The Teachers' Institute.

In the absence of a detailed program of the proceedings of the approaching teachers' institute, a friend and worker in the cause notes the following outline of appointments for the several days, and appeals to our fellow-citizens to spare no effort to make a good name for our town, and encourage the educational and moral interests which will be so greatly aided by this event. Our informant says:

The first session will begin at 1:30 p. m., Monday, the 21st.

Other times for assembling will be set by the instructors.

Monday afternoon, Tuesday, Thursday, and Friday forenoon, will be set apart for regular institute work.

Thursday evening an entertainment will be given by resident teachers, ably assisted by friends.

We hope all the citizens of this place will attend the evening session, as the lectures of State Superintent Ackerman and Prof. Grout will be a great educational treat, besides helping to make the visitors feel at home among us.

A town is judged by its appreciation of all that goes to encourage a high standard of education, and as Coquille never falls behind in that which is good, we can say for her people—come, teachers, one and all, and help to make this one of the most successful institutes Coos county has ever had.

The usual semi-annual distribution of school funds in the month of August will not take place till October, the new law providing for the distribution quarterly now—1st Mondays in January, April, July and October. Supt. Bunch informs us, however, that district boards can go ahead and make contracts for terms of school on the assurance that when the apportionment is made the 1st Monday in October there will be $2 per student. Knowing the number of students in the district and this amount allotted for each, the boards can employ their teachers as usual.

Put Your Finger on Your Pulse

You feel the blood rushing along.

But what kind of blood? That is the question.

Is it pure blood or impure blood?

If the blood is impure then you are weak and languid; your appetite is poor and your digestion is weak. You cannot sleep well and the morning finds you unprepared for the work of the day. Your cheeks are pale and your complexion is sallow. You are troubled with pimples, boils, or some eruption of the skin. Why not purify your blood?

Ayer's Sarsaparilla

will do it. Take it a few days and then put your finger on your pulse again. You can feel the difference. It is stronger and your circulation better. Send for our book on Impure Blood.

If you are bilious, take Ayer's Pills. They greatly aid the Sarsaparilla. They cure constipation also.

Write to our Doctors.

Write them freely all the particulars in your case. You will receive a prompt reply, without cost. Address, DR. J. C. AYER, Lowell, Mass.

A Social and Lunch

Was given last Wednesday evening at the Christian church, by the ladies, which was well attended and in every way model in its management, except for a singular after event in which nearly all who partook of the lunch were affected as if poisoned. The program of music and recitations was much enjoyed, and all were ready and earnest for service of the refreshments, which no one hesitated to partake of as being of the very best and most carefully and skilfully prepared, but hardly one who partook escaped a sickness, as if poisoned, while as many as 15 or 20 suffered intensely for several hours from partaking of the refreshments. Of course it is a mystery, wholly unaccountable to those who prepared the viands and causing them great sorrow. The cause has been discussed from all points of view, but no generally satisfactory solution is given, and all are loth to believe that any one in our community would maliciously tamper with so sacred an assemblage of neighbors and friends as on this occasion. Evidently it must have come from natural cause, such as fermentation, or metalic poison imparted from the cooking vessel.
