It began yesterday, and affects only the hours of arrivals and departures at the several stations, not the days—which continue as before.

Gene Robinson received a nice 30-pound salmon from the lower river last Thursday. The fishermen are getting ready for a good season, which is promised, so far as outlook of run is concerned, and the promises of the cannery men, also.

Court Coquille, No. 18, F. of A. at last regular meeting elected the following officers for the ensuing term: Lee Goodman, C. R. Chas. T. Skeels, S. C. R.; C. A. Harrington, F. S.; Fred Gage, S. Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your meritorious remedy.—G. M. Law, Keokuk, Iowa. For sale by R. S. Knowlton.

A late action of the faculty of the agricultural college at Corvallis, towns at which are located "accredited" schools, whose graduates will be admitted to the freshman year without examination, includes the following towns in Coos county: Bandon (major course), Coquille City, and Marshfield. The pupils from these schools stand on the same footing for entrance into the agricultural college without examination as do those of Ashland, Grants Pass, Baker City, Oregon City, Portland and Salem.

Mrs. E. M. Hoxter, representing the Florence Crittenden Refuge Home at Portland, spent several days lately in Coquille City and lectured in the interest of the work of that institution last Sunday afternoon and at night. From here she goes to Myrtle Point. The HERALD office had a call from Mrs. Hoxter, from whom we learned the assuring fact that Mrs. Riggs, of the W. C. T. U., and favorably known here, is the matron of the home, and our own Mrs. McCann, late of this city and an active local W. C. T. U. worker, is an assistive matron of the refuge home. These facts will go far toward winning the confidence of our people.

Two new business houses and two large residence properties, among several smaller ones and alterations and improvements, are keeping our carpenters busy.

Long & Son received a first consignment of their Rambler wheels—or a part, rather, for all the order was not shipped yet—last Wednesday, and next day sold two of them. Their ladies' wheel also failed to get through. More a-coming.

Capt. Butler's and Capt. Tension's new residences, in North Addition, are conspicuously occupying a vacant spot in our city's growth, and are taking shape quite rapidly. With these nice homes so favorably located we can look for others to follow.

Prof. Hawkins, principal of the Myrtle Point public schools, has a month's vacation, the schools having closed last Friday. Mr. and Mrs. H. will visit in Curry county, go to the mountains awhile, and to the beach, and breathe the fresh air for a fortnight.

The city council held a meeting last Friday evening, at which a license was granted for a bar at Hotel Coquille, and City Recorder McDuffee was ordered to make legal publication of the council's action on the street and sidewalk improvements, as noted in the HERALD of the 11th inst. A few small bills were allowed, also, mostly relating to claims from the late quarantine.

Justice Cecil had a case of assault and battery against some boys at Beaver Hill last Friday, the complainant being a lad from that place, whose mother accompanied. Only one was convicted, and he was discharged on account of his youth and upon promise of future good behavior. Two of the boys, the two elder of the trio, were not in the fracas, and were discharged.

The conclusion of the county court's proceedings appear in the HERALD today. It will be observed the claim of Judge Schroeder for back salary was not allowed—just as was expected and desired by the judge when he presented his claim—but it will be seen also that \$200 per quarter is allowed to Judge Harlocker instead of \$300, as he claimed and had been taking. However, the wording of the court's order is such as to make it appear the opinion of the attorney general is not satisfactory and maybe not final.

W. A. Powell, wife and six children, of Seattle, Wash., camped at this place last Thursday and Friday, on their way overland to California, via the coast road, through Coos and Curry counties to Crescent City, Cal., thence to Humboldt county for a protracted stay prospecting. He will spend the summer traveling for Mrs. Powell's health, for which he is well provided with good teams and camping equipments. Mr. P. visited the editor of the HERALD to have a talk with a former Texas fellow citizen, being particularly familiar with the same stampering grounds at Austin, Port Worth and Gainesville, Texas, as also with leading statesmen, ministers and school officials of that state. Mr. P. is intelligent, educated and experienced, and was a Populist candidate for the legislature from Galveston in '84, in which party he took a decided and advanced stand in Texas, California and Washington, in each of which he has resided.

We will give the Farm Journal for the balance of 1899 and all of 1900, 1901, 1902 and 1903, nearly five years, as a prize to every one of our subscribers who will pay up all arrearages and a year ahead; also to every new subscriber who pays in advance.

They were forwarded from Roseburg via San Francisco.

John Carren, the owner and new manager of the Hotel Coquille, has received a license for a bar, and the past week retroceded that hostelry by placing handsome bar-furniture in the late office apartment, fitting up the ladies' parlor for a reception room and office, and transferring the ladies' parlor to the handsome front room up stairs. It is quite a metamorphosis of the hotel arrangement, but is convenient and comfortable.

Hon. H. B. Miller, president of the state board of horticulture, and Hon. J. W. Bailey, state dairy and food commissioner, arrived in Coquille City yesterday and will spend a few days in Coos county on official business. Hon. J. W. We believe him to be a conscientious, qualified officer in a most important but thankless line of duty, but he will be found at his place of duty at all times.

Any person furnishing sufficient evidence for the recovery of bark so taken will be given one-half of the bark recovered.

SOUTHERN OREGON COMPANY.

Did you ever See a Snow Storm in Summer?

We never did; but we have seen the clothing at this time of the year so covered with dandruff that it looked as if it had been out in a regular snow-storm.

No need of this snowstorm. As the summer sun would melt the falling snow so will

Ajer's Hair Vigor

melt these flakes of dandruff in the scalp. It goes further than this: it prevents their formation. It has still other properties: it will restore color to gray hair in just ten times out of every ten cases.

And it does even more: it feeds and nourishes the roots of the hair. Thin hair becomes thick hair; and short hair becomes long hair.

We have a book on the Hair and Scalp. It is yours, for the asking.

If you do not obtain all the benefits you expect from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed.

DE. J. C. AJER, Lowell, Mass. &

Charley Layvine and family, Jonathan Quick and others leave today for an outing at Beatty's Cove. This spot is located on the beach back of Bullard's, and about 9 miles up from Bandon. There is a stretch of three or four miles of beautiful agate beach, quite sheltered from disagreeable winds and sand storms, that is becoming a favorite spot for visitors.

Last Thursday evening at his home on Fishtrap, Albert Fish was driving a hay-rack, when his team ran away hurting him quite severely. At first, when picked up, it was thought he was injured fatally, but he began to recover and has improved ever since, though it may be he has some permanent injuries. The team ran through a wire fence, turned and passed through it again, and except badly breaking the rake, the team suffered no particular injury.

Tenn Robison was down from his ranch last Saturday. The farmers are "thoroughly in it" and hay is king. Mrs. Robison is still on the sick list, as is also Mrs. Rock Robison, the latter being quite helpless after a promise of early recovery some few weeks ago.

A quiet wedding took place in this city on the 8th inst., in which considerable interest would have centered had the lady's many friends and acquaintances not been shut off from a knowledge of it by the bashfulness of the young couple—Miss May Bunch, formerly of this city, and J. M. Bright, of Gravel Ford, being the high contracting parties. The HERALD joins the many friends in congratulations, nevertheless. County Judge Harlocker performed the rite, and County Clerk Rackleff is percipient, criminious to the secrecy of the interesting event.
