In a Nutshell—History of the Second Oregon.

The souvenir badge that was quite generally worn by the people who participated in welcoming the volunteers back to Oregon bore the following pertinent history: Second Regiment, Oregon United States Volunteers, Organized at Portland, Or. Mustered into United States service at Camp McKinley, Portland, May 10, 1858. Left Portland May 11, 1858. Left San Francisco, Cal., May 25, 1858. Entered Manila Bay, June 30, 1858. Landed at Cavite, P. I., July 1, 1858. Arrived in San Francisco on return July 12, 1860. Mustered out at Presidio, San Francisco, August 7, 1860. Arrived in Oregon on return, August 9, 1860. Colors delivered to T. J. Geer, Governor of Oregon, at Portland, August 10, 1860. WELCOME.—Oregonian.

(Myrtle Point Enterprise.) The public school of this city will open September 4th.

Fifty-two boxes of cheese were shipped to the San Francisco market from the Sugar Loaf creamery Friday.

Miss Minnie McCloskey, of Norway, and Miss Alice Bunch, of Gravel Ford, arrived at their respective homes this week from a week's visit in Seattle.

Evangelist M. M. Eshelman, of the German Baptist church, closed a series of revival services at this place Monday. As a result of his labors at this place fifteen conversions were made to the church.

Judge Hamilton and wife, Prosecuting Attorney Brown and wife, and Attorney A. M. Crawford and wife, of Roseburg, arrived at this place Thursday en route to Curry county.

Rev. Geo. C. Carl, of the German Baptist church, has been placed in charge of the work of that church between Salem and Portland and will soon leave for that field of labor. He will probably make his future home in the valley.

The Misses Harrison, who are spending an outing at the Harrison mine, the "Mountain Daisy," have been putting their time to practical use. They picked up \$37 in gold from near the grass roots in one week, independent of any assistant.

It was a deserved compliment that the pioneers paid Orvil Dodge by re-erecting him historian. He has labored faithfully during the last eighteen months to accomplish the object of the society, and has produced a history that has had many compliments.

Hon. Binger Hermann arrived at this place last Sunday night, and is visiting with his aged mother and other relatives at this place. Mr. Hermann is a Coos county pioneer, and during his four terms served in congress labored faithfully in the interest of southern Oregon.

Robert and Ben Harrison came down from their Mountain Daisy mine this week. They have gone down on the Daisy about nine feet, and continue to find rich ore. They have prospected on this claim for a distance of about 20 feet and find the same formation of porphyry continues for the entire distance, and have good reasons to believe it is the same the whole distance of the claim, and have found fine gold at the grass roots for a distance of 1500 feet. They have also made another rich find, the "Buckeye" discovery, not far from the Daisy. Though working at a big disadvantage by having to haul the dirt on a sled some distance to wash it, then washing it with a rocker, they are unable to save a large per centage of the gold. They have taken out \$530, the result of 15 days' run. Bob showed us 10 ounces of fine dust which he took from near the top of the ground; also a piece in amalgam form containing about the same number of ounces.

The Rev. W. B. Costley, of Stockbridge, Ga., while attending to his pastoral duties at Ellenwood, that state was attacked by cholera morbus. He says: "By chance I happened to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and I think it was the means of saving my life. It relieved me at once." For sale by R. S. Knowlton.

Oregon Ex-Soldier at Manila Writes a Strong Letter—Spanish Law Still in Force.

Oregon volunteers who remained at Manila are not at all enthusiastic over the laws under which the islands are governed, now that they are civilians. Such is the conclusion arrived at upon reading some of their letters to Portland friends. The following extracts are taken from a letter written to a friend here by Charles L. Simpson, a candy-maker, formerly of this city: "Since I am out of the army I am myself once more. I have a good job, am working for a good man and get good wages—\$150 gold a month. We sell 50 gallons of ice cream a day, and the receipts of the establishment in which I am employed range from \$500 to \$700 Mexican money a day. Ice is two cents a pound here, and we have to use condensed milk, which is \$19.50 per case of 48 cans. The custom-house people 'work' everybody for dummies.

