## "Flaming Sword" Thrusts.

The fame of the modern hero culminates in a new brand of cigars.

Zeal, if conducive to good, must be accompanied with definite knowledge of what to do and how to do it.

The promised prosperity has come; increased prosperity for the pirates but greater poverty for the poor.

The devil is a stranger to the people, because they are not acquainted with themselves.

The stars in the flag of American liberty have been transferred to the crowns of the money kings, and the stripes to the backs of their slaves.

The discovery of the north pole in humanity is of vastly more importance than the discovery of the north pole of the earth.

Representatives of the three great nations of North America have met at the Chicago festival. Chicago is the center of North American population; and it is not without significance that the three nations of the northern continent joined in the celebration of the success of American millionaires.

S. F. Star: The Albany Law Journal has resurrected a supreme court decision, wherein an importer sought to recover for goods imported into California after its cessation by Mexico but before it became a state. The court held that "by the ratification of the treaty, California became a part of the United States," and in the absence of any other stipulation, "it became instantly bound and privileged by the laws which congress had passed to raise a revenue from duties on imports and tonnage." Now why would not that decision also apply to Porto Rico and the Philippines? If they are annexed, then, according to this decision, their sugar and tobacco are entitled to free entrance into the United States. We trust the sugar-beet and tobacco growers of the country are pleased at the prospect.

The American Federation of Labor, representing nearly two millions of skilled wage workers, is making an emphatic protest against the slave-like conditions surrounding contract labor in Hawaii. It will issue a warning to European laborers that once they are landed in Hawaii as contract laborers, they become practically slaves, without hope of release. President McKinley's attention will also be called to the matter. Slavery seems to be spreading at an alarming rate in our imperial domain. It is a sad commentary on our free institutions, when the wage workers of this country feel compelled to warn their downtrodden European brethren to stay at home and bear the evils which they have, rather than risk worse conditions under the protection of our flag.

S. F. Star: W. J. Bryan says he does not favor the withdrawal of our troops from the Philippines, but he would "at once declare our purpose in unequivocal terms, so positive that the Filipinos cannot doubt it, to grant them full independence the moment they have established a stable government." But it so happens that the unprovoked war made against them by President McKinley without legality or justice was all that prevented "a stable government" from being instituted immediately on the withdrawal of the Spanish forces. Bryan further holds (as is unquestionably true) that "if we had come out with such an announcement in the beginning, the war would never have occurred."

Pittsburg Kansas: "Look at Ireland and see what 800 years of imperialism has done there. For all these generations imperial England has been crushing the rebels, hunting down the 'copperheads,' hanging the 'traitors' and exiling by the million the 'ungrateful and treacherous' natives. Great God! I can not understand how a man having a drop of Irish blood in his veins can be an imperialist, and, either by word or deed, aid or sanction the subjugation of the Boers or far-off Philippine islands."

While Mark Hanna is shutting his eyes and saying he can't see any trusts, the Republican supreme court of Illinois has discovered a trust in the glucose concern and has ordered its dissolution. Within the same week of Hanna's declaration, the Diamond match trust, the sugar trust and the American tobacco trust reissued confidential circulars to their distributing agencies, instructing them to warn retail dealers that if they dared to buy goods of rival independent concerns they could get no more goods from the trusts.

The Anglo-Saxon alliance seems to have been organized for the purpose of crushing small republics.

Millions of men, millions of money, or centuries of time cannot make wrong right.

## The New Plan.

A new plan for industrial colonies is to be tried in southeastern Kansas where coal, water, gas and farm lands are ready to be made use of by a set of laboring people who are seeking permanent homes with congenial surroundings, at a small cost of money or work, for the purpose of bettering the social and economic conditions of the toiling masses.

The projectors of this colony have fully taken into consideration the ups and downs of former attempts and are very confident that the new plan will insure a rapid and grand success. Labor Exchange principles will be applied to all public utilities, while the individual rights of each will be protected and encouraged in very respect. For particulars send stamp and address to F. W. Cotton, Olathe, Kansas.

Negros Sen's Us Greeting.

Washington, Nov. 8.—The following cablegram has been received at the war department from General Otis:

"Manila, Nov. 8.—The following is received from Negros, dated today:

"To the president of the United States: The civil governor, counselor, judges and secretaries who constitute the new government of this island taking possession thereof this day, have the high honor of affectionately saluting your excellency, and trust that in the inauguration of this form of government, based upon the liberal and democratic institutions which have made that great republic so grand and prosperous, a new era will open up to this region which will enable it to reach the legitimate goal of its inception.

