The meeting of the qualified voters of this school district, No. 8, to be held next Saturday afternoon at the schoolhouse, should be well attended by the citizens having the interests of our community at heart. Important action is to be taken, and if the friends of the cause and our city progress are not present, the other side will be and you will have no one to blame but yourself for their triumph. Your best efforts are needed. One of our best, most intelligent and progressive citizens should be elected to the directorship, and the board should then be supported and encouraged in all legal, intelligent and progressive efforts to make our schools what they ought to be, and the same friends of the cause should discontinue, rebuke, condemn and answer those whose interests are best subserved by backbiting, slandering, opposing and depreciating the school board and the schools.

Three to the Penitentiary.

As stated in last week's HERALD, in giving court notes, Ed White and Tom Drew, each charged with robbery, and Charley Nosler, charged with perjury in the same case, were arraigned Monday morning and pleaded guilty. Judge Hamilton set 10 and 10:30 o'clock Wednesday to pass sentence.

At the hour the courtroom was thronged, many ladies being present, as a deep interest centered in the case, each of the parties being so well and widely known to our people, having been born and grown to manhood here.

White was presented, pale and worn from his confinement and the excitement of the occasion, and on the judge's asking him if he had anything to say why sentence should not be passed on him, he answered in a firm tone, "I have nothing to say." The judge, thereupon, proceeded to state the case and quote the law and decisions of the supreme court, gave some words of good advice, expressed sympathy for a youth giving himself to a criminal life, and spoke feelingly of the suffering it entailed upon members of the family, relatives and friends.

The judge then sentenced him to 15 years in the penitentiary and for the costs.

Tom Drew was then ordered to stand up. He showed considerable nervousness and excitement, and in answer to the question if he had anything to say, expressed regret at the part he had taken in the affair and asked the leniency of the court. At the instance of friends, Attorney J. W. Bennett made a plea for leniency, on the ground of his penitence, the circumstances drawing him into it, and the fact that it was his first serious offense and a lesson that would forever forbid a repetition. District Attorney Brown also made a statement, commending the prisoner to leniency, for the fact that his penitence had caused him to give the state's evidence to expose the plot and offending parties and bring them to justice. Moreover, Mr. Brown added that his indictment against Drew only charged simple robbery, he having no weapons nor murderous intent in the part he played. The judge, after a statement of the case, the heinousness of the crime, and the environments of relatives and friends in this case to induce to a better life, pronounced imprisonment for a term of 5 years and costs of prosecution.

Charley Nosler was then called up, and at the suggestion of the judge, admitted his guilt of the charge of complicity and perjury, but urged that he was in such a position that he could not help himself, and was therefore forced into the predicament. He pleaded the disgrace that he had brought on his aged mother, his own family, relatives and friends, and told the judge to do his duty in the matter—that he deserved it, would serve out his term and come home a better man. The suffering he had caused his mother, wife and friends, and the disgrace that might attach to them, he said, was a greater punishment to him than the imprisonment. Hon. S. H. Hazard then, at the request of the mother, made a plea in behalf of the young man, stating the extenuating circumstances of the case in this instance and pleading for mercy of the court. The judge then, after some kindly words and expressions of regret, announced a term of 4 years in the penitentiary and the costs in the case.

Thus ended the action of our court in a case of wide-spread local interest and importance. The boldness and depth of the crime, and prominence of the parties by relationship and socially, played on the public doubt and sympathy since the first.

Lamprey Creek Notes.

Lamprey Creek, Sept. 28.—Lamprey creek is getting giddy and coming out strong nowadays. Only about a month ago there was a school exhibition, basket social and dance; then a stereopticon show, and then a conjurer, one on the heels of the other (and by-the-way the coal oil from the schoolhouse, even draining the lamps and filling them up with water). Then on Saturday evening last we had another social singing and shadow plays, selling baskets by the shadow of the lady and a dance afterwards, by which they realized \$21. Of course it was under the direction of our efficient teacher, Miss Birdie Walker, and everyone had a very enjoyable time.

Ha, ha, ha—there was quite a joke on Waddington last Sunday morning—ha! ha! Some one put a dead skunk in one of his cans of milk, ha, ha! and it came back to him soured and stinking, ha, ha! That's the sort of people some of us are down river; we do like a joke of that sort, ha, ha!

I hear Mr. Burgess has bought the property known as "the Ward place," opposite Lamprey creek landing, and there is great talk of putting up a creamery down here and having Mr. Burgess manage it. From the way some of the folks talk you would imagine all the other creameries were but patent devices for robbing the poor—I had almost said, dairymen, but will substitute—people who keep cows, or rather, people who expect cows to keep them, and that this creamery that Mr. Burgess is to put up and manage is to bring about a millennium in dairying, as it is to be worked on the altruistic plan of giving every one of the patrons, or kickers, a little more than their test, a big over-chump, and top San Francisco prices, and I suspect a lot of us expect vastly more than we are likely to get. I for one understand sufficient of creamery business to know that the more you concentrate the cheaper the finished product, and also, the greater your product the better your stand in the market.

I also know that there is not enough cows (at present) on the lower river to justify the expense of a creamery. Promises? lots of 'em!—oceans of 'em! But a creamery can't be run on those lines. Mr. Burgess has been on the upper river in the midst of lots of dairymen and lots of cows and couldn't compete with Coquille there, how is he likely to compete here with less cows and the added expense of the creamery? As for the promises, Josiah Allen's wife says: "Put not your trust in princes (promises) nor in turkey-red calves; for there is no help in them; and I think it will be about the same with creameries and cows on the lower river at present. As for the kickers—why, I suppose, they were born kicking and will kick anyhow. W. H. W.

Gravel Ford Notes.

Gravel Ford, Sept. 30.—The sawmill purchased by Wm. Lusk at Empire City, having been sold at auction sale, is now turning out a fine lot of lumber at the Dean schoolhouse, it being located on J. Devaux's place.

Farmers are milling their wheat at the East Fork mills, and J. M. Bright is running a chop mill at Moser's crannery, and large stacks of grain are now ready to be ground.

The Gravel Ford schoolhouse, built by Thos. Krowson, is a beauty, and we think the best country schoolhouse in the county.

E. E. Weekly and J. D. Laird did some substantial bridge work on the Coos bay wagon road above James Laird's.

Ben Shull's and T. Lehrherr's threshers has been doing up the Gravel Ford crops.

A. J. Mayse is happy since last week, as a new girl arrived at his home. Weight, 9 pounds.

The Sunday-school convention, held at Gravel Ford on the 24th, was quite a success and voted to hold next time at Dora the last Sunday in November. C. K. X.
