Bandone Recorder: While ciling parts of the machinery of the steamer Dispatch one day last week, Engineer Hark Dunham slipped and went overboard, which necessitated his taking a little swim. Everybody knows Hark is at home on the water, but in the water is where he shines, and when it comes to swimming he can make a duck ashamed of itself.

A large number of friends had assembled and the band joined in the greeting with a pleasing serenade.

Owing to the great length of Brett Clark's late letter from the Philippine islands, and not wishing to divide it into two separate issues of our paper, we hold it over to next issue and expect to give it all. It is very interesting, a well written letter, and gives much information regarding the war, the people, their religious and social characteristics, the climate and products of the islands, etc., and coming from a Coquille boy to his sister at this place adds to its interest to us.

The synod of the Presbyterian church, now being held in Salem, supplied neighboring pulpits last Sunday, including the following ministers from Coos county: Dallas, Rev. George Gillespie; Presbyterian church, Salem, Rev. A. S. Foster; and St. Johns Methodist church at Portland by Rev. Levi Johnson, of Curry county.

The Quay and Magee (g. o. p. bosses in Pennsylvania) plan of running politics we learn has been adopted in Coos county. Some of the gang were overheard to wonder why the HERALD man couldn't see his interests in securing the printing by "dividing up" with the officials, and also thus increasing his circulation! Well, they know why. We don't do business that way, and they won't do it long.

The county's rich and can well afford to support one gentleman to pull for the gang—\$377.82 to take printing from Coos county to Portland, instead of encouraging home industry and talent. The type-setting and trip of deputy county judge and deputy sheriff to Portland cost much less than \$100, and the people can stand the difference—only \$277.82—as a fee for faithful service! And this in violation of the contract to do the printing, and despite the fact that there are four other newspaper offices in the county, neither one of which was consulted or tendered the printing! How do you like it, fellow-citizens!

Confessed the Murder

D. C. Gillespie, who was arrested at Cottage Grove about two weeks ago on the charge of having robbed and murdered old Mrs. Edson at Gold Beach, Curry county, and burned the house, September 19th, made a confession to Sheriff Turner. The Port Orford Tribune reports as follows:

Upon leaving Carey's at Sixes river, he (Gillespie) had returned to Rogue River, leaving his horse on the north side, away from the road in a ravine where he would not be discovered. Obtaining a boat, Gillespie crossed the river after night and secreted himself in Mrs. Edson's barn, where he remained until after 10 o'clock on the night he committed the theft and murder.

Entering the dwelling through a window, he made his way to the bedroom, where he aged, almost helpless victim, where he compelled her to hand over, as Gillespie tells, about \$11.75 in coin and a pension check, which he compelled her to sign by the light of a lamp held in his own hands—the hands which are now stained with the life-blood of one he had known since childhood.

STRAWLED HER TO DEATH. Believing that his victim had more money hidden somewhere about the house, the robber clutched her throat with his hands and strangled her to compel her to disclose the secret, but, upon being told that she had given him all the money she had in the house, the villainous fingers tightened upon the throat of the helpless woman until death relieved her from torture.

Going into the kitchen, Gillespie ate a hearty meal, having eaten nothing but apples for three or four days, and then returned to the bedroom where he opened a can of coal oil, poured a portion of the contents over the murdered woman, saturating the bedclothes also with the oil, set fire to the room and fled across the river, mounted his horse and rode away through the darkness, leaving the woman he had robbed and murdered to be consumed by the hungry flames that soon reduced to ashes a once pleasant home, leaving only a few charred remains to tell the tale of fiendish crime.

Coleman Gillespie was born and reared in this county, and is about 20 years of age. He has committed several minor thefts, and at one time served out a sentence in the county jail. His committing such a ghastly crime will fall heavily upon his aged mother and two sisters, who reside at Rogue River, and who are well respected in the community. Gillespie has lived with his mother for the past few years in Gold Beach, almost in sight of the feeble woman, who was a friend to his mother and who fell a victim to his cruel hands.