"MENCIO SEVERILO."

Peculiar and Pertinent.

Japan has 50 sects of Buddhism. A London music school has 3600 pupils.

Panama canal has swallowed \$25,000,000.

Europe's national debt is \$23,000,000,000.

England's youngest major is 27 years old.

Greater New York has one negro policeman.

Eighty-four per cent of Idaho is still public land.

Public schools cost Berlin \$3,000,000 a year.

There are 3,363,720 Christian Endeavorers.

Dewey is Licensed to Wed.

Washington, Nov. 8.—A marriage license was today issued to George Dewey and Mrs. Mildred Hazen.

It is stated the wedding will take place Tuesday or Wednesday of next week, though neither the admiral nor Mrs. Hazen will give the exact date.

Borrowing a Neighbor's Paper.

Speaking of close-fisted men, an exchange tells us the following on a man who was too economical to take his town paper, but sent his son out to borrow one taken by a neighbor:

"In his haste the boy ran over a two dollar stand of bees and in a second looked like a warty summer squash. His cries reached the father who ran to his rescue, and, failing to notice a barb-wire fence, ran into that, breaking the fence down, cutting a headful of fish-bait out of his anatomy and ruining a pair of four dollar pants. The old cow took advantage of the gap in the fence, got out, ate forty cents worth of alfalfa and died of bloat. Hearing the racket, the wife ran out, upset a four gallon churn full of cream into a basket of kittens and drowned the whole mess. In her hurry she dropped and broke a seven-dollar set of false teeth. The baby, left alone, crawled through the flood of cream and into the parlor, ruining a bran new carpet. During the excitement the daughter ran away with a book agent, the dog broke up eleven setting hens and the calves got out and chewed the sleeves from four fine shirts which hung on the line." Moral—Don't borrow your neighbor's news!

A similar fate to the above befall you in your endeavor to save a few cents a month.—Exchange.

Several hundreds of men formerly employed in leather manufacturing establishments in Massachusetts are complaining that the Leather Trust has shut them out of employment. It is more profitable for the trust to centralize production, but how about the prosperity of men thrown out of work by their methods?

In the Cramps ship yards 1500 men have been on strike for weeks because the employers, building ships for our government at high prices, refuse reasonable hours of labor and a slight advance in wages. Hanna will find it convenient to overlook instances of this kind of prosperity.

## THE OPEN SEASON.

Game Laws' Statute Compactly Stated. Showing When Birds and Animals May Be Hunted.

No law is changed more frequently than is the Oregon game law. It generally gets hit at each legislative session. The hunter must be as smart as a Philadelphia lawyer to keep track of its provisions—and that is how an error appeared in yesterday's Statesman relative to the selling of the Mongolian pheasant, which cannot be offered for sale until February, 1902. The law as now constituted is so full of interdictions and provisions that it is almost necessary to get the consent of a bird or an animal before it can be shot at. The law as it now stands, compactly stated, is as follows:

OPEN SEASON.

Deer, moose and mountain sheep, July 15 to November 1.

Silver gray squirrel, October 1 to January 1.

Grouse, west of Cascade mountains, October 1 to December 1; east of Cascade mountains, August 1 to November 1.

Mongolian pheasant, west of Cascade mountains, with exception of Clatsop, Coos, Curry, Jackson and Josephine counties, October 1 to December 1.

Pheasant, quail and partridge, October 1 to December 1.

Saige, September 1 to February 1.

Prairie chickens, September 1 to November 1.

Ducks, September 1 to March 15.

UNLAWFUL TO KILL.

Elk for a period of 10 years.

Beaver for a period of 20 years.

Mongolian pheasants, east of Cascade mountains, at any time.

Mongolian pheasant, Clatsop, Coos, Curry, Jackson and Josephine counties for a period of three years.

Wild turkey, English partridge, for a period of five years.

Song birds at any time.

UNLAWFUL TO SELL.

Deer, moose, mountain sheep, at any time.

Saige at any time.

Mongolian pheasant, pheasant, quail, partridge, grouse, for period of three years—or until February, 1902.

UNLAWFUL TO SHIP OUT OF STATE.

Elk, deer, moose, mountain sheep, grouse, Mongolian pheasant, pheasant, quail, partridge, snipe, prairie chickens, ducks, geese, wild turkey, English partridge and sage hen.

