A boy had been operating the switch, and as the train approached he was seen to be trying to get it righted, but failed and skipped, the result being as stated above. Another engine was telephoned for and brought the train in.

A battle royal in "cut prices" on some classes of goods prevailed in this city the past week on the part of some of our merchants. Flour and sugar were the chief strategic points, and they were attacked like the Boers for the British—when the people returned they took some of them.

A blaze broke out on the roof of Root's residence yesterday afternoon, about half past 3 o'clock, which created considerable excitement, but which, owing to the promptness and numbers of helpers who reached the danger point, was soon subdued. On Monday, Feb. 5th, a girl was born, which died the following day—Tuesday. On Wednesday, 7th, a little son was born, which died during the same day. And on Friday, 9th, another son was born, which also died a few hours afterward. We have known and read of instances of twins, triplets and even quadruplets within a short time—say 24 or 36 hours—but never over so prolonged a period as nearly a week of such an ordeal for the mother. This is a very peculiar case.

Martha Root is among the sick ones.

The HERALD today gives an interesting letter from Brett Clark, from the Philippines, and a communication from our pomologist and horticulturist, Auton Wirth, of the bay side, which he had supplied to the Rural Northwest, but which had been altered and did him an injustice as it appeared, or at least placed him in a wrong light before the people and in antagonism with state horticultural officials, on the treatment of the curl leaf on prune trees.

W. C. Sanderson, of Sanderson Bros., dealers in general merchandise, will be up from Bandon today to assist in opening their nice new stock for the public's inspection. The religious meetings conducted by Rev. C. M. Bryan the past ten days continue to grow in interest and the house is crowded to its utmost. A special service was held "for men only" Sunday afternoon, which was not only well attended, but proved unusually interesting and edifying. It will undoubtedly result in good, not only for the attendants, but for the community at large. Many citizens are living listless lives, and selfishly, and this lecture will undoubtedly spur them to duties of public usefulness.

Charley Harrington met with a painful accident last Saturday morning, while at work at Lyons' mill, and within a close call of a very serious one. The mill shut down Thursday evening owing to the crowded condition of the yard, to make some repairs and load the schooner Albion which arrived that day. Saturday morning, while handling some heavy timber under the mill, Charley's foot went into an opening and tripped him, the timber coming with heavy force on his hips, bruising and crushing him badly, but luckily without breaking any bones. He was daily taken home and his injuries attended to by Dr. Culin.

The city council held a meeting last night, too late to transcribe full proceedings for this issue, but very important proceedings had, especially that of granting to James L. Davis, of California, a franchise for electric lighting to run 15 years—exclusive franchise 7 years—giving the town first chance in case of sale. The plant is to be in operation within six months, or all rights forfeited.

Miss Beyers is quite sick, and is threatened with pneumonia. Miss Maddocks, who was taken sick about ten days ago, is very low at her room at the hotel. Mrs. Carren, landlady at the hotel, is earnestly sustained by many ladies in town in caring for Miss Maddocks, and a nurse is present at all times.

The baled hay shipped from San Francisco for the American army in the Philippines is compressed by a new process. The hay is put up in a cylindrical form, about the size and shape of an old-fashioned nail keg, 18 inches high and the same diameter. When baled in this shape the hay is as hard as a board. The bales weigh about 145 pounds. The hay is hand-cut in pancake form. The hay pancakes or layers, which make the bale, are about 3/4-inch the most compact bale, of hay put up by the old style required 160 cubic feet of space per ton.

Uncle Tom Green, of Coaledo neighborhood, and so well known on our streets, passed through this place last Friday, we learn, on his way east to grow up with the country. He came to Oregon in '57, and to Coos county in '72, where he has resided continuously to the present time. He will hardly return. The old man has been failing for some months past, and thinks the balance of his days might pass easier and with more comfort to him than the past few years. Of course many will miss that form and voice and greeting, but at last they will fade away and Uncle Tom will have passed to his fathers.

Last Thursday evening J. W. Leneve resigned his deputy county clerkship, and County Clerk Hazard appointed R. H. Mast in his stead. Mr. Leneve, to retain the position, would have been obliged to make individual business sacrifices greater than he could afford, notwithstanding he was capable and popular in the office and liked the position well enough. We believe Mr. Mast will fill the bill. He is well known in this county, popular and qualified, and while the people will regret to lose the one, the new incumbent will undoubtedly serve faithfully and satisfactorily.

Charley Collier made a flying trip to the Eckley mining section lately.

Miss Harrison, of Myrtle Point, returned home yesterday after a visit of several days with her sisters, Mrs. Charley and Mrs. George Collier.

Would it not be a good idea to go ahead and perfect the organization and equipment of that fire company by the setting in of the dry season? We were given a hint of its necessity yesterday.

"I think I would go crazy with pain were it not for Chamberlain's Pain Balm," writes Mr. W. H. Stapleton, Herminie, Pa. "I have been afflicted with rheumatism for several years and have tried remedies without number, but Pain Balm is the best medicine I have got hold of." One application relieves the pain. For sale by R. S. Knowlton.

The HERALD publishes the calls for conventions and committee meetings—national, state and county—of all the parties, and in all our experience we never knew it to be otherwise by county papers of all the parties till we met up with it in Coos county. The Populist county committee held a meeting lately and neither its assembling nor action were noticed by any paper in Coos county except the HERALD, and yet all of them are seeking the patronage of Populists, and receiving it to a fair degree.