"A discharged soldier can't get a license to do anything for himself. The officers will tell you when you ask for a license that there are only two things to do, join the army or get off the islands—and that settles it.

"I was notified to come up and pay my income tax immediately, or be fined. I had worked only one week, but that made no difference. I had to puntle up 27 1/2 per cent of my wages. I had not earned much of anything then, but I was going to earn money. You have to pay your income tax before you can earn your money. They say it is the old Spanish law. I did not know I was a Spaniard, but I guess I am. Was I ever in the United States? Did I ever belong to the army? Did I travel 8000 or 9000 miles to be governed by Spanish laws? I thought when we came here it was to throw off the Spanish yoke and laws, but the old laws are enforced more rigidly now than ever before.

"I went out with my regiment to fight the Filipinos for a few months, but that makes no difference here. If I am asked whether I was ever a soldier, I blush and deny it. While this martial law is in force and certain leaders are here, I would not acknowledge that I had ever served under them, as everything here is very bad."—Evening Telegram (Rep.)

MORE TROUBLE IN THE PHILIPPINES.

Leading Men There have Gone Over to the Insurgents.

Manilla, Aug. 13, via Hong Kong, Aug. 16.—Arrivals and mail advices from Negros and Cebu agree that the insurrection is gaining strength remarkably in both those islands, which had hitherto been counted as the most friendly in the archipelago, and which received with the greatest cordiality Professor Schurman, president of the United States advisory commission for the Philippines, at the time of his memorable tour.

Outbreaks are feared, particularly in Cebu, where some of the leading men have gone over to the insurrection. Many of the wealthy inhabitants are preparing to leave the island.

Senores Toronta and Melliza, supreme court justices from Negros and Cebu, have gone thither from Manila to use their influence against the insurrection.

The results of the autonomist government in Negros are disappointing. Insurgent bands are operating there as they did in Cuba, destroying much plantation property, claims for which are being presented to General Otis.

Killed While Hunting.

Albert Newman, aged about 20 years, went bear hunting on Cateching slough last Saturday, and while resting the butt of his gun on the ground and trying to get his dog to cross a marshy place, the dog ran against the gun and discharged it. The contents of the gun went into Newman's head, killing him instantly. The youth was the principal support of a widowed mother, is said to have been industrious and well behaved, and the accident comes with fearful force to the surviving member of the family.

The state treasurer reports 9 counties yet delinquent in payment to the state of its 1898 taxes, but of the 23 which have paid in full are Coos and Curry, the latter being the first, we believe, to settle in full.

Our New School Building.

We visited the new school building last Thursday, while the work of finishing the building throughout was going on. The cement flooring of the south side of the basement was just being closed up, and preparation for the work of the entrance way and north side in hand. J. P. Goodman has the job, with W. T. Lewis and Jack Fox as helpers, and for good, substantial work, as also neat, healthful and attractive playgrounds, it will be the equal of the best anywhere. The fresh air draft was lowered and cemented, and the center foundations and pillars repaired in cement and reset. Director James was finishing some carpenter work, enclosing the stairway, etc., in the basement. Painter Beach, with his assistant, was doing handsome painting on the outside. The colors selected are not brilliant, but very pretty, nevertheless, and of the best materials. The inside painting and papering by Mr. Beach are good work and look well.

The school board has worked in the face of many difficulties, and against adverse and unfair criticisms, to complete this work to the best advantage and at the lowest cost, as per instructions of the late annual school meeting, and deserve praise therefor. They have their own experiences and opinions to harmonize, and do much racing back and forth, giving their time freely and conscientiously, which is quite enough to contend with.

Sidewalks are also being laid across the front of the block, from Second to Third streets, which connects with the broad walk to the school entrance. This work will all be finished in time for the opening of school.

Sixty-five barrels of Portland cement, and many tons of sand and gravel are used in this work.