GENERAL LAWS.

Deer, moose, mountain sheep, unlawful to kill between one hour after sunset and one-half hour before sunrise; unlawful to hunt or pursue with dogs; unlawful to kill unless carcass is used or preserved for food.

Prairie chicken, unlawful to hunt or kill when the ground is covered with snow, sufficient for tracking.

Mongolian pheasant, pheasant, quail, partridge, unlawful to kill greater number than 15.

Unlawful at any time, to shoot upon or from the public highway.

Unlawful to enter standing grain or permit dogs to do so while hunting.

Unlawful to hunt any game between one hour after sunset and one-half hour before sunrise.

TROUT.

Open season, April 1 to November 1.

Unlawful to hunt any game between at any time. Unlawful to have in possession any trout under five inches in length. Unlawful to catch or have in possession for period of three years, any Eastern Brook or Loch Levan trout.

Elections were held in 12 states last Tuesday. Ohio, Iowa, Kentucky, Mississippi, Maryland and Massachusetts elect governors and other state officers; Nebraska a judge of the supreme court and two regents of the state university; Pennsylvania a treasurer and judges of the supreme and superior courts; South Dakota three justices of the supreme court; and New Jersey and Virginia legislatures. In New York state, members of the lower branch of the legislature were to be chosen. County and judicial officers were to be elected in four counties of Greater New York. There were five tickets in Ohio, five in Iowa, six in Kansas, two in Mississippi, three in Nebraska, two in South Dakota, three in Maryland, five in Pennsylvania and five in Massachusetts. In Kansas and Colorado, county officers were to be elected, and municipal elections were held in San Francisco, Salt Lake, New Orleans and Detroit.

The Methodistists of Waterville, Washington, are troubled with a lot of boys who "occupy the southwest corner of the church and spit tobacco and scatter peanut hulls over the floor," until it shows "a worse state of affairs than if a lot of hogs had been cornered there."

## SAID TO HAVE DEFEATED THE BOERS

And Captured Two Thousand of Joubert's Army.

London, Nov. 7.—It is announced in a cable dispatch from Cape Town, dated Sunday, November 5, that the British have been victorious in an engagement at Ladysmith and that the Boer loss was very heavy, including 2000 prisoners.

London, Nov. 7.—Such scanty intelligence as is filtering from the front is generally accepted here as reassuring, although the later reports agree that the fighting outside Ladysmith on Thursday was much more severe than is indicated by official accounts. There is no longer such a disposition to jump at the conclusion that a crushing blow has been inflicted by Boers as was shown before. British contempt for the burghers has been modified by defeat.

The best informed are inclined to discount stories of the cutting up of the Boers until further confirmation is received. But the mere fact that White was enabled to undertake a series of successful reconnaissances is taken as an indication that the Boer investment has been relaxed by the withdrawal of a portion of Joubert's force southward.

The confession last evening of General Lord Wolseley that the Boers were more powerful and more numerous than anticipated, sufficiently explains the present happenings, and the war office will hereafter have awkward questions to answer in regard to its apparent ignorance of the Boer strength, which, both in numbers of men and excellence of artillery, is apparently a complete surprise to the British military authorities.

It is gleaned therefrom that a fair estimate of the Boer forces is as follows: Around Ladysmith, 25,000; traversing Zululand, 4000; advancing on Burgersdorp, 5000; Colesburg, 3000; Kimberley, 7000; Mafeking, 4500, and on northern Transvaal border, 2000. Exact information about the Boer artillery is lacking, but it is known Joubert's detachment, before it was reinforced, consisted of 16 Krupp field pieces of the latest pattern, and two heavy Cruesel siege guns, which but for the opportune arrival of the British naval brigade, would have rendered Ladysmith untenable.

A Sure Sign of Croup.

Hoarseness in a child that is subject to croup is an indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy at hand and find that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. For sale by R. S. Knowlton.

Exchange: Would rise to remark that a howl would go up if the newspapers were to criticize individuals as they criticize newspapers. Every issue of a paper is a mantle of charity, and the matter left out—truth, not gossip of dames—would often more than equal in volume the matter published. If any editor could get out a cold-fact edition some day, and get up a tall tree and watch the result—whe-w! what a panic there would be.

Evening Telegram: It is reported that a good many Kansas farmers are in the habit of wearing jackrabbits' feet in their pockets, and they are therefore slow to acknowledge that the sole credit for their immense corn crop belongs to Mark Hanna.

