

Church Directory.

M. E. church, south-regular services each Sunday morning and evening, by the pastor, E. L. Frazar.

LOCAL ITEMS.

Mr. Lafferty, of Norway, spent two or three days in Coquille last week, on business.

Will Darby has supplied himself with a fine draft team and now hauls on his own hook.

Curry county's next quarterly examination of teachers will be held at Langlois, Nov. 8.

Our young South Fork friend, Harvey Johnson, was a business visitor in Coquille last Wednesday.

J. Wesley Nosler moved to a ranch at Bridge last week, having disposed of his property here to Will Lyons.

T. Y. Callaghan, of below Bandon, came up last week and spent several days in this vicinity.

H. L. Burleson's fruit dryer at Marshfield received many consignments of apples last week, every train taking shipments from this valley.

Johnson Bros are not behind in representing Coos county in other markets. Last week they shipped 563 boxes of nice apples to San Francisco.

There is a great slump in the chittim bark market, owing to over production, and only 1 1/2 cents per pound is being paid for it, and there is very little demand at that figure.

The total taxable property of Curry county, as shown by the summary of the assessment roll, is \$592,436. That is an increase over the valuation last year of \$520,401.

J. W. Hawkins, father of our Prof. M. O. Hawkins, of Langlois, Curry county, was a visitor on business and pleasure at this place last week. The HERALD had a pleasant call.

A Yaquina dispatch of the 19th says: "The heavy sea today carried away about 700 feet of the north jetty. The total length of that jetty was about 2300 feet, and it was part of improvements that cost about \$700,000."

Last Friday's train to the bay was an unusual one. It was comprised of four cars heavily laden with lumber from Johnson's mill, three box cars of fruit, vegetables and general freight, besides a crowded passenger car and caboose.

James Russell, a prominent Curry county citizen, at Langlois, was a visitor in Coquille City last Thursday. His son, Marshall, and daughter, Miss Louetta Russell, passed through this place to the bay early last week and took a steamer for the city. They will reside at Santa Rosa, Cal.

Port Orford Tribune: The copper recently shipped from Rogue River has been sent to the smelter at Tacoma, for a practical test of its value. If the result is as satisfactory as there is reason to expect, the business of shipping copper from Rogue River, will be engaged in extensively, and the result will be the development of several new mines.

A committee representing the maritime interests of San Francisco has decided to draft a memorial to congress, asking for the enactment of a law providing a penalty of \$5000 or imprisonment for a year for constructing a log raft within the jurisdiction of the United States, with the intention of having it towed to any other point in this country. The towing of rafts on Puget sound is not included in the provisions of the memorial.

Our little boy was afflicted with rheumatism in his knee; and at times unable to put his foot to the floor. We tried in vain, everything we could hear of that we thought would help him. We almost gave up in despair, when some one advised us to try Chamberlain's Pain Balm. We did so, and the first bottle gave so much relief that we got a second one, and to our surprise, it cured him sound and well.—J. T. Bays, Pastor Christian Church, Neodesha, Kan. For sale by R. S. Knowlton.

Not only the friends and acquaintances, but relatives and local members of the family, were greeted by a surprise as the train came in from Myrtle Point and Dr. and Mrs. Leneve and J. W. and Mrs. Leneve and little son, Lonson, alighted, returning from a residence of several months in California and after a trip to Hawaii. There was a sincere, warm greeting from all, for these clever people are part and parcel of this place and valley, being among its oldest citizens and participating in its development and growth of so many years. They came via Roseburg.

Big Cranberries.

The Roseburg Review, of the 23rd inst., says: We have recently received from J. W. Newland, of Empire City, a sample of cranberries raised on North slough, Coos county, which may be seen in The Review window. They are the largest we have ever seen. Mr. Newland writes:

"C. D. McFarlin has four acres and raised seven hundred bushels of berries this year, and it is considered a very bad year for berries. L. Butterfield has two acres of berries, mostly young vines, and had three hundred bushels. We can get one hundred acres more of land that would make good cranberry land, good mild climate and very suitable for berries. They grow on marshy, low land so they can be covered with water to prevent the frost and cold weather from injuring them. Pickers pick from one to two bushels a day, realizing 75 cents per bushel. The best pickers we have are girls from sixteen to twenty years of age. Anyone wishing any information on cranberry culture write to C. D. McFarlin, Empire City, Coos Co., Oregon."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: E. J. I am a farmer located near Stony Brook, one of the most malarious districts in this State, and was bothered with malaria for years, at times so I could not work, and was always very constipated as well. For years I had malaria so bad in the spring, when engaged in plowing, that I could do nothing but shake. I must have taken about a barrel of quinine pills besides dozens of other remedies, but never obtained any permanent benefit. Last fall, in peacetime, I had a most serious attack of chills and then commenced to take Ripans Tablets, upon a friend's advice, and the first box made me all right and I have never been bothered since. I take one Tablet each morning and night and sometimes when I feel more than usually exhausted I take three in a day. They have kept my stomach sweet, my bowels regular and I have not had the least touch of malaria nor splitting headache since I commenced using them. I know also that I sleep better and wake up more refreshed than formerly. I don't know how many complaints Ripans Tablets will help, but I do know they will cure any one in the condition I was and I would not be without them at any price. I honestly consider them the cheapest and the most convenient to take. They are also the most beneficial and the most effective in the world. I am twenty-seven years of age and have worked hard all my life, the same as most farmers, both early and late and in all kinds of weather, and I have never enjoyed such good health as I have since last fall; in fact, my neighbors have all remarked my improved condition and have said, "Say, John, what are you doing to look so healthy?"