Another teacher may have to be employed. The prospects are good for a full and progressive school term. Of course State Superintendent Ackerman and Prof. Grant, of Portland, will visit and inspect our new building, and from our knowledge of educational work and progress elsewhere, we are sure they will make a good report from Coquille City, notwithstanding the general interests are ahead of the individual appreciation of our educational necessities.

Coquille Collegiate Institute

WE have succeeded in inducing a Normal Teacher to assume principalship of the Institute. So there will be a

Enabling all desiring to prepare themselves for teachers to do so without the extra expense of going away, also of supporting home institutions and helping to build up their own part of the country.

The Primary and Intermediate Departments correspond exactly with the public school grades, using same studies, but we hope for them to make better advancement.

Then there is the four years' College Course.

Expenses—Tuition, about \$3.25 to \$9 per term. Board, about \$2.50 to \$3 per week.

Bookkeeping, Ellis system—Elementary, \$7.50; Intermediate, \$10; Advanced, \$15. Short-hand, \$20.

Some of these prices may be changed on arrival of the principal; until then, address,

J. L. FUTRELL, Coquille City.

"Snap Shots" from George's Weekly.

Prosperity is upon us—the trusts. The expansion fever seems to be cooling down.

Imperialism or a republic—which do you stand for?

It will take 250,000 soldiers to "tame" the Filipinos.

Direct legislation is the fulcrum that will one day enable the people to secure good laws and a just administration of them.

If the Republican party is against trusts and their side-partners, strikes, why don't it stop the trouble. It is in power.

Foreign dispatches say that Weyler is supporting the present government of Spain. It must be a heavy drain upon his pocket book.

The American "Declaration of Independence" is O. K., but we move to amend it so as to read "All men are created free and equal—except Filipinos."

Riverton Pick-Ups.

Riverton, Aug. 21.—E. M. Canterbury came up from the coast, beyond Bandon, last Tuesday. He reports that his wife (Rev. Sanderlin's daughter) is having very poor health.

Joseph Winkle has purchased a part of the S. Gullman estate of C. Long. He was down and made application for a fisherman's license.

Frank Nosler's camp shut down during last week owing to the wet weather.

Bert Kay came down and applied for a fisherman's license last Tuesday.

George Ayer and family, of Newport, were visiting friends here during last week.

Rev. Sanderlin held services here on Sunday, 13th inst.

Hon. Walter Sinclair, of Coquille, was in town last Saturday attending to some legal business.

Mrs. Ida Nosler's children are all sick and have been for the past week. Humanity demands that she should receive the assistance of neighbors and citizens. While Mrs. N. is too ambitious to even acknowledge that she is in need, we all recognize her condition as a fact notwithstanding.

Rev. Futrell held services in the church here yesterday, the 20th.

DONA ANA.

Mrs. Diana Byron returned from San Francisco on last Arcata, slightly improved in health.

Jim Robertson has been prospecting on the Marshfield water company's claim, near Marshfield, on an old coal prospect. The coal is about 4 feet thick and of a fair quality.

M. McCormac, a Riverton coal operator, has been visiting friends on the bay and incidentally taking in the pioneers' gathering. Mike has undergone quite a change since your correspondent saw him last, judging from the tilt of his hat, which seems to be two sizes too small. He must have been struck with intellectual expansion, or what is commonly known as swell-head. Ta-ta, Mike; call again: were glad to see you.

COOS BAY NEWS.

Both Empire and Marshfield canneries are ready to receive fish. A number of Chinamen for the Marshfield cannery arrived from Astoria on the Brunswick.

Clyde Lightner has gone to the city to take position as assistant engineer on the Spreckels tug Fearless.

A. Abrahamson was brought to town yesterday from his ranch near Coos City for medical treatment. He was stung by a bee, about a week ago, and, judging from his appearance, blood poison has set in.

Notice how eager returning soldiers are to re-enlist. No expansion for them. A draft will have to be made to raise an army. Volunteering is becoming unpopular.