Kansas City Times: "This is what I call a soft snap," said our sultan of Sulu, as he tucked his September salary into his vest pocket, and then he went out and bought four new women for his harem and 10 slaves for his plantation.

Exchange: A little boy said yesterday: "I wish I was grown up, so I could fight in the Filipino war." Never mind, sonny. Not only you, but your children and grandchildren will have plenty of chances—if the imperialist party lives.

The Irish have had 800 years of "benevolent assimilation," and—well ask the first Irishman you meet how he likes it.

N. Y. World: Judge (severely)—Seems to me I've seen your face many times before. Prisoner—That may be true, yer honor; I used to tend bar down at Casey's.

In a Ritzville, Washington, runaway a horse got tangled in a barb-wire fence. One front and one hind leg were cut off.

## His Nerves Wore Out

F. J. Lawrence, of 435 Fourth Ave., Detroit, Mich., exchange editor on the *Evening News*, says: "I never really broke down while at this work, but one time I was in such a condition that my physician said I would have nervous prostration. I was in a bad way, my nerves seemed to give out and I could not sleep. I lost flesh and had a complication of ailments which baffled skillful medical treatment.

"One of my associates recommended Dr. Williams' Pink Pills for Pale People and I gave them a trial. The pills gave me strength and helped my shattered nerves so that I could get a full night's rest. Soon after I began taking them regularly, the pain ceased, causing me to feel like a new man."

From the *Evening News*, Detroit, Mich.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, neuralgia, neuritis, rheumatism, nervous headache, the after-effects of a grippe, palpitation of the heart, pale and sallow complexion, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always by the bottle. At all druggists, or direct from the Dr. Williams Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes \$2.50.

## A \$65.00 Machine For \$18.50

Cash with Order and Coupon

The Improved "Arlington" Self-Threading Sewing Machine

NEW HOME STYLE LATEST HOME CHEAPEST

Shipped to anyone, anywhere, on 10 days' free trial, in your own home, without obligation, and with a 100% money-back guarantee in advance.

10 years' written warranty on each machine.

A strictly high-grade Sewing Machine finished throughout in the best possible manner. It possesses all modern improvements, and its mechanical construction is such that in it are combined simplicity with great strength. This journey's end of stitching, durability, and making it impossible for the machine to be put out of order. It sews fast and makes a perfect work with all kinds of material, and all classes of material. Always ready for use and controlled by speed, durability and equality of work. Notice the following points of superiority:

The Head of the "Arlington" swings on patent socket hinges, firmly held down by a thumb screw. Strong, substantial, neat and handsome in design, and beautifully ornamented in gold and silver. The needle is in a holder or counterbalance, making it flush with top of table. Highest Arm—Space under the arm is 6 1/2 inches high and 9 inches long. This will admit the largest skirts, and even quilts. It is Self-Threading—Absolutely no holes to put thread through except eye of needle. Shuttle is in holder, opens and closes, entirely self-acting. Easy to put in or take out; bobbin holds a large amount of thread. Stitch Regulator is on the head of the machine, beneath the bobbin winder; never stops at seams; movement is positive; no springs to break and get out of order; can be raised and lowered at will. Automatic Bobbin Winder—Puts the bobbin automatically and perfectly smooth without holding the thread. Machine does not run while winding bobbin. Light Footing—Machine is easy to run, does not fatigue the operator, makes little noise and sews rapidly. Stitches in a double lock stitch, the same on both sides, will not run, and can be changed without ripping the machine. Tension is a dial spring tension, and will admit thread from 8 to 100 speed cotton without changing. Never gets out of order. The Needle is a straight, self-acting needle, flat on one side, and cannot be put in wrong. Needle Bar is round, made of case-hardened steel, with one eye at the bottom to prevent oil from getting on the goods. Adjustable Bearings—All bearings are case-hardened steel and easily adjusted with a screw driver. All lost motion can be taken up, and the machine will last a lifetime. Attachments—Each machine is furnished with necessary tools and accessories, and in addition we furnish an extra set of attachments in a velvet lined metal box, free of charge, as follows: One ruler and gatherer, one treader, one shirting plate, one set of four buttons, distinct with 1/2 to 3/4 of an inch, one tacker, one under braider, one short or attachment foot, and one thread cutter. Woodwork of finest quality oak, or walnut, guthrie cover and drawers, nickel-plated knobs, to drawers, dress guards to wheel, and device for replacing belt.