Mrs. W. C. Rose and Mrs. M. Way, sisters of J. W. Leneve, have word that the latter is invalided at Oakland, California, where he had just disposed of his business with a view to moving away. The illness seems to be a paralysis of the lower limbs. Of course everybody here extends sympathy, and hopes there may be nothing serious or permanent in the affliction which has befallen Johnny.

PILES

W. S. Vanderburg, representing the old commission firm of J. H. Cain & Co., at San Francisco, was in Coquille City yesterday. He is succeeding well in the upper-river section, especially in securing orchard products and potatoes. Mr. V. gave us a brief history of the house he represents, an old and wealthy business firm at San Francisco, relating the unbroken confidence of shippers and consignors of many years past and proving thoroughly safe and reliable—just such as our people have been seeking for, lo, these years.

Mr. and Mrs. George Robinson returned from San Francisco this morning, via Roseburg. They are well, but quite sore from the ride over the mountains. They report J. W. Leneve as better, when they started home, but not able to stand erect or get around much. It seems to be a sprain in the back instead of paralysis, but is very severe and might yet result in the latter.

Rev. C. A. Mrs. Stine and son Melville returned from Gardiner last Wednesday, where they had been visiting the daughter and sister, Mrs. Rev. H. H. Backner. The first-named came over on the train, while Melville came through from the mouth of the Umpqua on his wheel in one day.

Lampey Creek Notes.

Lampey Creek, Oct. 16.—Miss Frances Kaufman gave a birthday party to several of her school-fellows on the 8th and all had a very enjoyable time, and Miss Frances getting some very nice presents.

The next day being the birthday of Miss Constance Waddington, her teacher and schoolmates came in the evening and gave her a surprise party; they had a jolly time with music, singing and old-fashioned games.

What a splendid fall this has been for the dairymen! grass and clover are still growing; but I think most of us do not realize that late fall growth of grass and clover is weak and washy, and very deficient in the elements that go to make milk and butterfat, and must be supplemented by roots or corn if we want our cows and test to keep up their record.

I'm afraid potatoes will be dear next spring on account of the blight, and in the years to come we shall have to spray with a fungicide or it will be an annual visitant.

Almost all our spring and summer birds are gone, even the swallows; but I still hear the cheerful song of the hedgesparrow, and I have seen two specimens of that winter visitor, the largest of our woodpeckers—the crimson-headed black neck. I have also seen one or two small bunches of wideopen ducks and a couple of mallards, which is a sure sign of the approach of winter.

Salmon are beginning to run in large schools. I saw a splendid take in a set-net at Lampey creek landing this morning. There must have been 50 fine fresh run salmon in that one net, and Messrs. Ashton and Randleman said they had taken 60 during the night in a dip-net. Charley said he had just got down to business.

Cattle-buyers are plentiful, but cattle scarce. W. H. W.

Mr. and Mrs. D. Morgan visited in this place at Mr. and Mrs. C. D. Elliott's for several days, returning to their home at Fishtrap this morning.

FIFTY YEARS OLD

Why let your neighbors know it? And why give them a chance to guess you are even five or ten years more? Better give them good reasons for guessing the other way. It is very easy; for nothing tells of age so quickly as gray hair.

Ayer's Hair Vigor is a youth-renewer. It hides the age under a luxuriant growth of hair the color of youth. It never fails to restore color to gray hair. It will stop the hair from coming out also. It feeds the hair bulbs. Thin hair becomes thick hair, and short hair becomes long hair.

It cleanses the scalp; removes all dandruff, and prevents its formation. We have a book on the Hair which we will gladly send you.

If you do not obtain all the benefits you expect from the use of the Vigor, write the doctor about it. Probably there is some idiosyncrasy with your general system which may be easily removed. Address, Dr. J. C. Ayer, Lowell, Mass.
